Century College is an equal opportunity, affirmative action employer and educator, and a member of the Minnesota State Colleges and Universities system.

This document can be made available in alternative formats to individuals with disabilities by calling 651.779.3354, 1.800.228.1978 or through the Minnesota Relay Service at 1.800.627.3529.

**NOTICE:**

This catalog is for general information concerning Century College. It should not be considered a contract between the College and others. All charges for fees are subject to change as determined by the Minnesota State Colleges and Universities system. College procedures and course and program offerings may be altered upon recommendations of the faculty and the College Advisory Committee, and approved by the state board. All provisions within this bulletin are subject to change. Changes will be communicated on the website ([century.edu](http://century.edu)). Students are responsible for understanding those changes that are announced publicly.

# 1 General Information

## Mission Statement

Century College inspires, prepares, and empowers students to succeed in a changing world.

This means:

- We inspire students to learn and to develop as whole people: intellectually, physically, and emotionally
- We inspire students to continue learning throughout life
- We prepare and empower students to be successful by helping them develop the knowledge, skills and abilities needed to enter or progress within the work force or to transfer to a four-year institution, and to adapt and thrive in our increasingly diverse and ever-changing world.

## Values Statement

The Century College community values:

- inspiring learning
- broadening perspectives
- pursuing excellence
- responding to community needs
- achieving goals
- transforming lives
- celebrating achievement

## Vision Statement

To be a national leader in transforming lives through an innovative, rigorous, and compassionate approach to education.

This means:

- We continually strive to strengthen and improve the positive impact we have on our students and community: transforming their lives, as well as our own, through our work
- We will become known nationally as an institution that “makes a difference”
- We continually strive to innovate – finding new and more effective ways to educate and serve students
- We sustain rigor in our work – holding high standards and expectations for both our students and for ourselves
- We approach our work with compassion – acknowledging the whole person, working with integrity and caring, accepting people where they are and moving them forward without sacrificing standards or expectations; bringing joy, honesty, and understanding to our work.

## About Century College

- Century College is located in White Bear Lake, Minnesota, on a 170-acre campus that includes a wildlife refuge and walking trail.
- As a comprehensive community and technical college, Century offers 40 occupational-technical programs and over 60 areas of study.
- With the sole exception of the University of Minnesota, Twin Cities, more graduates of the St. Paul public schools attend Century than any other college or university.
- Century opened its new \$20-million Science/Library Building in fall 2008. The beautiful new building offers state-of-the-art science labs and a library with increased e-services and a light-filled, welcoming environment.
- Each year, Century has over 2,000 students engaged in “service learning” experiences at various community institutions such as the Bruce Vento Elementary School in St. Paul. Century’s service learning program was one of five finalists for the Jimmy and Rosalyn Carter Partnership Award, which

honors the best community-higher education partnership.

- Century has implemented a new initiative called the GPS LifePlan to assist students in making decisions on career, personal and educational choices.
- Century’s Phi Theta Kappa national honor society has been honored as the “most distinguished chapter” of the 60 chapters in Minnesota, North Dakota, South Dakota and Wisconsin.

## Accreditation

Century College is accredited by the Higher Learning Commission, a commission of the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2504; phone 800-621-7440. This facilitates the transfer of credit to Minnesota universities and colleges as well as to institutions throughout the United States. Additionally, the Century College Nursing Program is accredited by the National League for Nursing Accrediting Commission; the Dental Assistant and Dental Hygiene Programs are accredited by the American Dental Association Commission on Dental Accreditation (ADA-CODA); the Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs; the Radiologic Technology Program is accredited by the Joint Review Committee on Education in Radiologic Technology; the Orthotic and Prosthetic Technician Programs are accredited by the National Commission on Orthotic and Prosthetic Education; the Orthotic and Prosthetic Practitioner Programs are accredited by The Commission on Accreditation of Allied Health Education Programs; the Medical Assistant Program is accredited by the Commission on Accreditation of Allied Health Education Programs ([www.caahep.org](http://www.caahep.org)) upon recommendation of the Medical Assistant Education Review Board (MAERB); and the Automotive Service Technology Program has been evaluated by the National Automotive Technicians Education Foundation (NATEF) and is certified by the National Institute for Automotive Service Excellence (ASE). The Kitchen and Bath Design Program is endorsed by the National Kitchen and Bath Association.

## 2 Admissions & Registration

### 7 Steps to a Successful Start at Century College

Becoming a student at Century College is EASY. Just complete the checklist of seven easy steps!

#### 1. Apply for Admission . . . . 651.773.1700

Complete a Century College application for admission online at [www.century.edu/futurestudents/](http://www.century.edu/futurestudents/) or submit a paper application to the Admissions Office. After your application and \$20 application fee have been processed, you will receive your Student/Tech ID number in the mail. Please review the website for application deadline.

#### 2. Submit Transcripts (Transfer Students) . . . . . 651.779.3908

To determine transfer of credits, course equivalencies, assessment testing requirements and/or course prerequisites, transfer students must have official transcripts from each college/institution attended sent directly to the DARS/Transfer Office. An official transcript must be sent directly from an institution to Century in a sealed envelope, or if hand-carried, transcripts must be delivered unopened with the official seal intact.

For more information go to [www.century.edu/currentstudents/transferservices/transferinout.aspx](http://www.century.edu/currentstudents/transferservices/transferinout.aspx) (eTranscripts see page 6).

#### 3. Apply for Financial Aid (if needed) . . . . . 651.779.3305

Complete the Free Application for Federal Student Aid (FAFSA) online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) if financial aid is needed. For more information go to [www.century.edu](http://www.century.edu)

#### 4. Take Assessment Test . . . . . 651.779.3352

Students must complete the Accuplacer/ Accuplacer ESL tests prior to registering for courses at Century College. The results of your Accuplacer Test will provide you with an accurate course placement based on your current skills. For more information go to [www.century.edu/futurestudents/assessment/](http://www.century.edu/futurestudents/assessment/)

#### 5. Complete Orientation . . . . 651.779.3404

All new students to Century College are required to attend an Advising and Registration Session as well as a Welcome Day.

All students will make an online reservation for the session they plan to attend.

#### 6. Register for Classes . . . . 651.779.3299

Returning students go to [www.century.edu/currentstudents/records/registration.aspx](http://www.century.edu/currentstudents/records/registration.aspx) to register for classes. New students will register at Orientation.

#### 7. Pay Tuition and Buy Books . . . . . 651.779.3278

You may pay your tuition and fees with cash, check, credit card or the NBS e-Cashier (Nelnet) payment plan. Further details can be found online at [www.century.edu/tuition/paymentinformation.aspx](http://www.century.edu/tuition/paymentinformation.aspx) Login using your student ID and password to e-services. Click on Bills and Payment which allows you to access your account and make online payments.

Tuition invoices are not mailed. Please check the website for your balance. Books may be purchased in the Bookstore on the west campus, or online at [www.centurycollegebookstore.com](http://www.centurycollegebookstore.com).

### General Admission Policies and Procedures

Century College considers all applicants without regard to race, creed, color, sex, age, national origin or disability. This institution abides by the provisions of Title IX, federal legislation forbidding discrimination on the basis of sex, and by all other federal and state laws regarding equal opportunity. Students who have graduated from high school or the equivalent (GED certificate holders), individuals whose high school class has graduated and have passed the Ability to Benefit, as well as current high school students who meet the Post-Secondary Enrollment Options program criteria or supplemental enrollment criteria are eligible for admission to Century College. Students will be charged a \$20.00 nonrefundable application fee.

Programs fill on a first-come, first-served basis unless otherwise noted. Admission to the college does not guarantee admission to a specific major or program.

All applicants must submit an application for admission either online or to the Admissions Office. Immunization documentation is required if applicants were born after 1956, but not required if applicants graduated from a Minnesota high school in 1997 or after.

## 2 Admissions & Registration

The Automotive Service Technology, Nursing, Radiologic Technology, Paramedic, Dental Assisting, Dental Hygiene, Medical Assisting, Orthotic/Prosthetic Practitioner, Post-Secondary Enrollment Options and Supplemental Enrollment programs each have their own applications and admissions requirements. These programs have limited enrollment and admission is not guaranteed. These programs may require students to take the Century College assessment tests, regardless of previous college credits earned.

International students must see the International Student section for application details.

### TRANSFER STUDENT APPLICANTS

Students seeking a degree, diploma, or certificate and who have previously attended a college(s) must have official transcripts sent directly from the institution to the DARS/Transfer Office at Century College, or if hand-carried by students, transcripts must be delivered unopened with the official seal intact. Student copies and faxed transcripts are not considered official.

If you are transferring credits to Century College and plan to complete a degree or program at Century College, your official transcript(s) will be evaluated as long as you are enrolled in courses at Century College for the current semester or summer and based on the date the transcript was received. Every effort will be made to evaluate transcripts in time for the next scheduled registration session and/or in time for your graduation. Detailed information is available on Century's website about transferring credits <<http://www.century.edu/currentstudents/transferservices/transferofcredit.aspx>>. You will be notified via your Century College student email address when your transfer credits have been processed and are reflected in your degree audit report (DARS <<http://www.century.edu/currentstudents/transferservices/dars.aspx>> ).

**eTranscripts:** If you have attended or are currently attending one or more MnSCU institution(s) <<http://www.mnscu.edu/campuses/alpha.html>>, not including the University of Minnesota, and have applied to

Century College, your official transcripts from that MnSCU institution may be electronically retrieved by Century College. There is no cost for this service. Transcripts will not be able to be electronically retrieved if you have holds on your records from the MnSCU institution you previously attended including, but not limited to, unpaid balances. It is your responsibility to ensure that your records are free of holds in order for institutions to send or electronically retrieve your academic transcript. You must notify the Century College DARS and Transfer Student Services Office <<mailto:dars@century.edu>> when your records have been cleared for retrieval. Please contact the DARS and Transfer Student Services Office by email <<mailto:dars@century.edu>> or call (651) 779-3908 to verify if your transcript(s) is available. You must also notify the DARS <<http://www.century.edu/currentstudents/transferservices/dars.aspx>> and Transfer Students Services Office. <<http://www.century.edu/currentstudents/transferservices/default.aspx>>

### TRANSFER STANDARDS

1. Transfer credit from institutions accredited by regional associations (North Central, Middle States, etc.) will normally be accepted by Century College subject to limitations in this catalog.
  2. Treatment of grades: Grades earned prior to transfer are evaluated according to the following standards:
    - a) All college courses in which students have received a grade of A, B, C, or D shall be considered for transfer evaluation. Grades of P shall be accepted as earned credit. No F grade course credits will be accepted in transfer. Programs with their own application standards may accept transfer grades differently. Transfer GPA is not used in computing Century cumulative GPA. Returning students who have not received a course-by-course evaluation should see a Century College counselor.
    - b) Based on the 2001 Omnibus effective January 1, 2002, once a course has met the criteria necessary for inclusion in the Minnesota Transfer Curriculum (MnTC) in any goal area(s), the course will be accepted for full credit in that
- goal area(s) at Century College. Completed MnTC goal area(s) and the 40 credits MnTC package transfer as well. See chapter 5 for more details pertaining to the MnTC.
- c) Century College will consider for transfer applicable coursework transcribed by an accredited college as "Credit by Examination."
  - d) Credit achieved through experiential learning processes shall be evaluated, following students' petitions, according to published national standard guidelines established by the American Council on Education (ACE), the Council for Adult and Experiential Learning (CAEL), or other similar national organizations, as approved by MnSCU.
  - e) Competency Based Education (CBE) credits will transfer as general electives unless approved for other distribution requirements.
  - f) Regionally accredited technical colleges: Sixteen credits will be accepted and additional credits may be accepted for those courses which are judged to be comparable or equivalent to courses offered at Century College. Comparable and equivalent courses that are not MnTC goal area fulfilling must be reviewed by academic petition.
3. Comparability: Courses approved for transfer MUST be comparable in nature, content, and level and match at least 75% of the content and goals of the course syllabus for which students are seeking equivalent credit.
  4. Time limit: General education and elective credits shall have no transfer time limit.
  5. Timeliness: The timeliness of credits applied to career programs will be considered when evaluating transfer credits. Technical career courses must have been taken within the past five years to qualify for transfer and to fulfill technical program requirements.
  6. Equivalency: The number of transfer credits granted per course shall not exceed the number granted by the originating institution.
  7. Conversion: The conversion of quarter hours to semester hours is 0.667 for each quarter hour.
  8. Repeated courses: When students transfer courses and later successfully repeat a course at Century College, only credit from

## 2 Admissions & Registration

- Century College will be granted.
9. Applicability: Coursework accepted in transfer may not always be applicable toward a specific program.
  10. Appeals: Students have the right to appeal transfer evaluations. Call 651.779.3908 for a Transfer Course Evaluation Appeal Form.

### **NON-DEGREE SEEKING APPLICANTS (not planning to earn a Century College degree, diploma or certificate)**

Indicate "Enrichment" as your major on the application. Please note that Enrichment is not a financial aid eligible major.

Students who have completed other college work and want to use the credits to improve their registration priority must have official transcripts sent directly from the college(s) to the Transfer Student Services Office before the deadlines. For deadlines, see section: Transfer Student Applicants.

### **APPLICANTS CURRENTLY ENROLLED IN HIGH SCHOOL: POST SECONDARY ENROLLMENT OPTIONS (PSEO)**

The Post-Secondary Enrollment Options (high school options program) enables 11th and 12th grade students who meet PSEO-specific admissions requirements to enroll in courses for secondary school credit. PSEO is NOT an open enrollment program. Students must meet specific minimum requirements to qualify for PSEO. The specific purposes of this program are to promote rigorous educational pursuits and provide a wider variety of options for students.

This program is not available during the summer session. However, students may enroll under supplemental enrollment guidelines (see below) during the summer. For an enrollment packet outlining PSEO application procedures, deadlines and requirements, students should contact their high school guidance counselor and the Century College Admissions Office at 651.773.1700.

### **SUPPLEMENTAL ENROLLMENT**

Students may qualify for supplemental enrollment but must meet the same entrance

requirements as Post Secondary Enrollment Options (PSEO) students. This program is used primarily by PSEO students enrolling during the summer. Students are responsible for all costs. For an enrollment packet outlining application procedures and deadlines, please contact the Admissions Office at 651.773.1700.

### **INTERNATIONAL STUDENT APPLICANTS**

Prospective international students seeking an I-20 Form for full time F-1 visa status will be considered for admission after submitting the following:

1. The International Student Application for Admission. Forms are available from the Admissions Office or online at <http://century.edu/futurestudents/admissions/internationalstudentadmissions.aspx>.
2. Official transcripts from each secondary school/high school, college, university, and English as a Second Language program attended. Transcripts must be sent directly from the institution to Century College. If students intend to transfer international education credits to Century, they must request an evaluation through World Education Services at [www.wes.org](http://www.wes.org) or Educational Credential Evaluators, at [www.ece.org](http://www.ece.org), to request transcript evaluations. (NOTE: Students who have entered the United States to attend a college or university other than Century College must successfully complete one quarter/semester of academic work prior to transferring to Century College.)
3. Proof of English proficiency in the form of an official TOEFL score, MELAB score, or IELTS score. Scores must be sent directly to Century College from the testing organization.
  - a. Acceptable minimum scores for TOEFL are: 500 (paper test), 173 (computer) and 61 (IBT).
  - b. Acceptable minimum score for MELAB is 70.
  - c. Acceptable minimum score for IELTS is 5.5.
  - d. English proficiency for prospective international students may also be determined by sufficient placement on the Accuplacer ESL test. The minimum placement for admission is ESOL 30s in all components of the test including:

- grammar, reading and listening.
  - e. Students transferring from a US college who have completed college-level English composition and Reading courses with grades of C or better may be waived from submitting official test scores as listed above.
4. A Financial Guarantee along with supporting bank documents or proof of support. Students must demonstrate they have sufficient financial resources available to pay for tuition, fees, books, room and board, transportation, and all incidental expenses before they can be admitted to Century College.

Once admitted to Century College, international students are required to purchase the Minnesota State Colleges and Universities (MnSCU) International Student Health Insurance in addition to providing proof of immunization for diphtheria, tetanus, measles, mumps, and rubella. International students will be required to take a Tuberculin Skin Test to determine exposure to tuberculosis during their first semester.

In addition to complying with all Century College policies related to academic performance and student conduct, international students are required by law to remain in compliance with all regulations put forth by the United States Citizenship & Immigration Services that pertain to their student status.

### **MnCAP (MN Cooperative Admissions Program) – University of Minnesota**

Century College and the University of Minnesota have signed an agreement that will simplify transfers and improve educational options for college students.

Individual agreements have been established with the Colleges of Biological Sciences, Design, Education and Human Development, Food, Agriculture and Natural Resource Sciences, Liberal Arts and Institute of Technology on the Twin Cities Campus of the University of Minnesota.

Joint admission allows students who meet admission requirements to enter a community college and have the same opportunity to

## 2 Admissions & Registration

enter upper division university programs as students who enter the University of Minnesota as freshmen. Students must complete designated courses and maintain requisite grade point averages.

Students who begin their studies at Century College have four years in which to transfer to the University of Minnesota. For more information, contact any Century College counselor.

### Determination of Minnesota Residency

Minnesota residency is determined by the information provided on the application at the time the application is submitted. The residency policy in effect at the time the student applies will be used to determine residency. Students who have been classified as non-residents may petition for in-state tuition by demonstrating domicile in Minnesota before the beginning of the semester. It is the students' responsibility to prove domicile for the purpose of in-state tuition. The Registrar will make a determination on the petitioner's request within 10 days of receiving the petition and supporting documentation. Petitions for Residency may be picked up at Records and Registration. Refer to the MnSCU Board Policy for additional information or clarification of residency.

#### Definition of Domicile

Domicile is a person's true, fixed, and permanent living space. It is the place to which a person intends to return after temporary absences. A person may have only one domicile at a time.

#### Part I Minnesota Residency Qualifications

Students shall be eligible to pay in state tuition if they meet one of the following criteria:

1. Reside in Minnesota for at least one calendar year prior to applying for admission, or dependent students whose parent or legal guardian resides in Minnesota at the time students apply. Students must have an

eligible immigration status for residency.

2. Demonstrate temporary absence from the state without establishing residency elsewhere.
3. Residents of other states or provinces who are attending a Minnesota institution under a tuition reciprocity agreement. *Please note that it is the students' responsibility to file the necessary paperwork with the home state in order to qualify for reciprocity. Each state will post its own deadline.*
4. Persons who: (i) were employed full time and were relocated to the state by the person's current employer, or (ii) moved to the state for employment purposes and, before moving and before applying for admission to a public post secondary institution, accepted a job in the state, or students who are spouses or dependents of such persons. *A letter from the employer substantiating employment must be submitted at the time of application.* J-1 students accepting employment as an au pair prior to moving to Minnesota and before applying for admission are eligible for in state tuition. Form DS-2019 must be submitted with international application for review.
5. Students who have been in Minnesota as migrant farm workers, as defined in Code of Federal Regulations, Title 20, section 633.104, over a period of at least two years immediately before admission or readmission to a Minnesota public postsecondary institution, or students who are dependents of such migrant farm workers.
6. Nonimmigrant Japanese students who have completed a program of study of at least one academic year at Akita campus and have been recommended by the provost for transfer to a Minnesota state college or university and who retain their legal visa status.
7. Students who are recognized as refugees or asylees by the Office of Refugee Resettlement of the U.S. Department of Health and Human Services. (source: Minnesota Statute 135A.031, subd. 2)
8. U.S. Military personnel serving on active duty assigned in Minnesota and their spouses and dependent children. *Documentation must be provided at the time of application.*
9. Nonimmigrant students on K visas married

to military personnel will be granted in-state tuition. *Documentation must be provided at the same time of application.*

#### Part II Students Eligible to Petition for Residency

Any student who has been classified as non-resident may petition eligibility for in-state tuition by demonstrating domicile in Minnesota before the beginning of any semester. Please note that residence in Minnesota must not be merely for the purpose of attending a college or university. The following nonimmigrant students may be eligible to petition for residency:

1. Nonimmigrant students on H,K,L,P, TN, or TD visas that have resided in Minnesota for 12 months prior to registering for classes may petition for resident tuition status. Students must submit the Petition for Residency with appropriate documentation before the first day of the semester.
2. Enrolled nonimmigrant international students on F1 visas may receive resident tuition status through the International Student Incentive Program. To be eligible students must have (i) completed a minimum of 45 college-level credits at Century College, (ii) maintained a 2.00 GPA, (iii) met all their financial obligations to the college, and (iv) maintained F1 status. Students must submit the International Student Incentive Program Application with appropriate documentation before the first day of the semester. Applications may be picked up in the Multicultural Student Center.
3. Permanent Residents/Resident Aliens and Asylees are not eligible to petition for in-state tuition until they have been awarded permanent residence or asylee status, provided they live in Minnesota for at least 12 months prior to the first day of the semester.
4. Students on Temporary Protected Status (TPS) are eligible to petition for residency, if they can prove the TPS status is still valid. Students on TPS will be required to petition annually for resident tuition.

#### Part III Petitioning for Residency

Petitions for Residency are available in the Records and Registration Office. Petitions and supporting documentation must be filed no later than the first day of semester for which students are seeking resident tuition rates.

## 2 Admissions & Registration

Each of the following facts and circumstances will be considered when responding to a petition for in-state tuition. No one of these factors is either necessary or sufficient to support a claim for in-state tuition. For each factor, the student petitioner must submit appropriate documentation to support the claim. Examples of acceptable documentation are listed on the Petition for Residency itself.

1. Continuous presence in Minnesota during a period when not enrolled as a student.
2. Sources for financial support are generated within Minnesota.
3. Domicile in Minnesota of family, guardian, or other relatives or persons legally responsible for students.
4. Ownership of a home in Minnesota.
5. Permanent residence in Minnesota.

Examples of acceptable documentation:

- a. Voting registration.
- b. The lease of living quarters.
- c. A statement of intention to acquire a domicile in Minnesota.
- d. Automobile registration.
- e. Domicile of a student's spouse in Minnesota.
- f. Other public records, e.g., birth and marriage records.

### Assessment Services

---

#### ASSESSMENT TESTING

Students must complete the Accuplacer tests in Reading, Writing, and Mathematics prior to registering for courses at Century College (see Assessments for Transfer Students for possible exceptions). The Minnesota State Colleges and Universities System requires assessment testing to determine proper course placement and to support students' academic success. Students must complete the appropriate assessment(s) prior to enrolling in any course for which a given assessment level is required. Students must begin any course work in reading, writing, and mathematics at their assessed skill levels. Students may not register for courses above their assessed skill level. Lack of English skills will not be a barrier to admission or participation. In order to eliminate barriers we take appropriate

measures to assess each student's ability to participate and benefit through placement testing and counseling. Based on assessment and counseling, students are then provided with campus services or a referral to community services to be better prepared for successful participation at Century College.

Students who are nonnative speakers of English and who have had fewer than eight (8) years of education in the United States must complete the Accuplacer ESL and may also be asked to take the Accuplacer test in reading, writing, or mathematics. Students who qualify to take the Accuplacer ESL must have a referral form signed by the ESOL Advocate before he/she can take the Accuplacer.

Students must have a valid picture ID and a Century College ID number in order to take the assessment test. If students do not have a Century College ID number, they will have to complete a prospective application for Century College in the assessment area or complete a Century College application prior to taking the assessment test. Children are not allowed in the testing center, and must not be left attended anywhere on campus.

Accuplacer, Accuplacer ESL, Companion to Accuplacer, or ACT test scores are approved for placement purposes by the Minnesota State Colleges and Universities Assessment/Placement Director and Committee and Century College. Assessment scores in reading, writing and ESOL are valid for six (6) semesters, and assessment scores in mathematics are valid for four (4) semesters, following the test date (excluding summer session). After this period of time, if a student has not begun taking the required reading, writing, or mathematics, or ESOL courses, the appropriate Accuplacer test(s) must be retaken.

Assessment scores from other institutions that use the above listed assessment test system will be valid for either six (6) semesters (for reading, writing and ESOL) or four (4) semesters (for mathematics) following the test date (excluding summer session). An official copy of a student's assessment scores must be mailed, or faxed 651.779.5831 to the Century College Assessment Center from the

institution where they took the assessment test. A copy of a student's ACT scores must be hand carried, mailed, or faxed 651.779.5831 to the Century College Assessment Center.

Prospective students enrolling in one course for their own enrichment are not required to take the placement tests, providing the course they are interested in does not have any prerequisites pertaining to placement testing. However, should these students find that they wish to expand their educational pursuits; it is highly recommended that they take the placement assessment. Failure to do so may result in delays in registering for desired classes that have placement testing requirements.

#### Preparation for Assessments

These assessments are important because they determine which courses a student must take at Century College. The Accuplacer assessments consist of reading, writing, and mathematics tests. The questions include evaluating grammar in a series of sentences; answering several questions following the reading of a particular passage; and completing arithmetic, elementary algebra, and college level mathematics. Generally, special preparation for the assessments is not required.

However, students may benefit from becoming familiar with the testing format and may wish to review sample test questions at web sites listed on the Century College assessment web page: [www.century.edu/futurestudents/assessment/default.aspx](http://www.century.edu/futurestudents/assessment/default.aspx)

**Note:** The college does not endorse these sites or require students to make special preparation for the assessment testing process.

#### Assessment Scores

Students will receive a printed report of their assessment scores immediately upon completion of testing. The report indicates the assessment scores along with the appropriate course placements in reading, writing and mathematics. Assessment scores will be maintained in the students' files at Century. Students must bring their assessment score report to New Student Orientation to present proof of testing and to register according to their assessment placement.

## 2 Admissions & Registration

### Retesting

Students may retest only once within twelve (12) months of their first testing date regardless of where the test was administered to the student. Upon retesting the student may register based on either placement or consult a counselor for advice. If a student scores lower on the retest, the student may choose which placement to use when registering.

### Accommodations for Students with a Disability

Students who need accommodations for assessment testing due to a disability should contact the Access Center at 651.779.3354 or 651.779.3477. PLEASE NOTE: To receive accommodations, you must provide the Access Center with appropriate documentation about your disability.

### ASSESSMENTS FOR TRANSFER STUDENTS

Students transferring college-level courses and holding an associate in arts or baccalaureate degree from a United States college/university that holds regional accreditation may not need to complete some parts of the assessment. Students applying to some special program areas (e.g., Nursing or Radiologic Technology) may still be required to take some assessments even when transferring college-level courses. Students should refer to published program information and see a counselor or a faculty member to determine if assessments are required for special programs. Century College must receive an official transcript(s) from institutions previously attended to determine any assessment exceptions. Official transcripts should be sent to the DARS and Transfer Student Services Office. The director of Assessment Services, Transfer Services staff, Admissions advisors, counselors, registrar and dean of students shall have authorization to review college transcripts for possible assessment waivers. Pending the receipt of an official transcript(s) and/or the completion of a full evaluation of the transcript(s), students shall be granted temporary clearance for the first semester only through completion of the "Authorization for Temporary Clearance for 1st Registration" form. Unless or until an official

transcript is received, the student may not be eligible to register for other mathematics, English, or reading courses. Transfer students may be exempt from parts of the assessment tests for the following reasons when transferring from a United States college/university that holds regional accreditation:

1. Students who are transferring credits in college composition equivalent to English 1021 with a grade of "C" or better do not need to take the writing assessment.
2. Students who are transferring credits in college-level mathematics (Math 1025 or higher) with a grade of "C" or better do not need to take the mathematics assessment. If a student is planning to take any more mathematics classes, however, the mathematics assessment is highly recommended. (Research shows students who have not taken a mathematics course recently may not perform well academically in higher-level mathematics courses. Students may consult with a counselor or mathematics instructor for appropriate advising.)
3. Students who are transferring credits in college reading equivalent to Reading 1000 with a grade of "C" or better do not need to take the reading assessment.
4. Students who are transferring credits and have completed a minimum of three (3) reading intensive courses with grades of "B" or better do not need to take the reading assessment. Reading intensive courses may include English literature, philosophy, history, humanities, sciences and the social and behavioral sciences.
5. Students who are transferring credits and have completed an associate in arts or bachelor's degree do not need to take the reading, writing, and mathematics assessments. Students are still responsible for meeting any specific course prerequisites, however. Mathematics and science courses may require students to complete the mathematics assessment and meet prerequisites.
6. Students who have international education credentials must take the Accuplacer ESL and/or reading, writing, and mathematics assessments. If students intend to transfer international education credits to Century, they must request an evaluation of their

transcripts through World Education Services (WES) or Educational Credential Evaluators (ECE) for credits earned outside the United States. Refer to the WES website at [www.wes.org](http://www.wes.org) or the ECE website at [www.ece.org](http://www.ece.org).

7. Students who have valid assessment scores from other Minnesota State Colleges and Universities institutions and/or institutions that use the Accuplacer, Accuplacer ESL or the Companion to Accuplacer will be considered and will be valid for six (6) semesters for reading, writing and ESOL and for four (4) semesters for mathematics following the test date (excluding summer session). An official copy of a student's assessment scores must be hand carried, mailed, or faxed 651.779.5831 to the Century College Assessment Center from the institution where they took the Assessment test.
8. An ACT subscore of 24 or above in the reading, writing, or mathematics components of the ACT exempts a student from taking the associated course readiness assessment in that academic subject. It also authorizes a student's placement in introductory college-level courses in that academic subject. ACT reading and writing subscores are valid for six (6) semesters and the mathematics subscore is valid for four (4) semesters following the test date (excluding summer session). A copy of a student's ACT scores must be hand carried, mailed, or faxed 651.779.5831 to the Century College Assessment Center.

### Initial Placement Appeal Process:

The appeal process is determined by the Reading, English, Mathematics, and ESOL departments respectively. After retesting, if the student wishes to appeal a specific placement, he or she must fill out the Placement Appeal form. The Placement Appeal form and printouts of the scores from the original testing and retest should be taken to the department faculty representative to make an appointment for the next step in the appeal process. A student's placement into a course can only be appealed once per discipline.

- For reading, the student must bring the appeal form to the Reading/Study Skills

## 2 Admissions & Registration

Department and make a two-hour appointment for an interview and an evaluation of reading and textbook processing skills. The results of the evaluation and the interview will be used by the Reading/Student Success Department for placement.

- For English, the student must bring the appeal form to the English Department and make a two-hour appointment to provide a monitored writing sample on an assigned topic. This essay will be used by the English Department for placement.
- For mathematics, the student must bring the appeal form to the Mathematics Department and make a two-hour appointment to complete an exam in the appropriate course. The results of this test will be used by the Mathematics Department for placement.
- For ESOL, students must see the ESOL Advocate.

Judgments concerning the appeal shall rest solely with the Reading, English, Mathematics, or ESOL Department faculty, respectively. Each department shall keep a record of appeals and their results for year-end reporting purposes.

The appeal process itself may take place by appointment before or during the semester. However, if an appeal results in a course change, the student may add or change courses only within the drop-add period during the first week of each semester. In the event that an appeal is granted after the drop-add period, the student must wait until the next semester to register for the course in question.

### Orientation

Orientation provides new students with an opportunity to get acquainted with Century College. Representatives will give information about the college, its policies, financial assistance, various services, organizations, and activities. Students will receive information and advising to help them plan their class schedules. Orientation is required for all new students and lasts approximately three hours.

### Registration

Students should register carefully. Students are liable for tuition/fees for any registered courses. Students must cancel/drop their registration at the Records Office, online or in person if they do not plan to attend.

For registration information regarding auditing, repeating courses and credit loads, please see Chapter 4, Academic Policies and Information. For specific course descriptions, course prerequisites and course restrictions, see Chapter 7, Course Descriptions.

#### Online and On-Campus Registration

Century College offers interactive online registration for returning students only. If you are a new student, you will register at orientation. Students can register for classes, check for holds on their records, look up open class sections, look up and print their class schedules, look up their grades, add and drop classes, and withdraw online. Please check Century's website for instructions and details at century.edu.

Returning students register in order of the number of credits earned. The returning students' priority registration schedule is published prior to each semester online at century.edu. Counselors or program advisors are available by appointment and walk-in to help students plan a program prior to registration and on a walk-in basis during registration. Call the Counseling Center or contact the program advisor for more information.

Registration will not be permitted for returning students with financial, library, or academic holds on their records. It is the students' responsibility to satisfy any obligation to the college before registering and/or requesting a transcript.

New students register by attending an Orientation session (see also Orientation). Attending orientation allows students to register prior to open registration when class selection is more limited. Counselors and/or program advisors work with students to help them plan their schedules. Each semester a special session of orientation is set aside for

students transferring into Century. Completion of the college assessment is required prior to attending orientation.

Students who attended one of these sessions within the past year, but did not register, may register anytime during orientation and do not have to attend again.

Registration is also permitted during late registration, the week prior to the first day of the semester. For specific policies, see next section: Change of Registration, Adding Courses.

### Change of Registration

#### Adding Courses

Courses may be added during the first five days of the semester (three days for summer term). Students should register carefully. Students are liable for tuition/fees for any registered courses. Students must cancel/drop their registration at the Records Office or online if they do not plan to attend. Adding courses must be done before the beginning of the sixth day of the semester. Late adds will be processed only with the approval of the instructor and the appropriate academic Dean.\*

Students must be on the grade sheet at the end of the term in order to receive a grade, regardless of attendance.

Instructors' signatures are not required to add day courses before the semester begins or during the first three days of the semester, unless consent of instructor is normally required. Instructors' signatures are required beginning the fourth day of the semester for day courses. Instructors' signatures are required to add evening, Saturday, and alternative start courses after the first class meeting.

#### Dropping Courses

Courses may be dropped through the first five days of the semester without the instructor's permission and dropped courses will not be recorded on students' transcripts.\*

*\*Note: Summer term follows different deadlines.*

## 2 Admissions & Registration

### Withdrawals from Courses (Student-Initiated)

Students are expected to withdraw from a course as soon as possible after their last active participation. Students who withdraw from courses after the first five days of the semester will have the grade of W recorded on their transcripts. Students may withdraw (without instructor's approval) until three weeks prior to the end of the semester unless otherwise specified. No withdrawals will be permitted during the last three weeks of any semester. (Exception: A withdrawal can be processed after the deadline during the current term if there are special circumstances that prevent further participation. Students must complete a Refund or Late Withdrawal Petition form available at the Business Office and provide a doctor's statement for injury or illness.)

Students who do not process a withdrawal (W) shall receive the grade assigned by the instructor. Students having withdrawn from a course after four weeks may visit thereafter until final exam week with instructor's approval. **Withdrawals do not influence GPA, but do negatively impact academic progress** (see Chapter 4, Standards of Academic Progress).

*Note to financial aid recipients:*  
*Withdrawing from one or more of your classes may result in your need to repay funds distributed to you.*

### Withdrawals from Courses (Instructor-Initiated)

In cases where an instructor has evidence that students are not actively participating in the course, and where no student-initiated contact has been made, the instructor may assign a W up to three weeks before the first day of the final examination period. The student has the opportunity to be reinstated with the instructor's written permission. **Withdrawals do not influence GPA, but do negatively impact academic progress.** See Chapter 4, Standards of Academic Progress Policy. An instructor-initiated withdrawal does not generate tuition reimbursement.

**Important:** Three ways to add, drop and withdraw with your student ID and PIN:

1. Via Century's website at century.edu (click on Register for Classes)
2. In-person at the Records Office, west campus
3. Written request with your signature by U.S. mail

*(Please note: Telephone messages or email requests for Records Office staff are not considered valid processing methods.)*

## Costs

The Board of Trustees for Minnesota State Colleges and Universities (MnSCU) establishes the tuition for the state colleges. **Current tuition and fee rates will be posted on the Century College website at century.edu.**

### Tuition Payment

All registered students are financially committed for tuition and fees. Students' registration involves a seat reservation in each of their classes, all of which have a limited number of seats available. In requesting this reservation, students have incurred a tuition obligation. **Students are required to pay tuition and fees unless they drop classes by the deadline listed on the refund policy.** Please check the Century College website at century.edu, for payment information and dates. Student can view their fee statement online at century.edu. Click on Online Services. Contact the Business Office at 651.779.3278 for payment options. **Important note:** Students who have not paid their tuition and fees by the tuition due date MAY be dropped from all of their classes unless at least one of the following conditions is met:

- You have paid at least 15% or \$300 of the amount owed.
- You have applied for the NBS e-cashier (NELNET) Tuition Management Payment Plan and have submitted the required down payment.
- You have submitted a Third Party Billing Authorization to the Business Office.
- You have applied for financial aid at any MnSCU institution. **NOTE: If you have not sent FAFSA results to Century College, you will not be eligible for financial aid at Century. Even though you will not be dropped, you will still owe the amount of**

tuition and fees for your registered courses and are responsible for the payment. Students who do not plan on attending registered classes must drop online at century.edu or complete a drop form in person at the Records Office up through the 5th day of the semester.

- The Business Office has received a scholarship notice to cover tuition and fees.
- You have enrolled in the Post-Secondary Enrollment Options (PSEO) program and have submitted your PSEO enrollment form to the Business Office. This form must be completed and submitted each semester.

Do NOT rely on the college to drop you from your courses. Students who do not plan on attending registered classes must drop online at century.edu or complete a drop form in person at the Records Office up through the 5th day of the semester.

### Deferred Payment

Persons whose tuition/fees will be paid by a government agency or established organization must notify the Business Office so that payment can be deferred.

### Reciprocity

Residents of Wisconsin, North Dakota, South Dakota, and the Canadian Province of Manitoba can attend Minnesota public colleges at special tuition rates. Formal applications must be made according to application deadlines and filed with the higher education services office in the student's home state. Contact the Records Office, 651.779.3299, for more information.

### Application Fee

A nonrefundable fee is charged at the time of application for all new students applying for admission.

### Fees

The following per-credit fees are charged each semester:

- MSCSA Fee: Students are required to pay a fee to the Minnesota State College Student Association.
- Parking Fee: The parking fee supports parking lot maintenance and repair.

## 2 Admissions & Registration

- **Student Life Fee:** This fee supports student activity programs, health services, fine arts programs, symposiums, lounge furniture, and day care equipment.
- **Technology Fee:** The technology fee is used for purchasing instructional equipment and materials such as computers and software, audio-visual equipment, and library technology. Fees are subject to change annually. Current fee rates will be posted on the Century College website at [century.edu](http://century.edu).

### Transcript Processing Fee

There is a charge for each academic transcript requested for mailing or pickup within three business days (approximately one week for technical college courses). An additional fee is charged for rush/immediate transcript preparation.

### Late Payment Fee

Tuition payments received after the due date will be subject to a per month late fee.

### Returned Payment Fee

A fee is charged if a payment is returned to the College due to insufficient funds, closed account, or any other reason.

### Diploma Replacement Fee

A fee is charged for a replacement graduation display diploma.

### Books and Supplies

Textbooks and supplies are available in the bookstore. Textbooks and supply costs vary greatly from program to program. Contact the program advisors or bookstore for more specific information.

### Senior Citizen Fee

Senior citizens who are 62 years or older, legal residents of Minnesota, and who register for credit the day after the first day of class are charged a nominal fee per credit if space is available or no charge if they audit. If a senior citizen registers prior to the second day of class, they must pay full tuition and fees.

### Canceled Classes

When a class is canceled, students receive either a phone call or a letter notifying them of the cancellation and the Records Office is notified. If students do not register for another

class in its place, tuition and fees will be refunded. Students do not have to petition for a refund.

### Special Course Fees

With the approval of the Minnesota State Colleges and Universities board, Century College may require special fees to cover supply costs, field trip expenses, loss of or breakage to college property, physical education expenses, private music instruction or technology fees. Fees will be established before the semester registration period and

will be indicated in the class listing at [century.edu](http://century.edu).

## Refunds

### REFUND POLICY

Students are liable for tuition/fees for any registered courses unless they drop/withdraw at the Records Office or online. Refunds for reduction of registered credits are allowed as follows:

Semester Registration Changes (Class days include Monday through Saturday)	Drop/Withdrawal from some, but not all classes	Total Drop/Withdrawal from all classes
Prior to 1st day of semester	100%	100%
1st-5th day of the semester	100%	100%
6th-10th day of the semester	0	75%
11th-15th day of the semester	0	50%
16th-20th day of the semester	0	25%
Remainder of the semester	0	0

*NOTE: Refunds are based on the first day of the semester, not the first day of the class (except for late-start classes).*

Summer Session Registration Changes (Class days include Monday through Saturday)	Drop/Withdrawal from some, but not all classes	Total Drop/Withdrawal from all classes
Prior to 1st day of session	100%	100%
1st-3rd day of the session	100%	100%
4th-5th day of the session	0	75%
6th-7th day of the session	0	50%
8th-9th day of the session	0	25%
Remainder of the session	0	0

*NOTE: Refunds are based on the first day of the session, not the first day of the class (except for late-start classes).*

## 2 Admissions & Registration

**Refund Exceptions:** 100% refunds are given after the first five days of the semester, first three days of the summer session, when a class is canceled. Refunds other than the scheduled amount may be given when there is injury or illness, or when there is college error. This is done through the petition process. Complete a Refund or Late Withdrawal Petition form at the Business Office, room 2340 west campus. Documentation will be required. Refund requests must be made by the end of the following semester for the course in question.

**Late Start Courses:** Courses starting after the first 5 days of the semester, first 3 days of the summer session. Refunds are calculated according to the beginning date of the course. 100% refunds are available only through the day after the first scheduled class day.

**Short Courses:** For short courses running less than three weeks, 100% refunds are available only through the day after the first scheduled class day.

### **Refund Policy for Financial Aid Return of Title IV**

If a student completely withdraws from all credits (either officially or unofficially) in a term before the 60% point of that term, the financial aid awarded is subject to the federal "Return of Title IV" policy. Students earn financial aid in proportion to the time they are enrolled up to the 60% point. The unearned share of financial aid must be returned to the programs from which they were paid as prescribed by federal regulations. The student will be required to repay all unearned financial aid. Please contact the Financial Aid Office prior to withdrawing if you have any questions regarding your possible repayment obligation.

### **Refunds For Students in the Armed Forces**

Refunds to students who are members of any branch of the U.S. military reserves and who are unable to complete a semester due to having been called to active duty shall to the extent possible be provided one of the following options:

1. Students may be given a full refund of tuition. Students receiving financial aid who choose this option should be made aware that they may be liable for any required refunds of state or federal financial aid funds.
2. Students may be given a grade of incomplete in a course and complete it upon release from active duty. Course completion may be accomplished by independent study or by retaking the course without payment of tuition. Under federal financial aid policies, a course that is retaken this way may not be counted toward students' enrollment load.
3. If, in the instructor's judgment, students have completed sufficient course work to earn a grade of C or better, students may be given credit for completion of a course.

# 3 Student Services & Resource Information

## Admission Services

---

The office of Admissions and New Student Services, located in room 2350, West Campus, serves prospective students as well as students preparing for their first semester of enrollment at Century. The office provides services pertaining to applications for admission, international students, high school student enrollment, applications for programs requiring supplemental admission materials, and New Student Orientation. For more information, call 651.773.1700.

## Century Direct Portal System/Email

---

Century College utilizes many forms of communication for official College business such as the U.S. Postal Service, telephone, email, and the Internet. Official College business includes all actions of the College, including but not limited to providing general information, course information, disciplinary notice, and performing other administrative functions of the college.

Email is the primary means by which the College communicates important information with students; as such, the College has provided an email account to every student. The Century address is the only email address the College will maintain and use to communicate to students. Vital College communications are sent to students via their Century email addresses on a regular basis. Students are held responsible for the information communicated via email.

By activating your Century Direct account you will gain access to college computers, software, and printers. From the Century Direct Portal you will be able to check your email, manage your personal or shared files on the network, access Library resources, and numerous other services.

The College encourages all students to activate their account upon admission at [www.century.edu/centurydirect/index.aspx](http://www.century.edu/centurydirect/index.aspx)

and to check it often. The account is free. To activate your Century Direct account you will need your Student ID and Pin Number. Go to [century.edu](http://century.edu) and look for the Century Direct Portal link.

## Counseling, Advising and Career Services

---

### Academic Counseling

A counselor will assist you with developing an educational plan that is realistic for you. Counselors have the professional skills to help you sort through a variety of academic issues, concerns, and options. Areas for exploration could include program requirements, class scheduling, assessment testing, transfer planning, and graduation requirements. Resources are available in the Counseling Center, room 2410 West Campus, such as:

- Century program guidesheets that list required courses for certificates, diplomas, and degrees.
- Transfer guidesheets that list Century courses that fulfill specific major requirements for transfer schools.
- Information guides that describe Century policies, resources, and advising tips.
- Degree Audit Reporting System (DARS) that indicates courses completed at Century College along with transfer courses and which courses fulfill specific degree or program requirements.
- uSelect: a nationwide web-based course transfer system that offers information about course descriptions and equivalencies and academic program planning and requirements available at [www.uselectmn.org](http://www.uselectmn.org).

All the above resources can be found on the Education Plan at [gpslifeplan.org/century/](http://gpslifeplan.org/century/).

### Preparation for Transfer

It is important for students to know whether the courses for which they register reflect the latest degree requirements and will transfer to a specific school as a required course, an elective, or not at all. To obtain this information, use uSelect, contact the transfer college, use appropriate Century College transfer guide sheets, refer to transfer college catalogs online or available in the Century

## Campus News

### Cancellation of Classes

Classes may be canceled due to an instructor's illness or other emergency or faculty professional development activities. When absences are known in advance, instructors will notify students during class periods and give alternative assignments. For unplanned absences, a notice will be posted outside the classroom and on the Century College website informing the students that the class will not be held, and it may include special instructions.

Cancellation due to inclement weather will be announced on a local radio station (WCCO-830 AM) and posted on the Century College website at [century.edu](http://century.edu)

### Student Newsletter

#### *The Wood Duck Weekly*

*The Wood Duck Weekly* is published weekly and is an important way to communicate with students regarding upcoming activities and events. This newsletter is available throughout the campus at the Century College website and through the student portal.

### Students' Notices

Bulletin boards are posted around the campuses for students, clubs, and college use. Date-stamped flyers from college-sponsored groups may be posted on the appropriate board; however, the Academic Affairs Office, East Campus, or the Administration Office, West Campus, must approve other displays.

## 3 Student Services & Resource Information

College Counseling and Career Center, West Campus, and work with a Century counselor. Additional transfer information is posted on bulletin boards outside of the Counseling Center. Periodically, college representatives from various in-state and out-of-state schools visit the campus to provide information to students. Century College sponsors "Transfer Information Days" during fall semester where representatives from many schools are in attendance.

Public colleges and universities in Minnesota have developed a common general education curriculum called the Minnesota General Education Transfer Curriculum (MnTC). Completion of this defined transfer curriculum at one institution enables students to receive credit for all lower-division general education upon admission to any other Minnesota public institution. The transfer curriculum includes 40 credits, has 10 goal areas and is the core of the AA degree. Students who have completed the MnTC or the AA with the MnTC core and have submitted an application for MnTC notation or AA degree graduation will receive a MnTC notation on their academic transcript. (See also Chapter 5, regarding the MnTC, the AA, AFA, and AS degrees, and Transfer. Refer to the Transfer Guide located at the back of the catalog, and [www.mntransfer.org](http://www.mntransfer.org), the Minnesota Transfer website.)

### Personal Counseling

Personal counseling gives you the opportunity to enhance your emotional and social development while at Century. Professional counselors facilitate student growth through a supportive environment in which students can express themselves freely and confidentially. You can discuss and explore areas of concern that may interfere with academic success, such as:

- Transition to college
- Test anxiety
- Chemical abuse
- Time management
- Stress management
- Relationships
- Identity issues
- Mental health
- Veterans' issues

Through the counseling experience, counselors can help you broaden your personal perspectives, gain insights, challenge biases,

and develop a sense of purpose consistent with your own values and goals.

Students in crisis are encouraged to come to the Counseling Center, room 2410 West Campus, for immediate short term counseling. Referrals to community agencies will be made when long term counseling is needed. See Personal Plan at [www.gpslifeplan.org/century/](http://www.gpslifeplan.org/century/).

### Career Counseling

Century's counselors are here to assist you in your career decision-making. Interest and personality inventories are tools to help you identify your interests, abilities, values, learning, and work styles. Counselors will help you use the information to explore and identify educational and career options.

Career and Life Planning (CRRS 1010) is a two-credit course offered at Century each semester. The course will help guide you through the career exploration and decision-making process. You will learn how to use Century's Career Center, room 2400, West Campus, to explore occupational and educational options. Encouragement is given to establish and achieve your life and career goals.

Counselors are available in the Counseling Center, room 2410, West Campus, by appointment or on a walk-in basis. For more information, call 651.779.3285, and see Career Plan at [www.gpslifeplan.org/century/](http://www.gpslifeplan.org/century/).

### Career Center

The Career Center, room 2400 West Campus, is your resource to gain up-to-date information on careers (for example, employment outlooks and salary ranges) and educational planning (for examples, college catalogs and scholarship information). Computer-assisted career guidance programs, such as the Internet System for Education and Employment Knowledge (ISEEK), and Minnesota Career Information System (MCIS) are tools that help you identify your career interests and skills, research occupations, and prepare for the world of work. For more information call 651.779.3285.

Career Services provides resume assistance and many job search preparation resources. The resources and services available help students prepare for and understand the

importance of identifying and utilizing the tools available to connect them to their career and/or industry. They also help those seeking off campus employment through opportunities to connect with local businesses and employers. Services also include: resume and cover letter writing assistance, on-campus employer recruiting, interview techniques and preparation, career statistics and additional job search resources and workshops. These Services are located in the Career Center, room 2402 West Campus, and open to all students. Check out the Career Plan at [www.gpslifeplan.org/century/](http://www.gpslifeplan.org/century/) for more career resources.

## Degree Audit Reporting System and uSelect Course Transfer System

---

### Degree Audit Reporting System (DARS)

The Degree Audit Reporting System (DARS) is part of Century's commitment to academic advising for students. A DARS report is an electronic summary of a student's academic progress toward completion of a degree or program.

Students may run their own DARS report anytime on the web through Century's Online Services. A DARS report indicates requirements that have already been completed, requirements that remain unsatisfied and how transfer courses fulfill requirements. The report offers suggestions for appropriate courses that may be taken to meet specific requirements and is particularly helpful when meeting with counselors and academic advisors. More information about DARS is available on Century's website at [century.edu/dars.aspx](http://century.edu/dars.aspx) and at the Counseling and Career Center.

### Web-Based Course Transfer System (u.select)

The transfer resource u.select is a free nationwide web-based course transfer system that offers up-to-date information about transferring between schools, including course descriptions and equivalencies, planning guides and program requirements. Students

## 3 Student Services & Resource Information

can log onto uselect at [www.uselectmn.org](http://www.uselectmn.org) to access information from hundreds of colleges and universities.

### ESOL Advocate

---

The English for Speakers of Other Languages (ESOL) Advocate serves to assist new students who are taking the Accuplacer ESL test and who seek aid in getting admitted and enrolled at Century College. The Advocate's office is on the west campus. For more information call 651.747.4087.

### Financial Aid for Students

---

The Financial Aid Office assists students in applying for and receiving financial aid to help pay the cost of education. The financial aid website contains a wealth of information about application procedures and links to many non-Century sites to make the search for financing easier. The office staff can be reached at 651.779.3305 or by email at [finaid@century.edu](mailto:finaid@century.edu).

#### 1. Application Process

##### When to Apply:

Students should apply for financial aid after filing their income tax returns but not before January 1st for fall enrollment. Students are encouraged to apply early and **MUST APPLY ANNUALLY**.

##### How to Apply:

To determine eligibility for grants, loans, and student employment, students are required to complete the Free Application for Federal Student Aid (FAFSA) and have the results sent to Century College.

The FAFSA is completed online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). A signature is required to complete the FAFSA and can be signed electronically provided the student (and parent of a dependent student) has a PIN number. To apply for a PIN, visit [www.pin.ed.gov](http://www.pin.ed.gov). **The Federal Code to release FAFSA results to Century College is 010546.**

**STUDENTS MUST APPLY FOR FINANCIAL AID ANNUALLY.**

##### What to Expect After Applying:

After the FAFSA is completed online and an email address was provided, the student will receive an email in a few days with a secure link to the Student Aid Report (SAR) on the Web. Review the SAR as it is the product of your FAFSA application and contains eligibility information. The SAR will not tell you what your financial aid award is but will tell you important information about the EFC (expected family contribution) used to calculate your award, the colleges that you chose to release the information to, and/or if more information is needed to compile your award.

##### Additional Information/Verification

Occasionally, the student will be required to submit additional documents to complete the financial aid application such as tax returns and citizenship status information. The Office of Financial Aid will contact you for more information if necessary. Failure to respond will result in a delay in calculation of the award notice.

##### Award Notice

The College will determine award eligibility after all documents are received and verified and send the student an email with instructions on how to access his/her award notice online at [century.edu](http://century.edu). Students can access application and award information with their Century password and pin at Century College's Online Services. Students who have not provided an email address will receive an award notice by mail.

**Important Note:** Receiving the Award Notice is not necessarily the last step for receiving financial aid. Additional steps are required for both student loans and student employment. See the Century College website for details at [century.edu](http://century.edu).

#### 2. Financial Aid Policies

##### Financial Aid for Summer

Students may be able to utilize financial aid for summer provided the eligibility has not been used for the preceding academic year. Students who have a complete

financial aid application and have registered for summer classes will receive a financial aid award for summer if any eligibility exists.

Students must be registered for at least 6 credits to be eligible for a student loan.

##### Financial Aid for Developmental/ Remedial Coursework

Students can receive financial aid for developmental coursework (below 1000 level courses) with a limit of 30 credits.

##### Withdrawal from College/Return of Title IV (Financial Aid) Funds

If a student completely withdraws from all credits (either officially or unofficially) in a term before the 60% point of that term, the financial aid awarded is subject to the federal "Return of Title IV" policy. Students earn financial aid in proportion to the time they are enrolled up to the 60% point. The unearned share of financial aid must be returned to the programs from which they were paid as prescribed by federal regulations. The student will be required to repay all unearned financial aid. Please contact the Financial Aid Office prior to withdrawing if you have any questions regarding your possible repayment obligation.

##### Changes in Enrollment

When you change your enrollment level, your financial aid eligibility may change. The source of your aid and the date of your drop or withdrawal affects the amount of your financial aid. Contact the Financial Aid Office if you have questions.

**Late Start Classes:** If you drop a late start class before it begins and have been paid financial aid for your enrollment in the class, the Financial Aid Office will recalculate your eligibility and you may have to repay all or part of the financial aid for the semester.

**Pell Grant Recipients:** Your class schedule **MUST BE FIRM** at the beginning of each term. Your Pell Grant cannot be increased if you decide to add a course after the 10th day of the term. If you drop a late start course, your Pell Grant may be adjusted to reflect the reduction in the total credit load

## 3 Student Services & Resource Information

EVEN IF you add another course for the same number of credits.

### Satisfactory Academic Progress Policy for Financial Aid Summary:

The Satisfactory Academic Progress Policy for Financial Aid requires that a student maintain acceptable academic standards in the pursuit of their chosen degree, diploma, or certificate. The student is required to maintain, at a minimum:

- A cumulative GPA of 2.0
- Completion rate of 67% of credits attempted, and/or
- Have not reached or exceeded 150% of the maximum credits needed to attain the chosen academic goal (including transfer credits).

The complete policy and appeal process can be found on the website at [century.edu/finaid](http://century.edu/finaid).

The Satisfactory Academic Progress Policy for Financial Aid differs from the College's Standard for Academic Progress. It is possible to be suspended from financial aid and not be suspended from the College. Students who appeal suspension from the College must file a separate appeal if suspended from financial aid.

### 3. Sources of Financial Aid

#### Federal Pell Grant:

Available to undergraduates only and does not need to be repaid. For 2009-2010, grants range from \$400 to \$5350.

#### Federal Supplemental Educational Opportunity Grant (SEOG):

The SEOG is a grant for exceptional need students but has limited availability. The Financial Aid Office determines eligibility on a first-come, first-served basis.

#### Minnesota State Grant:

State grant assistance for Minnesota residents who have not exceeded four years of enrollment past high school.

#### On-Campus Employment:

Part-time employment positions are available for qualified students from either the Federal or Minnesota State Workstudy Programs. Job openings are posted outside the Financial Aid Office.

#### Federal Direct Loan Programs:

A low interest loan program is available under the Subsidized or Unsubsidized Direct Loan Programs. Students must be enrolled for at least six credits to apply for these student loans. First year students can borrow up to \$5500 and second year students (after earning 30 credits) are eligible for \$6500.

**LOAN PRORATION:** An undergraduate Direct Loan borrower is subject to certain prorated loan limits if the student is enrolled in a program of study that is less than 30 credits. Loan limits must also be prorated if the program's duration is equal to or longer than 30 credits but the borrower is completing the remainder of the program in a period of enrollment that is shorter than an academic year such as with a fall term graduation.

#### Student Educational Loan Fund (SELF):

The SELF loan is funded through the state of Minnesota. The interest rate is variable with no cap and students are required to pay the interest while enrolled. For more information, contact the Financial Aid Office at 651.779.3305 or the Minnesota Higher Education Services Office at 651.642.0567.

### 4. Additional Funding Sources

#### Century Foundation Scholarships:

The Century Foundation awards more than \$100,000 each year in scholarships to new and returning students. Awards are designed to encourage cultural diversity, service learning, academic achievement, and career development. Application information is available in the Foundation Office, East Campus, by calling 651.779.3356, or visiting the website at [century.edu/foundation/](http://century.edu/foundation/).

#### Alliss Education Foundation Grants:

These grants are available for Minnesota residents who have been out of high school and have not registered for college credit for seven years, plan to earn an associate in arts, associate in science, associate in applied science, or associate in fine arts degree, and have not earned a bachelor's or other higher degree. Funds are available for free tuition and books for one class, up to 5 credits. Students do, however, pay the

fees (i.e. technology fee, student association fee, application fee, student life fee, parking fee, and special course fees). For more information, contact the Admissions Office, West Campus, 651.773.1700.

#### Outside Agencies:

Students are encouraged to seek financial assistance from outside sources. Examples include Bureau of Indian Affairs, Minnesota Indian Scholarship Program, Department of Rehabilitation Services, and church or local civic organizations.

## GPS LifePlan (Goals+ Plans=Success)

One of the many resources available to students at Century is the GPS LifePlan. This tool is designed to help students get answers to their questions, develop goals, make plans, and be successful academically, personally and in their career objectives. In order to meet students' needs, the GPS LifePlan is organized into 5 sub-plans including: the EducationPlan, FinancePlan, CareerPlan, PersonalPlan, and LeadershipPlan.

Students can explore the GPS LifePlan through a variety of delivery methods such as workshops, campus resources, or on the web. You get to work at your own pace and get answers to the questions you need help with most. Visit the GPS LifePlan website at [gpslifeplan.org/century](http://gpslifeplan.org/century) to start exploring the wealth of resources available to you!

## Health Service

### College Health Service

The College Health Service is located in room 2232, East Campus. Registered nurses are available for first aid, referrals to medical services, screening tests for blood pressure, weight, and Mantoux tests for students whose programs require them. Free literature and assorted over-the-counter medication is available upon request. For more information, call 651.779.3954.

## 3 Student Services & Resource Information

### Student Accident or Illness Insurance

A group health insurance is available for students to purchase. To qualify, students must be enrolled in six or more credits in the Minnesota State Colleges and Universities System. Application forms and information are available from the Counseling Center, west campus, and the College Health Service, east campus.

### The Minnesota College Immunization Law (Minnesota Statutes Section 135A.014)

Since the fall of 1991 there has been a state mandate for college students to have documentation of up-to-date immunization against diphtheria, tetanus, measles, mumps and rubella, with the exception of students who graduated from a Minnesota high school in 1997 or later.

The newest amendment extends this law to provide education about viral hepatitis, including information about the hepatitis A and B vaccines. It is the hope that this expanded law will not only reduce the risk of viral hepatitis on college campuses, but also develop an adult population with more knowledge about disease prevention and transmission.

Free brochures on hepatitis A, B, and C are available at the College Health Service room 2232 East Campus. For more information, call the College Health Service 651.779.3954.

## Records & Registration Office

The Records Office, West Campus, provides services pertaining to student schedules, veteran certifications, enrollment verifications, good student discounts, registration, grade changes, withdrawals, residency, change of programs, address and name changes, graduation confirmation, evaluation of academic progress, and academic transcript requests. Please see website for information and Records forms.

**Transcript Service:** Transcripts are sent at the written request of the student online at [www.getmytranscript.com](http://www.getmytranscript.com), with designated

fee. Transcripts will NOT be faxed. There is an additional \$5.00 charge for rush transcripts.

**Note:** NE Metro transcripts cannot be done as a rush. Refer to the Records and Registration webpage at [century.edu/registration/transcriptreq.html](http://century.edu/registration/transcriptreq.html). The college follows the Student Privacy Act. See the Student Handbook section in this catalog for student privacy information.

**Voters Registration Forms** are available at the Records Office. For complete information regarding voting and downloadable forms go to: <http://www.sos.state.mn.us/home/index.asp?page=204>

**Note:** *All students are responsible for keeping address and phone number information current with the Records Office.*

## Services for Students with Disabilities

### Access Center

The Access Center is a Student Services office, which provides accommodation, advocacy, support, and referral information for students with various types of physical, psychological, or learning disabilities. Based on the individual needs of the students, services may include, but are not limited to, early registration, note-taking, test-taking accommodations, and the provision of sign language interpreters. Documentation must be provided within the first semester of service.

The Access Center ensures the rights of disabled students and assists Century College in meeting its obligations under the Rehabilitation Act of 1973 (P.L.93-112, Section 504) and the Americans with Disabilities Act. The center's commitment is to remove educational, programmatic, and attitudinal barriers, allowing students with disabilities equal access and opportunity to participate fully in all education programs and activities. This is made possible by the provision and arrangement of reasonable accommodations on a campus-wide level. Services provided are based on individual need.

The office is located in room 2440, west campus, Contact Ed Sapinski, Director and

ADA Coordinator, 651.779.3354 or Christine Simonson, Disability Specialist, 651.779.3477 or 651.773.1715 TTY. Fax is 651.779.5831.

## TRiO Programs

TRiO programs, funded by the U.S. Department of Education, assist selected students in their pursuit of and persistence with postsecondary educational goals. Participating students must possess academic potential, yet demonstrate a need for academic support.

Three Century College TRiO programs serve participants who are from low income families or are first-generation to complete college. Student Support Services is designed to serve enrolled Century students, while Upward Bound and Educational Talent Search are targeted toward middle and high school youth who are college-bound.

### Student Support Services

The Student Support Services program serves 200 students who intend to transfer into a bachelor degree program. The program seeks to enhance academic skills among its participants and increase their retention and graduation rates through tutoring, academic support, and personal enrichment activities. Students must meet eligibility for one of the following: family income, parent education, and/or documented disability. For more information, call 651.779.3226.

### Upward Bound

Upward Bound seeks to develop the skills and motivation necessary for its participants to successfully complete high school and prepare for a college education. Century College's Upward Bound program serves 65 students at St. Paul's Como Park, Harding and Johnson High Schools. Students receive a variety of services that include; after-school tutoring, academic advising, ACT prep, college admission assistance, Saturday sessions, and a six-week academic summer program. For more information, call 651.779.3328.

### Educational Talent Search

The Educational Talent Search program encourages individuals between the ages of 11-27 to complete high school and to enroll in

## 3 Student Services & Resource Information

postsecondary education programs. The 630 participants receive information and support in academic, career and college planning and are encouraged to remain focused on personal goals. Program staff provides services at seven secondary locations in the St. Paul Public Schools. For more information, call 651.779.3967.

### Resource Centers

---

#### **Academic Support Center (West)**

The Academic Support Center is located on west campus in room 2461 and houses the Peer Tutoring, Tutors Linked to Classes, and the Student Support Services offices. For more information about these programs see Student Support Services under TRiO Programs and Peer Tutoring Program under Resource Centers.

#### **East Student Support Center**

Located on East Campus, room 2542, the center provides academic support. Other services include study groups, professional and peer tutoring, counseling services one day per week, and GPS LifePlan workshops. All services and opportunities are free and available to all students enrolled in a technical or occupational program. The center is funded by the Carl D. Perkins Vocational and Technical Educational Act of 1998.

#### **English for Speakers of Other Languages Center**

The ESOL Center assists bilingual and multilingual students in adjusting to college academic and social life. We offer ESOL tutoring, study groups, contact with English speaking volunteers, and a place to meet other students. The college lab assistant and faculty are available to assist students in many ways. No appointment is needed. The ESOL Center also connects students to appropriate resources in the college at large, such as the Intercultural Club, financial aid, and multicultural activities. The ESOL Center is located on the East Campus in room 1551. For more information, call 651.747.4039.

#### **Information Technology Division**

The Information Technology Division has two

computer labs (room 3165, West Campus, and room 1710, East Campus) which provide computer access to all registered Century students. The centers are equipped to support courses with IBM-compatible computers. Staff provides assistance in the use of the computer equipment. Student e-mail service is also available to all registered students.

#### **Language Laboratory**

Located on West Campus, this lab serves Century College's language students by offering assistance with classroom assignments, assigned lab work, and conversation. Computer-assisted learning programs in seven foreign languages are also available. Students with personal interests involving French, Spanish and German (such as correspondence with pen pals), are welcome to use the lab.

#### **Library**

Located in room 1836 East Campus, the Library provides a variety of material and services to support the college curriculum. About 45,000 books, 300 periodicals, newspapers, pamphlets, and a variety of nonprint materials – with the necessary listening and viewing equipment – are available for use by students, staff and community members. This collection is augmented, through interlibrary loan agreements, by material from other libraries in the state. In addition, the library provides access to subscription databases and the Internet from the Library Home Page, [century.edu/library/](http://century.edu/library/).

Handouts with further information on library resources are available in the library. Students are encouraged to consult with the library staff for help in using the materials, databases, and equipment. Library orientation sessions are offered to class groups upon request.

#### **Mathematics Resource Center**

The Mathematics Resource Center, located in room 3315, West Campus, provides Century College mathematics students with personal assistance, calculator assistance, computer tutorials, videotapes and many other reference materials in most areas of mathematics. No appointment is necessary.

#### **Multicultural Student Center**

The Multicultural Student Center, located on the West Campus, provides a comfortable place where students can network, study, lounge, and just socialize. To support and retain students the center provides multicultural programming, sponsors guest lecturers, and referral services for students. Center staff are dedicated to promoting a campus environment that embraces multiculturalism, celebrates diversity and enriches the campus experience for students.

The center maintains active outreach initiatives to inform prospective students about educational opportunities available at Century College. For more information call 651.773.1794.

#### **Peer Tutoring Program**

The Century College Peer Tutoring Program located in the West Academic Support Center in room W2461 and in the East Student Support Center in room E2542, provides one-on-one tutoring assistance free to everyone currently enrolled in classes at Century College. Tutors are available in a variety of courses. Appointments are encouraged, but not required.

The Tutors Linked to Classes Program is also located in the Peer Tutoring Offices with liberal arts courses coordinated out of the West Academic Support Center and Science and Technical programs coordinated out of the East Student Support Center.

For more information please call 651.779.3258 on the West Campus and on the East Campus call 651.779.3293.

#### **Reading Center**

All enrolled students are welcome to seek assistance from the Reading Center to become more efficient and successful in the following: vocabulary development, college textbook reading, note taking, time management, test taking, and study strategies.

While all students are welcome to use the Center, students enrolled in reading or study skills courses, or students who have completed any course(s) in the discipline have priority.

## 3 Student Services & Resource Information

A college lab assistant and faculty are available to assist students on a walk-in basis. The Center is located on west campus.

### Veterans' Resource Center

Located in room 2420 West Campus, the Veterans' Resource Center is a place where veterans can study, socialize and network. A newly formed student club for veterans will hold its meetings there. Century currently has over 240 student veterans. For more information call 651.779.3218.

### Writing Center

The Century College Writing Center located on west campus is an encouraging environment where writers from all disciplines come together for mutual support and assistance with invention, drafting, revision and editing.

Goals:

1. To provide a professionally staffed and sufficiently equipped environment which includes computers and resources to help writers fully engage in the craft of writing.
2. To develop, promote, and maintain an environment that meets the needs of writers from various disciplines involved in various writing tasks.
3. To help writers collaborate and discuss writing so that they may learn with and from each other.
4. To offer effective consultation to writers at all stages in the writing process.

## Transportation

### Bus Service

Metro Transit buses stop at both the east and west campuses and provide connecting service to Maplewood Mall and downtown St. Paul. Schedules are available at The Connection, West Campus, and reception desk, second level, East Campus or by calling 612.373.3333 or visiting metrotransit.org.

### Parking

Parking is available on campus for students, college staff members, and visitors. Parking regulations are in effect 24 hours every day and are enforced by Public Safety and the White Bear Lake Police Department. Since the

college is located on state property, police can tag cars with expired license plates.

## Additional Services

### Bookstore

The Century College Bookstore is located on the West Campus. Some of the merchandise available includes new and used textbooks, backpacks, school and art supplies, imprinted clothing and trade books. You can also order textbooks online. The bookstore sponsors a "textbook buy back" during finals week of each semester and once at the end of summer sessions. For more information, call 651.779.3284 or [www.centurycollegebookstore.com](http://www.centurycollegebookstore.com).

### Business Office

The Business Office processes payments and distribution of financial aid, grants, loans, and scholarships. Students may pay their tuition and fees online, via mail, or in person at the Business Office which is located on west campus.

### Century Foundation

The Century Foundation is a supporting organization of Century College. The purpose of the foundation is to:

- promote interest, commitment, and financial assistance to further the mission of the college;
- provide financial assistance for scholarships, special education and cultural projects;
- enhance academic and personal student services;
- remove barriers to higher education for students who have financial hardship; and
- integrate new technology into the instructional process.

The foundation encourages philanthropic support from community members. Donations help Century College provide scholarships, upgrade outdated equipment, expand learning resources, ensure facilities meet the needs of students with disabilities, and support life enrichment programs to benefit the community.

Each year the Century Foundation awards more than \$100,000 in scholarships to new

and returning students. Awards are designed to encourage cultural diversity, service learning, academic achievement, and career development. For more information contact the Foundation Office, room 2511, East Campus, call 651.779.3356, or visit the website at [century.edu/foundation/](http://century.edu/foundation/).

### Child Care

The Busy Bees Child Care Center has served the college since 1979. Busy Bees offers quality childcare at reasonable rates on the East Campus in room 1251 of Century College. The hours are Monday through Friday from 6:30 a.m. to 5:30 p.m. Childcare is available for children 33 months and potty trained through 11 years of age, on a full-time, part-time, and hourly basis. Drop-ins are accepted if there is space available. Available to serve staff, faculty, and the community, as well as students of Century College. For more information, please contact the center director at 651.779.3468.

**Notice:** Children may not be left unattended. For the safety and well-being of our students and their families Century College does not allow children to be left unattended at any time while on College property. Century College policy does not allow children in college classes.

### Emergency Calls

Century College does not have a message system for students. Students will be contacted for medical emergencies only. Contact the Vice President of Student Services office at 651.779.3929.

### Food Service

Century College provides quality cafeteria-style food service for students and staff. Hot entrees, sandwiches, salads and snacks are available every day that courses are in session. Vending machines are available at all times.

### Housing

Century College does not own or operate housing or apartment facilities for students living away from home. Students may find information on housing options near the college through one of the local newspapers or a rental agency such as Apartment Search. Notices of available housing and apartment vacancies are available at The Connection,

### 3 Student Services & Resource Information

West Campus. The college does not inspect or certify such housing, nor will it assume responsibility for problems arising from private housing.

#### Lockers

**West Campus:** Lockers are located in various areas around the West Campus. There is a charge that is payable at the West Campus bookstore.

**East Campus:** Lockers are available from program advisors free of charge, but students must purchase a lock at the West Campus bookstore.

#### Lost and Found

Inquiries pertaining to lost and found articles should be made at the bookstore on West Campus or the information desk on the East Campus.

#### Online Services

Students may access many online services and programs that are offered at century.edu. With a student ID and a PIN, which are assigned upon admission to the college, students are able to:

- Sign up for orientation
- Search for open class sections
- Register for classes
- Print class schedule
- Adjust schedule (add, drop, withdraw)
- Check holds on records
- View or change address
- View grades
- View account and charges
- Pay tuition and fees
- Print unofficial transcript (academic record)
- Conduct a Degree Audit Report (DARS)

The college website includes notices and information available in the course schedule, college catalog and student handbook. In addition, the website offers links to other online services that make it easy for students to:

- File a FAFSA (Free Application for Federal Student Aid)
- Submit a Student Loan application
- Order books for classes

#### Veterans

Century College is approved by the Veterans Administration for the education of veterans, and is responsible for certifying training and transmitting necessary credentials and information to the Veterans Administration. Contact the Records Office at 651.779.3296 for more information. Also, see [century.edu/currentstudents/veteransservices/default.aspx](http://century.edu/currentstudents/veteransservices/default.aspx).

# 4 Academic Policies and Information

Topics are listed in alphabetical order.

**NOTE: The policies and procedures listed in this chapter are subject to change.**

## Academic Renewal

You may file an academic petition requesting academic forgiveness of previous Century College credits if:

1. Your return to Century College occurs after a five-year absence and
2. You are attending Century College when you petition.

Upon meeting these conditions, you will need to petition the Vice President of Academic Affairs for evaluation by taking the following steps:

1. Attaching a degree audit or unofficial transcript to your petition
2. Requesting that up to 45 quarter credits or 30 semester credits of F or NC grades earned at Century College be omitted from your GPA calculation and
3. Making a list of the courses you want to be forgiven.

If your petition is approved, the Records Office will adjust your record. All forgiven courses will remain on the academic record, but the symbol of [ ] will be placed around to the forgiven F or NC grades. This change will be reflected in the credits attempted and the cumulative GPA.

## Activity Participation Credit

You can register for activity credit only during the semester you complete the activity and this must be done during the first five days of the semester. Credits earned in activity courses can be applied as elective credits in any program. You cannot earn credit for the same activity course more than 4 times.

## Adding Courses

Please see Chapter 2, Change of Registration Policies.

## Articulation Agreements

1. To help you transfer more easily, Century College develops and maintains articulation agreements with all MnSCU institutions, the University of Minnesota, University of Wisconsin-River Falls, and other colleges and universities. For more

details, please see the Transfer Articulation Agreement list in Chapter 5 or contact the Counseling Center for specific agreements and more information. In addition, Century College offers you the Minnesota General Education Transfer Curriculum (MnTC), a collaborative effort among all two-and four-year public colleges and universities in Minnesota to help you transfer their work in general education. If you complete the Minnesota General Education Transfer Curriculum at Century College and then transfer to any other Minnesota public baccalaureate-degree-granting university, you will have fulfilled all lower division general education requirements. (See also Chapter 5, regarding MnTC, AA, AFA and AS degrees, and Transfer. and [www.mntransfer.org](http://www.mntransfer.org), the Minnesota Transfer website.)

2. You may be awarded college credit upon successfully completing coursework through the Northeast Metro Tech Prep Consortium and/or Northeast Metro Career and Technical Center. Please see the Director of Transfer Services or the website for details. Please note that only those high school courses identified in the articulation agreements will be accepted. Your Tech Prep courses may fulfill elective credit(s) for some program/degree requirements at Century College.

In order to receive credit for courses taken through Northeast Metro Tech Prep Consortium or at Northeast Metro Career and Technical Center you must:

- Complete the course goals in your high school.
- Maintain a grade of A or B in your course.
- Enroll in courses at Century College within three years of completing your high school course(s).
- Submit a high school transcript to Century College that shows graduation in good standing.
- Present your Tech Prep Certificate of Credit or Northeast Metro Career and Technical Center transcript to the Century College Records Office.

## Academic Calendar

You can find a copy of the academic calendar and the semester calendar on the college website or in the Counseling Center. The semester calendar is also available on the college website or in the Counseling Center.

You can find information about registration days, final examination days, and nonclass days on the college website or by contacting the Counseling Center, West Campus.

Academic calendars in the Minnesota State Colleges and Universities System (MnSCU) are subject to modification or interruption due to occurrences out of control of the college. In the event of any such occurrences, the College will attempt to accommodate its students. It will not, however, guarantee that courses of instruction or other college programs or events will be completed or rescheduled. Refunds will be made to eligible students only according to the policies adopted by MnSCU and Century College.

## 4 Academic Policies and Information

Transfer credit will be awarded when your enrollment at Century College is verified and when you have the criteria above. You will also need to remain in courses at Century College past the tenth day of Fall or Spring semester (summer session would not apply). A Century College transcript will be developed for you only if you enroll at Century College. If you would like more information about receiving college credit for Tech Prep courses, please contact Century's Director of Transfer Student Services, 651.779.3924, or the Northeast Metro Career and Technical Center Supervisor of Outreach, 651.415.5610, or refer to the websites: <http://www.nemetro.k12.mn.us/career/techcenter.html> or [www.techprepmn.com](http://www.techprepmn.com).

If you have been awarded college credit(s) at Century for a Tech Prep course(s) and plan to transfer from Century to another college or university, you should contact the Transfer Specialist at that college or university to learn how your Tech Prep course(s) would be accepted at that institution. Each college or university decides which, if any, credit(s) transfer and whether those credits meet specific degree requirements.

### Attendances and Absences

You are expected to attend all scheduled classes. If you are ill, or other factors exist to prevent you from attending classes for a period of time, contact your instructor as soon as possible. If you experience an extended illness and wish to withdraw, contact the Records Office.

### Auditing

Registration for a course without credit (AU grade) carries the same tuition and fees as courses taken for credit. You must consult with the course instructor concerning audit requirements and submit a special form with the instructor's signature to the Records Office during the first five days of the semester or the first three days of summer school. Once you have registered, you cannot earn a letter grade. A course you have previously audited may be retaken later for credit and a letter grade.

### Adult Options

Century College offers opportunities for adult learners to reach personal and professional goals through credit and non-credit courses, certificates, diplomas, and programs. These courses are offered to you through evening, online, Saturday, and Fast-Track options, in addition to the expansive day course schedule. Multiple options and college support provide you with flexibility that fits into your busy life. If you are an adult learner, help is available through the Admissions Office, Counseling Center, and Career Center, located at the West Campus, Main Entrance.

### Change of Address or Name

If you have changed your name after registration you will need to submit a "Student Change of Information" form to the Records Office. You will need to provide valid identification (i.e. driver's license, state identification card, social security card, or certified copies of marriage, divorce or court documents) at the Records Office with your completed form. To change your address complete and submit online or in person a "Student Change of Information" form. If the college attempts to contact you using the information you have given us, we will consider the communication delivered to you.

### Classification of Students

Full-Time: You are registered for 12 credits or more  
Part-Time: You are registered for 11 credits or fewer  
First Year: You have earned less than 30 semester credits  
Second Year: You have earned 30 or more semester credits

### Competency-Based Education

Competency-Based Education (CBE) allows you to present nontraditional learning as competencies to be evaluated for credit towards your educational program.

If you are interested in CBE take the class ICBE 1000. This three-credit course will introduce you to Competency-Based Education and will assist you in the development of your educational plan.

### Credit for Prior Learning

1. If you are registered and able to demonstrate achievement in the content of college-level courses or if you have successfully completed appropriate noncollegiate educational experiences, you may be eligible to receive credit at Century College, or have certain requirements waived. Whatever the number of credits you have received for noncollegiate experience, you must demonstrate the competencies of the degree requirements in order to earn a Century College degree, diploma or certificate. *Note:* Developmental or noncollege level courses will not be accepted in transfer or used as a prerequisite.
2. You must be able to document the experience or demonstrate achievement.
3. To receive credit for noncollegiate experience, you must submit an Academic Petition to the Vice President of Academic Affairs who will consult appropriate faculty members before approving noncollegiate credits as a general education requirement in a specific discipline or equating noncollegiate work with a specific course.
  - a) The noncollegiate experience must be applicable to a program, degree or curriculum at Century College.
  - b) These credits will not be used in calculating your GPA.
4. You must submit an Academic Petition to the Office of Academic Affairs with proof of completion in order to receive credit for the nontraditional educational experiences listed below:
  - a) CLEP (College Level Examination Program): Up to 6 semester credits in each of the five General Examinations for a score at or above the ACE recommendation on a given test (7 semester credits for English Composition with essay). Credit will not be given which repeats completed coursework within the discipline.
    - English Composition with Essay
    - Humanities
    - Mathematics
    - Natural Science
    - Social Science/History

## 4 Academic Policies and Information

- No letter grades to be assigned.
- b) AP (Advanced Placement):  
You may earn credits through AP exams with scores of 3 or above. Credit will not be given for AP exams that overlap completed coursework for which college credit has been earned.
- c) IB (International Baccalaureate): If you have completed an IB diploma with a score of 30 or higher you will be awarded 8 semester credits for each of three higher level examinations, plus 2 semester credits for each of the subsidiary exams, for a total of 30 semester credits. If you have completed only the higher level exams with a score of 5 or higher, you will receive 8 semester credits for each examination. You will not receive credit for IB exams that overlap completed coursework for which you have earned college credit.
- d) CPS (Certified Professional Secretary):  
If you have successfully completed the Certified Professional Secretary (CPS) Examination in the past seven years and have earned 10 Century College credits, you will receive a maximum of 16 elective credits.
- e) Other college courses (Please also see Chapter 2, Transfer Standards).
5. You must submit an Academic Petition in order to receive college credit for the educational experiences that are listed below:
- a) Credit for armed services training: The Office of the Vice President of Academic Affairs will authorize credits using A Guide to the Educational Experiences in the Armed Services. If you send The Army/American Council on Education Registry System (AART) transcript or the Sailor/Marine American Council on Education Registry (SMART) transcript directly to the college, you will not need to petition to receive these credits. To request a transcript be sent directly to Century College, please refer to the military website for requesting official military transcripts (e.g., <http://aarts.army.mil/>).
- b) DANTES:
- For subject tests (DSST),

appropriate discipline faculty will recommend credits in consultation with the Vice President of Academic Affairs prior to the College accepting credits or authorizing waivers which would affect distribution requirements.

- c) Nonregionally accredited technical colleges and private vocational schools: Credit will be awarded for a successfully completed program or identifiable unit within a program reviewed by Academic Petition. (Note that if units are based in clock hours, one semester college credit is equivalent to 36 clock hours.) Comparable and equivalent courses must be reviewed by Academic Petition.

6. College-level knowledge and skill gained through life/work experience can be evaluated for credit only through the Competency Based Education (CBE) Program.

### Credit by Exam or Test-out

Credit by Exam is a process through which you may receive credit for a Century College course in which you feel you already possess the required knowledge and/or experience by taking a test-out.

1. Faculty within the discipline must agree to administer any test-out.
2. Credit is given only for courses included in Century College curriculum.
3. You will be charged a fee to take the test-out.
4. You must submit an Academic Petition.

### Credit Load

You are considered a full time student if you are enrolled for 12 credits or more. You are not required to take a minimum number of credits, but 15-18 credits are typically needed each semester to complete a program in two years (not including summer school).

You should check the number of credits required to qualify for financial aid programs or medical insurance programs. If you receive financial aid benefits, you are expected to know the course load required for those benefits.

.....

If you wish to take more than 18 credits during a semester you must receive permission from a Counselor, room 2410 West Campus or the Registrar, West Campus.

.....

### Credit Transfer Guarantee

If you plan to transfer after completing your coursework in liberal arts and sciences, Century College will guarantee that your credits taken and listed on a dated Century College guide sheet will transfer. You must meet certain criteria and complete a credit guarantee form at the Vice President of Student Services' office, West Campus. For more information, call 651.779.3929.

### Deans' List

If you are a full-time student (you have taken 12 or more college-level credits during the semester), you will be recognized as having achieved the Deans' List if you have no grades of F or I and have attained a semester grade point average of at least 3.75. Note that college-level courses are those numbered 1000 or above.

### Diplomas

See Transcripts and Diplomas, this chapter.

### Dropping Courses

See Chapter 2, Change of Registration Policies.

### Drugs and Alcohol

Drugs and alcohol are not permitted on campus or at any college function. Students using drugs or alcohol on campus will be subject to disciplinary action. (Please also see the Student Handbook in this catalog.)

### Faculty Office Hours

Most faculty have specific times they are scheduled to be in their offices to assist you. Please check with individual faculty for office hours, open labs, or individual appointment schedules.

### Grading System

Century College uses the following grading system to report academic achievement and to compute your grade point average:

## 4 Academic Policies and Information

- A - superior achievement, 4 grade points per credit
- HA - denotes an honors course or a course taken under the honors option for which you receive a grade of A
- B - above average achievement, 3 grade points per credit
- HB - denotes an honors course or a course taken under the honors option for which you receive a grade of B
- C - average achievement, 2 grade points per credit
- D - below average achievement, 1 grade point per credit
- F - inadequate achievement, 0 grade points (no credit earned)
- I - denotes that, upon your request, the instructor consented to an extension of time for course completion. The student and the instructor must enter a formal written agreement stating when the remaining requirements will be completed. I grades automatically become F grades at the end of the next semester (not including summer sessions) if requirements have not been satisfactorily completed.
- P - denotes successful demonstration of competence. Credits earned under the pass/fail system will not be included in computing the GPA. A grade of P represents work equivalent to or above 2.0 level. Century courses assigned a P grade are limited to certain PE courses, ICBE 1000, and certain clinical or practicum courses. See instructor for more information. You should be aware that some institutions may not accept the P grade in transfer.
- W - denotes that you formally withdrew from the course after the first seven days and not later than three weeks prior to the end of the semester. Ws do not influence Grade Point Average (GPA). The College may assign a W under special circumstances. (See also Chapter 2, Change of Registration. Withdrawals affect your academic status. See Standards of Academic Progress Policy.)
- AU - denotes that you audited the course. No credit is awarded for audited

courses. You must complete an audit request form before the beginning of the second week of the semester. Please note that audited courses carry the same tuition and fees as courses taken for credit.

Z – denotes a course in progress.

**GPA (Grade Point Average)** - total grade points you achieved in a given time period divided by total credits of courses for which grades of A, B, C, D and F were received.

### GRADUATION REQUIREMENTS

All awards (degrees, diplomas, and certificates) require:

- Century college-level GPA of 2.0
- Cumulative college-level GPA of 2.0
- Required career and occupational courses GPA of 2.0
- MnTC GPA of 2.0

### Associate Degree Graduation Requirements

Century College offers four degrees: Associate in Arts, Associate in Fine Arts, Associate in Science, and Associate in Applied Science. To earn any of these four degrees, you must meet the following requirements:

1. You must earn at least 60 college-level credits (numbered 1000 or above)
2. Of the credits applied toward your Associate Degree, at least 20 must be earned at Century College. The requirement will be reduced to 12 college-level credits for students transferring at least 8 college-level credits from another MnSCU institution and/or the University of Minnesota. (see also Degree Residency Requirement)
3. You must earn a grade of C or better in ENGL 1021
4. You must have a Century college-level GPA of 2.0; cumulative college-level GPA of 2.0; required career and occupational courses GPA of 2.0; MnTC GPA of 2.0
5. You must have a distribution of credits in general education/MnTC (Minnesota General Education Transfer Curriculum) courses; each of the four degrees differs

in the required distribution of general education credits (refer to Chapters 5 & 6 for details)

6. There may also be specific course grade requirements in your program. Please see Chapter 6, the Counseling Center, or your program advisor.

### Diploma/Certificate Graduation Requirements

You can earn diplomas and certificates from Century College. Course and credit requirements for diploma and certificates vary depending on the program. For specific requirements for all programs, please see Chapters 5 & 6.

1. Diplomas: at least 31 earned college-level credits; you must earn at least one third of the credits at Century College
2. Certificates: up to 30 earned college-level credits; you must earn one third of the credits at Century College
3. You must have a Century college-level GPA of 2.0; cumulative college-level GPA of 2.0; required career and occupational courses GPA of 2.0 and MnTC GPA of 2.0
4. You must earn a grade of C or higher in ENGL 1021 IF this is the Goal 1 course you selected (exception: 16 credits or less certificates)
5. There may also be specific course grade requirements in your program. Please see Chapter 6, the Counseling Center, or your program advisor.

### Minnesota General Education Transfer Curriculum Notation

The Minnesota General Education Transfer Curriculum (MnTC) is a total of 40 credits fulfilling ten goals. (Please see Chapters 5 & 6 for specific requirement information). If you complete the MnTC at one of the Minnesota public higher education institutions and then transfer to any other Minnesota public baccalaureate-degree-granting college or university, you will have fulfilled all lower division general education requirements. The MnTC is the core of the Associate in Arts (AA) degree. When you have completed the MnTC or the AA with the MnTC core and have submitted an application for MnTC notation or AA degree graduation, you will receive a MnTC notation on your academic transcript.

## 4 Academic Policies and Information

Requirements include:

1. You must be a Century College student
2. You must earn at least 40 college-level credits and have attended at least one semester at Century College.
3. You must have a distribution of credits from the ten Minnesota General Education Transfer Curriculum goal areas as represented in the MnTC
4. You must have a MnTC GPA of 2.0 or higher

### **Awarding Associate Degrees and Diplomas**

Degrees, diplomas, and certificates will be awarded at the end of each semester but a formal commencement ceremony will be held only at the end of the spring semester. If you receive degrees, diplomas, or certificates at the end of other semesters, you will be invited to participate in the ceremony.

### **Application for Graduation**

You can obtain graduation application forms by either attending a graduation orientation session or viewing the online version at <http://www.century.edu/currentstudents/records/graduation.aspx>. You must complete a graduation orientation session in order to graduate. The application for graduation is available to you once you have completed the orientation, and you should turn the application in to the Records Office. Graduation requirements are available in the Counseling Center, room 2410 West Campus, on the website, and in chapters 5 and 6 of this catalog. Please refer to the college calendar regarding deadlines for the application. When you meet the graduation requirements, you may apply for graduation during that semester or summer session. If you would like a transcript notation for completion of the Minnesota General Education Transfer Curriculum, you must apply for that as well.

### **Time Limit for Meeting Graduation Requirements**

You must apply for graduation and follow any catalog in effect during the six-year period preceding the date of your graduation. You must declare which

catalog year requirements your graduation evaluation will follow on your graduation application. You must have attended Century College during the catalog year you select. (For technical programs, please see below).

If you are enrolled in a technical/occupational program with agency/licensing rules and regulations, you may be required to follow changes in the career course requirements that occur in the five/six year period prior to your date of graduation. Program requirements are subject to change for other unforeseen circumstances as well. These changes will be announced and published in college materials.

### **Time Limit for Meeting Technical/Occupational Graduation Requirements**

If you are enrolled in a technical/occupational program you may follow any catalog in effect during the five-year period preceding your date of graduation. You must have attended during the catalog year selected. If you have a break in your attendance for one semester or longer and return, you must meet with your program advisor and discuss your education plan. You will be required to follow any changes in the technical/occupational requirements that have occurred.

To insure you graduate with up-to-date skills, technical credits are valid for five years. This includes transfer technical credits being used for specific technical program requirements.

### **Attendance at Graduation**

Attendance at graduation is optional. You will receive an invitation to the ceremony. No formal ceremony will be held when fewer than 100 graduates plan to participate.

### **Degree Residency Requirement**

To receive a degree from Century College, you must earn 20 degree semester credits through enrollment in Century College courses.

The requirement will be reduced to 12 college-level credits for students

transferring at least 8 college-level credits from another MnSCU institution and/or the University of Minnesota. At least one third of the credits for the diploma or certificate must be earned at Century. To receive a MnTC notation on the Century College transcript, you must have attended one semester at Century College.

### **Honors at Graduation**

Associate degrees and diplomas will be awarded with distinction if you graduate with a Century College cumulative grade point average of 3.50 to 3.74 in college-level courses. Associate degrees and diplomas will be awarded with high distinction if you graduate with a Century College cumulative grade point average of 3.75 or greater in college-level courses.

### **Honors Program**

Century College offers a special invitation to you, as a student of excellence, to investigate the Honors Program. The Program welcomes you if you have already established a record of academic achievement or if are interested in seeking an academic environment wherein you can experience significant personal and intellectual growth. The program offers opportunities for new and creative courses, advantages for acceptance and transfer to other institutions, opportunities to participate in the activities of a new and challenging community of fellow students, and opportunities to build an academic record of special interest to potential employees.

### **Honors Program Entry Requirements**

Opportunity for entry to the Honors Program is extended if you are a currently enrolled student, transfer student, or a high school senior using the PSEO program. Admission to the program requires you to have an overall minimum college grade point average of 3.25, demonstrated communications skills and approval of the program director.

### **Early Warning Procedure**

A warning notice may be sent to you if you have not been attending class (including not ever showing up), have not been

## 4 Academic Policies and Information

completing assignments, or are at risk for not successfully completing the course. At the request of the instructor, a letter can be sent to you at any time, but typically at midterm (approximately the eighth week). Upon receipt of a letter, you should immediately contact your instructor to discuss the feasibility of completing course requirements. You should consider visiting with a counselor to consider options. If you are in a technical/occupational program, you should also contact your program advisor. Also, you may withdraw from the course at the Records Office or online.

Please note that some instructors may not choose to initiate an early warning letter. If you are performing inadequately in any of your courses, you are likely at risk and should meet with your instructor immediately.

### Petitions for Exceptions

If you are a currently enrolled student seeking an exception to any academic rule, regulation or procedure, you may submit an Academic Petition to the Division Dean of Academic Affairs for review and action. Appeals are directed to the Vice President of Academic Affairs whose decision is final and binding.

In order to petition for a waiver of serving either a first or second suspension and to seek re-admittance for the next academic term, you must complete an Academic Plan and a Waiver of Academic Suspension Form with the help of a counselor. Please note: Final approval of all appeals rests with the Dean of Students.

### Refund or Late Withdrawal Petitions

If you are seeking an exception to the refund policy, you must complete a Request for Refund or Late Withdrawal Petition form at the Business Office, 2340 West Campus and submit the form to the Director of Finance. Appeals are directed to the Vice President of Finance whose decision is final.

### Repeat Courses

If you repeat a course, you must complete a "Repeat of Course" form at the Records Office when you finish the repeated course.

1. Your original grade remains on the transcript, but is not computed into your GPA.
2. Grades of W and AU do not affect this policy. All courses remain on your permanent academic records.

You can repeat courses as often as you want, but only the most recent grade will be computed into the GPA (see also Grading System). You may also petition to repeat using a substitute course if the original course is not available due to changes in curriculum. Contact a counselor or program advisor for assistance.

### Restricted Course Waiver

A restriction is placed on courses that cannot be taken for credit based on completion of similar credits taken in high school or college. If you are taking a restricted course, you need an instructor's signature to receive credit for the course. The "Restricted Course Waiver" form must be submitted to the Records Office during the first five days of the semester.

### ROTC-Air Force

A cooperative program between Century College and the University of St. Thomas provides you with the opportunity to enroll concurrently in credit courses in Aerospace Studies at St. Thomas. Credit is transferable. Scholarships that pay up to full tuition are available to you, especially in engineering, mathematics, physics, and computer science. If you would like more information, please contact the Department of Aerospace Studies at the University of St. Thomas at 651.962.6320 or 1.800.328.6819, ext. 6320.

### ROTC-Army

The Army Reserve Officer Training Corps is a leadership development program designed to prepare you for commissioning as a second lieutenant in the U.S. Army. A cooperative program between Century College and the University of Minnesota provides the opportunity for you to enroll concurrently in the Army ROTC basic course. Scholarships are available to you if you have prior service, are a member of the National Guard or Army Reserve, or wish to join. Upon graduation from a four-year program,

you may serve in a full-time or part-time Army career. For more information, please contact the Department of Military Service at the University of Minnesota at (612) 626-1584 or <http://www1.umn.edu/arotc>.

### Service Learning

Service Learning is a type of experiential learning that engages you in service within the community as an integrated aspect of a course. Service Learning courses involve you in course-relevant activities in partnership with a community organization. It also structures opportunities for you to reflect on your service experience to gain a better understanding of course content and an enhanced sense of civic responsibility.

Service learning participation provides the following benefits:

- Valuable opportunities to help gain a better understanding of topics learned in the classroom
  - A way to gain greater understanding of economic, political, and cultural structures in society and how they affect and impact individual lives, families, and communities
  - Opportunity to examine your own values, attitudes, and beliefs by engaging you in new environments that lead to new questions about the world
  - Sharpening of creative problem-solving abilities, collaboration skills, and leadership skills
  - Expanding personal and professional networks, allowing the chance for career exploration
  - Fulfilling requirements for admission into some university programs "and looked upon favorably by potential employers"
  - College transcript recognition. Service learning hours are logged and listed in your official academic records.
  - Graduation recognition. If you complete at least 40 hours of service learning before college graduation, you will be noted in the commencement program and during the commencement ceremony.
- Students across the country say they enjoy and benefit from service learning. "We learn these theories in school, but until we really apply them or see them in action, they're not real."

## 4 Academic Policies and Information

At Century College, service learning

- Is integrated into specific courses at the discretion of faculty members or academic departments. Service learning students must meet specific requirements, such as serving a minimum number of hours and selecting a service site that meets certain criteria.
- Occurs on a semester basis.
- Is monitored by the Service Learning Department. The Service Learning Department communicates with community partners, students, and faculty members to ensure that needs are being met through their involvement.

For a list of courses and instructors that incorporate service learning, please contact the Director of Service Learning at 651.748.2602. For more information, please visit [www.centuryservicelearning.project.mnscu.edu](http://www.centuryservicelearning.project.mnscu.edu).

### STANDARDS OF ACADEMIC PROGRESS

Century College wants you and every student to have a successful learning experience. We maintain an open door admissions policy, assess students admitted, and provide developmental course work and other programs of assistance to support student success. However, it is your responsibility to perform at an acceptable academic level to continue enrollment.

Century College is publicly supported by Minnesota taxpayers, resulting in a significant reduction in the actual cost of enrollment. This reduction is even greater for students who are receiving financial aid. (See Financial Aid for Students, regarding Student Academic Progress for maintaining need based awards.) The College, therefore, is obligated to follow rules and regulations set forth by the state and federal governments to monitor accountability standards regarding student academic progress.

To encourage satisfactory progress, the college intervenes in appropriate ways when students experience difficulty completing courses, suggesting practices that may foster success. The Standards of Academic

Progress Policy establishes specific standards that must be met by all students enrolled in credits courses at Century College. The policy is as follows:

#### Academic Progress and Probation/ Suspension Policy

Minimum standards of academic progress are defined and measured by Century College in the following ways:

A cumulative GPA of 2.0, and a cumulative completion rate of at least 67% of credits attempted.

**1. Grade Point Average (Qualitative Measure):** You are required to maintain a minimum of a 2.0 cumulative grade point average on a 4.0 A to F scale.

**2. Completion Rate (Quantitative Measure):** You are required to maintain a completion rate of 67% of credits attempted cumulatively. Your completion rate is calculated beginning with the first attempted credit and is calculated for grades A, B, C, D, and P. Courses for which a you receive a letter grade of I, W, F, and Z are considered credits attempted and not successfully completed.

**3. Evaluation Period:** Your academic progress is monitored at the end of each academic term (Fall, Spring, and Summer semesters) beginning with the first attempted credit.

**Academic Probation:** If you do not meet the minimum cumulative 2.0 GPA or 67% completion rate standard of academic progress, you will be placed on academic probation for the next term you are in attendance. If you are on probation, you may continue attending college; however, you are expected to take corrective actions. You will remain on probation as long as your cumulative GPA is below 2.0 or your cumulative completion rate is below 67%.

**Academic Suspension:** If you are on probation and fail to meet the minimum cumulative 2.0 GPA or 67% completion rate standard of academic progress during your next term of enrollment, you will be immediately placed on suspension.

**Continued Probation Standards:** If, during your probationary period, you earn a 2.0 term GPA and a term 67% completion rate but are unable to meet the cumulative standards, you will remain on continued probation until

- a. You have met the GPA standards and completion rate standards,
  - b. You fall below standards for the term.
- If you do not meet the continued probationary standards, you will be suspended.

**Notification:** You will be notified in writing upon being placed on probation, and the notice will inform you of the conditions of the probationary period. You will be notified in writing when placed on suspension and the notice will include information about reinstatement.

**For the First Suspension:** You may not attend the college for one semester (not including summer term). After serving the suspension, you may be readmitted on probation after consulting with a counselor and submitting a signed Readmit Form to the Records Office.

**For the Second and Subsequent Suspensions:** You may not attend the college for two semesters (not including summer term). After serving the suspension, you may be readmitted on probation after consulting with a counselor and submitting a signed Readmit Form to the Records Office.

**Appeals:** In order to petition for a waiver of serving either a first or second suspension and to seek re-admittance for the next academic term, you must complete an Academic Progress Plan and a Waiver of Academic Suspension Form with the help of a counselor. Academic Progress Plans are developed with students on suspension in Pre-scheduled group sessions. Students must register to attend the suspension and meet deadline requirements. Approval of the request to waive the suspension is decided by the Satisfactory Academic Progress Committee. Final approval of all appeals rests with the Dean of Students.

**Continuation of Students Who Have Successfully Appealed:** During the term

## 4 Academic Policies and Information

of appeal, if you make successful progress as described for the continued probation (2.0 GPA and 67% completion at the term level) but have not yet met the cumulative standards, you may continue to attend the college. If you do not meet the term standard, you will be suspended again.

### **Additional Elements:**

**Treatment of Grades:** Courses for which again receive a letter grade of A, B, C, D, and P are included in the calculation of cumulative credit completion as courses successfully completed.

Courses for which you receive a letter grade of I, W, or F shall be treated as credits attempted but not successfully completed. Blank grades (Z) will be treated as credits attempted but not successfully completed.

### **Academic Forgiveness (or Amnesty):**

Credits for which you have been granted academic forgiveness will not be used in the calculation of the standard for academic progress. This differs from Financial Aid policy for Satisfactory Academic Policy.

**Course Repeats:** For a course that is repeated, the original grade will remain on the transcript but will not be used in the GPA calculation. The original course credits remain in the number of attempted credits but are removed from the credits earned calculation. While this has no punitive impact on GPA, the percentage of completion will reflect the original course as attempted but not earned.

**Transfer Credits:** Transfer credits accepted by the institution shall not be counted as credits attempted for calculation of the cumulative completion percentage, or used in calculating the cumulative GPA.

**Withdrawals:** You may withdraw from a course or courses after the posted drop period. A grade of 'W' is given and will not impact GPA. But, a withdrawal will impact completion rate negatively as credits attempted and not earned are calculated in your percentage of completion.

### **Technical Education Guarantee**

If you graduate with a State Board approved

Associate in Applied Science degree or diploma, but are judged by your employer as lacking technical job skills, you will be provided up to 12 semester credits of instruction free of charge. Certain standards apply to this guarantee. Please contact the Vice President of Student Services, West Campus, for more information or call 651.779.3929.

### **Transcripts and Diplomas**

Century College will provide diplomas and transcripts at a nominal fee. Please see tuition and fee rates online under "Business Office" or "Records." Written requests must be submitted to the College Records Office. Online requests are available through National Student Clearinghouse at [www.gettingtranscript.com](http://www.gettingtranscript.com). The College will withhold issuance of diplomas and transcripts to you until all money due the College has been paid. The only exceptions to this policy are student loans scheduled to mature at a future date.

### **Transfer Agreements**

Please see Chapter 4, Articulation Agreements.

If you are transferring credits to Century College and plan to complete a degree or program at Century College, your official transcript(s) will be evaluated as long as you are enrolled in courses at Century College for the current semester or summer and based on the date the transcript was received. Every effort will be made to evaluate transcripts in time for the next scheduled registration session and/or in time for your graduation. Detailed information is available on Century's website about transferring credits <<http://www.century.edu/currentstudents/transferservices/transferofcredit.aspx>>. You will be notified via your Century College student email address when your transfer credits have been processed and are reflected in your degree audit report (DARS <<http://www.century.edu/currentstudents/transferservices/dars.aspx>>).

eTranscripts: If you have attended or are currently attending one or more MnSCU institution(s) <<http://www.mnscu.edu/campuses/alpha.html>>, not including the

University of Minnesota, and have applied to Century College, your official transcripts from that MnSCU institution may be electronically retrieved by Century College. There is no cost for this service. Transcripts will not be able to be electronically retrieved if you have holds on your records from the MnSCU institution you previously attended including, but not limited to, unpaid balances. It is your responsibility to ensure that your records are free of holds in order for institutions to send or electronically retrieve your academic transcript. You must notify the Century College DARS and Transfer Student Services Office <<mailto:dars@century.edu>> when your records have been cleared for retrieval. Please contact the DARS and Transfer Student Services Office by email <<mailto:dars@century.edu>> or call (651) 779-3908 to verify if your transcript(s) is available. You must also notify the DARS <<http://www.century.edu/currentstudents/transferservices/dars.aspx>> and Transfer Students Services Office. <<http://www.century.edu/currentstudents/transferservices/default.aspx>>

### **Transfer of Credits to Other Institutions**

If you wish to earn a four-year degree, you should check the lower division requirements of your chosen transfer college. Since requirements and acceptance of Century College credits differs from one college to another, you should obtain a copy of the transfer college catalog or bulletin early in your first year, use the applicable Century College transfer guide sheets, discuss transfer plans with advisors from the transfer college, and work with a Century College counselor. Also, you can look up how credits transfer by using the uSelect Course Transfer System website at [www.uselectmn.org](http://www.uselectmn.org). You can also refer to Chapter 5, which contains information regarding Minnesota General Education Transfer Curriculum and Transferring to another college. Additional information is located in the Transfer Guide at the back of this catalog, or go to [www.mntransfer.org](http://www.mntransfer.org), the Minnesota Transfer website.

### **Withdrawing from Courses**

See Chapter 2, Change of Registration Policies.

## CAREER EXPLORATION AND PLANNING

Counselors are available to assist you with career exploration and career planning in the Counseling and Career Center located on West Campus, Main Entrance, Room 2410. Counselors can help you decide which programs are most appropriate for your educational goals, which may include transitioning to a new career, career advancement, transferring to a bachelor's program or continuing education. The college's GPS LifePlan, web site [www.gpslifeplan.org/century/](http://www.gpslifeplan.org/century/) can also be used to help you explore your personal career interests and goals.

If you are undecided about your career direction, you may use the counseling services and the Career Center to start your career decision-making process while taking general education courses. In the Career Center, you will find occupational information, placement data reports, interest and skill assessments, resume and interview resources, books, videos, computer career guidance programs, and Internet search information.

You are encouraged to use Minnesota Career Information System (MCIS) and Internet System for Education and Employment Knowledge (ISEEK) website: [www.iseek.org](http://www.iseek.org). These easy-to-use computerized systems will help you gather occupational information on job descriptions, aptitudes, working conditions, earnings, employment outlook, training and education required, and much more. Century also offers Career Studies courses, such as Career and Life Planning (CRRS 1010), to assist you.

## Program Requirements

### MINNESOTA GENERAL EDUCATION TRANSFER CURRICULUM

The Minnesota General Education Transfer Curriculum (MnTC) is an agreement signed by all Minnesota public higher education institutions. It is a collaborative effort among all two-and four-year public colleges and universities in Minnesota to help you transfer

your work in general education. When you complete the Minnesota General Education Transfer Curriculum at one of the participating colleges/universities and then transfer to any other Minnesota public baccalaureate degree-granting university, you will have fulfilled all lower-division general education requirements. Within the 40 credits required, there are ten goals. One course may fulfill a maximum of two goals; however, credits will only be counted once in total. If you fulfill the ten goal areas in fewer than 40 credits, you can select courses within any of the goals to achieve the 40-credit total. In addition to the 40 credit core, the AA requires you to complete 18 additional credits, which may be MnTC goal-fulfilling courses, pre-major requirements, or electives and 2 credits in Health/Physical Education. The AFA, AS and the AAS degrees and the diplomas and certificates at Century College also use MnTC courses to fulfill their general education requirements.

The Minnesota Transfer Curriculum is in place to help you meet the social, personal, and career challenges of the 21st Century. Therefore, the Minnesota Transfer Curriculum commits all public colleges and universities in the state of Minnesota to a broad educational foundation that integrates a body of knowledge and skills with a study of contemporary concerns. The goals and competencies emphasize our common membership in the human community; our personal responsibility for intellectual, life-long learning; and an awareness that we live in a diverse world. They include diverse ways of knowing—that is, the factual content, the theories and methods, and the creative modes of a broad spectrum of disciplines and interdisciplinary fields—as well as emphasis on the basic skills of discovery, integration, application and communication.

The Minnesota Transfer Curriculum is divided into ten areas of emphasis, known as goals.

You may transfer the MnTC in each of the following ways:

1. As an entire package: If you complete the transfer curriculum at one institution, it will be accepted as completion of the transfer curriculum at Century College.
2. As a goal area: completion of a goal area of the MnTC at one institution will be accepted

## Educational Program Comparison

Century College offers six types of academic programs to help you achieve a wide variety of educational and career goals. These programs are as follows:

**Associate in Arts Degree**  
**Associate in Fine Arts Degree**  
**Associate in Science Degree**  
**Associate in Applied Science Degree**  
**Occupational Diploma**  
**Certificate**

The degree programs (AA, AFA, AS, and AAS) are distinguished from one another by the distribution of credits required to earn each type of degree. The diplomas and certificates are distinguished from degrees by being specifically focused on an occupational area, or academic focus, and requiring fewer credits.

## 5 Educational Programs

as a goal completion at Century College.

3. As courses within goal areas: If you complete a course which is included as part of a goal area at the sending institution, it will be accepted for full credit within the same goal area at Century College. When a course you have taken meets requirements for two different goal areas at a sending institution, the course will be accepted in transfer at Century College for the same two goal areas.

If you would like more information, please refer to the Minnesota Transfer website at [www.mntransfer.org](http://www.mntransfer.org).

### MINNESOTA GENERAL EDUCATION TRANSFER CURRICULUM GOALS AND COMPETENCIES

#### 1. Communication

This goal is designed to help students develop as writers and speakers who use the English language effectively and who read, write, speak and listen critically. As a base, all students should complete introductory communication requirements early in their collegiate studies. Writing competency is an ongoing process to be reinforced through writing-intensive courses and writing across the curriculum. Speaking and listening skills need reinforcement through multiple opportunities for interpersonal communication, public speaking, and discussion.

#### 2. Critical Thinking

This goal is designed to help students develop as thinkers who are able to unify factual, creative, rational, and value-sensitive modes of thought. Critical thinking will be taught and used throughout the general education curriculum in order to develop students' awareness of their own thinking and problem-solving procedures. To integrate new skills into their customary ways of thinking, students must be actively engaged in practicing thinking skills and applying them to open-ended problems.

#### 3. Natural Sciences

This goal is designed to improve students' understanding of natural science principles and of the methods of scientific inquiry (i.e., the ways in which scientists investigate natural science phenomena). As a basis for

life-long learning, students need to know the vocabulary of science and to realize that, while a set of principles has been developed through the work of previous scientists, ongoing scientific inquiry and new knowledge will bring changes in some ways scientists view the world. By studying the problems that engage today's scientists, students learn to appreciate the importance of science in their lives and to understand the value of a scientific perspective.

#### 4. Mathematical/Logical Reasoning

This goal is designed to increase students' knowledge about mathematical and logical modes of thinking. Mathematics and logic will enable students to appreciate the breadth of applications of mathematics, evaluate arguments, and detect fallacious reasoning. Students will learn to apply mathematics, logic, and/or statistics to help them make decisions in their lives and careers.

#### 5. History and the Social and Behavioral Sciences

This goal is designed to increase students' knowledge of how historians and social and behavioral scientists discover, describe, and explain the behaviors and interactions among individuals, groups, institutions, events, and ideas. Such knowledge will better equip students to understand themselves and the roles they play in addressing the issues facing humanity.

#### 6. Humanities and Fine Arts

This goal is designed to expand students' knowledge of the human condition and human cultures, especially in relation to behavior, ideas, and values expressed in works of human imagination and thought. Through study in disciplines such as literature, philosophy, and the fine arts, students will engage in critical analysis, form aesthetic judgments, and develop an appreciation of the arts and humanities as fundamentals to the health and survival of any society.

#### 7. Human Diversity

This goal is designed to increase students' understanding of individual and group differences (e.g., race, gender, class) and their knowledge of the traditions and values of various groups in the United States. Students should be able to evaluate the United States'

historical and contemporary responses to group differences.

#### 8. Global Perspective

This goal is designed to increase students' understanding of the growing interdependence of nations and peoples and develop their ability to apply a comparative perspective to cross-cultural social, economic and political experiences.

#### 9. Ethical and Civic Responsibility

This goal is designed to develop students' capacity to identify, discuss, and reflect upon the ethical dimensions of political, social, and personal life and to understand the ways in which they can exercise responsible and productive citizenship. While there are diverse views of social justice or the common good in a pluralistic society, students should learn that responsible citizenship requires them to develop skills to understand their own and others' positions, be part of the free exchange of ideas, and function as public-minded citizens.

#### 10. People and the Environment

This goal is designed to improve students' understanding of today's complex environmental challenges. Students will examine the interrelatedness of human society and the natural environment. Knowledge of both biophysical principles and sociocultural systems is the foundation for integrative and critical thinking about environmental issues.

#### Technology and Information Resources

Students who complete the Minnesota General Education Transfer Curriculum are expected to use computers, libraries, and other appropriate technology and information resources which play an increasingly important role in our personal, educational, and work lives. Students will have many opportunities to use and refine technological and research skills throughout their lower-division general education.

Students who have not had experience with technology and information resources should contact a counselor or program advisor to obtain assistance in registering for appropriate courses.

## 5 Educational Programs

### MnTC DISTRIBUTION REQUIREMENTS:

#### Goal 1 - Communication:

Minimum of 10 credits including ENGL 1021, ENGL 1022 and at least one 3-credit Communication course from COMM 1021, 1031, 1041 or 1051.

#### Goal 2 - Critical Thinking:

Fulfilled when all MnTC goals are complete.

#### Goal 3 - Sciences:

Minimum of 7 credits. Two courses from two different disciplines, with at least one lab course.

#### Goal 4 - Math/Logical Reasoning:

Minimum of 3 credits. Courses must be numbered between MATH 1020 and 1082 or PHIL 1041.

#### Goal 5 - History/Social and Behavioral Sciences:

Minimum of 9 credits. Three courses from three different disciplines.

#### Goal 6 - Humanities and Fine Arts:

Minimum of 9 credits. Three courses, at least one of which must be a literature course, from three different disciplines.

#### Goal 7 - 10 - Theme Goals:

3 credits in each of four goals 7-10. NOTE: May be fulfilled by courses from Goals 1-6, since many of those courses also meet Goals 7-10, or can be fulfilled with additional courses listed separately under Goals 7-10.

**Remember:** If you fulfill the 10 goal areas in fewer than 40 semester credits, select courses within any of the goals to achieve a 40 credit total.

### MINNESOTA GENERAL EDUCATION TRANSFER CURRICULUM COURSE LIST

Courses marked with an asterisk\* in goals 1-6 will also fulfill requirements in goals 7-10, goal number listed in parenthesis ( ) after course title.

For any additions or changes in the MnTC Course List, see the Counseling Center for information.

### GOAL ONE: COMMUNICATION

#### Communication

- \* 1021-Fundamentals of Public Speaking (9)
- \* 1031-Interpersonal Communication (7)
- \* 1041-Small Group Communication (9)
- \* 1051-Intercultural Communication (8)
- \* 1053-Communication, Travel, and Tourism (8)
- \* 2011-Interviewing (9)
- \* 2033-Nonverbal Communication (7)
- \* 2071-Communication and Gender (7)
- \* 2081-Health Communication (7)

#### English

- 1021-Composition I (grade of C or better required)
- 1022-Composition II

### GOAL TWO: CRITICAL THINKING

Fulfilled when all MnTC goals are complete.

### GOAL THREE: NATURAL SCIENCES

(+ with lab)

#### Anthropology

- \* 1022-Introduction to Physical Anthropology: Human Origins (10)

#### Biology

- 1020-Biology Concepts+
- 1021-Biology of Women
- 1023-Introduction to Forensic Biology+
- 1024-Human Biology
- \* 1025-Field Biology+ (10)
- \* 1026-Plants and Society+ (10)
- \* 1028-Ecology+ (10)
- 1029-Microbes and Society: An Introduction to Microbiology+
- 1041-Principles of Biology I+
- 1042-Principles of Biology II+
- 2031-Human Anatomy & Physiology I+
- 2032-Human Anatomy & Physiology II+
- 2035-Microbiology+

#### Chemistry

- 1020-Chemistry Concepts+
- 1041-Principles of Chemistry I+
- 1042-Principles of Chemistry II+

#### Earth Science

- \*1020-Earth Science+ (10)
- \*1025-Interdisciplinary Physical and Environmental Science (10)
- \*1030-Physical Geology+ (10)
- \*1040-Energy Concepts (10)
- \*1045-Energy Concepts Lab+ (10)
- \*1050-Introduction to Meteorology (10)
- \*1055-Meteorology Lab+ (10)
- \*1060-Introduction to Oceanography (10)
- \*1080-Natural Disasters (10)

### Geography

- \*1021-Physical Geography (10)

### Physics

- 1020-Physics Concepts+
- 1041-General Physics I+
- 1042-General Physics II+
- 1070-Descriptive Astronomy
- 1075-Descriptive Astronomy Lab+
- 1081-Introductory Physics I+
- 1082-Introductory Physics II+

### GOAL FOUR: MATHEMATICAL/LOGICAL REASONING

#### Mathematics

- 1025-Statistics
- 1030-Mathematics for the Liberal Arts
- 1050-Finite Mathematics
- 1061-College Algebra I
- 1062-College Algebra II with Trigonometry
- 1070-Survey of Calculus
- 1081-Single-Variable Calculus I
- 1082-Single-Variable Calculus II

#### Philosophy

- 1041-Introduction to Logic

### GOAL FIVE: HISTORY AND THE SOCIAL AND BEHAVIORAL SCIENCES

#### Anthropology

- \*1023-Introduction to Cultural Anthropology (8)
- \*1025-Introduction to Archaeology (7)
- \*2031-Sex and Gender (8)
- \*2061-Anthropology of Human Nature (10)

#### Communication

- \*1061-Introduction to Mass Communication (9)
- \*2051-Minnesota's New Immigrants: Communication, Culture and Conflict (7)

#### Economics

- 1021-Macroeconomics
- 1023-Microeconomics

#### Geography

- \* 1023-Human Geography (8)
- \* 1031-World Regional Geography (8)
- \* 1041-Minnesota Geography (7)

#### Global Studies

- \* 2010-Introduction to Global Studies (8)

#### History

- \* 1021-Western Civilization: from Antiquity to the 18th Century (8)
- \* 1022-Western Civilization: from the 18th Century to the Present (8)
- \* 1031-United States to 1877 (7)
- \* 1032-United States Since 1877 (7)
- \* 1035-Minnesota History (9)
- \* 1051-East Asia Since 1600 (8)

## 5 Educational Programs

- \* 1061-World History 1400 to Present (8)
- \* 2041-American Myth (9)
- \* 2043-The United States Since 1945 (9)
- \* 2045-The American West: An Environmental History (10)
- \* 2051-20th Century Global Conflicts and Crises (9)
- \* 2053-Southeast Asia and the Vietnam War (8)
- \* 2061-U.S. Women's History (7)
- \* 2063-Women, Health and Medicine (7)

### Linguistics

- 2030-Introduction to Socio-Linguistics

### Political Science

- \* 1020-Introduction to Political Science (9)
- \* 1023- International Relations (8)
- \* 1031-American Government (9)
- \* 1033-State and Local Government (9)
- \* 1035-Constitutional Law (9)

### Psychology

- 1020-General Psychology
- 1030-Psychology of Adjustment
- 1041-Developmental Psychology
- \* 2021-Abnormal Psychology (7)
- \* 2043-Child Development (9)
- \* 2044-Adolescent Development (9)
- \* 2045-Adulthood, Aging and Death (9)

### Sociology

- \* 1020-Introduction to Sociology (7)
- \* 1033-Sociology of Families in Crisis (7)
- \* 1041-Sociology of Social Problems (9)
- \* 1080-Introduction to the Criminal Justice System (9)
- \* 2031-Sociology of the Family (7)
- \* 2051-Sociology of Race and Ethnicity (7)
- \* 2053-Sociology of Disability (7)
- \* 2061-Sociology of Gender and Work (7)
- \* 2071-Social Psychology (7)
- \* 2087-Criminology and Criminal Behavior (8)

### Women and Gender Studies

- \* 1061-Foundations of Women's Studies (9)
- \* 1071-Introduction to GLBT Studies (7)
- \* 2061-Women In Global Perspective (8)

### GOAL SIX: HUMANITIES AND FINE ARTS

#### Art

- \* 1020-Art Appreciation (8)
- \* 1021-Art History of the Western World I (8)
- \* 1022-Art History of the Western World II (8)
- \* 1023-American Art (7)
- 1024-2D Design
- 1025-3D Design
- 1031-Photography I
- 1041-Drawing I
- 1051-Painting I

- 1055-Watercolor
- 1071-Ceramics I
- 2031-Photography II

### English (Literature)

- 2011-American Literature: Colonial to Civil War
- \* 2012-American Literature: Civil War to Present (7)
- \* 2013-African American Literature (7)
- 2014-Minnesota Writers
- \* 2015-American Indian Literature (7)
- \* 2018-Introduction to Folklore (7)
- \* 2031-British Literature: Medieval to Romantic (8)
- \* 2032-British Literature: Romantic to Present (8)
- \* 2035-Shakespeare (8)
- 2043-Literature and Film
- \* 2051-Modern World Literature (8)
- \* 2052-Contemporary World Literature (8)
- \* 2055-Mythology (8)
- \* 2057-An Introduction to African Literature (8)
- \* 2058-Middle Eastern Literature (8)
- \* 2061-Women in Literature: British and Colonial (8)
- \* 2062-Women in Literature: American (9)
- \* 2063-Women in Literature: World Voices (8)
- 2071-Children's Literature
- 2072-Graphic Narratives: Comics as Literature
- 2073-Short Novel
- 2075-Science Fiction and Fantasy
- 2077-Mystery
- \* 2083-Latin American Literature (8)
- 2085-Bible as Literature
- \* 2095-Ethics and Environments: The Literature of Place (10)

### English (nonliterature)

- 2023-Creative Writing: Poetry & Fiction

### Humanities

- \* 1021-Introduction to the Humanities: Europe and the United States (8)
- \* 1025-Introduction to the Humanities: A World View (8)
- \* 1030-Culture and Civilization of Spanish Speaking Peoples (8)
- \* 1035-Culture and Civilization of French Speaking Peoples (8)
- \* 1040-Culture and Civilization of Chinese Speaking Peoples (8)
- \* 1041-The Art of Film (8)
- \* 1043-International Film (8)
- \* 1045-American Film (7)
- \* 1051-African American Cultural Perspectives (7)
- \* 2061-Women in the Arts (7)

### Music

- 1035-Enjoyment of Classical Music
- \* 1045-Popular Music in American Society (7)
- \* 2051-World Music (8)

### Philosophy

- 1021-Introduction to Western Philosophy
- \* 1025-Introduction to Eastern Philosophy (8)
- \* 1031-Ethics (9)
- \* 1035-Biomedical Ethics (9)
- \* 1051-World Religions (8)

### Theater

- 1020-Introduction to Theater
- 1031-Beginning Acting
- 1041-Theatre Production and Design

### Goals 7, 8, 9, 10- THEME GOALS:

Credits in each of Goals 7-10 may be fulfilled with courses listed under Goals 1-6 above (denoted with an asterisk) OR by completing additional coursework from the following lists. (One course may fulfill a maximum of two goals, but the credits are only counted once.)

### GOAL SEVEN: HUMAN DIVERSITY

#### Anthropology

- 1025-Introduction to Archaeology (5)

#### Art

- 1023-American Art (6)

#### Communication

- 1031-Interpersonal Communication (1)
- 2033-Nonverbal Communication (1)
- 2051-Minnesota's New Immigrants: Communication, Culture and Conflict (5)
- 2071-Communication and Gender (1)
- 2081-Health Communication (1)

#### English

- 2012-American Literature: Civil War to Present (6)
- 2013-African American Literature (6)
- 2015-American Indian Literature (6)
- 2018-Introduction to Folklore (6)

#### Geography

- 1041-Minnesota Geography (5)

#### History

- 1031-United States to 1877 (5)
- 1032-United States Since 1877 (5)
- 2061-U.S. Women's History (5)
- 2063-Women, Health, and Medicine (5)

#### Humanities

- 1045-American Film (6)
- 1051-African American Cultural Perspectives (6)
- 2061-Women in the Arts (6)

## 5 Educational Programs

### Music

1045-Popular Music in American Society (6)

### Psychology

2021-Abnormal Psychology (5)

### Sociology

1020-Introduction to Sociology (5)

1033-Sociology of Families in Crisis (5)

2031-Sociology of the Family (5)

2051-Sociology of Race and Ethnicity (5)

2053-Sociology of Disability (5)

2061-Sociology of Gender and Work (5)

2071-Social Psychology (5)

### Women and Gender Studies

1071-Introduction to GLBT Studies (5)

## GOAL EIGHT: GLOBAL PERSPECTIVE

### Anthropology

1023-Introduction to Cultural Anthropology (5)

2031-Sex and Gender (5)

### Art

1020-Art Appreciation (6)

1021-Art History of the Western World I (6)

1022-Art History of the Western World II (6)

### Chinese

1011-Beginning Chinese I

1012-Beginning Chinese II

2021-Intermediate Chinese I

2022-Intermediate Chinese II

### Communication

1051-Intercultural Communication (1)

1053-Communication, Travel, and Tourism (1)

### English

2031-British Literature: Medieval to Romantic (6)

2032-British Literature: Romantic to Present (6)

2035-Shakespeare (6)

2051-Modern World Literature (6)

2052-Contemporary World Literature (6)

2055-Mythology (6)

2057-An Introduction to African Literature (6)

2058-Middle Eastern Literature (6)

2061-Women in Literature-British and Colonial (6)

2063-Women in Literature-World Voices (6)

2083-Latin American Literature (6)

### French

1011-Beginning French I

1012-Beginning French II

2021-Intermediate French I

2022-Intermediate French II

### Geography

1023-Human Geography (5)

1031-World Regional Geography (5)

### Global Studies

2010-Introduction to Global Studies (5)

### History

## 5 Educational Programs

### Preparation for a Bachelor's Degree

An Associate in Arts degree allows you to complete both general education requirements and pre-major requirements for a wide range of majors and programs at four-year colleges and universities. You should consult with a Century counselor so that you can be sure courses taken at Century fulfill the requirements of a particular field of study, and contact the transfer institution.

Listed below are examples of the bachelor's degree or pre-professional programs you may begin at Century:

Accounting	Information Technology
Agriculture	Industrial Relations
American Studies	Journalism
Anthropology	Law*
Architecture	Library Science
Art	Linguistics
Art Education	Marketing
Art History	Mathematics
Astronomy	Medical Technology*
Biology	Medicine*
Business Admin	Mortuary Science
Chemistry	Music
Chiropractic*	Music Education
Child Psychology	Nursing
Chinese	Occupational Therapy*
Computer Science	Philosophy
Criminal Justice	Physical Education
Dentistry*	Physical Therapy*
Economics	Physics
Educ., Early Childhood, Elementary, Secondary	Physiology
Engineering	Political Science
English	Psychology
Forestry	Recreation
French	Social Work
Geography	Sociology
Global Education**	Spanish
History	Speech-Communication
Horticulture	Statistics
Human Ecology	Theater
Human Service	Veterinary Medicine*
	Women and Gender Studies*

\*Pre-professional programs

\*\*Century College Certificate available; see program listing.

### Transferring to Another College

Minnesota's public colleges and universities are working to make transfer easier for you. You can help if you plan ahead, ask questions, and use the established pathways created by transfer agreements. Century counselors will assist you in planning the sequence of courses necessary to fulfill transfer program requirements. You can find copies of transfer guides for many of these programs in the Counseling Center, West Campus. In addition, many colleges and universities send representatives to Century to answer your questions.

If you are thinking about transferring, please follow these steps:

1. Discuss your plans with a Century counselor.
2. Call or visit your intended transfer college and the website. Obtain the following materials and information:
  - college catalog
  - transfer brochure
  - information on admissions criteria and on materials required for admission (e.g., portfolio, transcripts, test scores, etc.). Please remember that some majors have limited enrollments or their own special requirements such as a higher grade point average.
  - information on financial aid (how to apply and the dead-line date).
3. After you have reviewed these materials, make an appointment to talk with an advi-

sor/counselor in the college or program you want to enter. When you meet, be sure to ask about course transfer and admission criteria.

4. Refer to the Transfer Guide located at the back of the catalog, the Minnesota Transfer website [www.mntransfer.org](http://www.mntransfer.org), and the uSelect Course Transfer System website [www.uselectmn.org](http://www.uselectmn.org)

In addition, each fall, Century College Counseling Center hosts "Transfer Information Days" for students which can help you in your planning process. See the Century website or Student Newsletter for dates and more information.

### Transfer Articulation Agreements

Articulation agreements facilitate your credit transfer and provide you with a smooth transition from one related degree program to another. Century College has formed articulation agreements with a number of public and private institutions of higher learning in Minnesota, North Dakota and Wisconsin to help you with your transfer goals, go to [www.mntransfer.org/students/plan/s\\_agreements.php](http://www.mntransfer.org/students/plan/s_agreements.php) to search by program or institution. Please see a counselor if you would like to see specific agreement benefits and requirements or if you need in further help or information.

## 5 Educational Programs

### Transfer Articulation Agreement List

Century College	Degree/Major Offered		Transfer Institution
AA/MnTC			All Minnesota State Colleges and Universities, University of Minnesota, Augsburg College, College of St. Scholastica, Concordia University-St. Paul, North Dakota State University, University of North Dakota
AA			University of Wisconsin-River Falls/Stout
AA	BA	English with TESL BS Minor	St. Cloud State University
AA	BS	Elementary Education	Augsburg
AA	BA	Education, Kinesiology	Concordia University
AA/AS			Capella University, Northland College

### Course by Course Articulation Agreement List

Century College Courses—See Guidesheets in Counseling	BS	Community Health	St. Cloud State University
Century College Courses—See Guidesheets in Counseling	BS	Health Education	St. Cloud State University
Century College Courses—See Guidesheets in Counseling	BS	Physical Education	St. Cloud State University

New articulation agreements are pursued on an on-going basis. There may be additional agreements reached after the printing of this catalog. Consult a counselor or go to the Minnesota State Colleges and Universities website, [http://www.mntransfer.org/students/plan/s\\_agreements.php](http://www.mntransfer.org/students/plan/s_agreements.php), to learn if additional agreements have been reached in your area of interest.

### Understanding How Transfer of Credits Works

1. The receiving college or university decides which credits transfer and whether those credits meet its degree requirements. The accreditation of both your sending and your receiving institution can affect whether the credits you earn will transfer.
2. Institutions accept credits from courses and programs that are similar to those they offer. They look for similarity in course goals, content, and level.
3. Not everything that transfers will help you graduate. Baccalaureate degree programs usually count credits in three categories: general education; major/minor courses and prerequisites; and electives. The key question is, "Will your credits fulfill the requirements of the degree or program you choose?"
4. If you change your career goal or major, you might not be able to complete all degree requirements within the usual number of graduation credits. If you change your degree/major program, complete the Student Change of Information form at the Records Office.

### Applying for Transfer Admission

1. Completing an Application for Admission is always the first step in transferring. Fill out the application early to beat the deadline. Send the application fee.
2. Request that official transcripts be sent from every institution you have attended. You may be required to provide a high school transcript or GED test scores as well. Failure to send a transcript from a school you have attended can result in serious consequences such as dismissal.
3. Confirm that you have supplied the college or university with all the necessary documentation. Most colleges make no decisions until all required documents are in your file.
4. After the college notifies you that you have been accepted for admission, request that your submitted transcript's credits be evaluated for transferable credits. Ask that a written evaluation be provided for you.
5. If you have questions about your evaluation, speak with a Counselor or the DARS Transfer Office. Ask why judgments were made about specific courses. Many concerns

can be cleared up if you understand why the decisions were made. If you are not satisfied, you can appeal. See "Your Rights as a Transfer Student" below.

### Your Rights as a Transfer Student

As a transfer student, you have the right to the following:

1. A clear, understandable statement of an institution's transfer policy.
2. A fair credit review and an explanation of why credits were or were not accepted.
3. A copy of the formal appeals process. Common appeal steps are as follows:
  - a) You fill out an appeal form. Supplemental information you provide to reviewers - a syllabus, course description, or reading list - can help.
  - b) Department or committee will review.
  - c) You will receive, in writing, the outcome of the appeal.
  - d) You can petition the decision.
4. At your request, a review of your eligibility for financial aid or scholarships.

If you would like help with your transfer questions or problems, please see a Century College counselor.

## Associate in Arts Degree

### Overview

The Associate in Arts degree (AA) is intended primarily for students who plan to transfer to another college to complete a bachelor's

degree. It can be considered the first two years of a four-year degree program. The AA degree is a general liberal arts degree, and no specific major is listed in conjunction with the degree. However, you may choose to concentrate in a particular field of study as preparation for a planned major at a four-year college or university. You must take at least 40 of the 60 credits within the Minnesota General Education Transfer Curriculum (MnTC) outlined in the preceding section. If you plan to transfer to a four-year college or university, you should work with one of Century's counselors prior to, and during, enrollment at Century College to help you plan an appropriate program (both general education and major requirements).

An agreement with the Minnesota State Colleges and Universities (MnSCU) provides that Century College's Associate in Arts Degree or MnTC will satisfy all of the lower-division general education requirements of any of the state universities.

An agreement with the University of Minnesota provides that an Associate in Arts Degree or MnTC will satisfy the Liberal Education requirements.

Century also has agreements with private and out-of-state colleges/universities (e.g., Augsburg College, College of St. Scholastica, Concordia University-St. Paul, University of Wisconsin-River Falls, University of Wisconsin-Stout, North Dakota State University and University of North Dakota) to allow easy transfer of the AA degree.

# 5 Educational Programs

## General Requirements for AA degree

1. At least 60 earned college-level credits (numbered 1000 or above). Of the credits applied toward the Associate in Arts Degree, you must earn at least 20 credits at Century College.
2. A grade of C or better in ENGL 1021.
3. Century college-level GPA of 2.0 and MnTC GPA of 2.0.

## Total credits required for an AA degree 60

Minnesota General Education	
Transfer Curriculum.....	40
Electives, additional MnTC, and/or pre-major.....	18
Physical Education/Health Required.....	2

## MnTC Distribution Requirements for the AA Degree (or MnTC Notation):

### Goal 1 - Communication:

Minimum of 10 credits including ENGL 1021, ENGL 1022, and at least one 3-credit Communication course from COMM 1021, 1031, 1041, or 1051.

### Goal 2 - Critical Thinking:

Fulfilled when all MnTC goals are complete.

### Goal 3 - Sciences:

Minimum of 7 credits. Two courses from two different disciplines, with at least one lab course.

### Goal 4 - Math/Logical Reasoning:

Minimum of 3 credits. Courses must be numbered between MATH 1020 and 1082 or PHIL 1041.

### Goal 5 - History/Social and Behavioral Sciences:

Minimum of 9 credits. Three courses from three different disciplines.

### Goal 6 - Humanities and Fine Arts:

Minimum of 9 credits. Three courses, at least one of which must be a literature course, from three different disciplines.

### Goal 7 - 10 - Theme Goals:

3 credits in each of four Goals 7-10. NOTE: May be fulfilled by courses from Goals 1-6, since many of those courses also meet Goals 7-10, or can be fulfilled with additional courses listed separately under Goals 7-10.

**Remember:** If you fulfill the 10 goal areas in fewer than 40 semester credits, select courses within any of the goals to achieve a 40 credit total.

**NOTE:** For goal course options, see MnTC course list on pages 35-37.

### Health/Physical Education:

Minimum of 2 credits in Health/Physical Education, with at least one Physical Education activity course.

### Recommended

**Computer Literacy:** Recognizing the importance of computer literacy in the world today, Century College recommends you develop computer skills appropriate for your major field by either selecting courses that are computer based or selecting a course(s) that will fulfill this need.

## Associate in Fine Arts Degree

### Overview

The Associate in Fine Arts degree (AFA) is primarily intended for those students who plan to transfer to another college to complete a bachelor's degree. It can be considered the first two years of a four-year degree program. The AFA degree is a liberal arts degree with a concentration in a designated discipline in the fine arts.

### AFA Degree Program

AFA in Music

**Transfer note:** Please see page 39 for articulation information and a Century counselor for specific transfer assistance.

1. At least 64 earned college-level credits (numbered 1000 or above). Of the credits applied toward the Associate in Fine Arts Degree, at least 20 must be earned at Century College.
2. A grade of C or better in Engl 1021.
3. Century college-level GPA of 2.0; required fine arts core courses GPA of 2.0; MnTC GPA of 2.0.
4. For any specific course grade requirements

in programs, see Chapter 6, the Counseling Center, or program advisor.

## Total credits required for an AFA degree 64

Minnesota General Education	
Transfer Curriculum.....	30
Specific Fine Arts Discipline.....	34

### MnTC Distribution Requirements for the AFA degree:

Credit and course requirements are unique for each program. Refer to the curriculum requirements listed in Chapter 6, Programs of Study for specific requirements of the AFA degree program.

## Associate in Science Degree

### Overview

The Associate in Science degree (AS) is primarily intended for you if you wish to balance liberal arts education with career-oriented classes. The primary purpose of the degree is to provide the credentials for a specific career and prepare you for admission to an upper-division college. The extent to which your credits transfer to a four-year college varies somewhat with the specific program completed and the subsequent major selected (see note below). Approximately one-half of the coursework consists of Minnesota General Education Transfer Curriculum (liberal arts and general education) credits and one-half is comprised of career or occupational courses.

### AS Degree Programs

Business Administration  
 Chemical Dependency  
 Computer Information Systems  
 Computer Science  
 Criminal Justice  
 Education  
 Engineering  
 Horticulture  
 Human Services  
 Law Enforcement  
 Nursing

## 5 Educational Programs

**Transfer note:** While the AS degree has more limited general transferability than the AA degree, specific transfer agreements do exist with selected upper-division colleges. Please see page 40 and a Century counselor for specific information.

### General Requirements for the AS degree:

1. At least 60 earned college-level credits (numbered 1000 or above). Of the credits applied toward the Associate in Science Degree, you must earn at least 20 credits at Century College.
2. A grade of C or better in ENGL 1021.
3. Century college-level GPA of 2.0; required career and occupational courses GPA of 2.0; MnTC GPA of 2.0.
4. For any specific course grade requirements in programs, please see Chapter 6, the Counseling Center, or program advisor.

### MnTC Distribution Requirements for the AS degree:

The minimum Minnesota General Education Transfer Curriculum distribution requirements for the AS degree are listed below. Credit and course requirements are unique for each program. Please refer to the curriculum requirements listed in Chapter 6, Programs of Study, for specific requirements of each AS degree program.

### Required MnTC Distribution:

#### Goal 1 - Communication:

Minimum of 7 credits including ENGL 1021, Composition I and at least one 3-credit Communication course from COMM 1021, 1031, 1041 or 1051.

#### Goal 2 - Critical Thinking:

Fulfilled when all MnTC goals complete.

#### Goal 3 and/or 4 - Sciences/Math/Logical Reasoning:

Minimum of 6 credits; two courses from either Goal 3 and/or 4. NOTE: Goal 3 courses do not have to be lab courses. Goal 4 courses must be numbered between MATH 1020 and 1082 or PHIL 1041.

#### Goal 5 - History/Social and Behavioral Sciences:

Minimum of 6 credits. Two courses from two different disciplines.

#### Goal 6 - Humanities and Fine Arts:

Minimum of 6 credits. Two courses from two different disciplines.

#### Goal 7 - 10 - Theme Goals:

3 credits in each of two Goals 7-10. NOTE: May be fulfilled by courses from Goals 1-6, since many of those courses also meet Goals 7-10, or can be fulfilled with additional courses listed separately under Goals 7-10

**NOTE:** For goal course options, please see MnTC course list on pages 35-37.

### Recommended

#### Health/Physical Education:

In recognition of the importance of health and wellness to a thriving society and personal well-being, it is recommended that you take courses that emphasize life-long health, fitness, and wellness.

#### Computer Literacy:

Recognizing the importance of computer literacy in the world today, it is recommended that you develop computer skills appropriate for your major field by either selecting courses that are computer based or selecting a course(s) that will fulfill this need.

## Associate in Applied Science Degree

### Overview

The Associate in Applied Science degree (AAS) is primarily intended if you plan to use the competence gained through your degree for immediate employment. The AAS degree is granted in a specific major and typically at least one-half of the coursework is in the program area, approximately one-third is from Minnesota General Education Transfer Curriculum (general education and liberal arts), and the balance of credits are either in your program area or general education depending on the specific program you chose.

### AAS Degree Programs

Accounting  
Auto Body Technology  
Business Management  
Computer Forensics

Cosmetology  
Criminal Justice  
Dental Assistant  
Dental Hygiene  
Education  
Engineering CAD Technology  
Facility Systems Technology  
Heating, Ventilation and Air Conditioning Technology  
Horticulture  
Information and Telecommunications Technology  
Interior Design  
Investigative Sciences  
Law Enforcement  
Marketing: Marketing Communications Technology  
Marketing: Marketing Management  
Microcomputer Support Technology  
Office Technology: Administrative Assistant  
Office Technology: Medical Office  
Orthotic Technology  
Paramedic Technology  
Public Safety  
Prosthetic Technology  
Radiologic Technology  
Renewable Energy  
Translating and Interpreting  
Visual Communications Technologies

**Transfer note:** The AAS degree is not designed to transfer to an upper-division college. However, the Minnesota General Education Transfer Curriculum courses typically do transfer and some of the career-oriented courses taken at Century may also transfer to specific majors at selected colleges or universities. Also, some articulation agreements exist between programs and upper division colleges, please see page 39. If you would like more information about transferring credits to other colleges and universities, please consult with a Century counselor for assistance.

### General Requirements for the AAS degree:

1. At least 60 earned college-level credits (numbered 1000 or above). Of the credits applied toward the Associate in Applied Science Degree, you must earn at least 20 must be earned at Century College.
2. A grade of C or better in ENGL 1021.
3. Century college-level GPA of 2.0; required career and occupational courses GPA of 2.0; and MnTC GPA of 2.0.

## 5 Educational Programs

4. For any specific course grade requirements in programs, please see Chapter 6, the Counseling Center, or program advisor.

### MnTC Distribution Requirements for the AAS degree:

The minimum Minnesota General Education Transfer Curriculum distribution requirements for the AAS degree are listed below. Credit and course requirements are unique for each program. Please refer to the curriculum requirements listed in Chapter 6, Programs of Study, for specific requirements of each AAS degree program.

#### Required MnTC Distribution:

##### Goal 1 - Communication:

Minimum of 7 credits including ENGL 1021, Composition I, and at least one 3-credit Communication course from COMM 1021, 1031, 1041 or 1051.

##### Goal 2 - Critical Thinking:

Fulfilled when all MnTC goals complete.

##### Goal 3 and/or 4 - Sciences/Math/Logical Reasoning:

Minimum of 3 credits; one course from either Goal 3 and/or 4. NOTE: Goal 3 courses do not have to be lab courses. Goal 4 courses must be numbered between MATH 1020 and 1082 or PHIL 1041.

##### Goal 5 - History/Social and Behavioral Sciences:

Minimum of 3 credits.

##### Goal 6 - Humanities and Fine Arts:

Minimum of 3 credits.

##### Goal 7 - 10 - Theme Goals:

3 credits in one of the four Goals 7-10. NOTE: May be fulfilled by courses from Goals 1-6, since many of those courses also meet Goals 7-10, or can be fulfilled with additional courses listed separately under Goals 7-10.

**NOTE:** For goal course options, see MnTC course list on pages 35-37.

#### Recommended

Health/Physical Education:

In recognition of the importance of health and wellness to a thriving society and personal well-being, it is recommended that students take courses that emphasize life-long health, fitness, and wellness.

#### Computer Literacy:

Recognizing the importance of computer literacy in the world today, it is recommended that students develop computer skills appropriate for their major fields by either selecting courses that are computer based or selecting a course(s) that will fulfill this need.

## Certificates and Diplomas

### Overview

Occupational diplomas and certificates are intended for those students who want to focus on learning specific occupational skills and use them for immediate employment or career advancement. Century offers certificates with up to 30 credits and 31 to 48-credit occupational diplomas.

### Diploma and Certificate Program Areas

Accounting  
Auto Body Technology  
Automotive Service Technology  
Chemical Dependency  
Computed Tomography  
Computer Forensics  
Cosmetology  
Cosmetology-Nail Care Technician  
Criminal Justice  
Dental Assistant  
Dental Practice Management  
Education  
Emergency Medical Services  
Engineering CAD Technology  
Facility Systems Technology  
Fire Services  
Global Studies  
Heating, Ventilation, and Air Conditioning Technology  
Horticulture  
Human Services  
Information and Telecommunications Technology

Interior Design/Home Furnishing  
Kitchen and Bath Design  
Marketing  
Marketing: Specialty  
Medical Assistant  
Microcomputer Support Technology  
Nursing Assistant  
Office Technology: General  
Office Technology: Medical  
Orthotic Technology  
Paramedic Technology  
Prosthetic Technology  
Public Safety  
Renewable Energy  
Sports Facilities Management  
Visual Communications Technologies  
Women and Gender Studies

Century offers academic certificates in Global Studies and Women and Gender Studies.

### General Requirements:

1. Diplomas: At least 31 earned college-level credits, Certificates: up to 30 earned college-level credits.
2. Century college-level GPA of 2.0; required career and occupational courses GPA of 2.0; MnTC GPA of 2.0.
3. A grade of C or higher in ENGL 1021 IF this is the Goal 1 course selected. (Exception: 16 credit, or less, certificates)
4. For any specific course grade requirements in programs, see Chapter 6, the Counseling Center, or program advisor.

The minimum distribution requirements are listed above. Credit and course requirements are unique to each program. Please refer to the curriculum requirements listed in the next chapter of the catalog, for specific requirements of each program.

A minimum of one third of the credits must be earned at Century College.

**NOTE:** For goal course options, see MnTC course list on pages 35-37.

## 6 Programs of Study

### References to the Minnesota General Education Transfer Curriculum (MnTC)

Throughout the following curriculum listings, notations such as “MnTC Goal 5 - History/Behavioral and Social Sciences” are used in place of specific course numbers. These notations refer to the goals of the Minnesota General Education Transfer Curriculum found in this catalog on pages 33-35. These goal areas list the specific courses from which students may choose to fulfill the requirements of the program.

For example, if a program requires a non-specified, three-credit course in humanities, the curriculum list would include “Goal 6 - Humanities and Fine Arts: 3 credits.” This means that any three-credit course listed under Goal 6 of the Minnesota General Education Transfer Curriculum could be used to fulfill that requirement.

Students should be aware that it may be necessary to select additional MnTC credits beyond the minimum required in each goal area to reach the total MnTC/General Education credits required for their degree or program.

See the Counseling Center or Century website for any changes or additions to the MnTC Course List.

### Educational Programs of Study Index

Accounting  
Associate in Arts Degree (see chapter 5)  
Auto Body Technology  
Automotive Service Technology  
Business  
    Administration  
    Management  
Chemical Dependency  
Computer  
    Computer Forensics  
    Computer Information Systems  
    Computer Science  
    Information and Telecommunications Technology  
    Microcomputer Support Technology  
Cosmetology  
    Nail Care Technician  
Criminal Justice  
    Investigative Sciences  
Dental Assistant  
Dental Hygiene

Education  
Emergency Medical Services  
    Emergency Medical Technician  
    Paramedic Technology  
Engineering  
Engineering CAD Technology  
Facility Systems Technology  
Global Studies  
Heating, Ventilation, and Air Conditioning Technology  
Horticulture  
Human Services  
Interior Design  
    Home Furnishing Sales  
    Kitchen and Bath Design  
Law Enforcement  
    Investigative Sciences  
Marketing  
    Marketing Management  
    Marketing Specialty  
    Marketing Communications  
Medical Assistant  
MnTC (Minnesota General Education Transfer Curriculum) (see chapter 5)  
Music-Fine Arts  
Nursing (RN)  
Nursing Assistant  
Office Technology  
    General  
    Medical  
Orthotic Technology  
Prosthetic Technology  
Public Safety  
Radiologic Technology  
Renewable Energy  
Sports Facilities Management  
Translating and Interpreting  
Visual Communications Technologies  
Women and Gender Studies

The following pages provide a listing of the required curriculum for each program of study at Century College. Also, check program guide sheets in the Counseling Center and on the Century Website for any mid-year changes or updates. Students are strongly encouraged to meet with a Century counselor and a program advisor to plan their course of study to assure that specific courses fulfill the requirements of their program.

## 6 Programs of Study

### Accounting

#### Program Options:

- Accounting Clerk Certificate (9)
- Accounting Technician Certificate (30)
- Accountant Diploma (45)
- Accounting AAS Degree (64)

#### Certificate

##### Accounting Clerk

**Total Number of Credits: 9**

**Program Description:** This program is intended for individuals who are seeking an entry-level accounting position. It is ideal for someone seeking an accounts receivable, accounts payable, payroll clerk, or accounting clerk position. It is also for those students wanting a base for starting on a longer accounting program.

#### Career/Occupational Requirements: 9 credits

ACCT	1010	Introduction to Accounting	3
ACCT	1020	Payroll Accounting	3
ACCT	1030	Computerized Accounting Applications	3

#### Certificate

##### Accounting Technician

**Total Number of Credits: 30**

**Program Description:** A comprehensive exposure to accounting practice fundamentals. Graduates are prepared for entry-level jobs as accounts payable clerks, accounts receivable clerks, payroll clerks, inventory clerks, tellers, bookkeepers, etc.

**Application Requirements:** Skills in keyboarding (30 WPM or OFFT 1001 recommended)

#### Core Requirements: 9 credits

ACCT	1010	Introduction to Accounting	3
BMGT	1020	Introduction to Business	3

CAPL	1010	Introduction to Software Applications	OR
CSCI	1020	*Introduction to Personal Computers and Information Systems	3

#### Career/Occupational Requirements: 9 credits

ACCT	1020	Payroll Procedures	3
ACCT	1030	Computerized Accounting Applications	3

BMGT	1030	Survey of Business Economics	OR
ECON	1021	*Macroeconomics	3

**General Education/MnTC Requirements: 3 credits**

#### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

#### Additional Requirements:

Sufficient credits to total 30\*

ACCT 2020 recommended

\*See Counselor for assistance in selecting course(s)

#### Diploma

##### Accountant

**Total Number of Credits: 45**

**Program Description:** An expanded exposure to accounting practice. Graduates are prepared for entry-level jobs as junior accountants, full charge bookkeepers, associate accountants, accountants, etc.

**Application Requirements:** Skills in keyboarding (30 WPM or OFFT 1001 recommended)

#### Career/Occupational Requirements: 31 credits

ACCT	1010	Introduction to Accounting	3
ACCT	1020	Payroll Procedures	3
ACCT	1030	Computerized Accounting Applications	3
ACCT	1040	Federal Income Taxation	3
ACCT	2025	Managerial Accounting	3
ACCT	2050	Intermediate Accounting	4
ACCT	2060	Professional Issues in Accounting	3
BMGT	1020	Introduction to Business	3

BMGT	1030	Survey of Business Economics	OR
ECON	1021	*Macroeconomics	3

CAPL	1010	*Introduction to Software Applications	OR
CSCI	1020	Introduction to Personal Computers and Information Systems	3

**General Education/MnTC Requirements: 7 credits**

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses:

COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

#### Additional Requirements:

Sufficient credits to total 45\*

ACCT 2020 and 2025 recommended

\*See Counselor for assistance in selecting course(s)

## 6 Programs of Study

### Associate in Applied Science Degree Accounting

**Total Number of Credits: 64**

**Program Description:** This degree is designed to prepare the student for entry level positions ranging from management of accounts payable and accounts receivable to a position that requires the professional skills to be a full charge accountant. The second year of the program will emphasize research of financial and managerial accounting topics, the development of professional contracts and the writing of professional reports. The graduate will find employment opportunities in profit and nonprofit entities.

**Application Requirements:** Proficiency in keyboarding (30 WPM or OFFT 1001)

Career/Occupational Requirements: 43 credits

ACCT	1020	Payroll Procedures	3
ACCT	1030	Computerized Accounting Applications	3
ACCT	1040	Federal Income Taxation	3
ACCT	2020	Financial Accounting	3
ACCT	2025	Managerial Accounting	3
ACCT	2050	Intermediate Accounting	4
ACCT	2060	Professional Issues in Accounting	3
ACCT	2070	Accounting Cases and Applications	3
BMGT	1020	Introduction to Business	3
BMGT	1030	*Survey of Business Economics	OR
ECON	1021	Macroeconomics	3
BMGT	2060	Business Communications	3
BMGT	2090	Business Finance	3
CSCI	1020	Introduction to Personal Computers and Information Systems	3
CSCI	1021	Spreadsheet and Database Software	3
		OR	
CAPL	1025	Microsoft Excel	3
		AND	
CAPL	1027	Microsoft Access	3

General Education/MnTC Requirements: 21 credits

**Goal 1 - Communication: 7 credits**

ENGL	1021	Composition I	4
		Select one of the following COMM courses:	3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 8 credits**

MATH	1025	Statistics	4
MATH	1061	College Algebra I	4

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7-10: Three credits in one of the four goals**

**Additional Requirements:**

Sufficient credits to total 64

\*See Counselor for assistance in selecting course(s).

## Auto Body Technology

**Program Options:**

Nonstructural Repair Certificate (30)

Automotive Body Technician Diploma (36)

Automotive Body Technology AAS (64)

**Certificate**

**Nonstructural Repair**

**Total Number of Credits: 30**

**Program Description:** This certificate is designed for students interested in repairing minor impact damage and car detailing. Students may be employed in entry-level positions, such as painters' helpers.

**Application Requirements:** Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a grade of "C" or higher; assessment score placement in MATH 0030 or completion of MATH 0010 with a grade of "C" or higher; and assessment score placement in ENGL 0090 or completion of ENGL 0080 with a grade of "C" or higher.

Career/Occupational Requirements: 27 credits

ABOD	1000	Introduction to Auto Body Trade	4
ABOD	1010	Introduction to Welding for Auto Body	4
ABOD	1020	Auto Body Sheet Metal	2
ABOD	1030	Introduction to Auto Body Refinishing	4
ABOD	1040	Corrosion Protection and Body Fillers	3
ABOD	1050	Glass Trim and Hardware	2
ABOD	1060	Collision Repair and Overall Refinishing	3
ABOD	1070	Auto Body Electrical and Mechanical Components	5

General Education/MnTC Requirements: 3 credits

**Goal 1 - Communication: 3 credits**

Select one of the following communication courses:

ENGL	1021	Composition I	
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

## 6 Programs of Study

### Diploma

#### Automotive Body Technician

**Total Number of Credits: 36**

**Program Description:** This award is designed to expose students to all facets of the auto body industry: unibody and frame, computer estimating, damage analysis, refinishing, and major structural repair. This diploma prepares students to meet the collision industry's expectations of a quality entry-level technician.

**Application Requirements:** Completion of Nonstructural Repair Certificate or instructor consent

#### Career/Occupational Requirements: 30 credits

ABOD	2000	Specialty Refinishing	4
ABOD	2010	Computer Estimating	2
ABOD	2020	Unibody and Frame Damage	4
ABOD	2030	Major Collision Lab	5
ABOD	2040	Auto Body Management	1
ABOD	2050	Refinishing Lab	4
ABOD	2060	General Auto Body Lab	4
ABOD	2070	Mechanical Suspension and Wheel Alignment Lab	6

#### General Education/MnTC Requirements: 6 credits

Select one of the following communication courses:

ENGL	1021	Composition I	
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	
General Education/MnTC Electives			2-3

### Associate in Applied Science Degree

#### Auto Body Technology

**Total Number of Credits: 64**

**Program Description:** The degree is designed to expose students to all facets of the auto body industry: unibody and frame; computer estimating; damage analysis; refinishing; and major structural repair. This degree prepares students to meet the collision industry's expectations of a quality entry-level technician. In addition to these core concepts, the general education courses required will help ensure individuals have the necessary oral, written, and critical-thinking skills to help them with their professional responsibilities.

**Application Requirements:** Completion of Nonstructural Repair Certificate or consent of instructor

#### Core Requirements: 12 credits

ACCT	1010	Introduction to Accounting	3
BMGT	1020	Introduction to Business	3
CAPL	1010	Introduction to Software Applications	3
Select one of the following courses:			3
BMGT	2035	Human Relations in Business	

MKTG	2005	Entrepreneurship Fundamentals
MKTG	2050	Principles of Marketing

#### Career/Occupational Requirements: 30 credits

ABOD	2000	Specialty Refinishing	4
ABOD	2010	Computer Estimating	2
ABOD	2020	Unibody and Frame Damage	4
ABOD	2030	Major Collision Lab	5
ABOD	2040	Auto Body Management	1
ABOD	2050	Refinishing Lab	4
ABOD	2060	General Auto Body Lab	4
ABOD	2070	Mechanical Suspension and Wheel Alignment Lab	6

#### General Education/MnTC Requirements: 20 credits

##### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7 – 10 - Three credits in one of the four goals**

**Additional requirements:**

Sufficient credits to total 64

## Auto Service Technology

### Program Options:

Basic Automotive Service Certificate (27)

Automotive Service Technician Diploma (64)

The Automotive Service Technology Program has been evaluated by the National Automotive Technicians Education Foundation (NATEF) and is certified by the National Institute for Automotive Service Excellence (ASE).

### Certificate

#### Basic Automotive Service

**Total Number of Credits: 27**

**Program Description:** This program provides workplace safety training and prepares the student to perform automotive repairs in the following areas: tire service, lubrication, exhaust, body electrical, starting and charging systems, brakes, steering and suspension, wheel alignment and

## 6 Programs of Study

standard drive train. The student will receive training to take the (ASE) Certification Tests in the following areas: Electrical/Electronic Systems, Brakes, Suspension and Steering, and Manual Drive Train and Axles.

**Application Requirements:** Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a grade of "C" or higher; assessment score placement in MATH 0030 or completion of MATH 0010 with a grade of "C" or higher; assessment score placement in ENGL 0090 or completion of ENGL 0080 with a grade of "C" or higher. An Automotive Service Technology program application must be completed and submitted to admissions before entering the program.

### Career/Occupational Requirements: 27 credits

AST	1005	Automotive Workplace Safety	1
AST	1015	Automotive Brakes	4
AST	1025	Steering and Suspension Systems	3
AST	1035	Four Wheel Alignment	4
AST	1045	Standard Drive Train	4
AST	1055	Automotive Service	2
AST	1065	Electrical Principles	3
AST	1075	Body Electrical Systems	2
AST	1085	Starting and Charging Systems	4

### Diploma

#### Automotive Service Technician

**Total Number of Credits: 64**

**Program Description:** This program provides workplace safety training and prepares the student to perform automotive repairs in the following areas: tire service, lubrication, exhaust, body electrical, starting and charging systems, brakes, steering and suspension, wheel alignment, standard drive train, automatic transmission, engine repair and diagnosis, cooling system, emission control, computer systems, fuel injection, engine performance maintenance, supplemental restraint systems, and air conditioning. The student will also be prepared to take the (ASE) Certification Tests in the following areas: Electrical/Electronic Systems, Brakes, Suspension and Steering, Manual Drive Train and Axles, Automatic Trans/Transaxle, Engine Repair, Engine Performance, and Heating and Air Conditioning.

**Application Requirements:** Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a grade of "C" or higher; assessment score placement in MATH 0030 or completion of MATH 0010 with a grade of "C" or higher; assessment score placement in ENGL 0090 or completion of ENGL 0080 with a grade of "C" or higher. An Automotive Service Technology program application must be completed and submitted to admissions before entering the program.

### Career/Occupational Requirements: 61 credits

AST	1005	Automotive Workplace Safety	1
AST	1015	Automotive Brakes	4
AST	1025	Steering and Suspension Systems	3
AST	1035	Four Wheel Alignment	4
AST	1045	Standard Drive Train	4
AST	1055	Automotive Service	2

AST	1065	Electrical Principles	3
AST	1075	Body Electrical Systems	2
AST	1085	Starting and Charging Systems	4
AST	1095	Automatic Transmissions	4
AST	2005	Automotive Engines	4
AST	2015	Engine Diagnosis	3
AST	2025	Cooling System Service	2
AST	2035	Emission Control	3
AST	2045	Computerized Engine Control	4
AST	2055	Electronic Fuel Injection	2
AST	2065	Engine Performance Maintenance	4
AST	2075	Supplemental Computer Systems	2
AST	2085	Air Conditioning	3
AST	2095	New Automotive Technology	3

### Additional Requirements: 3 credits

WLDG	1001	Introduction to Oxyacetylene Welding	2
WLDG	1011	Introduction to Metal Inert Gas Welding	1

OR

General Education/MnTC

## Business Administration

### Program Options:

Business Administration AS Degree (64)

### Associate in Science Degree

#### Business Administration

**Total Number of Credits: 64**

**Program Description:** The Business Administration program is designed to provide students with pre-professional preparation in business through technical courses, as well as a strong foundation in general education courses for transfer purposes. Students interested in securing or maintaining employment in a business-related occupation and those interested in furthering their education to a Baccalaureate Degree may consider completing this AS Degree. Specific transfer arrangement with the college of choice should be made as early in the degree as possible to ensure an appropriate program is planned for enrollment at Century and at the four-year school.

### Career Requirements: 34 credits

ACCT	2020	Financial Accounting	3
ACCT	2025	Managerial Accounting	3
BMGT	1020	Introduction to Business	3
BMGT	2030	Management Fundamentals	3
BMGT	2051	Legal Environment of Business	3
BMGT	2060	Business Communications	3
CSCI	1020	Introduction to Personal Computers and Information Systems	3

## 6 Programs of Study

ECON	2021	Statistics for Business and Economics	3
MKTG	2050	Principles of Marketing	3

### Additional Requirements: 7 credits

Sufficient courses from ACCT, BMGT, CAPL, CSCI, ENGL 1025 or MKTG to make a total of 7 credits

### General Education/MnTC Requirements: 30 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses: 3

COMM	1021	Fundamentals of Public Speaking	
------	------	---------------------------------	--

COMM	1031	Interpersonal Communication	
------	------	-----------------------------	--

COMM	1041	Small Group Communication	
------	------	---------------------------	--

COMM	1051	Intercultural Communication	
------	------	-----------------------------	--

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4: Sciences/Math/Logical Reasoning: 6 credits

College Algebra I (MATH 1061) or higher required

#### Goal 5 - History/Social and Behavioral Sciences: 9 credits

Two disciplines required

ECON	1021	Macroeconomics	3
------	------	----------------	---

ECON	1023	Microeconomics	3
------	------	----------------	---

#### Goal 6: Humanities and Fine Arts: 6 credits

Two courses from two disciplines

#### Goals 7-10 - Three credits in each of two goals

## Business Management

### Program Options:

Business Management AAS Degree (64)

### Associate in Applied Science Degree

#### Business Management

#### Total Number of Credits: 64

**Program Description:** The two-year Business Management program provides an introduction to basic management. The program is designed to equip the student with skills that are appropriate for people who seek a position in management. The program is designed primarily for the student who wishes to seek employment after completing an Associate in Applied Science Degree.

### Career/Occupational Requirements: 44 credits

ACCT	2020	Financial Accounting	3
------	------	----------------------	---

ACCT	2025	Managerial Accounting	3
------	------	-----------------------	---

BMGT	1020	Introduction to Business	3
------	------	--------------------------	---

BMGT	1030	Survey of Business Economics	OR

BMGT	2030	Management Fundamentals	3
------	------	-------------------------	---

BMGT	2035	Human Relations in Business	3
------	------	-----------------------------	---

BMGT	2040	Human Resource Management	3
------	------	---------------------------	---

BMGT	2051	Legal Environment of Business	3
------	------	-------------------------------	---

BMGT	2060	Business Communications	3
------	------	-------------------------	---

BMGT	2090	Business Finance	3
------	------	------------------	---

BMGT	2095	International Business	3
------	------	------------------------	---

CAPL	1010	Introduction to Software Applications	3
------	------	---------------------------------------	---

MKTG	2050	Principles of Marketing	3
------	------	-------------------------	---

OFFT	1001	College Keyboarding	1
------	------	---------------------	---

### Additional Requirements: 4 credits

Sufficient courses from ACCT, BMGT, CAPL, CSCI, MKTG, OFFT or ENGL 1025 to make a total of 4 credits

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses: 3

COMM	1021	Fundamentals of Public Speaking	
------	------	---------------------------------	--

COMM	1031	Interpersonal Communication	
------	------	-----------------------------	--

COMM	1041	Small Group Communication	
------	------	---------------------------	--

COMM	1051	Intercultural Communication	
------	------	-----------------------------	--

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 4 credits

MATH	1025	Statistics	4
------	------	------------	---

#### Goal 5 - History/Social and Behavioral Sciences: 3 credits

(ECON 1021 may be used as a career course)

#### Goal 6 - Humanities and Fine Arts: 3 credits

#### Goals 7-10: Three credits in one of the four goals

## Chemical Dependency

### Program Options:

Chemical Dependency Certificate (28)

Chemical Dependency AS Degree (64)

### Certificate

#### Chemical Dependency

#### Total Number of Credits: 28

This certificate is designed for students with a Bachelor degree interested in the field of Chemical Dependency Counseling. The program prepares graduates for the written test and oral examination, which is required for state license.

### Career/Occupational Requirements: 28 credits

CDEP	1020	Introduction to Drugs and Alcohol	3
------	------	-----------------------------------	---

CDEP	1030	Pharmacology of Chemical Dependency	3
------	------	-------------------------------------	---

CDEP	1060	Professional Conduct in Chemical Dependency	3
------	------	---	---

## 6 Programs of Study

CDEP	2010	Chemical Dependency Assessment . . . . .	3
CDEP	2020	Advanced Counseling Skills OR	
CDEP	2030	Group Counseling . . . . .	3
CDEP	2050	Case Management in Chemical Dependency Treatment . . . . .	3
CDEP	2781	Internship I . . . . .	5
CDEP	2782	Internship II . . . . .	5

### Additional Requirements:

1. A grade of "C" or higher in all career/occupational courses.
2. Bachelor degree is required for licensure.
3. Passing the MN Human Services background study is required for the internships.

### Associate in Science Degree Chemical Dependency

**Total Number of Credits: 64**

**Program Description:** The Chemical Dependency program is designed for career opportunities in entry-level positions in the field of Chemical Dependency Counseling. The program prepares graduates for the written test and oral examination which is required for state licensure. The program articulates into the Metropolitan State University baccalaureate degree in alcohol and drug counseling.

### Program Requirements:

1. Grade of "C" or higher in all Career/Occupational courses
2. Grade of "C" or higher in all specific General Education course requirements
3. MN Human Services background study is required for the internships

### Career/Occupational Requirements: 34 credits

CDEP	1020	Introduction to Drugs and Alcohol . . . . .	3
CDEP	1030	Pharmacology of Chemical Dependency . . . . .	3
CDEP	1060	Professional Conduct in Chemical Dependency . . . . .	3
CDEP	2010	Chemical Dependency Assessment . . . . .	3
CDEP	2020	Advanced Counseling . . . . .	3

CDEP	2782	Internship II . . . . .	5
HSER	1030	Helping Skills . . . . .	3

### General Education/MnTC Requirements: 30 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I . . . . .	4
Select one of the following COMM courses: . . . . .			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 6 credits**

MATH 1025 Statistics-recommended

**Goal 5 - History/Social and Behavioral Sciences: 10 credits**

Two disciplines required

PSYC 1020 General Psychology . . . . . 4

Select one of the following PSYC courses: . . . . . 3

PSYC 2044 Adolescent Development

PSYC 2021 Abnormal Psychology

**Goal 6 - Humanities and Fine Arts: 6 credits**

Two courses from two disciplines

**Goals 7-10: Three credits in each of two goals**

### Additional Recommendations:

CDEP 1040 Overview of Gambling . . . . . 3

CDEP 2055 Co-Occurring Disorders:  
Substance Abuse and Mental Health . . . . . 3

## Computer Forensics

### Program Options:

Computer Forensics Certificate (16)

Computer Forensics AAS Degree (64)

### Certificate

#### Computer Forensics

**Total Number of Credits: 16**

**Program Description:** The certificate in computer forensics prepares students to master a variety of operating systems, investigation techniques, incident response tactics, including computer legal issues. Students learn forensic techniques and tools in a lab-style, hands-on setting for both Windows and Linux investigations. This program emphasizes a practical approach so that students can take with them a solid grasp of how open source and commercial forensic tools complete their tasks. This is accomplished by teaching the fundamental concepts of computer forensics using a vendor-independent methodology.

**Application Requirements:** Minimum assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher

### Career/Occupational Requirements: 16 credits

CFIT	2065	Introduction to Computer Forensics . . . . .	3
CFIT	2070	Windows & NTFS File System Forensics . . . . .	3
CFIT	2075	Computer Investigative Law for Forensic Analysts . . . . .	3
CFIT	2080	Open Source Forensic Methodology . . . . .	3
CJS	2095	Interview, Interrogation and Investigation . . . . .	3
MCST	2780	Internship . . . . .	1

## 6 Programs of Study

### Associate in Applied Science

#### Computer Forensics

**Total Number of Credits: 64**

**Program Description:** Computer forensics is the process of methodically examining computer media for evidence, which includes the collection, preservation, analysis and presentation of computer-related evidence. This degree prepares students for employment in computer science, information assurance, computer incident investigation, cyberspace ethics and computer law. Graduates may work in a variety of computer technology fields to support organizations that must protect their proprietary interests or investigate computer activities. They may also assist their employers with civil litigations. Graduates may also assist law enforcement agencies to combat cyber-terrorism and other crimes. Computer evidence may be relevant in the areas of human resources, employment proceedings, civil disputes and criminal cases as well.

**Application Requirements:** Minimum assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher

#### Career/Occupational Requirements: 37 credits

CFIT	2065	Introduction to Computer Forensics . . . . .	3
CFIT	2070	Windows & NTFS File System Forensics . . . . .	3
CFIT	2075	Computer Investigative Law for Forensic Analysts . . . . .	3
CFIT	2080	Open Source Forensic Methodology . . . . .	3
CJS	2095	Interview, Interrogation and Investigation . . . . .	3
CSCI	1060	Fundamentals of Programming . . . . .	3
ITT	1021	Principles of Information Security . . . . .	3
ITT	2020	Network Security Fundamentals . . . . .	3
MCST	1001	PC Hardware and Software . . . . .	4
MCST	1011	Supporting Microsoft Windows XP Professional. . . . .	3
MCST	1013	Supporting Microsoft Windows 2003 Server . . . . .	3
MCST	1030	Linux Operating System . . . . .	3

#### Additional Requirements: 4 credits

Select four credits from the following:

CFIT	2081	Incident Handling and Computer Crime Investigation . . . . .	3
CFIT	2083	Windows Security and Auditing . . . . .	3
CFIT	2085	Computer and Network Hacker Techniques I . . . . .	3
CFIT	2088	Computer and Network Hacker Techniques II . . . . .	3
COMM	1051	Intercultural Communication . . . . .	3
CSCI	1081	Programming Fundamentals. . . . .	3
CSCI	1082	Object-Oriented Programming . . . . .	3
ITT	1031	Network Fundamentals (CCNA1) . . . . .	3
ITT	1032	Routing Protocols and Concepts . . . . .	3
MCST	2015	Administering the Active Directory . . . . .	3
MCST	2780	Internship . . . . .	1-6

General Education/MnTC Requirements: 23 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I . . . . .	4
COMM	1021	Individual Public Speaking . . . . .	3

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 4 credits

MATH	1025	Statistics . . . . .	4
------	------	----------------------	---

#### Goal 5 - History/ Social and Behavioral Sciences: 9 credits

POLS	1031	American Government . . . . .	3
POLS	1035	Constitutional Law . . . . .	3
SOC	1080	Introduction to the Criminal Justice System . . . . .	3

#### Goal 6 - Humanities and Fine Arts: 3 credits

Goals 7-10: Three credits in one of the four goals

## Computer Science

### Program Options:

Computer Information Systems AS Degree (64)

Computer Science AS Degree (64)

*Other computer-related courses are offered in the following disciplines: Computer Application Technology, Computer Forensics, Information and Telecommunications Technology, Microcomputer Support Technology, Office Technology*

**Program Description:** A four-year degree in Computer Science (CS) or Computer Information Systems (CIS) can lead to many rewarding careers in the computer industry. CS and CIS graduates are employed as software engineers, database administrators, network specialists and systems managers. CS and CIS graduates can also work in such diverse specialties as artificial intelligence, computer security, web development and programming and telecommunications.

### Associate in Science Degree

#### Computer Information Systems

**Total Number of Credits: 64**

**Program Description:** This degree positions the student on the path to becoming an information systems professional. Coursework is designed to develop the student's analytical and problem-solving skills, in conjunction with gaining broad-based, hands-on programming experience and proficiency. The program has been designed to equip students to transfer into a typical four-year Information Systems degree program.

**Application Requirements:** Completion of MATH 0070 with a grade of "C" or higher or assessment score placement in MATH 1025; completion of RDNG 0090 with a grade of "C" or higher or assessment placement in RDNG 1000.

#### Career/Occupational Requirements: 24 credits

Students must complete the following 18 credits:

CSCI	1081	Programming Fundamentals. . . . .	3
------	------	-----------------------------------	---

## 6 Programs of Study

CSCI	1082	Object-Oriented Programming	3
CSCI	2014	Discrete Structures of Computer Science	4
CSCI	2016	Machine Architecture and Organization	3
CSCI	2082	Data Structures and Algorithms	3
CSCI	2090	Functional Programming	1

Students must also complete 6 credits from any MATH or CSCI course. See a counselor or CSCI faculty member for assistance in selecting course(s).

### General Education/MnTC Requirements: 40 credits

#### Goal 1 - Communication: 10 credits

ENGL	1021	Composition I	4
ENGL	1022	Composition II	3

Select one of the following Communication Courses

COMM	1021	Fundamentals of Public Speaking	3
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

#### Goal 3 Natural Sciences: 7 credits

Two courses from two disciplines with at least one lab course.  
Recommended: PHYS 1041, 1042, 1081, or 1082

#### Goal 4 - Math/Logical Reasoning: 4 credits

MATH	1025	Statistics	4
------	------	------------	---

Or any course numbered MATH 1061 through MATH 1082

#### Goal 5 - History/Social and Behavioral Sciences: 9 credits

Three courses from three disciplines

#### Goal 6 - Humanities and Fine Arts: 9 credits

Three courses from three disciplines, one of which must be a literature course

**Goals 7-10 - Three credits in each of four goals**

### Associate in Science Degree

#### Computer Science

**Total Number of Credits: 64**

**Program Description:** This degree introduces students to the skills related to the analysis, design and development of information systems. Upon completion, the graduate will have acquired a solid mathematical background and a firm foundation in both the practical and theoretical aspects of contemporary computer science. The program has been designed to equip students to transfer into a typical four-year Computer Science degree program.

**Application Requirements:** Completion of MATH 0070 with a grade of "C" or higher or assessment score placement in MATH 1061; completion of RDNG 0090 with a grade of "C" or higher or assessment placement in RDNG 1000.

### Career/Occupational Requirements: 34 credits

Students must complete the following 18 credits:

CSCI	1081	Programming Fundamentals	3
CSCI	1082	Object-Oriented Programming	3

CSCI	2014	Discrete Structures of Computer Science	4
CSCI	2016	Machine Architecture and Organization	4
CSCI	2082	Data Structures and Algorithms	3
CSCI	2090	Functional Programming	1

Select 16 credits from the following or any CSCI course not listed above.

Selection should be made in consultation with a counselor or CSCI faculty member to ensure appropriateness to student's academic goals.

ENGL	1022	Composition II	OR
ENGL	1025	Technical Writing	3

MATH	1025	Statistics	4
MATH	1082	Single Variable Calculus II	5
MATH	2025	Probability and Statistics	4
MATH	2082	Linear Algebra and Differential Equations	5

PHYS	1041	General Physics I	OR
PHYS	1081	Introductory Physics I	5

PHYS	1042	General Physics II	OR
PHYS	1082	Introductory Physics II	5

### General Education/MnTC Requirements: 30 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
COMM	1021	Fundamentals of Public Speaking	3

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 10 credits

MATH	1081	Single Variable Calculus I	5
------	------	----------------------------	---

and a minimum of 5 credits from the following:

MATH	1061	College Algebra I	4
MATH	1062	College Algebra II with Trigonometry	4
MATH	1082	Single Variable Calculus II	5

PHYS	1041	General Physics I	OR
PHYS	1081	Introductory Physics I	5

PHYS	1042	General Physics II	OR
PHYS	1082	Introductory Physics II	5

#### Goal 5 - History/Social and Behavioral Sciences: 6 credits

Two courses from two disciplines

#### Goal 6 - Humanities and Fine Arts: 6 credits

Two courses from two disciplines

**Goals 7-10 - Three credits in each of two goals**

## 6 Programs of Study

### Cosmetology

#### Program Options:

Nail Care Technician Certificate (16)

Cosmetology Diploma (52)

Cosmetology AAS Degree (72)

#### Certificate

##### Nail Care Technician

**Total Number of Credits: 16**

**Program Description:** This Nail Care Technician certificate includes instruction in theory and practical application techniques of cleansing, shaping, polishing, massage of hands and feet, and also the application of artificial nails. Completion of this certificate prepares students for state written exam and certification of skills as required by Minnesota cosmetology laws and rules for licensure.

**Application Requirements:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

#### Career/ Technical Requirements: 16 credits

COS	1000	Preclinic Introduction	3
COS	1010	Preclinic Nail Care	3
COS	1040	Salon Preparation	3
COS	1051	Clinic Introduction	3
COS	1070	Nail Clinic/License Preparation	4

#### Additional Requirements:

High School diploma or GED, Certification of Skills Practical Exam and State Licensing Exam are required for Licensure.

#### Diploma

##### Cosmetology

**Total Number of Credits: 52**

**Program Description:** This Cosmetology diploma includes instruction in theory and practical application techniques of hair styling, cutting, coloring, permanent waving, chemical hair relaxing, and nail and skin care. Completion of this diploma prepares students for state written exam and certification of skills as required by the Minnesota cosmetology laws and rules for licensure.

**Application Requirements:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

#### Career/Occupational Requirements: 52 credits

COS	1000	Preclinic Introduction	3
COS	1007	Preclinic Hair Styling and Design	3

COS	1010	Preclinic Nail Care	3
COS	1015	Preclinic Chemical Control	3
COS	1020	Preclinic Skin Care	3
COS	1025	Preclinic Hair Color	3
COS	1035	Preclinic Haircutting	3
COS	1040	Salon Preparation	3
COS	1051	Clinic Introduction	3
COS	1053	Clinic I	3
COS	1055	Clinic II	3
COS	1057	Clinic III	3
COS	1059	Clinic IV	3
COS	1061	Clinic V	3
COS	1063	Clinic VI	3
COS	1065	Clinic VII	2
COS	1067	Clinic VIII	2
COS	1068	Cosmetology Capstone	3

#### Additional Requirements:

High School diploma or GED, Certification of Skills Practical Exam and State Licensing Exam are required for Licensure.

#### Associate in Applied Science

##### Cosmetology

**Total Number of Credits: 72**

**Program Description:** This Cosmetology degree includes instruction in theory and practical application techniques of hair styling, cutting, coloring, permanent waving, chemical hair relaxing, and nail and skin care. Completion of the AAS degree prepares students for the state written exam and certification of skills as required by the Minnesota cosmetology laws and rules for licensure. Students will also have general education requirements that will help individuals have the necessary oral, written, and critical thinking skills to help them with their professional and management responsibilities.

**Application Requirements:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

#### Career/Occupational Requirements: 43 credits

COS	1000	Preclinic Introduction	3
COS	1007	Preclinic Hairstyling and Design	3
COS	1010	Preclinic Nail Care	3
COS	1015	Preclinic Chemical Control	3
COS	1020	Preclinic Skin Care	3
COS	1025	Preclinic Hair Color	3
COS	1035	Preclinic Haircutting	3
COS	1040	Salon Preparation	3
COS	1051	Clinic Introduction	3
COS	1053	Clinic I	3
COS	1055	Clinic II	3
COS	1057	Clinic III	3
COS	1059	Clinic IV	3
COS	1061	Clinic V	3
COS	1063	Clinic VI	3
COS	1065	Clinic VII	2

## 6 Programs of Study

COS	1067	Clinic VIII.....	2
COS	1068	Cosmetology Capstone.....	3

### General Education/MnTC Requirements: 20 credits

#### Goal 1 – Communications: 7 credits

ENGL	1021	Composition I.....	4
Select one of the following COMM courses.....			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

#### Goal 2 – Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 – Sciences/Math/Logical Reasoning: 3 credits

#### Goal 5 – History/Social and Behavioral Sciences: 3 credits

#### Goal 6 – Humanities and Fine Arts: 3 credits

#### Goals 7-10: Three credits in one of the four goals

### Additional Requirements:

High School diploma or GED, Certification of Skills Practical Exam, and State Licensing Exam are required for Licensure.

## Criminal Justice

### Program Options:

- Corrections Certificate (12)
- Investigation Certificate (12)
- Private Security (12)
- Criminal Justice AS Degree (64)
- Investigative Sciences for Criminal Justice AAS Degree (64)
- (See also Law Enforcement)

### Certificate

#### Corrections

#### Total Number of Credits: 12

**Program Description:** The CJS Corrections Certificate is designed for Criminal Justice and Law Enforcement students and working professionals who have an interest in the field of corrections. This certificate program provides students with a comprehensive overview of the various federal, state, and county level correctional systems. Additionally, after completing this certificate program, students will have an in-depth understanding of the role of corrections as it relates to the overall criminal justice system.

### Career/Occupational Requirements: 12 credits

CJS	2083	Introduction to Corrections.....	3
CJS	2084	Community Corrections.....	3
CJS	2095	Interview, Interrogation, and Investigation.....	3
HLTH	1060	Drug Education.....	3

### Certificate

#### Investigation

#### Total Number of Credits: 12

**Program Description:** The CJS Investigation Certificate is designed for Criminal Justice and Law Enforcement students and working professionals who have an interest in criminal investigations. This certificate program provides students with a comprehensive overview of the methods and techniques used in criminal investigations. It also provides students an opportunity to explore the criminal investigation topics of interview and interrogation and crime scene investigations.

### Career/Occupational Requirements: 12 credits

CJS	2094	Fundamentals of Criminal Investigations.....	3
CJS	2095	Interview, Interrogation, and Investigation.....	3
CJS	2096	Crime Scene Investigations.....	3
Select one course from the following:			
CJS	2070	Private Sector Security and Investigations.....	3
CJS	2089	Criminal Law.....	3
CJS	2093	Terrorist and Extremist Groups.....	3
CJS	2097	Homeland Defense.....	3

### Certificate

#### Private Security

#### Total Number of Credits: 12

**Program Description:** The CJS Private Security Certificate is designed for Criminal Justice and Law Enforcement students and working professionals who have an interest in the field of private security. This certificate program provides students with a comprehensive overview of the field of private security and its role in securing the country's critical infrastructure. Students will also examine the role of investigations in private security.

### Career/Occupational Requirements: 12 credits

CJS	2070	Private Sector Security and Investigations.....	3
CJS	2094	Fundamentals of Criminal Investigation.....	3
CJS	2095	Interview, Interrogation, and Investigation.....	3
CJS	2097	Homeland Defense.....	3

### Associate in Science Degree

#### Criminal Justice

#### Total Number of Credits: 64

**Program Description:** This AS degree provides students with a broad-based liberal arts education to help prepare them for the rigors of the criminal justice profession and advancement of knowledge of the criminal justice system. Program curriculum includes criminal law and procedure, policing, investigation, corrections and juvenile justice. Each course is designed to illustrate the social, legal and ethical issues relevant to the criminal justice profession today. Completion of this AS degree provides a foundation allowing students to transfer to a four-year academic institution.

## 6 Programs of Study

### Career/Occupational Requirements: 29 credits

HLTH	1060	Drug Education	3
CJS	2081	Police in the Community	3
CJS	2083	Introduction to Corrections	3
CJS	2085	Juvenile Justice and Delinquency	3
CJS	2089	Criminal Law	3
CJS	2095	Interview, Interrogation and Investigation	3
CJS	2097	Homeland Defense	3

Select 8 credits from the following:

CFIT	2065	Introduction to Computer Forensics	3
CJS	2060	Emerging Technologies in the Investigative Sciences	2
CJS	2070	Private Sector Security and Investigations	3
CJS	2091	Crime and Incident Mapping for Public Safety I	3
CJS	2092	Crime and Incident Mapping for Public Safety II	3
CJS	2093	Terrorist and Extremist Groups	3
CJS	2099	Investigative Sciences Capstone	2
EMS	1015	First Responder	2
POLS	1031	American Government	3
PSYC	2021	Abnormal Psychology	3
SPAN	1005	Spanish for Public Safety Professionals I	3

### General Education/MnTC Requirements: 35 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses: 3

COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communications	

Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 6 credits

BIOL	1023	Introduction to Forensic Biology	4
------	------	----------------------------------	---

#### Goal 5 - History/Social and Behavioral Sciences: 16 credits

PSYC	1020	General Psychology	4
SOC	1020	Introduction to Sociology	3
SOC	1080	Introduction to the Criminal Justice System	3
SOC	2051	Sociology of Race and Ethnicity	3
SOC	2087	Criminology/Criminal Behavior	3

#### Goal 6 - Humanities and Fine Arts: 6 credits

Select two courses from two different disciplines

ART	1031	Photography I	3
ENGL	2077	Mystery	3
ENGL	2095	Ethics and Environment: The Literature of Place	3
HUM	1030	Culture and Civilization of Spanish Speaking Peoples	3
PHIL	1021	Introduction to Western Philosophy	3
PHIL	1031	Ethics	3

Goals 7-10 - Three credits each of two goals

### Additional Requirements:

Students are required to complete 80 hours of criminal justice related service learning to complete this program. The service learning requirement will be met upon completion of CJS 2081 and CJS 2085 with a grade of "C" or higher in each course. Students are advised not to enroll in both classes during the same semester.

### Associate in Applied Science

#### Investigative Sciences for Criminal Justice

#### Total Number of Credits: 64

**Program Description:** This AAS in Criminal Justice focuses on the theoretical understanding of current and developing technological trends and issues in investigation and collection of evidence used in the criminal justice system. The Criminal Justice program combines the technical, administrative and interpersonal skills required for the criminal justice professional with a strong foundation in the social, ethical and legal issues which he or she will confront on the job. This program is designed to prepare the student to work in a wide range of public and private service environments including insurance, private investigation, security and corrections. This degree serves as a foundation to keep students competitive in today's marketplace.

### Career/Occupational Requirements: 44 credits

CJS	2070	Private Sector Security and Investigations	3
CJS	2081	Police in the Community	3
CJS	2083	Introduction to Corrections	3
CJS	2085	Juvenile Justice and Delinquency	3
CJS	2089	Criminal Law	3
CJS	2091	Crime and Incident Mapping for Public Safety I	3
CJS	2092	Crime and Incident Mapping for Public Safety II	3
CJS	2093	Terrorist and Extremist Groups	3
CJS	2095	Interview, Interrogation and Investigation	3
CJS	2097	Homeland Defense	3
CJS	2099	Investigative Sciences Capstone	2
ENGL	1022	Composition II OR	
ENGL	1025	Technical Writing	3
VCT	1047	Forensic Photography	3
Select six credits from the following courses:			
CFIT	2065	Introduction to Computer Forensics	3
CJS	2060	Emerging Technologies for the Investigative Sciences	2
EMS	1015	First Responder	2
HLTH	1003	Worker Right to Know: Health and Safety in the Workplace	1
PSAF	2040	Incident Command Strategies	3
PSYC	2021	Abnormal Psychology	3
SOC	2087	Criminology and Criminal Behavior	3
SPAN	1005	Spanish for Public Safety Professionals I	3

## 6 Programs of Study

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL 1021 Composition I ..... 4

Select one of the following COMM courses: ..... 3

COMM 1031 Interpersonal Communication

COMM 1041 Small Group Communication

COMM 1051 Intercultural Communication

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 4 credits

BIOL 1023 Introduction to Forensic Biology ..... 4

#### Goal 5 - History/Social and Behavioral Sciences: 3 credits

SOC 1080 Introduction to the Criminal Justice System ..... 3

#### Goal 6 - Humanities and Fine Arts: 3 credits

Select one course from the following:

ART 1031 Photography I

ENGL 2077 Mystery

PHIL 1031 Ethics

#### Goals 7-10 - Three credits in each of two goals

### Additional Requirements:

Students are required to complete 80 hours of criminal justice related service learning to complete this program. The service learning requirement will be met upon completion of CJS 2081 and CJS 2085 with a grade of "C" or higher in each course. Students are advised not to enroll in both classes during the same semester.

## Dental Assistant

### Program Options:

Dental Assistant Diploma (48)

Dental Assistant AAS (64)

Advanced Specialty Certificate: Dental Practice Management (16)

### Diploma

#### Dental Assistant

**Total Number of Credits: 48**

**Program Description:** The Dental Assistant program is designed for career opportunities as a dental assistant in private dental offices, HMO clinics, public health institutions, dental supply and insurance companies, military dental services, and dental school clinics. The program is accredited by the American Dental Association, Commission of Accreditation. Graduates of the Dental Assistant Program are eligible to write the Dental Assisting National Board Certification Exam and the Minnesota State Board of Dentistry Licensure Exam. Dental Assistant graduates, upon successful completion of the exams, are certified and licensed dental assistants.

**Application Requirements:** High School graduate or GED; current

certification in CPR; assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

For additional application requirements, refer to the program information online, in Admissions or Counseling.

### Career/Occupational Requirement: 41 credits

DENA 1000 Introduction to Dental Assisting ..... 3

DENA 1011 Dental Assisting Pre-Clinic I ..... 3

DENA 1012 Dental Assisting Pre-Clinic II ..... 3

DENA 1020 Dental Materials ..... 3

DENA	1061	Dental Assisting Advanced Functions I	3
DENA	1062	Dental Assisting Advanced Functions II	2
DENA	1063	Nitrous Oxide Inhalation Sedation	1
DENA	1780	Introduction of Dental Assisting Internships	3
DENA	1781	Specialty Internship	3
DENA	1782	General Internship	4

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits

CHEM	1020	Chemistry Concepts-recommended*	4
BIOL	2035	Microbiology-recommended*	3

#### Goal 5 - History/Social and Behavioral Sciences: 3 credits

Psychology elective recommended*			3
Sociology elective recommended*			3

#### Goal 6 - Humanities and Fine Arts: 3 credits

#### Goals 7-10 - Three credits in one of the four goals

### Additional Requirements:

Sufficient credits to total 64

\*Required courses to graduate Century College Dental Hygiene program. See a counselor if pursuing a degree in hygiene or dentistry.

### Advanced Specialty Certificate

#### Dental Practice Management

#### Total Number of Credits: 16

**Program Description:** This certificate specializes in management, supervision, and human relations in a dental setting. Responsibilities would include the efficient operation of a dental office. Graduates are employed in dental offices in a dental practice management position.

**Application Requirements:** A graduate of an accredited dental assistant program and 1500 hours of dental assisting experience

### Career/Occupational Requirements: 15 credits

CAPL	1010	Introduction to Software Applications	3
ENGL	1025	Technical Writing	3
MKTG	1025	Professional Development	3
MKTG	2010	Workplace Leadership	3
OFFT	2055	Administrative Office Procedures	3

### Additional Requirements:

Sufficient credits to total 16

## Dental Hygiene

### Program Options:

Dental Hygiene AAS Degree (79)

### Associate in Applied Science Degree

#### Dental Hygiene

#### Total Number of Credits: 79

**Program Description:** The Dental Hygiene Program prepares students with the entry-level competencies, knowledge, skills and attitudes required for licensure to practice as dental hygienists in the state of Minnesota. The DENH program courses are offered over five semesters (four full-time semesters and one part-time summer session); the program is accredited by the American Dental Association sponsored Commission on Dental Accreditation.

**Application Requirements:** All applicants must be Minnesota registered dental assistants (RDA) or hold an equivalent credential from another state, with 6 months or more of dental assisting work experience (1040 hours) in the past 3 years and have an overall college GPA of 2.5. Students must earn the grade of "C" or better and an overall GPA of 2.75 or higher in the four science courses listed in the next section. All science courses must have a lab component. Other general education application pre-requisites are ENGL 1021 and a 3 credit COMM course (1021, 1031, 1041, or 1051). See Admissions or Counseling Center for additional application information.

BIOL	2031	Anatomy and Physiology I	4
BIOL	2032	Anatomy and Physiology II	4
BIOL	2035	Microbiology	3

CHEM	1020	Chemistry Concepts	4
OR			
CHEM	1041	Principles of Chemistry I	5

**Additional Program Requirements:** Students must earn a grade of "C" or higher in all required Career/Occupational and MNCT courses. Enrolled dental hygiene students must pass a Minnesota Human Services background study with no restrictions and pass a physical exam before treating patients in the student clinic; they must also maintain their credential as a Registered Dental Assistant with the state of Minnesota (i.e., pay annual fees, maintain CPR certification and continuing education documentation) while they are enrolled in the program. NOTE: The MN Board of Dentistry accepts all DENH program courses for RDA continuing education credit.

### Career/Occupational Requirements: 48 credits

DENH	1021	Head and Neck Anatomy	2
DENH	1024	Dental Embryology, Histology, and Anatomy	3
DENH	1030	Radiology for the Dental Hygienist	2
DENH	1040	Dental Hygiene Principles I	3
DENH	1045	Dental Hygiene Practice I	2

## 6 Programs of Study

DENH	1050	Periodontology	2
DENH	1060	Pharmacology for the Dental Hygienist	2
DENH	1070	Applied Biochemical Nutrition for the Dental Hygienist	2

### General Education/MnTC Requirements: 31 credits

#### Goal 1 - Communication: 7 credits

This requirement has been met by the Program Application Requirements

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses:

COMM	1021	Fundamentals of Public Speaking	3
------	------	---------------------------------	---

COMM	1031	Interpersonal Communication	
------	------	-----------------------------	--

COMM	1041	Small Group Communication	
------	------	---------------------------	--

COMM	1051	Intercultural Communication	
------	------	-----------------------------	--

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 15 credits

This requirement has been met by the Program Application Requirements

BIOL	2031	Anatomy and Physiology I	4
------	------	--------------------------	---

BIOL	2032	Anatomy and Physiology II	4
------	------	---------------------------	---

BIOL	2035	Microbiology	3
------	------	--------------	---

CHEM	1020	Chemistry Concepts	4
------	------	--------------------	---

OR

CHEM	1041	Principles of Chemistry I	5
------	------	---------------------------	---

#### Goal 5 - History/Social and Behavioral Sciences: 6 credits

Psychology	elective		3
------------	----------	--	---

Sociology	elective		3
-----------	----------	--	---

#### Goal 6 - Humanities and Fine Arts: 3 credits

#### Goals 7-10 - Three credits in one of the four goals

#### Optional Courses:

DENH	2060	Dental Hygiene Seminar	1
------	------	------------------------	---

DENH	2790	Independent Study	1-3
------	------	-------------------	-----

## Education

### Program Options:

Paraeducation Certificate (16)

Paraeducator AAS Degree (64)

Education AS Degree (64)

### Certificate

#### Paraeducation

#### Total Number of Credits: 16

**Program Description:** The Paraeducation Certificate combines paraeducation courses in key areas with experience working with children in educational settings. The Paraeducation Certificate is designed to prepare paraeducators to meet the "highly qualified" definition of the No Child Left Behind Act.

#### Additional Program Requirements:

Structured, education-related practicums, service learning and field experiences are important components of quality education programs. Students in the Paraeducation Certificate Program are required to complete a minimum of 30 hours of approved practicums, field experiences or service learning.

Students are required to appropriately document their learning experiences using the portfolio skills taught in EDUC 1020, which is recommended as a first semester course for all education majors.

#### Core Requirements: 10 credits

EDUC	1020	Portfolios for Educators I	1
------	------	----------------------------	---

EDUC	1050	Reading and Study Skills for Paraeducators	3
------	------	--	---

EDUC	1070	Mathematics Support Strategies for Paraeducators	3
------	------	--	---

EDUC	2055	Writing Support Strategies for Paraeducators	3
------	------	--	---

#### Career/Occupational Requirements: 6 credits

Select a minimum of 6 credits from any education courses.

Students may substitute other approved courses for the above Career/Occupational Requirement upon the recommendation of faculty and administrative approval by academic petition.

### Associate in Applied Science Degree

#### Paraeducator

#### Total Number of Credits: 64

**Program Description:** The Associate in Applied Science Paraeducator is a pre-professional program providing an essential core of education courses and experiences. It prepares individuals for work as educational paraprofessionals. The curriculum provides specific training, general education and experience working with children or youth in educational settings. This degree will fulfill the education requirements for paraprofessionals as described in the No Child Left Behind legislation (Title I schools).

**Additional Program Requirements:** Structured, education-related practicums, service learning and field experiences are important components of quality education programs. Students in the Paraeducator Associate in Applied Science program are required to complete a minimum of 100 hours of approved practicums, field experiences or service learning.

## 6 Programs of Study

Students are required to appropriately document their education-related practicums, service learning and field experiences using the portfolio skills taught in EDUC 1020 (which is recommended as a first semester course for all education majors), EDUC 1021 (which is recommended at the end of the first year or beginning of the second year), and EDUC 1022 (which is recommended as a last semester or capstone course). Be advised that transfer institutions and/or employers may also ask for this documentation.

### Core Requirements: 16 credits

EDUC	1020	Portfolios for Educators	1
EDUC	1021	Portfolios for Educators II	1
EDUC	1022	Portfolios for Educators III	1
EDUC	1025	Education Standards	1
EDUC	1050	Reading and Study Skills Strategies for Paraeducators	3
EDUC	1070	Mathematics Support Strategies for Paraeducators	3
EDUC	2040	Classroom Management	3
EDUC	2055	Writing Support Strategies for Paraeducators	3

### Career/Occupational Requirements: 28 credits

Sufficient courses from the list below to make a total of 28 or more earned credits in the career/occupational area.

#### Education related

CSCI	2007	Concepts and Application of Online Education Technology	3
EDUC	1045	Orientation to Education	3
EDUC	1060	Basics in TESOL for Paraeducators	3
EDUC	2025	Creating Culturally Responsive Classrooms	3
EDUC	2050	Legal Issues in Education	3
EDUC	2070	Special Education Issues for Educators	3
ESCI	1090	Earth Science for Educators	3
PE	1080	Foundations of Physical Education	3

#### Reading/Student Success

ICBE	1000	Individualized Education Planning	3
RDNG	1000	Critical Reading and Thinking For College	3
STSC	1001	Beyond Google: Research Skills and Information Literacy	2
STSC	1006	The Effective Learner	2
STSC	1010	Vocabulary Improvement	1

#### Art/Music/Literature

ART	1024	2D Design	3
ENGL	2013	African American Literature	3
ENGL	2015	American Indian Literature	3
ENGL	2071	Children's Literature	3

MUSC	1030	Fundamentals of Music	OR
MUSC	1035	Enjoyment of Classical Music	3

THTR	1020	Introduction to Theatre	3
THTR	1031	Beginning Acting	3

### Culture/Humanities

ANTH	1023	Introduction to Cultural Anthropology	3
ESOL	1035	ESOL for College	3
GEOG	1023	Human Geography	3
HIST	1032	US History: Since 1865	3
HUM	1030	Culture and Civilization of Spanish Speaking Peoples	3
HUM	1035	Culture and Civilization of French Speaking Peoples	3
PHIL	1051	World Religions	3
SOC	2051	Sociology of Race and Ethnicity	3

### Technology

CAPL	1010	Introduction to Software Applications	OR
CSCI	1020	Introduction to Personal Computers and Information Systems	3

### Health

Select one of the following:

HLTH	1005	Basic CPR, Red Cross	1
HLTH	1010	Standard First Aid and Safety	2
EMS	1010	AHA BLS for the Health Care Provider	1

Additional health course selection:

HLTH	1060	Drug Education	3
------	------	----------------	---

Students may substitute other approved courses for the above Career/Occupational Requirement upon the recommendation of faculty and administrative approval by academic petition.

### General Education/MnTC Requirements: 20 credits

#### Goal 1 – Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3

COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

**Goal 2-Critical Thinking is Fulfilled when all MnTC goals are completed.**

#### Goal 3 and/or Goal 4: Sciences/Math/Logical Reasoning: 3 credits

Choose a science or mathematics course

#### Goal 5 – History/Social and Behavioral Sciences: 7 credits

PSYC	1020	General Psychology	4
PSYC	2043	Child Development	OR
PSYC	2044	Adolescent Development	3

#### Goal 6 Humanities and Fine Arts: 3 credits

**Goals 7-10: Three credits in one of the four goals.**

### Associate in Science Degree

#### Education

#### Total Number of Credits: 64

**Program Description:** The Associate in Science Education is a transfer-oriented program providing a comprehensive core of education courses and experiences. It prepares individuals to transfer into a four-year teacher education program (or to work as educational paraprofessionals).

## 6 Programs of Study

The curriculum provides specific training, general education and experience working with children or youth in educational settings. Students interested in transferring to a four-year program need to check the specific transfer arrangements with the college of their choice and a Century College counselor. These discussions should take place early and often to ensure an appropriate program is planned for enrollment at Century and at the four-year school. This degree will fulfill the education requirements for paraprofessionals as described in the No Child Left Behind Act (Title I schools).

### Core Requirements: 10 credits

EDUC 1020	Portfolios for Educators I	1
EDUC 1021	Portfolios for Educators II	1
EDUC 1022	Portfolios for Educators III	1
EDUC 1025	Minnesota Education Standards	1
EDUC 1045	Orientation to Education	3
EDUC 2025	Creating Culturally Responsive Classrooms	3

### Electives: 14 credits

Students must take sufficient elective credit courses, as identified on their approved degree completion plan developed in EDUC 1020 and EDUC 1045 to make a total of 14 or more earned credits in this area. Students wishing to transfer into a four-year teacher education program should check carefully with their transfer institution for recommended courses before selecting courses for elective credit. Students who wish to transfer into a teacher education program are encouraged to take general education coursework as electives. Students who are seeking a license in Minnesota should also take HLTH 1060. Students who wish to work as paraeducators are encouraged to take EDUC courses as electives. Students may also transfer in courses from other programs or colleges or use work experience. Please consult with a Century College counselor for advice/guidance.

### Additional Requirements:

Structured, education-related practicums and field experience are important components of quality education programs. Students in the Associate in Science Education program are required to complete a minimum of 40 to 100 hours of approved practicums, field experiences, or service learning experiences using the portfolio skills taught in EDUC 1020, recommended as a first semester course for all education majors; EDUC 1021, recommended at the end of the first year or beginning of the second year; and EDUC 1022, recommended as a last semester or capstone course. Be advised that transfer institutions and/or employers may also ask for this documentation.

### General Education/MnTC Requirements: 40 credits

Students who intend to transfer into a four-year teacher education program should complete the Minnesota General Education transfer Curriculum. Be advised that schools of education often have very strict general education requirements. Students should meet early and often with a counselor to insure they take the appropriate courses.

### Goal 1 – Communication: 10 credits

ENGL 1021	Composition I	4
ENGL 1022	Composition II	3

Select one of the following COMM courses: . . . . . 3

COMM 1021 Fundamentals of Public Speaking

COMM 1031 Interpersonal Communication

COMM 1041 Small Group Communication

COMM 1051 Intercultural Communication

**Goal 2 – Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 - Sciences: 7 credits**

Two courses from two different disciplines, with at least one lab course

**Goal 4 – Math/Logical Reasoning: 3 credits**

Select a mathematics course numbered between 1020 and 1082

**Goal 5 – History/Social and Behavioral Sciences: 9 credits**

Three courses from three different disciplines

The following courses are highly recommended:

PSYC 1020 General Psychology OR

PSYC 2043 Introduction to Child Development OR

PSYC 2044 Adolescent Development

**Goal 6 – Humanities and Fine Arts: 9 credits**

Three courses, at least one of which must be a literature course, from three different disciplines

**Goals 7 – 10 - Three credits in each of four goals 7 – 10**

### Additional Requirements:

Sufficient credits to total 64

## Emergency Medical Services

### Program Options:

Emergency Medical Technician (EMSB) (6)

Emergency Medical Services Certificate (16)

Emergency Medical Services-Paramedic Diploma (59)

Emergency Medical Services-Paramedic AAS Degree (76)

Paramedic for the Experienced EMT Diploma (47)

Paramedic for the Experienced EMT AAS Degree (60)

### Certificate

#### Emergency Medical Technician

**Total number of credits: 6**

**Program Description:** This certificate meets the needs of the entry-level Emergency Medical Technician for direct employment in an emergency ambulance service, basic transport service, an emergency room, police department, security department or fire department. Completion of the EMT course prepares the student for the National Registry of EMT examination. Successful completion of the National Registry exam is recognized by the State of Minnesota to generate the state certification required to work as an EMT in Minnesota.

### Application Requirements:

1. The National Registry of EMT examination testing requires a minimum age of 18
2. Proof of current/unexpired American Heart Association (AHA) Health-

## 6 Programs of Study

care Provider CPR card required prior to the end of EMT course. The AHA Healthcare Provider CPR course may be taken concurrently with EMT course

- Students must successfully pass the MN Human Services Department and Emergency Medical Services Regulatory Board (EMSRB) background study

### Career/Occupational Requirements:

EMSB 1020 Emergency Medical Technician . . . . . 6

### Additional Requirements:

Completion of EMSB 1020 with a grade of "C" or higher

### Certificate

#### Emergency Medical Services

**Total number of credits: 16**

**Program Description:** This certificate provides a perfect exit point for the student who is not intending to continue through all stages of the Emergency Medical Services (EMS) Program to the paramedic level, or for currently certified paramedics desiring a credential. It formalizes successful completion of basic life support (BLS) coursework. Additionally, should the student elect to proceed with the Associate in Applied Science in Public Safety Degree, this certificate completes one of the specialty tracks.

### Career/Occupational Requirements: 13 credits

EMSB 1020 Emergency Medical Technician . . . . . 6  
 EMS 1025 EMS Interventions I . . . . . 5  
 EMS 1026 EMS Interventions II. . . . . 2

### Electives: 3 credits

Select at least 3 credits from the following:

(One of the listed courses is a prerequisite to the Paramedic Program.)

COMM 1021 Fundamentals of Public Speaking\* . . . . . 3  
 COMM 1031 Interpersonal Communication . . . . . 3  
 COMM 1041 Small Group Communication . . . . . 3  
 COMM 1051 Intercultural Communication . . . . . 3  
 ENGL 1021 Composition I . . . . . 4

(or electives as approved by the EMS Program Director)

\*Not accepted as Goal 1 in Nursing-Paramedic Mobility Track

### Diploma

#### Emergency Medical Services-Paramedic

**Total number of credits: 59**

**Program Description:** This program is for EMTs looking to advance their education to the paramedic level. Upon completion of the program, students may find career opportunities with ambulance services, police departments, fire departments, rescue departments, hospitals, and clinics. The program meets the criteria for education of Paramedics as recommended by the U.S. Department of Transportation. The Century

College Paramedic Program has been accredited by the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP) since 1987. Students are eligible to complete the National Registry exam for Paramedics upon successful completion of the program.

### Application Requirements:

- A completed Century College application
- An official high school transcript verifying graduation or an official GED certificate
- Assessment score placement in MATH 0030/1000 or above, or completion of MATH 0010 with a grade of "C" or higher, or completion of MATH 1000 with a grade of "C" or higher
- Assessment score placement into RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher
- Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher
- Completion of one of the following: COMM 1021\*, COMM 1031, COMM 1041, COMM 1051, or ENGL 1021 with a grade of "C" or higher
- Verification of current EMT certification (any state certification)
- Documentation of 50 911-generated ambulance runs, which must include patient treatment and/or transport. At least 50% must have been completed within two years of acceptance into this program. These must be completed after EMT certification. The run log must include the date, nature of the run, and involvement. Each page must also include the supervisor's signature and phone number  
 OR  
 Successful completion of EMS 1025 and EMS 1026 with a grade of "B" or higher in each (can be taken in the same semester)
- A valid driver's license
- A current AHA BLS for the Healthcare Provider certification.

\*Not accepted as Goal 1 in Nursing-Paramedic Mobility Track

### Career/Occupational Requirements: 56 credits

EMSP 1041 Introduction to Paramedics . . . . . 5  
 EMSP 1046 Advanced Assessment, Communication,  
 and Documentation . . . . . 3  
 EMSP 1048 Advanced EMS Operations . . . . . 3  
 EMSP 1049 Advanced EMS Pharmacology . . . . . 4  
 EMSP 1053 Advanced Medical Emergencies I . . . . . 4  
 EMSP 1054 Advanced Medical Emergencies II. . . . . 4

## Engineering

### Program Options:

Engineering AS Degree (64)

### Associate in Science Degree

#### Engineering

**Total Number of Credits: 64**

**Program Description:** The Associate in Science Degree in Engineering is designed for students who plan to transfer to a four-year college or university to complete a baccalaureate degree program in one of the following engineering fields: aerospace, agriculture, biomedical, composites, chemical, civil, computer, electrical, environmental, geological, industrial, materials, mechanical, metallurgical and nuclear. This program includes the courses usually required in the first two years of a baccalaureate engineering curriculum. Students are urged to acquaint themselves with the requirements of the major department in the college or university where they plan to transfer, and to consult with the Century Counseling office for assistance in planning their program and selecting electives. Guide sheets are available in the Counseling Center for each engineering field.

#### Core Requirements: 10 credits

MATH	2081	Multivariable Calculus	5
MATH	2082	Linear Algebra and Differential Equations	5

#### Course Requirements: 15 credits

Select a minimum of 15 credits from the following courses appropriate for your specific major in consultation with a counselor or advisor

CHEM	1041	Principles of Chemistry I	5
CHEM	1042	Principles of Chemistry II	5
CHEM	2041	Organic Chemistry I	5
CSCI	1081	Programming Fundamentals	3
ENGL	1025	Technical Writing	3
ENGR	1020	Introduction to Engineering	4
ENGR	1080	Statics	3
ENGR	2080	Dynamics	3
ENGR	2085	Deformable Body Mechanics	3
ENGR	2091	Circuits I	4
ENGR	2092	Circuits II	4
ENGR	2095	Introduction to Digital Design	4

General Education/MnTC Requirements: 39 credits

*Goal 1 - Communication: 7 credits*

## 6 Programs of Study

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 20 credits**

MATH	1081	Single Variable Calculus I	5
MATH	1082	Single Variable Calculus II	5
PHYS	1081	Introductory Physics I	5
PHYS	1082	Introductory Physics II	5

**Goal 5 - History/Social and Behavioral Sciences: 6 credits**

Two courses from two disciplines

**Goal 6 - Humanities and Fine Arts: 6 credits**

Two courses from two disciplines

**Goals 7-10 - Three credits in each of two goals**

## Engineering CAD Technology

### Program Options:

Digital Fabrication Technology Certificate (16)

Engineering CAD Technology AAS (64)

### Certificate

#### Digital Fabrication Technology

**Total Number of Credits: 16**

**Program Description:** This certificate is designed for individuals interested in learning more about automation and manufacturing technologies and systems. Students enrolled in ECAD, engineering, math and science programs/disciplines may benefit from a technical set of courses designed to prepare graduates for entry-level employment or continuing education in technical/engineering fields. Additionally, this certificate serves as the entrance into the ECAD program. Graduates may gain employment in firms' R&D, Model shops, or prototype departments.

**Application Requirements:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher.

### Career/Occupational Requirements: 16 credits

ECAD	1025	How to Make Almost Anything	3
ENGR	1020	Introduction to Engineering	4
OR			
ECAD	1020	Interpreting Engineering Drawing	2
AND			
ECAD	1070	Introduction to AutoCAD	3
Select from above courses not already taken, from the list below or other courses with instructor consent to total 16 credits.			
ECAD	1060	Materials and Manufacturing Processes	3

ECAD	2050	Introduction to Inventor	3
ECAD	2055	Introduction to Pro/E	3
ENGR	2020	Robotics	4
ENGR	2094	Digital Fundamentals	2
ENGR	2095	Introduction to Digital Design	4
MATH	1015	Applied Mathematics	5
MATH	1081	Single Variable Calculus I	5
PHYS	1041	General Physics I	5
PHYS	1081	Introductory Physics	5

### Associate in Applied Science Degree

#### Engineering CAD Technology

**Total Number of Credits: 64**

**Program Description:** Students will use Computer Aided Drafting and Design (CAD) systems to create engineering drawings. Emphasis is placed on mechanical drafting standards, components and design for manufacturing. Graduates of the program find employment as mechanical drafters, engineering assistants, technicians, and technical sales people.

**Application Requirements:** High School graduate or GED; assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher.

### Career/Occupational Requirements: 36 credits

ECAD	1020	Interpreting Engineering Drawings	2
ECAD	1040	Engineering Drafting I	4
ECAD	1060	Materials and Manufacturing Processes	3
ECAD	1070	Introduction to AutoCAD	3
ECAD	2020	Geometric Dimensioning and Tolerancing	2
ECAD	2025	Geometric Dimensioning and Tolerancing Lab	1
ECAD	2030	Descriptive Geometry and Applications	2
ECAD	2040	Engineering Drafting II	4
ECAD	2050	Introduction to Inventor	3
ECAD	2055	Introduction to Pro/E	3
ECAD	2070	Power Transmission Devices	4
MATH	1015	Applied Mathematics	5

### Career/Occupational Electives: 8 credits

Select 8 credits from the following courses:

ECAD	1025	How to Make Almost Anything	3
ECAD	1050	Introduction to CADKey	3
ECAD	1790	Independent Study	1-3
ECAD	2060	Basic Tooling Fixtures	3
ECAD	2075	Applying Pro/E	3
ECAD	2080	Design Project	2
ECAD	2780	Internship	1-3
ECAD	2790	Special Topics in Engineering CAD	1-3
ENGR	1020	Introduction to Engineering	4
GEOG	1051	Fundamentals of Geographical Information Systems	3

Other electives may be selected with instructor consent by academic petition

## 6 Programs of Study

General Education/MnTC Requirements: 20 credits

**Goal 1 - Communication: 7 credits**

ENGL 1021 Composition I ..... 4

Select one of the following COMM courses: ..... 3

COMM 1021 Fundamentals of Public Speaking

COMM 1031 Interpersonal Communication

COMM 1041 Small Group Communication

COMM 1051 Intercultural Communication

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 5 credits**

PHYS 1041 General Physics I ..... 5

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7-10: Three credits in one of the four goals**

### Facility Systems Technology

#### Program Options:

Commercial Certificate (30)

Facility Systems Technician Diploma (48)

Facility Systems Technology AAS (64)

#### Certificate

##### Commercial

**Total Number of Credits: 30**

**Program Description:** This certificate prepares students for employment in multi-unit housing, commercial buildings (entry level), office buildings, restaurants and community centers.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements

**Career/Occupational Requirements: 27 credits**

FST 1000 Construction Technology ..... 4

FST 1001 Facility Workplace Safety ..... 2

FST 1020 Plumbing Basics ..... 3

FST 1030 Basic Electricity ..... 3

FST 1033 Electric Motors and Electric Controls ..... 3

FST 2020 Commercial Electric Controls and

Wiring Methods ..... 3

HVAC 1041 Basic Refrigeration I ..... 3

HVAC 1060 Fundamentals of Heating ..... 2

HVAC 1073 Hydronic and Low-Pressure Steam Boilers ..... 3

WLDG 1011 Introduction to Metal Inert Gas Welding ..... 1

General Education/MnTC Requirements: 3 credits

**Goal - 1: Communication: 3 credits**

Select one of the following communication courses:

ENGL 1021 Composition I

COMM 1021 Fundamentals of Public Speaking

COMM 1031 Interpersonal Communication

COMM 1041 Small Group Communication

COMM 1051 Intercultural Communication

#### Diploma

##### Facility Systems Technician

**Total Number of Credits: 48**

**Program Description:** This diploma prepares students for employment in residential office buildings, restaurants, hotels, hospitals, community centers and commercial facilities with emphasis given to advanced facility systems and computerized maintenance management systems.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements

**Career/Occupational Requirements: 42 credits**

FST 1000 Construction Technology ..... 4

FST 1001 Facility Workplace Safety ..... 2

FST 1020 Plumbing Basics ..... 3

FST 1030 Basic Electricity ..... 3

FST 1033 Electric Motors and Electric Controls ..... 3

FST 1060 Locks, Keys, and Security ..... 2

FST 2020 Commercial Electric Controls and

Wiring Methods ..... 3

FST 2050 Computerized Maintenance and

Energy Management Systems ..... 3

HVAC 1073 Hydronic and Low-Pressure Steam Boilers ..... 3

HVAC 1041 Basic Refrigeration I ..... 3

HVAC 1042 Basic Refrigeration II ..... 3

HVAC 1060 Fundamentals of Heating ..... 2

HVAC 1067 Gas Heat ..... 4

HVAC 1069 Heat Pumps, Chillers, and Electric Heat ..... 2

WLDG 1001 Introduction to Oxyacetylene Welding ..... 2

General Education/MnTC Requirements: 6 credits

**Goal 1 - Communication: 3 credits**

Select one of the following communication courses:

ENGL 1021 Composition I

COMM 1021 Fundamentals of Public Speaking

COMM 1031 Interpersonal Communication

COMM 1041 Small Group Communication

COMM 1051 Intercultural Communication

General Education/MnTC electives ..... 2-3

#### Associate in Applied Science Degree

##### Facility Systems Technology

**Total Number of Credits: 64**

**Program Description:** This AAS Degree prepares students for employment in residential office buildings, restaurants, hotels, hospitals, community centers and commercial facilities with emphasis

## 6 Programs of Study

### Global Studies

#### Program Options:

#### Global Studies Certificate (15)

#### Certificate

#### Global Studies

#### Total Number of Credits: 15

**Program Description:** The Global Studies Certificate provides a multi-disciplinary approach to understanding the interdependence and interconnectedness of peoples and nations around the globe. By taking a variety of courses with a common focus, students gain knowledge and analytical skills to discuss political, economic and cultural elements of contemporary societies from several perspectives. They also gain knowledge and understanding in order to interact and communicate well with people from a variety of backgrounds and cultures. The intention is to enhance these abilities in order to become community leaders and active world citizens. This Certificate complements many academic fields and any career which benefits from a global/international perspective.

#### Core Requirements: 3 credits

GST	2010	Introduction to Global Studies	3
-----	------	--------------------------------	---

#### Global Courses: Select 6 credits

ANTH	1023	Introduction to Cultural Anthropology	3
ENGL	2051	Modern World Literature	3
ENGL	2052	Contemporary World Literature	3
ENGL	2063	Women in Literature-World Voices	3
GEOG	1023	Human Geography	3
GEOG	1031	World Regional Geography	3
HIST	1061	World History Since 1400.	3
HIST	2051	20th Century Global Conflicts and Crises.	3
HUM	1025	Introduction to Humanities: A World View	4
MUSC	2051	World Music	3
PHIL	1051	World Religions	3
WGST	2061	Women in Global Perspectives	3

#### International/Area Studies: Select 5 credits

ART	1021	Art History of the Western World I	3
ART	1022	Art History of the Western World II	3
COMM	1051	Intercultural Communication	3
COMM	1053	Communication, Travel and Tourism	1
ENGL	2057	An Introduction to African Literature	3
ENGL	2058	Middle Eastern Literature	3
ENGL	2061	Women in Literature: British and Colonial.	3
ENGL	2083	Latin American Literature	3
FREN	2021	Intermediate French I	5
FREN	2022	Intermediate French II	5
HIST	1021	Western Civilization: From Antiquity to the 18th Century	3

given to advanced facility systems and computerized maintenance management systems. The general education required courses would help insure individuals have the necessary oral, written, and critical thinking skills to help with their professional responsibilities.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements.

#### Career/Occupational Requirements: 44 credits

CAPL	1000	Computer Literacy	1
FST	1000	Construction Technology	4
FST	1001	Facility Workplace Safety	2
FST	1020	Plumbing Basics	3
FST	1030	Basic Electricity	3
FST	1033	Electric Motors and Electric Controls	3
FST	1060	Locks, Keys and Security	2
FST	2020	Commercial Electric Controls and Wiring Methods	3
FST	2050	Computerized Maintenance Systems and Energy Management Systems	3
HVAC	1020	Load Calculating	2
HVAC	1041	Basic Refrigeration I	3
HVAC	1042	Basic Refrigeration II	3
HVAC	1060	Fundamentals of Heating	2
HVAC	1067	Gas Heat	4
HVAC	1069	Heat Pumps, Chillers, and Electric Heat	2
HVAC	1073	Hydronic and Low-Pressure Steam Boilers	3
WLDG	1011	Introduction to Metal Inert Gas Welding	1

#### General Education/MnTC Requirements: 20 credits

##### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3

COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7-10 - Three credits in one of the four goals**

## 6 Programs of Study

HIST	1022	Western Civilization: From the 18th Century to the Present . . . . .	3
HIST	1051	East Asia Since 1600 . . . . .	3
HIST	2053	Southeast Asia and the Vietnam War . . . . .	3
HUM	1021	Introduction to the Humanities: Europe and the United States . . . . .	4

### Heating, Ventilation and Air Conditioning Technology

#### Program Options:

- Cooling Certificate (30)
- Heating Certificate (30)
- HVAC Technician Diploma (48)
- HVAC Technology AAS Degree (64)

#### Certificate

##### Cooling

**Total Number of Credits: 30**

**Program Description:** This certificate prepares students for service and installation of residential and light commercial refrigeration and air conditioning equipment. The student must pass the EPA Section 608 Clean Air Act Certification upon completion.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements.

#### Career/Occupational Requirements: 27 credits

CAPL	1000	Computer Literacy . . . . .	1
FST	1001	Facility Workplace Safety . . . . .	2
FST	1030	Basic Electricity . . . . .	3
FST	1033	Electric Motors and Electric Controls . . . . .	3
HVAC	1000	Sheet Metal and Metal Brazing Practices . . . . .	2
HVAC	1041	Basic Refrigeration I . . . . .	3
HVAC	1042	Basic Refrigeration II . . . . .	3
HVAC	1069	Heat Pumps, Chillers and Electric Heat . . . . .	2
HVAC	2051	Advanced Refrigeration I . . . . .	4
HVAC	2052	Advanced Refrigeration II . . . . .	4

#### General Education/MnTC Requirements: 3 credits

##### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

#### Certificate

##### Heating

**Total Number of Credits: 30**

**Program Description:** This certificate prepares students for service and installation processes of residential and light commercial gas, oil and hydronic heating systems.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements.

#### Career/Occupational Requirements: 27 credits

CAPL	1000	Computer Literacy . . . . .	1
FST	1001	Facility Workplace Safety . . . . .	2
FST	1030	Basic Electricity . . . . .	3
FST	1033	Electric Motors and Electric Controls . . . . .	3
HVAC	1000	Sheet Metal and Metal Brazing Practices . . . . .	2
HVAC	1020	Load Calculating . . . . .	2
HVAC	1060	Fundamentals of Heating . . . . .	2
HVAC	1065	Oil Heating Service and Troubleshooting . . . . .	3
HVAC	1067	Gas Heat . . . . .	4
HVAC	1070	Electronic Ignition and Condensing Furnaces . . . . .	2
HVAC	1073	Hydronic and Low-Pressure Steam Boilers . . . . .	3

#### General Education/MnTC Requirements: 3 credits

##### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

#### Diploma

##### Heating, Ventilation and Air Conditioning Technician

**Total Number of Credits: 48**

**Program Description:** This diploma prepares students for service and installation of residential and light commercial heating and cooling equipment. The student must pass the EPA Section 608 Clean Air Act Certification.

**Program Requirements:** Students must be able to perform physical tasks to complete course requirements.

## 6 Programs of Study

### Career/Occupational Requirements: 42 credits

FST	1001	Facility Workplace Safety	2
FST	1030	Basic Electricity	3
FST	1033	Electric Motors and Electric Controls	3
HVAC	1000	Sheet Metal and Metal Brazing Practices	2
HVAC	1020	Load Calculating	2
HVAC	1041	Basic Refrigeration I	3
HVAC	1042	Basic Refrigeration II	3

WLDG	1001	Introduction to Oxyacetylene Welding	2

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7-10 - Three credits in one of the four goals**

## Horticulture

### Program Options:

Horticulture Assistant Certificate	(16)
Horticulture – Greenhouse Certificate	(30)
Horticulture – Landscape Certificate	(30)
Horticulture Technician Greenhouse Diploma	(48)
Horticulture Technician Landscape Diploma	(48)
Horticulture Technology Greenhouse AAS Degree	(64)
Horticulture Technology Landscape AAS Degree	(64)
Horticulture Science AS Degree	(64)

### Certificate

#### Horticulture Assistant

**Total Number of Credits: 16**

**Program Description:** The field of horticulture offers many exciting and challenging careers. Nationally, horticulture is a major employer and includes jobs in garden centers, greenhouses, grounds maintenance firms, park systems, sports complexes, and private grounds. Persons working in horticulture may also be self-employed. The Horticulture Assistant Certificate will acquaint students with the field of horticulture. Students will learn basic horticultural procedures. Some graduates may choose to enter the work force upon completion of this certificate, while others may continue on for a diploma or AAS degree.

### Career/Occupational Requirements: 16 credits

HORT	1000	Introduction to Horticulture	3
Select 13 credits from the following courses:			
HORT	1021	Horticulture Plant Biology	3

## 6 Programs of Study

HORT	1023	Soil Science	3
HORT	1024	Plant Propagation	3
HORT	1025	Pest Management	3
HORT	1027	Organic and Environmentally Friendly Horticulture	3
HORT	1032	Greenhouse Crops I	3
HORT	1041	Woody Plants	3
HORT	1049	Landscape Installation I	3
HORT	1051	Herbaceous Plants	3

### Certificate

#### Horticulture – Greenhouse

**Total Number of Credits: 30**

**Program Description:** The Horticulture Technology- Greenhouse certificate provides students with the general education and technical skills to meet the demand for well-trained personnel in the greenhouse industry. Graduates of this program will be well versed in greenhouse practices, including physical equipment and production of a wide assortment of plants. Graduates may choose to continue in horticulture to achieve a diploma, or an AAS degree.

#### Career/Occupational Requirements: 27 credits

HORT	1000	Introduction to Horticulture	3
HORT	1021	Horticulture Plant Biology	3
HORT	1023	Soil Science	3
HORT	1024	Plant Propagation	3
HORT	1025	Pest Management	3
HORT	1032	Greenhouse Crops I	3
HORT	1051	Herbaceous Plants	3
HORT	2031	Greenhouse Operations	3
HORT	2033	Tropical Indoor Plants and Interiorscaping	3

#### General Education/MnTC Requirements: 3 credits

##### Goal 1 – Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I	4
COMM	1021	Fundamentals of Public Speaking	3
COMM	1031	Interpersonal Communication	3
COMM	1041	Small Group Communication	3
COMM	1051	Intercultural Communication	3

### Certificate

#### Horticulture – Landscape

**Total Number of Credits: 30**

**Program Description:** The Horticulture - Landscape certificate provides students with the general education and technical skills to meet the demand for well-trained personnel in the landscape industry. Graduates will be well versed in woody and herbaceous plants that grow in this climate. They will be knowledgeable about plant pests, nursery operations, landscape design, landscape installation, and

grounds maintenance. Graduates of this program may choose to continue in horticulture to achieve a diploma or an AAS degree.

#### Career/Occupational Requirements: 27 credits

HORT	1000	Introduction to Horticulture	3
HORT	1021	Horticulture Plant Biology	3
HORT	1025	Pest Management	3
HORT	1041	Woody Plants	3
HORT	1049	Landscape Installation I	3
HORT	1051	Herbaceous Plants	3
HORT	2044	Landscape Maintenance and Management	3
HORT	2047	Landscape Design	3
HORT	2049	Landscape Installation II	3

#### General Education/MnTC Requirements: 3 credits

##### Goal 1 – Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I	4
COMM	1021	Fundamentals of Public Speaking	3
COMM	1031	Interpersonal Communication	3
COMM	1041	Small Group Communication	3
COMM	1051	Intercultural Communication	3

### Diploma

#### Greenhouse Technician

**Total Number of Credits: 48**

**Program Description:** The Horticulture Technology- Greenhouse diploma provides students with the general education and technical skills to meet the demand for well-trained personnel in the greenhouse industry. Graduates of this program will be well versed in greenhouse practices, including physical equipment and production of a wide assortment of plants. Graduates may choose to continue in horticulture to achieve an AAS degree.

#### Core Requirements: 30 credits

HORT	1000	Introduction to Horticulture	3
HORT	1021	Horticulture Plant Biology	3
HORT	1023	Soil Science	3
HORT	1024	Plant Propagation	3
HORT	1025	Pest Management	3
HORT	1032	Greenhouse Crops I	3
HORT	1051	Herbaceous Plants	3
HORT	2031	Greenhouse Operations	3
HORT	2032	Greenhouse Crops II	3
HORT	2033	Tropical Indoor Plants and Interiorscaping	3

#### Career/Occupational Requirements: 11 credits

Select 11 credits from the following courses:

HORT	1027	Organic and Environmentally Friendly Horticulture	3
HORT	1041	Woody Plants	3

## 6 Programs of Study

HORT	1781	Horticulture Internship I	1-3
HORT	2041	Nursery Operations	3
HORT	2044	Landscape Maintenance and Management	3
HORT	2045	Turfgrass Science and Management	3
HORT	2046	Horticulture Equipment and Technology	3
HORT	2047	Landscape Design	3
HORT	2049	Landscape Installation II	3
HORT	2051	Urban and Local Food Systems	3
HORT	2052	Creating Native Landscapes	3
HORT	2057	Computer Assisted Landscape Design	3

### General Education/MnTC Requirements: 7 credits

#### Goal 1 – Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

### Diploma

#### Landscape Technician

#### Total Number of Credits: 48

**Program Description:** The Horticulture Technician - Landscape diploma provides students with the general education and technical skills to meet the demand for well-trained personnel in the landscape industry. Graduates will be well versed in woody and herbaceous plants that grow in this climate. They will be knowledgeable about plant pests, nursery operations, landscape design, landscape installation, and grounds maintenance. Graduates of this program may choose to continue in horticulture to achieve an AAS or AS degree.

#### Core Requirements: 27 credits

HORT	1000	Introduction to Horticulture	3
HORT	1021	Horticulture Plant Biology	3
HORT	1024	Plant Propagation	3
HORT	1025	Pest Management	3
HORT	1041	Woody Plants	3
HORT	1049	Landscape Installation I	3
HORT	1051	Herbaceous Plants	3
HORT	2047	Landscape Design	3
HORT	2049	Landscape Installation II	3

#### Career/Occupational Requirements: 14 credits

Select 14 credits from the following courses:

HORT	1023	Soil Science	3
HORT	1027	Organic and Environmentally Friendly Horticulture	3
HORT	1032	Greenhouse Crops I	3
HORT	1781	Horticulture Internship I	1-3
HORT	2031	Greenhouse Operations	3

HORT	2032	Greenhouse Crops II	3
HORT	2033	Tropical Indoor Plants and Interiorscaping	3
HORT	2041	Nursery Operations	3
HORT	2044	Landscape Maintenance and Management	3
HORT	2045	Turfgrass Science and Management	3
HORT	2046	Horticulture Equipment and Technology	3
HORT	2051	Urban and Local Food Systems	3
HORT	2052	Creating Native Landscapes	3
HORT	2057	Computer Assisted Landscape Design	3

### General Education/MnTC Requirements: 7 credits

#### Goal 1 – Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

### Associate in Applied Science

#### Horticulture Greenhouse Technology

#### Total Number of Credits: 64

**Program Description:** Graduates of the Horticulture Technology-Greenhouse AAS degree will have a strong knowledge of horticulture and greenhouse practices as well as general education skills. Many employment opportunities in horticulture allow for advancement to supervisory and management positions. This degree program gives students the needed training for these opportunities.

#### Core Requirements: 30 credits

HORT	1000	Introduction to Horticulture	3
HORT	1021	Horticulture Plant Biology	3
HORT	1023	Soil Science	3
HORT	1024	Plant Propagation	3
HORT	1025	Pest Management	3
HORT	1032	Greenhouse Crops I	3
HORT	1051	Herbaceous Plants	3
HORT	2031	Greenhouse Operations	3
HORT	2032	Greenhouse Crops II	3
HORT	2033	Tropical Indoor Plants and Interiorscaping	3

#### Career/Occupational Requirements: 14 credits

Select 14 credits from the following courses:

HORT	1027	Organic and Environmentally Friendly Horticulture	3
HORT	1041	Woody Plants	3
HORT	1049	Landscape Installation I	3
HORT	1781	Horticulture Internship	1-3
HORT	2041	Nursery Operations	3
HORT	2044	Landscape Maintenance and Management	3
HORT	2045	Turfgrass Science and Management	3
HORT	2046	Horticulture Equipment and Technology	3

HORT	2051	Urban and Local Food Systems.....	3
HORT	2052	Creating Native Landscapes.....	3

### General Education/MnTC Requirements: 20 credits

#### *Goal 1 – Communication: 7 credits*

ENGL	1021	Composition I.....	4
Select one of the following COMM courses.....			3
COMM	1021	Fundamentals of Public Speaking.....	
COMM	1031	Interpersonal Communication.....	
COMM	1041	Small Group Communication.....	
COMM	1051	Intercultural Communication.....	

#### *Goal 2 – Critical Thinking is fulfilled when all MnTC goals are completed*

#### *Goal 3 and/or Goal 4 – Sciences/Math/Logical Reasoning: 3 credits*

#### *Goal 5 – History/Social and Behavioral Sciences: 3 credits*

#### *Goal 6 – Humanities and Fine Arts: 3 credits*

#### *Goals 7-10 - Three credits in one of the four goals*

### Associate in Applied Science Degree

#### Horticulture Landscape Technology

#### Total Number of Credits: 64

**Program Description:** Graduates of the Horticulture Technology-Landscape AAS degree will have a strong knowledge of horticulture and landscape practices as well as general education skills. Many employment opportunities in the landscape industry allow for advancement to supervisory and management positions. This degree program gives students the needed training for these opportunities.

#### Core Requirements: 30 credits

HORT	1000	Introduction to Horticulture.....	3
HORT	1021	Horticulture Plant Biology.....	3
HORT	1023	Soil Science.....	3
HORT	1024	Plant Propagation.....	3
HORT	1025	Pest Management.....	3
HORT	1041	Woody Plants.....	3
HORT	1049	Landscape Installation I.....	3
HORT	1051	Herbaceous Plants.....	3
HORT	2047	Landscape Design.....	3
HORT	2049	Landscape Installation II.....	3

#### Career/Occupational Requirements: 14 credits

Select 14 credits from the following courses:

HORT	1027	Organic and Environmentally Friendly Horticulture.....	3
HORT	1032	Greenhouse Crops I.....	3
HORT	1781	Horticulture Internship.....	3
HORT	2031	Greenhouse Operations.....	3
HORT	2032	Greenhouse Crops I.....	3
HORT	2033	Tropical Indoor Plants and Interiorscaping.....	3
HORT	2041	Nursery Operations.....	3

HORT	2044	Landscape Maintenance and Management.....	3
HORT	2045	Turfgrass Science and Management.....	3
HORT	2046	Horticulture Equipment and Technology.....	3
HORT	2051	Urban and Local Food Systems.....	3
HORT	2052	Creating Native Landscapes.....	3
HORT	2057	Computer Assisted Landscape Design.....	3

### General Education/MnTC Requirements: 20 credits

#### *Goal 1 – Communication: 7 credits*

ENGL	1021	Composition I.....	4
Select one of the following COMM courses.....			3
COMM	1021	Fundamentals of Public Speaking.....	
COMM	1031	Interpersonal Communication.....	
COMM	1041	Small Group Communication.....	
COMM	1051	Intercultural Communication.....	

#### *Goal 2 – Critical Thinking is fulfilled when all MnTC goals are completed*

#### *Goal 3 and/or Goal 4 – Sciences/Math/Logical Reasoning: 3 credits*

#### *Goal 5 – History/Social and Behavioral Sciences: 3 credits*

#### *Goal 6 – Humanities and Fine Arts: 3 credits*

#### *Goals 7-10 - Three credits in one of the four goals*

### Horticulture Science

#### Associate in Science Degree

#### Total Number of Credits: 64

**Program Description:** The Horticulture AS Degree program is designed to provide students with pre-professional preparation in horticulture through introductory horticulture courses as well as a strong foundation in general education for transfer purposes. Students interested in securing or maintaining employment in a horticulture-related occupation and those interested in furthering their education to a Baccalaureate Degree may consider completing this AS Degree. Specific transfer arrangements, with the college of choice, should be made as early in the degree as possible to ensure an appropriate program is planned for enrollment at Century and at the four-year school.

#### Core Requirements: 24 credits

HORT	1000	Introduction to Horticulture.....	3
HORT	1021	Horticulture Plant Biology.....	3
HORT	1024	Plant Propagation.....	3
HORT	1041	Woody Plants.....	3
HORT	1051	Herbaceous Plants.....	3
HORT	2031	Greenhouse Operations.....	3
HORT	2033	Tropical Indoor Plants and Interiorscaping.....	3
HORT	2047	Landscape Design.....	3

#### Electives: 10 credits

Select 10 credits from the following courses:

HORT	1023	Soil Science.....	3
HORT	1025	Pest Management.....	3
HORT	1032	Greenhouse Crops I.....	3
HORT	1049	Landscape Installation I.....	3

## 6 Programs of Study

HORT	1781	Horticulture Internship I	1-3
HORT	2041	Nursery Operations	3
HORT	2044	Landscape Maintenance and Management	3
HORT	2045	Turfgrass Science and Management	3

### General Education/MnTC Requirements: 30 credits

#### Goal 1 – Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses 3

COMM	1021	Fundamentals of Public Speaking	
------	------	---------------------------------	--

COMM	1031	Interpersonal Communication	
------	------	-----------------------------	--

COMM	1041	Small Group Communication	
------	------	---------------------------	--

COMM	1051	Intercultural Communication	
------	------	-----------------------------	--

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 9 credits**

BIOL	1041	Principles of Biology I	5
------	------	-------------------------	---

MATH	1061	College Algebra I or higher	4
------	------	-----------------------------	---

**Goal 5 - History/Social and Behavioral Sciences: 6 credits**

Two courses from two disciplines

**Goal 6 - Humanities and Fine Arts: 6 credits**

Two courses from two disciplines

**Goals 7-10 - Three credits in each of two goals**

## Human Services

### Program Options:

Volunteer Certificate (16)

Human Services Technician Certificate (30)

Human Services AS Degree (64)

### Certificate

#### Volunteer Certificate

**Total Number of Credits: 16**

**Program Description:** The Human Services Volunteer Certificate is designed for community members interested in volunteering within a changing metro and global environment. The student will acquire a basic understanding of the concepts, principles, skills, methods and techniques necessary for a volunteer position in communities and agencies.

#### Additional Program Requirements:

1. Grade of "C" or higher in all Career/Occupational courses.
2. Grade of "C" or higher in all specifically designated General Education course requirements.

#### Career/Occupational: 7 credits

HSER	1030	Helping Skills	3
------	------	----------------	---

HSER	2780	Internship (1 credit option)	1
------	------	------------------------------	---

Select a minimum of 3 credits from the following courses:

HSER	1060	Applied Theories of Family Functioning	3
------	------	--	---

HSER	1070	Helping Clients with Disabilities	3
------	------	-----------------------------------	---

HSER	2000	Techniques of Working with Groups in a Human Service Settings	3
------	------	---	---

HSER	2040	Crisis Assessment and Intervention	3
------	------	------------------------------------	---

HSER	2050	Seminar: Current Issues and Topics	3
------	------	------------------------------------	---

**Elective credits select 6 from the following:**

CAPL	1000*	Computer Literacy	1
------	-------	-------------------	---

COMM	1021	Fundamentals of Public Speaking	3
------	------	---------------------------------	---

ENGL	1021	Composition I	4
------	------	---------------	---

EMS	1010*	AHA BLS for the Healthcare Provider (CPR)	1
-----	-------	---	---

OR

HLTH	1005*	Basic CPR, Red Cross	1
------	-------	----------------------	---

HLTH	1010*	Standard First Aid and Safety	1
------	-------	-------------------------------	---

PSYC	1020	General Psychology	4
------	------	--------------------	---

PSYC	2043	Child Development	3
------	------	-------------------	---

PSYC	2044	Adolescent Development	3
------	------	------------------------	---

PSYC	2045	Adult, Aging and Death	3
------	------	------------------------	---

SOC	1041	Sociology of Social Problems	3
-----	------	------------------------------	---

SOC	1080	Introduction to the Criminal Justice System	3
-----	------	---	---

SOC	2031	Sociology of the Family	3
-----	------	-------------------------	---

SOC	2051	Sociology of Race and Ethnicity	3
-----	------	---------------------------------	---

SPAN	1011	Beginning Spanish I	5
------	------	---------------------	---

WGST	1071	Intro to GBLT Studies	3
------	------	-----------------------	---

WGST	2061	Women in Global Perspectives	3
------	------	------------------------------	---

WGST	2790	Special Topics in Women and Gender Studies	1-3
------	------	--	-----

\*A maximum of 2 of credits will be accepted towards the certificate requirements from these courses

### General Education/MnTC Requirements: 3 credits

#### Goal 1 – Communication: 3 credits

COMM	1051	Intercultural Communication	3
------	------	-----------------------------	---

### Certificate

#### Human Services Technician

**Total Number of Credits: 30**

**Program Description:** The Human Services Technician Certificate is designed for students seeking entry-level positions in the human services field. The student will acquire an understanding of the concepts, principles, skills, methods and techniques necessary for a paraprofessional position in social welfare agencies.

#### Additional Program Requirements:

1. Grade of "C" or higher in all Career/Occupational courses
2. Grade of "C" or higher in all specifically designated General Education course requirements

Prospective students should be aware that a MN Human Services background study may be required for the internships.

#### Career/Occupational Requirements: 22 credits

HSER	1020	Introduction to Human Services	3
------	------	--------------------------------	---

HSER	1030	Helping Skills	3
------	------	----------------	---

## 6 Programs of Study

HSER	2000	Techniques of Working with Groups	3
HSER	2030	Working with the Mentally Ill in Human Service Settings	3
HSER	2040	Crisis Assessment and Intervention	3
HSER	2050	Seminar: Current Issues and Topics	3
HSER	2780	Human Services Internship	4

### General Education/MnTC Requirements: 7 credits

#### Goal 1 - Communications: 7 credits

ENGL	1021	Composition I	4
COMM	1051	Intercultural Communication	3

### Additional Requirements: 1 credit

CAPL	1000	Computer Literacy	1
------	------	-------------------	---

### Associate in Science Degree

#### Human Services

#### Total Number of Credits: 64

**Program Description:** The Human Services program is designed for students interested in the helping professions. A graduate will acquire an understanding of the concepts, principles, skills, methods, and techniques necessary for paraprofessional positions in social welfare agencies. This degree satisfies the MnTC requirements and also transfers into a four-year program at Metropolitan State University. Students should see a Counselor if planning to pursue a four-year degree.

#### Additional Program Requirements:

- Grade of "C" or higher in all Career/Occupational courses
- Grade of "C" or higher in all specifically designated General Education course requirements

Prospective students should be aware that a MN Human Services background study may be required for the internships.

### Career/Occupational Requirements: 26 credits

HSER	1020	Introduction to Human Services	3
HSER	1030	Helping Skills	3
HSER	2000	Techniques of Working with Groups	3
HSER	2030	Working with the Mentally Ill in Human Service Settings	3
HSER	2040	Crisis Assessment and Intervention	3
HSER	2050	Seminar: Current Issues and Topics	3
HSER	2780	Internship I	4
HSER	2781	Internship II	4

### Additional Requirements: 8 credits

Select 8 credits from the following courses:

HSER	1040	Dynamics of Violence in Contemporary Society	3
HSER	1060	Applied Theories of Family Functioning	3
HSER	1070	Helping Clients with Disabilities	3
HSER	1770	Learning Through Community Service	1-2
HSER	2060	Case Management	2

### General Education/MnTC Requirements: 30 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
COMM	1051	Intercultural Communication	3

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 6 credits

Two courses from Goal 3 and/or 4

#### Goal 5 - History/Social and Behavioral Sciences: 6 credits

Two courses from two disciplines required.

#### Goal 6 - Humanities and Fine Arts: 6 credits

#### Goals 7-10 - Three credits in each of two goals

## Information and Telecommunications Technology

### Program Options:

- Networking Fundamentals Certificate (16)
- Advanced Networking Certificate (16)
- Information Assurance/Security Certificate (16)
- MCSA Certificate (16)
- Storage Area Networking Certificate (16)
- VoIP Infrastructure and Management Certificate (16)
- Information and Telecommunications Technology (30)
- Information and Telecommunications Technology AAS Degree (64)

**Note:** Other computer-related courses are offered in the following disciplines: Computer Application Technology, Computer Forensics, Computer Science, Microcomputer Support Technology, Office Technology

### Certificate

#### Networking Fundamentals

#### Total Number of Credits: 16 credits

**Program Description:** This certificate is designed to prepare students to select, connect, configure, and troubleshoot various networking devices for enterprise networks. This certificate covers topics including switched networks with VLANs, determining IP routes, managing IP traffic and access control. Establishing Point-to-Point and frame relay connections for WAN traffic is also covered. Additionally, this certificate will prepare students to take the Cisco Certified Network Associate (CCNA) examination.

### Career/Occupational Requirements: 16 credits.

ITT	1020	Introduction to Information and Telecommunication Technology	3
ITT	1031	Network Fundamentals (CCNA-1)	3
ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
ITT	2031	LAN Switching and Wireless (CCNA-3)	3
ITT	2032	Accessing the WAN (CCNA-4)	3
ITT	2033	CCNA Capstone	1

## 6 Programs of Study

### Certificate

#### Advanced Networking

##### Total Number of Credits: 16 credits

**Program Description:** This certificate is designed to prepare students to install, configure and troubleshoot converged local and wide area networks with 100 to 500 or more nodes. Students will develop knowledge and skills required to manage the routers and switches that form the network core, as well as edge applications that integrate voice, wireless, and security into the network. Additionally, this certificate will prepare students to take the Cisco Certified Network Professionals (CCNP) examinations.

**Application Requirements:** Cisco Certified Network Associate (CCNA) certification or appropriate coursework or instructor consent

##### Career/Occupational Requirements: 16 credits

ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3). . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
ITT	2780	Internship . . . . .	1
Select two courses from the following: 6 cr.			
ITT	1021	Principles of Information Security . . . . .	3
ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2036	Network Attached Storage. . . . .	3
ITT	2038	Storage Area Network Management. . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003. . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

### Certificate

#### Information Assurance/Security

##### Total Number of Credits: 16 credits

**Program Description:** This certificate provides students with the professional competencies specified by the world's two most prominent authorities in information assurance-the joint National Security Agency and Department of Homeland Security Committee on National Security Standards (CNSS), and the (ISC) organization's requirements for the Certified Information Systems Security Professional (CISSP) credential. Students that complete this certificate are prepared for careers as information systems security officers, information security analysts, administrators and consultants, risk managers and auditors.

**Application Requirements:** Proficiency in the knowledge and skills relating to configuring and maintaining routers and switches and a fundamental understanding of the principles of information security as demonstrated by: Cisco Certified Network Associate (CCNA) certification and a relevant industry certification in the IT security field (e.g. CompTIA Security +, CCSP, CISSP, etc.) or appropriate coursework or instructor consent.

ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2025	Firewalls and Network Security . . . . .	3
ITT	2075	Wireless Network Security . . . . .	3
ITT	2780	Internship . . . . .	1

Select two courses from the following: 6 cr.

ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3). . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
ITT	2065	Information Security Management . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003. . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

### Certificate

#### MCSA

##### Total Number of Credits: 16 credits

**Program Description:** This certificate is designed to prepare students to successfully manage and maintain the typically complex computing environment of medium-to-large-sized companies utilizing Microsoft technologies. Additionally, this certificate will prepare students to take the Microsoft Certified System Administrator (MCSA) examinations.

**Application Requirements:** Proficiency in the knowledge and skills related to understanding the fundamentals of networking and the configuration of routers as demonstrated by: Cisco Certified Entry networking Technician (CCENT) certification or CompTIA Network+ certification or appropriate coursework or instructor consent.

##### Career/Occupational Requirements: 16 credits

ITT	2780	Internship . . . . .	1
MCST	1011	Supporting Microsoft Windows XP Professional. . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003. . . . .	3
MCST	2017	Microsoft Windows Server 2003 Network Infrastructure. . . . .	3

Select two courses from the following: 6 cr.

ITT	1021	Principles of Information Security . . . . .	3
ITT	2020	Network Security Fundamentals . . . . .	3
MCST	1001	PC Hardware and Software . . . . .	4
MCST	2015	Administering the Active Directory . . . . .	3

### Certificate

#### Storage Area Networking

##### Total Number of Credits: 16

**Program Description:** This certificate is designed to prepare students to enter or advance into the Storage Area Networking (SAN's) field. Students will develop knowledge, understanding and technical operational skills relating to SAN's best practices. This program is designed around developing Network Attached Storage (NAS) and Storage Area Networks (SAN). Focus on deployment of NAS and SANs and managing those networks in a data-centric enterprise environment. Students will gain valuable skills maintaining and managing SAN business requirements and standards. This certificate is designed to advance students/professionals into the SAN field by building

## 6 Programs of Study

on technical information technology, computing, networking and telecommunication knowledge. Additionally, this certificate will prepare students to take the Storage Networking Industry Association (SNIA) examination.

**Application Requirements:** Cisco Certified Network Associate (CCNA) certification or appropriate coursework or instructor consent.

### Career/Occupational Requirements: 16 credits

ITT	2036	Network Attached Storage	3
ITT	2038	Storage Area Network Management	3
ITT	2051	Enterprise Computing Virtualization	3
ITT	2780	Internship	1
Select two courses from the following: 6 cr.			
ITT	2020	Network Security Fundamentals	3
ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2)	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3)	3
ITT	2044	Optimizing Converged Networks (CCNP-4)	3
MCST	1013	Supporting Microsoft Windows Server 2003	3
MCST	2032	Linux/UNIX System Administration	3

### Certificate

#### VoIP Infrastructure and Management

**Total Number of Credits: 16**

**Program Description:** This certificate is designed to prepare students to enter or advance into the IP Telephony field. Students will be provided the opportunity to develop knowledge, understanding and technical operational skills relating to VoIP best practices. This program is designed around developing VoIP networks, deployment of VoIP, and managing those networks. Students will gain valuable skills maintaining and managing VoIP business requirements and standards. This certificate is designed to advance students/professionals into the VoIP fields by building on technical information technology, computing, networking and telecommunication knowledge.

### Career/Occupational Requirements: 16 credits

ITT	1070	Telephony Systems	3
ITT	2060	Computer Telephony Integration	3
ITT	2070	Video Integration	3
ITT	2780	Internship	1
Select two courses from the following: 6 cr.			
ITT	1021	Principles of Information Security	3
ITT	2020	Network Security Fundamentals	3
ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2)	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3)	3
ITT	2044	Optimizing Converged Networks (CCNP-4)	3
MCST	1013	Supporting Microsoft Windows Server 2003	3
MCST	2032	Linux/UNIX System Administration	3

### Certificate

#### Information and Telecommunication Technology

**Total Number of Credits: 30**

**Program Description:** The Information and Telecommunication Technology Specialist program prepares individuals with the essential technical and organizational skills necessary to maintain modern computer and telecommunication networks in today's business and industrial environments.

**Application Requirements:** Assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Career/Occupational Requirements: 27 credits

ITT	1020	Introduction to Information and Telecommunications Technology	3
ITT	1031	Network Fundamentals (CCNA-1)	3
ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
ITT	1070	Telephony Systems	3
ITT	2031	LAN Switching and Wireless (CCNA-3)	3
ITT	2032	Accessing the WAN (CCNA-4)	3
ITT	2041	Building Scalable Cisco Internetworks (CCNP-1)	3
ITT	2080	Technology Planning and Architecture	3
Technical Electives approved by ITT faculty			2

### General Education/MnTC Requirements: 3 credits

#### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

### Associate in Applied Science Degree

#### Information and Telecommunications Technology

**Total Number of Credits: 64**

**Program Description:** This broad-based program of Liberal, technical, and professional studies will prepare students for intelligent, effective, self-development in a complex and continually changing society. The Information and Telecommunications degree is designed to allow students to focus on a specialized area within the Information Technology field. The program also emphasizes the importance of business and communication skills in today's business climate.

### Career/Occupational Requirements: 31 credits

ITT	1020	Introduction to Information and Telecommunications Technology	3
ITT	1021	Principles of Information Security	3
ITT	1031	Network Fundamentals (CCNA-1)	3
ITT	1032	Routing Protocols and Concepts (CCNA-2)	3

## 6 Programs of Study

ITT	1033	Network Infrastructure and Data Center Design (BICSI) . . . . .	3
ITT	2031	LAN Switching and Wireless (CCNA-3) . . . . .	3
ITT	2032	Accessing the WAN (CCNA-4) . . . . .	3
ITT	2041	Building Scalable Cisco Internetworks (CCNP-1) . . . . .	3
ITT	2080	Technology Planning and Architecture . . . . .	3
ITT	2780	Internship or technical elective . . . . .	1
		Technical elective . . . . .	3

### Career/Occupational Requirements: Select 1 of the Specialty Track Options

#### Advanced Networking: 13 credits

ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3) . . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
ITT	2780	Internship . . . . .	1

Select one course from the following: 3 cr.

ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2036	Network Attached Storage . . . . .	3
ITT	2038	Storage Area Network Management . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003 . . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

#### Information Assurance and Security: 13 credits

ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2025	Firewalls and Network Security . . . . .	3
ITT	2075	Wireless Network Security . . . . .	3
ITT	2780	Internship . . . . .	1

Select one course from the following: 3 cr.

ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3) . . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
ITT	2065	Information Security Management . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003 . . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

#### MCSA: 13 credits

ITT	2780	Internship . . . . .	1
MCST	1011	Supporting Microsoft Windows XP Professional . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003 . . . . .	3
MCST	2017	Microsoft Windows Server 2003 Network Infrastructure . . . . .	3

Select one course from the following: 3 cr.

ITT	2020	Network Security Fundamentals . . . . .	3
MCST	1001	PC Hardware and Software . . . . .	4
MCST	2015	Administering the Active Directory . . . . .	3

#### Storage Area Networking: 13 credits

ITT	2036	Network Attached Storage . . . . .	3
ITT	2038	Storage Area Network Management . . . . .	3

ITT	2051	Enterprise Computing Virtualization . . . . .	3
ITT	2780	Internship . . . . .	1

Select one course from the following: 3 cr.

ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3) . . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003 . . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

#### VoIP Infrastructure and Management: 13 credits

ITT	1070	Telephony Systems . . . . .	3
ITT	2060	Computer Telephony Integration . . . . .	3
ITT	2070	Video Integration . . . . .	3
ITT	2780	Internship . . . . .	1

Select one course from the following: 3 cr.

ITT	2020	Network Security Fundamentals . . . . .	3
ITT	2042	Implementing Secure Converged Wide Area Networks (CCNP-2) . . . . .	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3) . . . . .	3
ITT	2044	Optimizing Converged Networks (CCNP-4) . . . . .	3
MCST	1013	Supporting Microsoft Windows Server 2003 . . . . .	3
MCST	2032	Linux/UNIX System Administration . . . . .	3

#### General Education/MnTC Requirements: 20 credits

##### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I . . . . .	4
		Select one of the following COMM courses . . . . .	3

COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Interpersonal Communication

*Goal 2 - Critical Thinking is fulfilled when all MnTC Goals are complete*

*Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits*

*Goal 5 - History/Social and Behavioral Sciences: 3 credits*

*Goal 6 - Humanities and Fine Arts: 3 credits*

*Goals 7-10 - Three credits in one of the four goals*

# 6 Programs of Study

## Interior Design

### Program Options:

- Home Furnishing Sales Certificate (30)
- Kitchen and Bathroom Design (30)
- Interior Design Consultant Certificate (16)
- Interior Design Associate Diploma (48)
- Interior Design AAS Degree (64)

### Certificate

#### Home Furnishings Sales

##### Total Number of Credits: 30

**Program Description:** Home Furnishings Sales graduates will be prepared to consult with customers and to recommend and sell residential interior furnishing products and services appropriate to customer needs. In addition, a base of skills and knowledge suitable for continuing education and/or professional growth in the industry will be acquired. Note: MATH 0010 and ENGL 0090 are prerequisites for INTD 1040.

##### Career/Occupational Requirements: 27 credits

INTD	1020	Drafting for Interior Design	3
INTD	1030	Design and Color	3
INTD	1040	Elements of Interior Design	3
INTD	1050	Lighting Fundamentals	3
INTD	1060	Furniture Styles and Periods	3
INTD	1080	Textile Applications	3
INTD	2001	Residential Studio I	3
INTD	2002	Residential Studio II	3
INTD	2020	Professional Practice for Interior Design	3

##### General Education/MnTC Requirements: 3 credits

##### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

### Certificate

#### Kitchen and Bathroom Design

##### Total Number of Credits: 30

**Program Description:** The Kitchen and Bathroom Design certificate program, which is endorsed by the National Kitchen and Bath Association (NKBA), is designed to prepare individuals for entry-level and advanced positions in the kitchen and bath design industry. This program will include the knowledge, skills and attitudes necessary for working in this specialized design area.

Students will learn presentation standards, construction and mechanical systems, basics of kitchen and bath design, materials and estimation, lighting, universal design and theme application, business practices for kitchen and bath designers, and computer-aided drafting specific for the kitchen and bathroom design industry. As a culmination of all these courses, an internship within a kitchen and/or bath design firm is required. The basic competencies of this program are based on the specifications encouraged by the National Kitchen and Bath Association (NKBA) and is supported by the use of their reference and resource materials.

**Application Requirements:** Assessment score placement into MATH 0030 and ENGL 1021 for those without prior higher education.

##### Career/Occupational Requirements: 30 credits

KBD	1010	Presentation Standards	3
KBD	1020	Construction and Mechanical Systems	3
KBD	1030	Basic Kitchen and Bath design	3
KBD	1040	Materials and Estimating	2
KBD	1050	Lighting for Kitchen and Bath Design	1
KBD	2010	Advanced Kitchen and Bath Design	3
KBD	2020	CAD for Kitchen and Bath	3
KBD	2030	Business Practices for Kitchen and Bath Design	1
KBD	2080	Customized Consulting and Presentation	3
KBD	2781	Internship in Kitchen and Bath Design I	2
KBD	2782	Internship in Kitchen and Bath Design II	3

Select one of the following courses:

ECAD	1070	Introduction to AutoCAD	3
INTD	2040	Dimensional Drawing	3
KBD	2060	Advanced CAD for Kitchen and Bath Design	3

or any other course with instructor approval

##### Additional Requirements:

Students will be required to have a laptop computer, as per the specification required by the program, to use throughout the duration of the program.

### Certificate

#### Interior Design Consultant

##### Total Number of Credits: 16

**Program Description:** The Interior Design Certificate is designed for people who are working in the industry to gain additional knowledge in specific areas and strengthen their skills. It will also prepare them to design, specify, and sell the products and services required for implementation of design.

**Application Requirements:** Must have Home Furnishings Sales Certificate or applicable work experience and instructor consent.

##### Career/Occupational Requirements: 16 credits

Select a minimum of 16 credits from the following courses with guidance of program faculty:

INTD	1060	Furniture Styles and Periods	3
INTD	1080	Textile Applications	3

## 6 Programs of Study

INTD	2030	Design Sales	3
INTD	2040	Dimensional Design Drawing	3
INTD	1790	Independent Study	1-3
INTD	2780	Internship	2
MKTG	1020	Visual Merchandising and Store Planning	3
MKTG	2035	Trend Analysis	3

Or any of the 30-credit certificate offerings if student enters this program through work experience and instructor consent.

### Diploma

#### Interior Design Associate

**Total Number of Credits: 48**

**Program Description:** This program prepares students to design in terms of customer/client needs, the interior furnishings of residences and to specify and sell the products and services required for implementation of that design.

#### Career/Occupational Requirements: 42 credits

ECAD	1070	Introduction to AutoCAD	3
INTD	1020	Drafting for Interior Design	3
INTD	1030	Design and Color	3
INTD	1040	Elements of Interior Design	3
INTD	1050	Lighting Fundamentals	3
INTD	1060	Furniture, Styles and Periods	3
INTD	1080	Textile Applications	3
INTD	1090	Sustainable Design	3
INTD	2001	Residential Studio I	3
INTD	2002	Residential Studio II	3
INTD	2020	Professional Practice for Interior Design	3
INTD	2030	Design Sales	3
INTD	2040	Dimensional Drawing	3
INTD	2050	Commercial Design Studio	3

#### General Education/MnTC Requirements: 6 credits

##### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I	
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	
General Education/MnTC electives			2-3
See MnTC course list for options			

### Associate in Applied Science Degree

#### Interior Design

**Total Number of Credits: 64**

**Program Description:** Associate in Applied Science graduates will be prepared to design in terms of customer/client needs, the interior furnishings of residences and to specify and sell the products and

services required for implementation of that design. In addition, the graduate will have acquired a foundation in marketing and general education necessary to be able to compete in today's workplace. Note: MATH 0010 and ENGL 0090 are prerequisites for INTD 1040.

#### Career/Occupational Requirements: 44 credits

ECAD	1070	Introduction to AutoCAD	3
INTD	1020	Drafting for Interior Design	3
INTD	1030	Design and Color	3
INTD	1040	Elements of Interior Design	3
INTD	1050	Lighting Fundamentals	3
INTD	1060	Furniture, Styles and Periods	3
INTD	1080	Textile Applications	3
INTD	1090	Sustainable Design	3
INTD	2001	Residential Studio I	3
INTD	2002	Residential Studio II	3
INTD	2020	Professional Practice for Interior Design	3
INTD	2030	Design Sales	3
INTD	2040	Dimensional Drawing	3
INTD	2050	Commercial Design Studio	3
INTD	2780	Internship	2

#### General Education/MnTC Requirements: 20 credits

##### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
COMM	1031	Interpersonal Communication	3

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

**Goal 5 - History/Social and Behavioral Sciences: 4 credits**

PSYC	1020	General Psychology	4
------	------	--------------------	---

**Goal 6 - Humanities and Fine Arts: 3 credits**

ART	1020	Art Appreciation	3
-----	------	------------------	---

**Goals 7-10 - Three credits in one of the four goals**

## Law Enforcement

### Program Options:

Law Enforcement AS Degree (68)

Investigative Sciences in Law Enforcement AAS Degree (72)

(See also Criminal Justice)

### Associate in Science Degree

#### Law Enforcement

**Total Number of Credits: 68**

**Program Description:** This degree is primarily designed to meet the professional and educational needs of students interested in becoming licensed Peace Officers. After meeting core POST (Police Officer Standards and Training) requirements for education, students will be able

## 6 Programs of Study

to attend the center for Criminal Justice and Law Enforcement to take 21 career credits. Upon completion of this AS degree at century, students are eligible to take a POST exam to become POST certified, and to apply for law enforcement positions in Minnesota. Upon completion of this AS degree, students may transfer to other colleges or universities.

### Career/Occupational Requirements: 32 credits

CJS	2081	Police in the Community*	3
CJS	2085	Juvenile Justice and Delinquency*	3
ENGL	1022	Composition II*	OR
ENGL	1025	Technical Writing*	
PE	1060	Personal Fitness	2

The following courses the Professional Licensing Core (PLC), are offered at the Center for Criminal Justice and Law Enforcement through Minneapolis Community and Technical College. For application requirements, see Century Counseling Center for information.

LAW	2225	Criminal Investigations	3
LAW	2230	Legal Issues in Law Enforcement	3
LAW	2231	Criminal & Traffic Codes	3
LAW	2240	Patrol Operations	3
LAW	2299	Law Enforcement Integrated racticum	9

### General Education/MnTC Requirements: 35 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I*	4
Select one of the following COMM courses:			3
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 6 credits

Select one of the following courses:			
BIOL	1023	Introduction to Forensic Biology	4
BIOL	1024	Human Biology	3
MATH	1025	Statistics	4

#### Goal 5 - History/Social and Behavioral Sciences: 16 credits

PSYC	1020	General Psychology*	4
SOC	1020	Introduction to Sociology*	3
SOC	1033	Sociology of Families in Crisis*	3
SOC	1080	Introduction to the Criminal Justice System*	3
SOC	2051	Sociology of Race and Ethnicity*	3

#### Goal 6 - Humanities and Fine Arts: 6 credits

Select two of the following courses from two different disciplines:			
ART	1031	Photography I	
ENGL	2077	Mystery	
PHIL	1031	Ethics	

#### Goals 7-10 - Three credits in each of two goals

### Additional Electives (recommended)

EMS	1015	First Responder*	2
-----	------	------------------	---

### Additional Requirements:

Additional credits to total 68

\* Core requirements for the Police Officer Standards and Training Board (POST) must be taken or registered for in order to apply to the Center for Criminal Justice and Law Enforcement. Application to PLC requires a "C" or better in each of these nine prerequisite courses and a cumulative 2.5 GPA for these courses.

### Additional Requirements:

Students are required to complete 80 hours of criminal justice related service learning to complete this program. The service learning requirement will be met upon completion of CJS 2081 and CJS 2085 with a grade of "C" or higher in each course. Students are advised not to enroll in both classes during the same semester.

### Associate in Applied Science

#### Investigative Sciences for Law Enforcement

#### Total Number of Credits: 72

### Program Description:

This program is designed for the student who desires to broaden their interests and knowledge in criminal investigation and homeland defense while preparing for the law enforcement profession. After meeting core POST (Police Officer Standards and training) requirements for education, students will be able to attend the Center for Criminal Justice and Law Enforcement to take 21 career credits. Upon completion of this AAS degree, students are eligible to take a POST exam, to become POST certified, and to apply for law enforcement positions in Minnesota. This degree is primarily designed to meet the professional and educational needs of students interested in becoming licensed Peace Officers.

### Career/Occupational Requirements: 44 credits

CJS	2081	Police in the Community*	3

ENGL	2077	Mystery	
PHIL	1031	Ethics	

**Goals 7-10 - Three credits in each of two goals**

\* Core requirements for the Police Officer Standards and Training Board (POST) must be taken or registered for in order to apply to the Center for Criminal Justice and Law Enforcement. Application to PLC requires a "C" or better in each of these nine prerequisite courses and a cumulative 2.5 GPA for these courses.

**Additional Requirements:**

Students are required to complete 80 hours of criminal justice related service learning to complete this program. The service learning requirement will be met upon completion of CJS 2081 and CJS 2085 with a grade of "C" or higher in each course. Students are advised not to enroll in both classes during the same semester.

## Marketing

**Program Options:**

- Marketing Certificate (16)
- Marketing Specialty Diploma (45)
- Marketing Management AAS Degree (64)
- Marketing Communications Technology AAS Degree (64)

**Certificate**

**Marketing**

**Total Number of Credits: 16**

**Program Description:** This certificate serves learners interested in exploring career options. Each course is built on fundamental principles of marketing and retailing—providing the right product/service at the right place and time. The certificate credits may be applied to the 45-credit marketing specialty diploma as well as the 64-credit Associate in Applied Science (AAS) Marketing Management or Visual Communication Technology degrees.

**Core Requirements: 4 credits**

MKTG	2050	Principles of Marketing	3
MKTG	1790	Independent Study	1

**Career/Occupational Requirements: 12 credits**

Select 12 credits from the following:

MKTG	1020	Visual Merchandising and Store Planning	3
MKTG	2000	Customer Service Strategies	3
MKTG	2005	Entrepreneurship Fundamentals	3
MKTG	2010	Workplace Leadership	3
MKTG	2020	Negotiation Strategies	3
MKTG	2035	Trend Analysis	3
MKTG	2080	Retail Principles and Practices	3

**Marketing Specialty**

**Diploma**

**Total Number of Credits: 45**

**Program Description:** The Marketing Specialty program is designed for students who desire careers in marketing specialty areas. Some may be interested in opening and operating their own businesses, while others may want to work as sales professionals, retail managers, floor merchandisers or in support positions like visual merchandising or special event production. Web assisted courses are integral to the program delivery.

**Career/Occupational Requirements: 42 credits**

BMGT	1020	Introduction to Business	3
CAPL	1010	Introduction to Software Applications	3
MKTG	1025	Professional Development	3
MKTG	2050	Principles of Marketing	3

## 6 Programs of Study

Select 30 credits from the following courses:

MKTG	1020	Visual Merchandising and Store Planning	3
MKTG	1043	Fashion Marketing Essentials	3
MKTG	1066	Event Production and Marketing	3
MKTG	2000	Customer Service Strategies	3
MKTG	2005	Entrepreneurship Fundamentals	3
MKTG	2010	Workplace Leadership	3
MKTG	2020	Negotiation Strategies	3
MKTG	2035	Trend Analysis	3
MKTG	2055	Electronic Marketing Concepts	3
MKTG	2060	Relationship Selling	3
MKTG	2063	Advertising and Sales Promotion	3
MKTG	2080	Retailing Principles and Practices	3

**General Education/MnTC Requirements: 3 credits**

**Goal 1 - Communication: 3 credits**

COMM	1031	Interpersonal Communication	3
------	------	-----------------------------	---

### Associate in Applied Science Degree

#### Marketing Management

**Total Number of Credits: 64**

**Program Description:** Marketing Management focuses on the decisions facing marketing practitioners who must balance the objectives and resources of an organization with the needs and opportunities in the marketplace. Graduates may pursue careers in either business-to-business marketing environments or the area of consumer markets in either the private or public sector.

**Career/Occupational Requirements: 44 Credits**

BMGT	1020	Introduction to Business	3
CAPL	1010	Introduction to Software Applications	3
MKTG	1025	Professional Development	3
MKTG	2050	Principles of Marketing	3

Select 32 credits from the following courses:

MKTG	1020	Visual Merchandising and Store Planning	3
MKTG	1043	Fashion Marketing Essentials	3
MKTG	1066	Event Production and Marketing	3
MKTG	2000	Customer Service Strategies	3

MKTG	2010	Workplace Leadership	3
MKTG	2020	Negotiation Strategies	3
MKTG	2055	Electronic Marketing Concepts	3
MKTG	2060	Relationship Selling	3
MKTG	2063	Advertising and Sales Promotion	3
MKTG	2080	Retailing Principles and Practices	3
MKTG	2780	Marketing Internship	1-6

**General Education/MnTC Requirements: 20 credits**

**Goal 1 - Communication: 7 credits**

ENGL	1021	Composition I	4
COMM	1031	Interpersonal Communication	3

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

**Goal 5 - History/Social and Behavioral Sciences: 3 credits**

**Goal 6 - Humanities and Fine Arts: 3 credits**

**Goals 7-10 - Three credits in one of the four goals**

### Associate in Applied Science Degree

#### Marketing Communications Technology

**Total Number of Credits: 64**

**Program Description:** This polytechnic degree program blends three Century College areas: the theories and strategies of the Marketing Program, the application skills of the Visual Communications Technology Program and the hands-on and aesthetic teachings of the Art and Art Studio coursework. In addition, courses from the English, Communication and Philosophy disciplines round out this curriculum and form a balanced theory/practice approach. Learners with this type of preparation find fulfilling careers in a variety of visual communications as well as visual marketing fields.

**Core Requirements: 29 Credits**

CAPL	1010	Introduction to Software Applications	3
MKTG	2035	Trend Analysis	3
MKTG	2050	Principles of Marketing	3
MKTG	2055	Electronic Marketing Concepts	3
MKTG	2063	Advertising and Sales Promotion	3
VCT	1012	Principles of Digital Communications	3
VCT	1013	Design Basics	4
VCT	1015	Project Planning	3
VCT	1018	Digital Imaging	3
VCT	2076	Portfolio Development-Marketing Communications	1

**Career/Occupational Requirements: 9 Credits**

Select 3 credits from the following courses:

MKTG	1020	Visual Merchandising and Store Planning	3
MKTG	2000	Customer Service Strategies	3
MKTG	2005	Entrepreneurship Fundamentals	3
MKTG	2020	Negotiation Strategies	3
MKTG	2080	Retailing Principles and Practices	3

Select 6 credits from the following courses:

VCT	1023	Webpage Design with XHTML	3
VCT	1030	Video I	3
VCT	1041	Digital Photography I	3
VCT	1051	Electronic Publishing I	3

**General Education/MnTC Requirements: 22 Credits**

**Goal 1 - Communication: 7 credits**

ENGL	1021	Composition I	4
COMM	1041	Small Group Communication	3

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

**Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits**

## 6 Programs of Study

### Goal 5 – History/Social and Behavioral Sciences: 3 credits

COMM 1061 Introduction to Mass Communication ..... 3

### Goal 6 - Humanities and Fine Arts: 9 credits

ART 1020 Art Appreciation ..... 3

Select one of the following COMM courses..... 3

COMM 1031 Interpersonal Communication

COMM 1051 Intercultural Communication

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning:

#### 3 credits

BIOL 1024 Human Biology ..... 3

#### Goal 5 - History/Social and Behavioral Sciences: 3 or 4 credits

Select one of the following PSYC courses:..... 3-4

PSYC 1020 General Psychology OR

PSYC 1041 Developmental Psychology

## Microcomputer Support Technology

#### Program Options:

Personal Computer Support Specialist Certificate (30)

Microcomputer Support Technician Diploma (48)

Advanced Computer Support Certificate (16)

Cisco Networking Support Certificate (16)

Linux System Administrator Certificate (16)

Microcomputer Support Technology AAS Degree (64)

**Note:** Other computer related courses are offered in the following disciplines: Computer Science, Computer Application Technology, Computer Forensics, Information and Telecommunications Technology, and Office Technology

#### Certificate

#### Personal Computer Support Specialist

**Total Number of Credits: 30**

**Program Description:** The PC Support Specialist Certificate program is designed to prepare the student for a career as a Help Desk Specialist or hardware/software configuration specialist. Help Desk Specialists answer questions and provide technical assistance to those who have either hardware or software problems. Hardware/software configuration specialists upgrade old computers and prepare/install new computers on a local area network. The coursework will help prepare the student for Comptia's A+ Certification and Comptia's Network+ exams.

**Application Requirements:** Assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

## 6 Programs of Study

### Career/Occupational Requirements: 27 credits

ITT	1031	Networking Fundamentals (CCNA-1)	3
ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
MCST	1001	PC Hardware and Software	4
MCST	1011	Supporting Microsoft Windows XP Professional	3
MCST	1013	Supporting Microsoft Windows Server 2003	3
MCST	1030	Linux Operating System	3
MCST	2780	Internship	1
MCST or CFIT or ITT or other electives selected with instructor consent			7

### General Education/MnTC Requirements: 3 credits

#### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

### Diploma

#### Microcomputer Support Technician

##### Total Number of Credits: 48

**Program Description:** The Microcomputer Support Technician program prepares the student to be able to analyze organizational information needs, to recommend appropriate hardware and software systems, and to implement or to train others to implement such systems. Specific job titles the graduate would be qualified for include network support specialist, network analyst, network engineer, PC support specialist, and PC help desk. The coursework will help prepare the student for Microsoft Windows 2000 certification exams.

**Application Requirements:** Assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Career/Occupational Requirements: 42 credits

ITT	1031	Networking Fundamentals (CCNA-1)	3
ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
ITT	2080	Technology Planning and Architecture	3

MCST	1013	Supporting Microsoft Windows Server 2003	3
MCST	1030	Linux Operating System	3
MCST	2015	Administering Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2780	Internship	2
MCST or CFIT or ITT or other electives selected with instructor consent			12

### General Education/MnTC Requirements: 6 credits

#### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I	
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	
General Education/MnTC electives			2-3

### Certificate

#### Advanced Computer Support

##### Total Number of Credits: 16

**Program Description:** In this program students will study the management and maintenance of complex computing environment of companies utilizing Microsoft network and operating system technologies. Additionally, students will prepare for the Microsoft Certified System Engineer (MCSE) examinations.

**Application Requirements:** Proficiency in the knowledge and skills related to configuring and maintaining Microsoft XP Professional and Microsoft Server 2003 OR Microsoft Certified Professional certification for both 70-270 and 70-291 OR Appropriate coursework OR Instructor Consent

### Career/Occupational Requirements: 16 credits

MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3
MCST	2780	Internship	1
Select two courses from the following:			
CFIT	2065	Introduction to Computer Forensics	3
ITT	1021	Principles of Information Security	3
MCST	2031	Linux/UNIX Shells and Scripting	3
MCST	2032	Linux/UNIX System Administration	3
MCST	2033	Linux/UNIX Network Administration, Security, and Troubleshooting	3

### Certificate

#### Cisco Networking Support

##### Total Number of Credits: 16 credits

**Program Description:** In this program students will study the skills needed to select, connect, configure, and troubleshoot various networking devices for enterprise networks. Additionally, the students will prepare for Cisco Certified Network Associate (CCNA) examination. **Application Requirements:** Enrollment in the Microcomputer Support Technology AAS degree program and demonstrated proficiency in the knowledge and skills related to configuring and maintaining routers and switches OR Instructor consent.

## 6 Programs of Study

### Career/Occupational Requirements: 16 credits

ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
ITT	1033	Network Infrastructure and Data Center Design (BICSI)	3
ITT	2032	Accessing the WAN (CCNA-4)	3
ITT	2780	Internship	1
Select two courses from the following:			
ITT	2042	Implementing Secure Converged WANs (CCNP-2)	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3)	3
ITT	2044	Optimizing Converged Networks (CCNP-4)	3
MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3

### Certificate

#### Linux System Administrator

**Total Number of Credits: 16 credits**

**Program Description:** In this program students will study the management and maintenance of complex computing environments of companies utilizing Linux/UNIX network and operating system technologies. Additionally, students will prepare for the CompTIA Linux+ industry examination.

**Application Requirements:** Proficiency in the basic knowledge and skills related to configuring and maintaining a Linux Operating System environment OR Appropriate coursework OR Instructor Consent

### Career/Occupational Requirements: 13 credits

MCST	2031	Linux/UNIX Shells and Scripting	3
MCST	2032	Linux/Unix System Administration	3
MCST	2033	Linux/UNIX Network Administration, Security, and Troubleshooting	3
MCST	2780	Internship	1
Select two courses from the following:			
CFIT	2065	Introduction to Computer Forensics	3
ITT	1021	Principles of Information Security	3
ITT	2020	Network Security Fundamentals	3
MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3

### Associate in Applied Science Degree

#### Microcomputer Support Technology

**Total Number of Credits: 64**

**Program Description:** The Microcomputer Support Technology program prepares the student to be able to analyze organizational information needs, to recommend appropriate hardware and software systems, and to implement or to train others to implement such systems. Specific job titles that the graduate would be qualified for include network support specialist, network analyst, network engineer, PC support specialist, and

PC help desk. The coursework will help prepare the student for Microsoft Windows 2003 Certification. General education courses required will help ensure individuals have the necessary oral, written and critical thinking skills to help them with their professional responsibilities.

**Application Requirements:** Assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Core Requirements: 28 credits

ITT	1020	Introduction to Information and Communications Technology	3
ITT	1031	Network Fundamentals (CCNA-1)	3
ITT	2031	LAN Switching and Wireless (CCNA-3)	3
ITT	2080	Technology Planning and Architecture	3
MCST	1001	PC Hardware and Software	4
MCST	1011	Supporting Microsoft Windows XP Professional	3
MCST	1013	Supporting Microsoft Windows Server 2003	3
MCST	1030	Linux Operating System	3
MCST	2020	System Analysis/End User Network Computing	3
MCST	2021	Help Desk Services	3

### Career/Occupational Requirements: Select one of the Specialty Track Options

#### Advanced Computer Support: 13 credits

MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3
MCST	2780	Internship	1

Select one course from the following:

CFIT	2065	Introduction to Computer Forensics	3
ITT	1021	Principles of Information Security	3
MCST	2031	Linux/UNIX Shells and Scripting	3
MCST	2032	Linux/UNIX System Administration	3
MCST	2033	Linux/UNIX Network Administration, Security, and Troubleshooting	3

#### Cisco Networking Support: 13 credits

ITT	1032	Routing Protocols and Concepts (CCNA-2)	3
ITT	1033	Network Infrastructure and Data Center Design (BICSI)	3
ITT	2032	Accessing the WAN (CCNA-4)	3
ITT	2780	Internship	1

Select one course from the following:

ITT	2042	Implementing Secure Converged WANs (CCNP-2)	3
ITT	2043	Building Converged Cisco Multilayer Switched Networks (CCNP-3)	3
ITT	2044	Optimizing Converged Networks (CCNP-4)	3
MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3

## 6 Programs of Study

### Linux System Administrator: 16 credits

MCST	2031	Linux/UNIX Shells and Scripting	3
MCST	2032	Linux/Unix System Administration	3
MCST	2033	Linux/UNIX Network Administration, Security, and Troubleshooting	3
MCST	2780	Internship	1
Select one course from the following:			
CFIT	2065	Introduction to Computer Forensics	3
ITT	1021	Principles of Information Security	3
ITT	2020	Network Security Fundamentals	3
MCST	2015	Administering the Active Directory	3
MCST	2017	Windows Server 2003 Network Infrastructure	3
MCST	2019	Windows Server 2003 Network Design	3

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses			3

COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

*Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete*

*Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits*

*Goal 5 - History/ Social and Behavioral Sciences: 3 credits*

*Goal 6 - Humanities and Fine Arts: 3 credits*

*Goals 7-10: Three credits in one of the four goals*

### Additional Requirements: 3 credits

3 credits from the following electives or other courses with instructor consent by academic petition:

ACCT	2020	Financial Accounting	3
CAPL	1050	Web Design, Creation and Management	3
CSCI	1081	Programming Fundamentals	3
COMM	1051	Intercultural Communication	3

## Music

### Program Options:

Music AFA Degree (64)

### Associate in Fine Arts in Music

**Total Number of Credits: 64**

**Program Description:** This program is a focused, two-year study of music that includes music theory, ear training, sight singing, music history, the study of a specific instrument or voice, and ensemble participation. This degree is intended primarily for students who plan to

transfer to another college to complete a baccalaureate degree in music. It can be considered as the first two years of a four-year degree program in music.

**Program Requirements:** Prospective students are expected to have, at minimum, a basic competency level of musicianship (voice or primary instrument) and a basic music reading ability. Students must consult with the music faculty before beginning the AFA in Music program.

### Core Requirements: 34 credits

MUSC	1061	Music Theory I	3
MUSC	1062	Music Theory II	3
MUSC	1071	Ear Training I	2
MUSC	1072	Ear Training II	2
MUSC	2061	Advanced Music Theory I	3
MUSC	2062	Advanced Music Theory II	3
MUSC	2071	Advanced Ear Training I	2
MUSC	2072	Advanced Ear Training II	2
MUSC	2081	Music History I	3
MUSC	2082	Music History II	3

Select 4 credits from the following:

### Ensemble music courses:

MUSC	1000	Century College Choir	1
MUSC	1005	Century Chamber Singers	1
MUSC	1010	Century Chamber Orchestra	1
MUSC	1011	Theater Orchestra	1
MUSC	1015	Century Concert Band	1
MUSC	1017	Century Jazz Ensemble	1
MUSC	1018	Century Guitar Ensemble	1
MUSC	1019	Century Piano Ensemble	1
MUSC	1021	Century Jazz Combo	1

Select 4 credits from the following:

### Applied Lessons:

Note: All 4 credits must be in declared, primary instrument

MUSC	2011	Private Instrumental	1
MUSC	2012	Private Instrumental-Advanced	1
MUSC	2021	Private Guitar	1
MUSC	2022	Private Guitar-Advanced	1
MUSC	2031	Private Piano	1
MUSC	2032	Private Piano-Advanced	1
MUSC	2041	Private Voice	1
MUSC	2042	Private Voice-Advanced	1

### General Education/MnTC Requirements: 30 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3

COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

*Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete*

*Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 6 credits*

## 6 Programs of Study

### **Goal 5 - History/Social and Behavioral Sciences: 6 credits**

Two courses from two disciplines

### **Goal 6 - Humanities and Fine Arts: 6 credits**

Two courses from two disciplines

### **Goals 7-10: Three credits in each of two goals**

**Additional recommendation:** Piano Proficiency is required by transfer institutions for a baccalaureate degree in music. MUSC 1020 is recommended for students without previous piano experience.

## Nursing

### **Program Options:**

Nursing Assistant Certificate (4)

Nursing AS Degree (64)

### **Nursing Assistant**

**Total Number of Credits: 4**

**Program Description:** This certificate is designed for individuals seeking employment in direct patient care under the supervision of a nurse in long term care, acute care, and/or home care settings. Upon completion of this certificate, students will be eligible to take the examination for placement on the Minnesota Department of Health Nursing Assistant Registry.

**Program Requirements:** Minnesota State Registry of Nursing Assistants requirement is 16 years of age or older.

### **Core Requirements: 4 credits**

HSCI 1001 Nursing Assistant . . . . . 4

### **Associate in Science Degree**

#### **Nursing -Traditional Track**

**Total Number of Credits: 64**

**Program Description:** The Century College Associate Degree Nursing Program is designed to educate students who are prepared to begin professional nursing careers and administer safe, culturally competent patient-centered nursing care in a variety of healthcare settings in our increasingly diverse communities. The Nursing program is jointly sponsored and managed through a unique, cooperative arrangement between Inver Hills Community College and Century College. Coursework includes nursing theory focusing on holistic assessment, therapeutic nursing interventions including complementary/alternative modalities, communication, levels of prevention, critical thinking, collaboration and leadership/management concepts. Clinical application occurs in acute, sub-acute and long-term care facilities, community clinics, schools and home health settings. Safe, caring, competent nursing care across the lifespan is fostered. Graduates are awarded an associate in science degree in nursing and are eligible to apply to take the NCLEX-

RN and meet the Minnesota State Board of Nursing requirements for licensure. The Mobility Nursing Tracks are two and one-half semester tracks offered to qualified licensed practical nurses (LPN) and qualified emergency medical technician-paramedics (EMT-P). Both Traditional and Mobility nursing graduates have many lower division, MnTC/general education requirements needed to earn a baccalaureate degree in nursing. A Minnesota statewide nursing articulation agreement provides "seamless transfer" to students who pursue their bachelor's degree from any baccalaureate nursing program offered through the Minnesota State Colleges and Universities System.

**Application Requirements:** Refer to program information available in Admissions, the Century College website or Counseling Center.

### **Career/Occupational Requirements: 34 credits**

NURS	1020	The Registered Nurse Role in Health and Wellness . . . . .	4
NURS	1025	Clinical Applications for NURS 1020 . . . . .	4
NURS	1030	Nursing Intervention I: Health, Healing and Holism and the Role of the Registered Nurse . . . . .	4

Goals 7-10: Three credits in each of two goals

### Associate in Science Degree Nursing - Paramedic Mobility Total Number of Credits: 64

Program Description: See description above

Application Requirements: Refer to program brochure available in Admissions, the Century College website or Counseling Center

#### Career/Occupational Requirements: 34 credits

NURS 1260	Health, Healing and Holism & Role Transition from Paramedic to RN . . . . .	4
NURS 1265	Clinical Application for NURS 1260 . . . . .	2
NURS 1230	Nursing Intervention I: Health, Healing & Holism and the Role of the Registered Nurse . . . . .	4
NURS 2235	Clinical Application for NURS 1230 . . . . .	4
NURS 2222	A Pathophysiological Approach to Health Problems and Pharmacologic Therapy. . . . .	3
NURS 2250	Synthesis and Transition to the Registered Nurse Role . . . . .	3
NURS 2255	Clinical Application for NURS 2250 . . . . .	3

EMT-P students will be given 11 advanced standing credits

#### General Education/MnTC Requirements: 30 credits

##### Goal 1 - Communication: 7 credits

ENGL 1021	Composition I . . . . .	4
Select one of the following COMM courses: . . . . .		3
COMM 1031	Interpersonal Communication	
COMM 1041	Small Group Communication	
COMM 1051	Intercultural Communication	

##### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

##### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 11 credits

BIOL 2031	Human Anatomy and Physiology I . . . . .	4
BIOL 2032	Human Anatomy and Physiology II. . . . .	4
BIOL 2035	Microbiology. . . . .	3

##### Goal 5 - History/Social and Behavioral Sciences: 6 credits

Two courses from two disciplines required

PSYC 1041	Developmental Psychology. . . . .	3
-----------	-----------------------------------	---

##### Goal 6 - Humanities and Fine Arts: 6 credits

Two courses from two disciplines required

PHIL 1035	Biomedical Ethics -recommended . . . . .	3
-----------	--	---

Goals 7-10: Three credits in each of two goals

## Office Technology

### Program Options:

- Computer Skills (10)
- Software Applications (16)
- Office Assistant Certificate (30)
- Office Support Diploma (48)
- Administrative Assistant AAS Degree (64)
- Medical Office Support (18)
- Medical Administrative Support Diploma (47)
- Medical Office Assistant AAS Degree (64)

Other computer related courses are offered in the following disciplines: Computer Application Technology, Computer Science, Information and Telecommunications Technology, and Microcomputer Support Technology

### Certificate

#### Computer Skills

**Total Number of Credits: 10**

**Program Description:** This certificate is designed for students that have a limited computer background and are interested in learning basic computer skills. The students may be employed in part-time, seasonal, temporary, work-study positions, and other work settings.

#### Career/Occupational Requirements: 10 credits

OFFT	1001	College Keyboarding. . . . .	1
CAPL	1000	Computer Literacy. . . . .	1
CAPL	1010	Introduction to Software Applications. . . . .	3
CAPL	1021	Microsoft Powerpoint. . . . .	1
CAPL	1022	Personal Information Management . . . . .	1
CAPL	1023	Microsoft Word . . . . .	3

Additional Requirements: Grade of "C" or higher in required courses.

### Certificate

#### Software Applications

**Total Number of Credits: 16**

**Program Description:** This certificate is designed for students interested in updating their skills after re-entering the work force, acquiring a new position, or their current position requires current software technology, etc. Students will be able to earn the short-term certificate and then continue to other existing offerings in a seamless path.

#### Core Requirements: 16 credits

CAPL	1010	Introduction to Software Applications. . . . .	3
CAPL	1023	Microsoft Word . . . . .	3
Select 10 credits from the following courses:			
CAPL	1021	Microsoft Powerpoint. . . . .	1
CAPL	1025	Microsoft Excel. . . . .	3
CAPL	1027	Microsoft Access . . . . .	3

CAPL	1050	Web Design, Creation and Management. . . . .	3
CAPL	2020	Desktop Publishing. . . . .	3
MKTG	1025	Professional Development . . . . .	3
OFFT	2055	Administrative Office Procedures. . . . .	3

Additional Requirements: Grade of "C" or higher in required courses.

### Certificate

#### Office Assistant

**Total Number of Credits: 30**

**Program Description:** This program is designed for students interested in the office field. A graduate may become employed as a data entry clerk, receptionist, secretary, or in other administrative support positions.

#### Career/Occupational Requirements: 27 credits

ACCT	1010	Introduction to Accounting. . . . .	3
BMGT	2035	Human Relations in Business. . . . .	3
CAPL	1010	Introduction to Software Applications. . . . .	3
CAPL	1023	Microsoft Word . . . . .	3
OFFT	1001	College Keyboarding. . . . .	1
OFFT	1035	Advanced Word Processing . . . . .	3
OFFT	2000	Records and Information Management . . . . .	3
OFFT	2055	Administrative Office Procedures. . . . .	3
Electives (career-related). . . . .			5

#### General Education/MnTC Requirements: 3 credits

##### Goal 1 - Communication: 3 credits

Select one of following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1051	Intercultural Communication

Additional Requirements: Grade of "C" or higher in all Career/Occupational courses.

### Diploma

#### Office Support

**Total Number of Credits: 48**

**Program Description:** This program is designed for students interested in a comprehensive program in the office field. A graduate may become employed as a data entry clerk, receptionist, secretary, software application specialist, or in other administrative-related positions.

#### Career/Occupational Requirements: 41 credits

ACCT	1010	Introduction to Accounting. . . . .	3
BMGT	1020	Introduction to Business . . . . .	3
BMGT	2035	Human Relations in Business. . . . .	3

## 6 Programs of Study

BMGT	2060	Business Communications	OR	
ENGL	1025	Technical Writing		3
CAPL	1010	Introduction to Software Applications		3

OFFT	2041	Beginning Medical Transcription		3

Additional Requirements: Grade of "C" or higher in required courses

## 6 Programs of Study

### Diploma

#### Medical Administrative Support

**Total Number of Credits: 47**

**Program Description:** The Medical Administrative Support program will prepare students in competencies using current office technologies. Program graduates following the Administrative Track may be employed in support positions in healthcare facilities, insurance, industrial, and research medical facilities. Program graduates following the Transcription Track may take the registered medical transcription (RMT) credentialing exam. Program graduates holding an RMT may be employed as medical transcriptionists in transcription service companies, medical clinics, or hospitals. Program graduates following the Coding Track may take the CCA or CCP credentialing exams. Program graduates holding a coding credential may be employed in healthcare settings such as clinics, insurance companies, government agencies, public health, home health agencies, long-term care facilities, hospitals and dental offices.

#### Core Requirements: 18 credits

CAPL	1023	Microsoft Word	3
OFFT	2006	Medical Office Fundamentals	3
OFFT	2010	Medical Office Terminology	3
OFFT	2021	Electronic Health Records	3
OFFT	2030	Medical Office: Insurance and Coding	3
OFFT	2041	Beginning Medical Transcription	3

#### Career/Occupation Requirements: Select one of the three Specialty Track Options

##### Administrative Track: 22 credits

ACCT	1010	Introduction to Accounting	3
BMGT	2035	Human Relations in Business	3
CAPL	1010	Introduction to Software Applications	3
CAPL	1022	Personal Information Management	3
OFFT	1002	Speech Recognition	1
OFFT	1035	Advanced Word Processing	3
OFFT	2000	Records Classification Systems	3
OFFT	2783	Medical Office Practicum	2
Electives selected with instructor consent			3

##### Coding Track: 22 credits

OFFT	2032	Beginning CPT Coding	3
OFFT	2033	Advanced ICD-9 Coding	3
OFFT	2034	Advanced CPT Coding	3
OFFT	2783	Medical Office Practicum	3

##### Transcription Track: 22 credits

CAPL	1022	Personal Information Management	1
OFFT	1002	Speech Recognition	1

OFFT	1035	Advanced Word Processing	3
OFFT	2012	Medical Office: Disease Concepts	2
OFFT	2013	Medical Office: Pharmacology & Lab Medicine	2
OFFT	2042	Intermediate Medical Transcription	3
OFFT	2044	Medical Transcription Capstone	3
OFFT	2783	Medical Office Practicum	3
Electives selected with instructor consent			4

#### General Education/MnTC Requirements: 7 credits

##### Goal 1 - Communication: 4 credits

ENGL	1021	Composition I	4
------	------	---------------	---

##### Goal 3 and/or Goal 4 – Sciences/Math/Logical Reasoning: 3 credits

BIOL	1024	Human Biology	3
------	------	---------------	---

**Additional Requirements:** Grade of “C” or higher in required courses.

### Medical Office Assistant

#### Associate in Applied Science Degree

**Number of Credits: 64**

**Program Description:** This program is designed for students interested in more advanced employment in healthcare facilities. Program graduates completing the Administrative Track may be employed as administrative assistants in healthcare facilities, the insurance industry, or medical device industry. Program graduates completing the Transcription Track may take the registered medical transcription (RMT) credentialing exam. Program graduates holding an RMT may be employed as medical transcriptionists in transcription service companies, medical clinics, or hospitals. Program graduates completing the Coding Track may take the CCA or CCP credentialing exams. Program graduates holding a coding credential may be employed in healthcare settings such as clinics, insurance companies, government agencies, public health, home health agencies, long-term care facilities, hospitals, and dental offices.

#### Core Requirements: 18 credits

CAPL	1023	Microsoft Word	3
OFFT	2006	Medical Office Fundamentals	3
OFFT	2010	Medical Office Terminology	3
OFFT	2021	Electronic Health Records	3
OFFT	2030	Medical Office: Insurance and Coding	3
OFFT	2041	Beginning Medical Transcription	3

#### Career/Occupational Requirements: Select one of the three Specialty Track Options

##### Administrative Track: 26 credits

ACCT	1010	Introduction to Accounting	3
BMGT	2035	Human Relations in Business	3
CAPL	1010	Introduction to Software Applications	3
CAPL	1022	Personal Information Management	3

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I . . . . .	4
Select one of the following COMM courses: . . . . .			3

COMM 1031 Interpersonal Communications

COMM 1051 Intercultural Communications

#### Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

#### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits

BIOL	1024	Human Biology . . . . .	3
------	------	-------------------------	---

#### Goal 5 - History/Social and Behavioral Sciences: 3 credits

#### Goal 6 - Humanities and Fine Arts: 3 credits

#### Goals 7-10 - Three credits in one of the four goals.

Additional Requirements: Grade of "C" or higher in required courses.

## Orthotic Practitioner

### Program Options:

Orthotic Practitioner Diploma (40)

### Advanced Specialty Diploma

#### Orthotic Practitioner

**Total Number of Credits: 40**

**Program Description:** The Orthotic Practitioner program prepares the student for a career as an orthotist. An orthotist cares for patients with disabling conditions of the limbs and spine by providing devices known as orthoses. The orthotist's duties include assisting the physician in formulating prescriptions for orthoses, taking measurements and casts, model rectification, selection of materials and components, patient fittings, adjustments and repairs of the orthosis and maintaining patient records. After a mandatory one-year National Commission of Orthotic and Prosthetic Education approved residency, the orthotist may take the National Certification Exam.

### Application Requirements:

1. A Bachelor's Degree in any major
2. Three (3) semester or 4 quarter credits with a grade "C" or higher is recommended in each of the following courses:  
Biology  
Chemistry  
College Algebra or Higher Math  
Physics  
Psychology
3. Minimum of 4 semester or 5 quarter credits is recommended in:  
- Human Anatomy, including a Lab  
- Human Physiology, including a Lab
4. Prior technical experience in orthotics. Acceptable technical experience shall include:  
- Graduate of an NCOPE accredited Orthotic Technician program, OR  
- 2080 hours of work experience as an Orthotic Technician, plus minimum fabrication requirements under an ABC Certified Orthotic Practitioner
5. MN Human Services background study
6. See Century website, Admissions or Counseling Center for additional application information

### Career/Occupational Requirements: 40 credits

ORPR	2900	Applied Orthotic Biomechanical Physics and Patient Analysis . . . . .	4
ORPR	2910	Functional Orthotic Anatomy and Pathology . . . . .	4
ORPR	2920	Foot Orthoses and Metal Ankle-Foot Orthoses . . . . .	3
ORPR	2925	Plastic Ankle-Foot Orthoses . . . . .	2
ORPR	2930	Metal Knee-Ankle Foot Orthoses and Related Pathology. . . . .	3
ORPR	2935	Plastic Knee-Ankle Foot Orthoses and Fracture Management . . . . .	3

## 6 Programs of Study

ORPR	2950	Orthotic Upper Limb Anatomy and Pathology . . . . .	2
ORPR	2955	Upper Limb Orthoses . . . . .	3
ORPR	2970	Orthotic Spinal Anatomy, Pathology, Patient Evaluation . . . . .	3
ORPR	2975	Spinal Orthoses Fittings . . . . .	3
ORPR	2980	Scoliosis Treatment and Cervical Traction, Mobility and Adaptive Equipment . . . . .	3
ORPR	2990	Orthotic Practitioner Practicum . . . . .	7

COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	
General Education/MnTC electives . . . . .			2-3

\*Completion of all general education credits is recommended before enrolling in ORTE 2780.

### Orthotic Technology

#### Program Options:

- Orthotic Technician Diploma (46)
- Orthotic Technology AAS Degree (64)

#### Diploma

##### Orthotic Technician

**Total Number of Credits: 46**

**Program Description:** The Orthotic Technician program prepares students for entry into the field of Orthotics at the technician level. Didactic and laboratory coursework is combined with individualized instruction in the areas of lower limb, upper limb and spinal. Each of these areas contains instruction in anatomy, terminology, measurement forms, fabrication process, system alignment, and suspension techniques, components, materials, repair and maintenance procedures. The clinical section enables the student to practice fabrication skills in an orthotic facility for a minimum of 160 hours.

**Application Requirements:** High school graduate or GED

#### Career/Occupational Requirements: 40 credits

ORTE	1020	Introduction to the Orthotic Lab and Basic Hand Skills . . . . .	5
ORTE	1030	Spinal Orthoses Fabrication . . . . .	5
ORTE	1040	Foot Orthosis Fabrication and Shoe Modification/Repair . . . . .	3
ORTE	1050	Stirrup Layout and Fabrication . . . . .	3
ORTE	1060	Ankle-Foot Orthoses Fabrication . . . . .	3
ORTE	1070	Knee-Ankle-Foot Orthoses Fabrication . . . . .	5
ORTE	2000	Leather Work for Lower-Limb Orthoses Fabrication . . . . .	4
ORTE	2010	Thermoplastic Orthoses . . . . .	4
ORTE	2020	Upper-Limb Fabrication . . . . .	4
ORTE	2780	Orthotic Technician Clinical* . . . . .	4

#### General Education/MnTC Requirements: \*6 credits

##### Goal 1 - Communication: 3 credits

Select one of the following communication courses:

ENGL	1021	Composition I
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication

#### Associate in Applied Science Degree

##### Orthotic Technology

**Total Number of Credits: 64**

**Program Description:** The Orthotic Technician program prepares individuals for entry into the field of orthotics at the technician level. Didactic and laboratory coursework is combined with individualized instruction in the areas of lower limb, upper limb and spinal. Each of these areas contains instruction in anatomy, terminology, measurements forms, fabrication process, system alignment, and suspension techniques, components, materials, repair and maintenance procedures. The clinical section enables the student to practice fabrication skills in an orthotic facility for a minimum of 160 hours.

**Application Requirements:** High school graduate or GED

#### Career/Occupational Requirements: 40 credits

ORTE	1020	Introduction to the Orthotic Lab and Basic Hand Skills . . . . .	5
ORTE	1030	Spinal Orthoses Fabrication . . . . .	5
ORTE	1040	Foot Orthosis Fabrication and Shoe Modification/Repair . . . . .	3
ORTE	1050	Stirrup Layout and Fabrication . . . . .	3
ORTE	1060	Ankle-Foot Orthosis Fabrication . . . . .	3
ORTE	1070	Knee-Ankle-Foot Orthosis Fabrication . . . . .	5
ORTE	2000	Leatherwork for Lower-Limb Orthoses . . . . .	4
ORTE	2010	Thermoplastic Orthoses . . . . .	4
ORTE	2020	Upper Limb Fabrication . . . . .	4
ORTE	2780	Orthotic Technician Clinical . . . . .	4

COMM	1031	Interpersonal Communication . . . . .	3

**Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete**

##### Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits

PHYS 1020 Physics Concepts -recommended

##### Goal 5 - History/Social and Behavioral Sciences: 3 credits

PSYC 1041 Developmental Psychology-recommended

##### Goal 6 - Humanities and Fine Arts: 3 credits

PHIL 1035 Biomedical Ethics-recommended

**Goals 7-10 - Three credits in one of the four goals**

**Additional Requirements:** Sufficient credits to total 64

## 6 Programs of Study

### Paramedic Technology

See Emergency Medical Services

### Prosthetic Practitioner

#### Program Options:

Prosthetic Practitioner Diploma (40)

#### Advanced Speciality Diploma

#### Prosthetic Practitioner

Total Number of Credits: 40

**Program Description:** The Prosthetic Practitioner program prepares the student for a career as a prosthetist. A prosthetist cares for patients with partial or total absence of limb by designing, fabricating and fitting devices known as prostheses. The prosthetist's duties include assisting with formulating prescriptions for prostheses, taking measurements, cast taking, model modifications, selection of materials and components, patient fittings, alignment of the prosthesis on the patient, and maintaining patient records. After a mandatory one-year National Commission of Orthotic and Prosthetic Education approved residency, the prosthetist may take the National Certification Exam.

#### Application Requirements:

1. A Bachelor's Degree in any major
  2. Three semester or four quarter credits with a grade of "C" or higher is recommended in each of the following courses:
    - Biology
    - Physics
    - Chemistry
    - Psychology
    - College Algebra or Higher Math
  3. Minimum of 4 semester or 5 quarter credits is recommended in:
    - Human Anatomy, including a Lab
    - Human Physiology, including a Lab
  4. Prior technical experience in prosthetics is recommended.
  5. Acceptable technical experience shall include:
    - Graduate of an NCOPE accredited Prosthetic Technician program, OR
    - 2080 hours of work experience as a prosthetic technician, plus minimum fabrication requirements under an ABC Certified Prosthetic Practitioner
  6. MN Human Services Background Study
- See Century College website, Admissions or Counseling Center for additional application information

#### Career/Occupational Requirements: 40 credits

PRPR	2900	Introduction to Prosthetic Practitioner Program. . . . .	3

## Public Safety

### Program Options:

Public Safety Leadership Certificate (16)

Fire Services Certificate (16)

Public Safety AAS Degree (64)

### Certificate

#### Public Safety Leadership

**Total Number of Credits: 16**

**Program Description:** This certificate presents a good overview of information for potential or current leaders in the public safety field. It provides formal recognition that the student has a basic understanding of public safety leadership. Should the student elect to proceed with the program and seek a degree, this certificate fits into the Public Safety AAS Degree as a specialty track.

#### Career/Occupational Requirements: 16 credits

PSAF	1020	Foundations of Public Safety	3
PSAF	1032	Principles of Public Safety Leadership	3
PSAF	1035	Community Service Principles	3
Select 7 credits from the following:			
BMGT	1020	Introduction to Business	3
BMGT	2040	Human Resource Management	3
CJS	2081	Police in the Community	3
MKTG	2010	Workplace Leadership	3
PE	1060	Personal Fitness	2
PSAF	1790	Independent Study	1-4
PSAF	2040	Incident Command Strategies	4
SPAN	1005	Spanish for Public Safety Professional I	3

### Certificate

#### Fire Services

**Total Number of Credits (16)**

**Program Description:** This certificate provides recognition to the student who has completed ten credits in the basic firefighter training series. With six additional elective credits, an entry level firefighter will receive acknowledgement that he/she is fully capable of providing

## 6 Programs of Study

emergency services. Additionally, this certificate fits into the Public Safety AAS Degree as a specialty track.

### Career/Occupational Requirements: 16 credits

FRTA	1091	Firefighter I	5
FRTA	1092	Firefighter II	2
FRTA	1095	Hazardous Materials Operations	3
Select 6 credits from the following:			
EMS	1015	First Responder	2
EMSB	1020	Emergency Medical Technician	6
HLTH	1003	Worker Right to Know: Health and Safety in the Workplace	1
PE	1060	Personal Fitness	2
PSAF	1020	Foundations of Public Safety	3
PSAF	1790	Independent Study	1-4
SPAN	1005	Spanish for Public Safety Professionals I	3

### Associate in Applied Science Degree Public Safety

#### Total Number of Credits: 64

#### Program Description:

This degree is designed to provide an interdisciplinary approach for individuals already working in the field and those looking for career opportunities in public safety, which includes emergency medical services (EMS), firefighting, law enforcement, dispatching/communications and leadership. The student will interact with others in their discipline as well as those with similar missions to understand how these components function as a whole in an "all-hazards" approach to public safety.

**Application Requirements:** High school graduate or GED

#### Core Requirements: 28 credits

PSAF	1020	Foundations of Public Safety	3
PSAF	1031	Public Safety Technology	3
PSAF	1032	Principles of Public Safety Leadership	3
PSAF	1035	Community Service Principles	3
PSAF	2040	Incident Command Strategies	4
PSAF	2045	Project Management	3
PSAF	2050	Public Safety Capstone	3
Select 6 credits from the following courses with instructor consent:			
CJS	2091	Crime Scene and Incident Mapping for Public Safety I (recommended)	3
CAPL	1010	Introduction to Software Applications	3
CJS	2097	Homeland Defense	3
PSAF	1790	Independent Study	1-4
SPAN	1005	Spanish for Public Safety Professionals I	3

#### Career/Occupational Requirements: 16 credits

Select one of three Specialty Track Options

#### Fire Suppression

Select 16 credits from the following

EMS	1010	AHA BLS for the Healthcare Professional	1
-----	------	---	---

EMS	1015	First Responder	2
EMSB	1020	Emergency Medical Technician	6
FRTA	1091	Firefighter I	5
FRTA	1092	Firefighter II	2
FRTA	1095	Hazardous Materials Operations	3

#### Emergency Medical Services

EMSB	1020	Emergency Medical Technician	6
EMS	1025	EMS Interventions I	4
EMS	1026	EMS Interventions II	2
Electives selected with instructor consent			
4			

#### Leadership and Management

BMGT	1020	Introduction to Business	3
BMGT	2040	Human Resource Management	3
MKTG	2010	Workplace Leadership	3
PSAF	1790	Independent Study	1-4
Electives selected with instructor consent to total 16 credits for specialty track.			

#### General Education/MnTC Requirements: 20 credits

##### Goal 1 – Communication: 7 credits

ENGL	1021	Composition I	4
COMM	1051	Intercultural Communication	3

##### Goal 2 – Critical Thinking is fulfilled when all MnTC goals are complete

##### Goal 3 and/or 4 – Science/Math/Logical Reasoning: 6 credits

ESCI	1080	Natural Disasters	3
Select one of the following courses:			

BIOL	1020	Biology Concepts	4
BIOL	2035	Microbiology	3
CHEM	1020	Chemistry Concepts	4
ESCI	1050	Introduction to Meteorology	3
MATH	1025	Statistics	4
PHYS	1020	Physics Concepts	4

##### Goal 5 – History/Social and Behavioral Sciences: 3 credits

Select one of the following courses:

PSYC	1020	General Psychology	4
SOC	1020	Introduction to Sociology	3

##### Goal 6 – Humanities and Fine Arts: 3 credits

Select one of the following courses:

PHIL	1031	Ethics	
PHIL	1035	Biomedical Ethics	

##### Goal 7-10 - Three credits in one of the four goals

## Radiologic Technology

#### Program Options:

Radiologic Technology AAS Degree (78)  
Computed Tomography Advanced Certificate (16)

#### Associate in Applied Science Degree

#### Radiologic Technology

#### Total Number of Credits: 78

## 6 Programs of Study

**Program Description:** The Radiologic Technology program is designed to prepare entry-level radiologic technologists. The program is accredited by the Joint Review Committee on Education in Radiologic Technology and graduates are eligible to write the national registry examination of the American Registry of Radiologic Technologists.

**Application Requirements:** Refer to program information available on Century website, in Admissions or the Counseling Center.

### Career/Occupational Requirements: 58 credits

RADT 1020	Fundamentals of Radiography	3
RADT 1031	Anatomy and Positioning I	5
RADT 1032	Anatomy and Positioning II	3
RADT 1040	Radiography Exposure Factors	3
RADT 1781	Clinical Radiography I	6
RADT 1782	Clinical Radiography II	6
RADT 2000	Radiation Biology and Protection	1
RADT 2100	Introduction to Computed Tomography	1
RADT 2010	Imaging Pathology	1
RADT 2020	Introduction to Sectional Anatomy	2
RADT 2030	Radiation Physics and Quality Control	2
RADT 2060	Radiography Seminar	2
RADT 2090	Topics in Radiology	1
RADT 2783	Clinical Radiography III	8
RADT 2784	Clinical Radiography IV	8
RADT 2785	Clinical Radiography V	6

Additional Optional Career/Occupational courses

RADT 1051	Bone Densitometry I	1
RADT 1052	Bone Densitometry II	1
RADT 2095	Introduction to Mammography	1

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL 1021	Composition I	4
Select one of the following COMM courses:		3
COMM 1021	Fundamentals of Public Speaking	
COMM 1031	Interpersonal Communication	
COMM 1041	Small Group Communication	
COMM 1051	Intercultural Communication	

Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete

Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 3 credits

Goal 5 - History/Social and Behavioral Sciences: 3 credits

Goal 6 - Humanities and Fine Arts: 3 credits

Goals 7-10 - Three credits in one of the four goals

### Certificate

#### Computed Tomography

**Total Number of Credits: 16**

**Program Description:** Courses of the Computed Tomography Certificate are designed to assist the individual preparing for the American Registry of Radiologic Technologist Examination in Computed Tomography.

**Application Requirement:** Currently enrolled in a JRCERT accredited program or be an ARRT registered technologist in good standing. Proof

of the former will be required upon initial application to the courses.

### Career/Occupational Requirements: 16 credits

RADT 2800	Cross Sectional Anatomy I	2
RADT 2804	Cross Sectional Anatomy II	2
RADT 2808	Patient Assessment in Computed Tomography	2
RADT 2812	Computed Tomography Physics and Instrumentation I	2
RADT 2816	Computed Tomography Physics and Instrumentation II	2
RADT 2820	Computed Tomography Radiation Safety and Quality Control	2
RADT 2824	Computed Tomography Pathology	2
RADT 2828	Computed Tomography Imaging and Application	2

## Renewable Energy

### Program Options:

Solar Assessor Certificate (16)

Advanced Solar Thermal Energy Systems Certificate (30)

Associate in Applied Science (60)

### Certificate

#### Solar Assessor

**Total Number of Credits: 16**

The Solar Assessor Certificate is designed to prepare students to work as solar assessors for solar contractors. Graduates will be able to do a basic solar site assessment, including solar thermal, estimated costs, recommended products, and other information for a solar contractor to create a professional assessment and cost estimate of a solar project.

### Career/Occupational Requirements: 16 credits

FST 1000	Construction Technology	4
FST 1001	Facility Workplace Safety	2
SOLR 1020	Introduction to Solar Site Assessment	3
SOLR 1030	Construction for Solar Energy	2
SOLR 2030	Advanced Solar Thermal Energy Concepts	3
SOLR 2035	Solar Thermal Lab	2

### Certificate

#### Advanced Solar Thermal Energy Systems

**Total Number of Credits: 30**

This certificate in Advanced Solar Thermal Energy Systems is designed to provide existing contractors and other industry professionals with skills necessary to become solar contractors.

**Application Requirements:** Must have diploma or degree in plumbing, pipefitting, construction, HVAC or related field, or consent of instructor.

## 6 Programs of Study

### Career/Occupational Requirements: 24-26 credits

ECAD	1023	Blueprint Reading for Renewable Energy	3
FST	1001	Facility Workplace Safety	2
HVAC	1073	Hydronic Heating/Boilers	3
HVAC	1080	Residential Energy Auditing and Conservation	3
SOLR	1020	Introduction to Solar Site Assessment	3
SOLR	1781	Solar Thermal Installation Internship	1-3
SOLR	2030	Advanced Solar Thermal Energy Concepts	3
SOLR	2035	Solar Thermal Lab	2

### General Education/MnTC Requirements: 4 credits

#### Goal 3-Sciences

ESCI	1040	Energy Concepts	3
ESCI	1045	Energy Concepts Lab	1

#### Additional Requirements:

Sufficient credits to total 30—minimum of 4 credits in a related field such as electrical, HVAC, or FST

### Associate in Applied Science Degree

#### Energy Technical Specialist

#### Total Number of Credits: 60

**Program Description:** This AAS Degree will convey the skills and knowledge necessary to be successful in the traditional and renewable energy fields. The degree will prepare students for work as technicians in the following industries: coal-fired electrical power generation, natural gas distribution, ethanol production, biodiesel production, wind turbine maintenance or solar energy.

Century College is part of a state-wide consortium of nine MnSCU colleges that is offering this joint AAS degree in Renewable Energy. Century College is the only metro-area college in the consortium. Many of the consortium credits will be available online. See Century website program page for detailed information.

### Core Requirements: 33 credits

ECAD	1020	Interpreting Engineering Drawings	2
FST	1000	Construction Technology	4
FST	1001	Facility Workplace Safety	2
FST	1030	Basic electricity	3
FST	1033	Electric Motors and Electric Controls	3
MATH	1015	Applied Mathematics	5
Consortium		Digital Electronics	2
Consortium		Hydraulics	3
Consortium		Mechanical Fundamentals for Process Control	3
Consortium		PLC Fundamentals	3
Consortium		Introduction to Process Control and Instrumentation	3

### Career/Occupational Requirements: 10 credits

Students must choose a minimum of 10 credits from one of the Energy Technician tracks offered by Century College or one of its partner colleges. These tracks may include solar, wind, biodiesel, ethanol or

other approved tracks.

SOLR	1020	Introduction to Solar Site Assessment	3
SOLR	1030	Construction for Solar Energy	2
SOLR	2030	Advanced Solar Thermal Energy Concepts	3
SOLR	2035	Solar Thermal Lab	2
Biofuels Production: Diesel-Minnesota West Community and Technical College			10
Biofuels Production: Ethanol-Minnesota West Community and Technical College			10
Fossil Fuels-St. Cloud Technical College			10
Power Generation-Alexandria Technical College			10
Wind Power-Minnesota West Community and Technical College			10

### General Education/MnTC Requirements: 17 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
Select one of the following COMM courses:			3
COMM	1021	Fundamentals of Public Speaking	
COMM	1031	Interpersonal Communication	
COMM	1041	Small Group Communication	
COMM	1051	Intercultural Communication	

*Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete*

*Goal 3 and/or Goal 4 - Sciences/Math/Logical Reasoning: 7 credits*

ESCI	1040	Energy Concepts	3
PHYS	1020	Physics Concepts	4

*Goal 5 - History/Social and Behavioral Sciences OR*

*Goal 6 - Humanities and Fine Arts: 3 credits*

*Goals 7-10 - Three credits in one of the four goals*

## Sports Facilities Management

### Program Options:

Ice Arena Management Certificate (21)

Golf Course Management/Maintenance Certificate (21)

Sports/Athletic Facility Maintenance Certificate (21)

**Program Description:** The Sports Facility Management Program is designed to prepare individuals who seek to move into workplace positions and upgrade proficiency of individuals who are currently employed in sport facility management positions. This program develops the skills, knowledge and credentials to support advancement of individuals within an organization and the sports facility management occupational field. Coursework helps participants develop a strong blend of field experience and leadership skills.

### Certificate

**Ice Arena Management**

**Total Number of Credits: 21**

## 6 Programs of Study

### Program Description:

The Ice Arena Management Certificate is designed to prepare individuals for employment as ice arena managers.

### Career/Occupational requirements: 15 credits

BMGT	1020	Introduction to Business	3
COMM	1031	Interpersonal Communication	3
HVAC	1041	Basic Refrigeration I	3
PE	1780	Internship: Sports Facility/Operations Management OR	3
PE	2080	Introduction to Sports Management	3

### Additional Requirements: 6 credits

Select a minimum of two courses from the following:

BMGT	2051	Legal Environment of Business	3
FST	1030	Basic Electricity	3
HVAC	1042	Basic Refrigeration II	3
MKTG	1066	Event Production and Marketing	3
POLS	1033	State and Local Government	3

### Certificate

#### Golf Course Management/Maintenance

**Total Number of Credits: 21**

**Program Description:** The Golf Course Maintenance Certificate is designed to prepare individuals for employment at a golf course in the areas of turf maintenance, pro shop manager or greens keeper.

### Career/Occupational Requirements: 15 credits

BMGT	1020	Introduction to Business	3
COMM	1031	Interpersonal Communication	3
HORT	2045	Turfgrass Science and Management	3
PE	1780	Internship: Sports Facility/Operations Management OR	3
PE	2780	Internship: Sports Management	3
PE	2080	Introduction to Sports Management	3

### Additional Requirements: 6 credits

Select two courses from the following:

BMGT	2051	Legal Environment of Business	3
HORT	1023	Soil Science	3
HORT	2044	Landscape Maintenance and Management	3
MKTG	1066	Event Production and Marketing	3
POLS	1033	State and Local Government	3

### Certificate

#### Sports/Athletic Facility Maintenance

**Total Number of Credits: 21**

**Program Description:** The Sport/Athletic Management Certificate is designed to prepare individuals for employment as sport/athletic field managers.

### Career/Occupational Requirements: 15 credits

BMGT	1020	Introduction to Business	3
COMM	1031	Interpersonal Communication	3
POLS	1033	State and Local Government	3
PE	1780	Internship: Sports Facility/Operations Management OR	3
PE	2780	Internship: Sports Management	3
PE	2080	Introduction to Sports Management	3

### Additional Requirements: 6 credits

Select two courses from the following:

BMGT	2030	Management Fundamentals	3
BMGT	2035	Human Relations in Business	3
BMGT	2051	Legal Environment of Business	3
MKTG	1066	Event Production and Marketing	3
HORT	1023	Soil Science	3
HORT	2045	Turfgrass Science and Management	3
HVAC	1041	Basic Refrigeration I	3
HVAC	1042	Basic Refrigeration II	3

## Translating and Interpreting

### Program Options:

Translating and Interpreting Certificate (30)

Translating and Interpreting AAS Degree (60)

### Certificate

#### Translating and Interpreting

**Total Number of Credits: 30**

**Program Description:** The Translating and Interpreting Certificate is designed to educate students who wish to develop professional interpreting skills. It is especially well suited for students who have previous post-secondary education who wish to provide accurate, culturally-competent interpretation in a variety of settings in our increasingly diverse communities. Coursework includes consecutive interpreting, simultaneous interpreting, translation techniques, working within the code of ethics of interpreting, intercultural communication, critical thinking, collaboration and concepts in psychology and socio-linguistics. Interpreters will be prepared to work in K-12 schools, health care facilities, community clinics, social service agencies, and legal settings.

**Application Requirements:** Completion of RDNG 0090 with a grade of "C" or higher or assessment placement in RDNG 1000. Completion of ENGL 0090 with a grade of "C" or higher or assessment placement in ENGL 1021. Completion of MATH 0010 with a grade of "C" or higher or placement into MATH 0030 or higher. Advanced High or Superior rating on the ACTFL Oral Proficiency Interview in English and the second language, or equivalent prior to TRIN 1041. MN Human Services background study is required for the internship, service learning and field experience requirements.

## 6 Programs of Study

### Core Requirements: 15 credits

TRIN	1000	Orientation to Interpreting . . . . .	1
TRIN	1021	Introduction to Translation and Related Skills . . . . .	3
TRIN	1031	Standards of Practice and Skills of Interpreting . .	3
TRIN	1041	Beginning Skills of Interpreting . . . . .	4
TRIN	2022	Intermediate Skills of Interpreting . . . . .	4

### Career/Occupational Requirements: 3 credits

TRIN	2020	Occupational Specialty Glossary Development . . .	1
Select one of the following courses:			
BIOL	1023	Introduction to Forensic Biology . . . . .	4
EDUC	2070	Special Education Issues for Educators . . . . .	3
HLTH	1001	Medical Terminology . . . . .	2
HSER	2040	Crisis Assessment and Intervention . . . . .	3
SOC	1080	Introduction to the Criminal Justice System . . . . .	3

Select one course from the following:

TRIN	2023	Advanced Skills of Interpreting . . . . .	4
TRIN	2035	Role of the Interpreter in Education . . . . .	1
TRIN	2036	Role of the Interpreter in Medicine . . . . .	1

### General Education/MnTC Requirements: 7 credits

#### Goal 1 - Communication: 3 credits

COMM	1051	Intercultural Communication . . . . .	3
------	------	---------------------------------------	---

#### Goal 5 - History/Social and Behavioral Sciences: 4 credits

LING	2030	Introduction to Socio-Linguistics . . . . .	4
------	------	---	---

**Additional Requirements:** Sufficient credits to total 30 from courses with COMM, LING or TRIN designator.

Structured interpreting practicums, service learning and field experiences are important components of quality interpreter programs. Students in the Translating and Interpreting Certificate Program are required to complete a minimum of 30 hours of approved practicums, field experiences or service learning.

### Associate in Applied Science Degree

#### Translating and Interpreting

#### Total Number of Credits: 60

**Program Description:** The Translating and Interpreting AAS Degree is designed to prepare students with the critical thinking and interpreting skills which are necessary to pass interpreter certification examinations, and to begin professional interpreting careers. Students will learn to administer accurate, culturally competent interpretations in a variety of settings in our increasingly diverse communities. Coursework includes consecutive interpreting, simultaneous interpreting, translation techniques, working within the code of ethics of interpreting, intercultural communication, critical thinking, collaboration and concepts in psychology and socio-linguistics. Interpreters will be prepared to work in K-12 schools, health care facilities, community clinics, social service agencies, and legal settings.

**Application Requirements:** Completion of RDNG 0090 with a grade of

“C” or higher or assessment placement in RDNG 1000. Completion of ENGL 0090 with a grade of “C” or higher or assessment placement in ENGL 1021. Completion of MATH 0010 with a grade of “C” or higher or placement into MATH 0030 or higher. Advanced High or Superior rating on the ACTFL Oral Proficiency Interview in English and the second language, or equivalent prior to TRIN 1041. MN Human Services background study is required for the internship, service learning and field experience requirements.

### Core Requirements: 19 credits

TRIN	1000	Orientation to Interpreting . . . . .	1
TRIN	1021	Introduction to Translation and Related Skills . . . . .	3
TRIN	1031	Standards of Practice and Skills of Interpreting . .	3
TRIN	1041	Beginning Skills of Interpreting . . . . .	4
TRIN	2022	Intermediate Skills of Interpreting . . . . .	4
TRIN	2023	Advanced Skills of Interpreting . . . . .	4

### Career/Occupational Requirements: 18 credits

LING	2020	Introduction to Linguistics . . . . .	4
TRIN	2020	Occupational Specialty Glossary Development . . .	1
TRIN	2780	Internship . . . . .	1-3

Select one of the following courses:

BIOL	1023	Introduction to Forensic Biology . . . . .	4
EDUC	2070	Special Education Issues for Educators . . . . .	3
HLTH	1001	Medical Terminology . . . . .	2
HSER	2040	Crisis Assessment and Intervention . . . . .	3
SOC	1080	Introduction to the Criminal Justice System . . . . .	3

Select one of the following courses:

TRIN	2035	Role of the Interpreter in Education OR	
TRIN	2036	Role of the Interpreter in Medicine . . . . .	1

Select courses from the following to reach the 18 credit Career/Occupational requirement:

#### Interpreting Skills Focus

TRIN	2065	Over-the-Phone Interpretation . . . . .	1
TRIN	2069	Automated Language Translation Software Programs . . . . .	3

#### Language Focus

ENGL	1025	Technical Writing . . . . .	3
ESOL	1033	American English: Advanced Listening and Speaking . . . . .	3
ESOL	1035	ESOL for College . . . . .	3
TRIN	1071	Spanish Writing for Native Speakers . . . . .	2
TRIN	1073	Reading and Writing in Hmong . . . . .	3
TRIN	1075	Somali Writing for Native Speakers . . . . .	3

#### Business Focus

ACCT	1010	Introduction to Accounting . . . . .	3
BMGT	1020	Introduction to Business . . . . .	3
BMGT	2030	Management Fundamentals . . . . .	3
BMGT	2051	Legal Environment of Business . . . . .	3
BMGT	2060	Business Communications . . . . .	3
HLTH	1003	Worker Right to Know . . . . .	1
MKTG	2000	Customer Service Strategies . . . . .	3
MKTG	2010	Workplace Leadership . . . . .	3

## 6 Programs of Study

### Visual Communications Technologies

#### Program Options:

Visual Communications Technician Diploma (48)

Visual Communications Technologies AAS Degree (64)

Marketing Communications Technology AAS Degree (64)

#### Diploma

**Visual Communications Technician**

**Total Number of Credits: 48**

**Program Description:** The Visual Communications Technologies program prepares students for a career involving the delivery of messages in visual forms. Emphasis areas include interactive media, digital video, photography, and graphic design. In addition to these core areas, the General Education/MnTC courses required will help ensure individuals have the necessary oral, written, and critical thinking skills to help them with their professional responsibilities.

#### Core Requirements: 16 credits

VCT	1012	Principles of Digital Communications I	3
VCT	1013	Design Basics	4
VCT	1015	Project Planning	3
VCT	1018	Digital Imaging	3
VCT	1019	Principles of Digital Communications II	3

#### Career/Occupational Requirements:

Select 1 of 4 Specialty Track Options

#### Interactive Media: 29 credits

VCT	1021	Flash Interactive Media I	3
VCT	1023	Web Page Design with XHTML	3
VCT	1027	Web Page Design with DXHTML	3
VCT	1031	Digital Audio	3
VCT	1035	Digital Editing I	3
VCT	2021	Flash Interactive Media II	3
VCT	2025	3D Animation I	3
VCT	2026	3D Animation II	3
VCT	2029	Portfolio Development- Interactive Media	1

Electives selected with instructor consent

#### Digital Video: 29 credits

VCT	1030	Video I	3
VCT	1031	Digital Audio	3
VCT	1035	Digital Editing I	3
VCT	2025	3D Animation I	3
VCT	2030	Video II	3
VCT	2031	Video Production I	3
VCT	2032	Video Production II	3
VCT	2035	Digital Editing II	3
VCT	2037	Portfolio Development-Digital Video	1

Electives selected with instructor consent

OFFT	1001	College Keyboarding	1
<b>Health Focus</b>			
EMS	1010	AHA BLS for the Healthcare Provider	1
HLTH	1005	Basic CPR, Red Cross	1
HLTH	1010	Standard First Aid and Safety	2
HLTH	1040	Stress Management	2
HLTH	1050	Human Sexuality	3
HLTH	1060	Drug Education	3
MATH	1000	Medical Dosages Calculations	1
<b>Education Focus</b>			
EDUC	2050	Legal Issues in Education	3

General Education/MnTC Requirements: 23 credits

#### Goal 1 - Communication: 10 credits

ENGL	1021	Composition I	4
Select two of the following COMM courses:			3
COMM	1031	Interpersonal Communication	
COMM	1051	Intercultural Communication	
COMM	2071	Communication and Gender	

*Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete*

*Goal 3 and Goal 4 - Sciences/Math/Logical Reasoning: 3 credits*

Select one of the following courses:			
BIOL	1020	Introduction to Biology	4
BIOL	1023	Introduction to Forensic Biology	4
BIOL	1024	Human Biology	3
BIOL	2031	Human Anatomy and Physiology I	4
BIOL	2032	Human Anatomy and Physiology II	4
MATH	1025	Statistics	4
MATH	1061	College Algebra I	4

*Goal 5 - History/Social and Behavioral Sciences: 4 credits*

LING	2030	Introduction to Socio-Linguistics	4
------	------	-----------------------------------	---

#### Additional Recommended Courses:

COMM	2051	Minnesota's New Immigrants: Communication, Culture and Conflict	3
WGST	1061	Foundations of Women's Studies	3

*Goal 6 - Humanities and Fine Arts: 3 credits*

Select one of the following courses:			
HUM	1030	Culture and Civilization of Spanish Speaking Peoples	
HUM	1035	Culture and Civilization of French Speaking Peoples	
HUM	1040	Culture and Civilization of Chinese Speaking Peoples	
PHIL	1035	Biomedical Ethics	

*Goals 7 – 10: Three credits in one of the four goals*

#### Additional Requirements:

Structured interpreting practicums, service learning and field experiences are important components of quality interpreter programs. Students in the AAS Translating and Interpreting Program are required to complete a minimum of 80 hours of approved practicums, field experiences or service learning.

## 6 Programs of Study

### Photography: 29 credits

VCT	1040	Traditional Photography	2
VCT	1041	Digital Photography I	3
VCT	1042	Digital Photography II	3
VCT	1047	Forensic Photography	3
VCT	2040	Digital Studio	3
VCT	2042	View Camera	3
VCT	2044	Professional Photography Using Adobe Photoshop	3
VCT	2045	Advanced Digital Studio and Adobe Photoshop	3
VCT	2046	Portfolio Development-Photography	1
Electives selected with instructor's consent			5

### Graphic Design: 29 credits

VCT	1060	Typography	3
VCT	1061	Electronic Publishing I	3
VCT	1063	Imaging and Printing Methods	3
VCT	2061	Electronic Publishing II	3
VCT	2062	Electronic Publishing III	3
VCT	2063	Digital Color Management	3
VCT	2064	Print Production	3
VCT	2065	Color Correction Techniques	3
VCT	2066	Portfolio Development-Graphic Design	1
Electives selected with instructor's consent			4

### General Education/MnTC Requirements: 3 credits

Suggestions for fulfilling this requirement are listed below:

ART	1041	Drawing I
ENGL	1021	Composition I
HUM	1045	American Film
COMM	1021	Fundamentals of Public Speaking
COMM	1031	Interpersonal Communication
COMM	1041	Small Group Communication
COMM	1061	Mass Media and Communication

### Associate in Applied Science Degree

#### Visual Communications Technologies

#### Total Number of Credits: 64

**Program Description:** The Visual Communications Technologies program prepares students for a career involving the delivery of messages in visual forms. Emphasis areas include interactive media, digital video, photography, and graphic design. In addition to these core areas, the general education/MnTC courses required will help ensure individuals have the necessary oral, written and critical thinking skills to help them with their professional responsibilities.

### Core Requirements: 16 credits

VCT	1012	Principles of Digital Communications I	3

### General Education/MnTC Requirements: 20 credits

#### Goal 1 - Communication: 7 credits

ENGL	1021	Composition I	4
------	------	---------------	---

Select one of the following COMM courses:	3
COMM 1021 Fundamentals of Public Speaking	
COMM 1031 Interpersonal Communication	
COMM 1041 Small Group Communication	
COMM 1051 Intercultural Communication	

*Goal 2 - Critical Thinking is fulfilled when all MnTC goals are complete*

*Goal 3 and Goal 4 - Sciences/Math/Logical Reasoning: 3 credits*

*Goal 5 - History/Social and Behavioral Sciences: 3 credits*

*Goal 6 - Humanities and Fine Arts: 3 credits*

*Goals 7 - 10: Three credits in one of the four goals*

**Associate in Applied Science Degree  
Marketing Communications Technology  
Total Number of Credits: 64**

**Program Description:** This polytechnic degree program blends three Century College areas: the theories and strategies of the Marketing Program, the application skills of the Visual Communications Technologies Program and the hands-on and aesthetic teachings of the Art and Art Studio coursework. In addition, courses from the English, Communication and Philosophy disciplines round out this curriculum and form a balanced theory/practice approach. Learners with this type of preparation find fulfilling careers in a variety of visual communications as well as visual marketing fields.

**Core Requirements: 29 Credits**

CAPL 1010 Introduction to Software Applications	3
MKTG 2035 Trend Analysis	3
MKTG 2050 Principles of Marketing	3
MKTG 2055 Electronic Marketing Concepts	3
MKTG 2063 Advertising and Sales Promotion	3

**Additional Requirements:**

Sufficient credits to total 64

## Women and Gender Studies

**Program Options:**

Women and Gender Studies Certificate (15)

**Certificate**

**Women and Gender Studies**

**Total Number of Credits: 15**

**Program Description:** The Women and Gender Studies Certificate program offers an interdisciplinary field of study focused on the rich diversity of women’s experiences across time, cultures, and social/economic classes. In Women and Gender Studies courses, students and faculty reexamine and reevaluate assumptions about women’s role in society, uncovering the central role of women in the human experience. The program is a valuable addition to any academic field and provides a career advantage in many areas. In addition, the Women and Gender Studies Certificate is an excellent preparation for transfer students wishing to major or minor in Women and Gender Studies at other institutions. See Chapter 5 for transfer agreements with this certificate.

**Note:** A maximum of two courses transferred from other institutions can be used to help fulfill the 15-credit Women and Gender Studies Certificate.

**Core Requirement: 3 credits**

WGST 1061 Foundations of Women’s Studies	3
--	---

**Course Requirements: 12 credits**

Select 12 credits from the following list of courses:

WGST 1071 Introduction to GLBT Studies	3
WGST 2061 Women in Global Perspective	3

WGST	2770	Special Topics in Women's Studies.....	1-3	ENGL	2063	Women in Literature: World Voices.....	3

ENGL	2062	Women in Literature: American.....	3	SOC	2031	Sociology of the Family .....	3

# 7 Course Descriptions

## Course Transferability

Students are responsible for knowing whether courses for which they register will transfer to a specific school as a required course, as an elective, or not at all. To obtain this information, students should check with the college of their choice and with a Century counselor.

## Accounting

### Introduction to Accounting ACCT 1010 3 Credits

This course introduces the practice of accounting. Topics include transaction analysis, double-entry accounting, cash, petty cash, purchases/payables, sales/receivables, and specialized journals. Year-end procedures and financial statement preparation for service and merchandise companies, payroll, inventory valuation, and corporate structure and equity accounting are also covered.

### Payroll Procedures ACCT 1020 3 Credits

This course covers the numerous laws pertaining to employment practice and compensation as well as computations and payment of salaries and wages and related taxes. Topics include employment recordkeeping requirements, preparation of the payroll register, individual earnings records, tax reports, and other forms required by government agencies. The accounting procedures necessary to properly prepare accounting transactions are also covered.

*Prerequisite:* ACCT 1010, or ACCT 2020 or concurrent enrollment. *Recommendation:* Assessment score placement in MATH 0030 or above or completion of MATH 0010 with a grade of "C" or higher.

### Computerized Accounting Applications ACCT 1030 3 Credits

This course is a comprehensive overview of QuickBooks Pro software for business. Students will perform multiple accounting transactions and run reports using QuickBooks. These include recording checks/deposits,

preparing bank reconciliations, recording sales/receivables, recording purchases/accounts payables, accounting for inventory, recording payroll transactions, recording fixed asset transactions and financial statement preparation. Students will also gain experience writing accounting procedures related to QuickBooks. This course is relevant to prospective students interested in increasing their knowledge of QuickBooks for their business or current accounting position. *Prerequisite:* ACCT 1010, or ACCT 2020 with a grade of "C" or higher. *Recommendation:* Computer skills are essential.

### Federal Income Taxation ACCT 1040 3 Credits

This course is a study of taxation policy and the application of that policy to the preparation of federal income tax returns. Topics include taxable income, deductions, exemptions, and tax credits. This course also includes the use of a computer software package. *Recommendation:* ACCT 1010 or ACCT 2020 and computer skills.

### Financial Accounting ACCT 2020 3 Credits

This course includes the study of financial accounting concepts through the measurement, communication, and analysis of economic events for the benefit of investors, creditors, and other external users of financial accounting information. Emphasis is on the preparation and analysis of financial statements in a corporate annual report. *Prerequisite:* Assessment score placement in MATH 0070 or above or completion of MATH 0030 with a grade of "C" or higher.

### Managerial Accounting ACCT 2025 3 Credits

This course introduces the foundations of managerial accounting. The emphasis is on management's use of accounting information for planning, controlling, and decision making. Topics covered include cost behavior, an overview of job order and process costing, cost volume profit analysis, budgeting, cost analysis, and capital budgeting decisions. *Prerequisite:* ACCT 2020 or equivalent. *Recommendation:* Experience in the use of Excel.

## Course Identification

### Prefixes and Numbers

Courses at Century College are identified by discipline prefix (ART, ENGL, etc) and number. Courses numbered 1000 to 1999 are designed as foundations for future learning. Courses numbered 2000-2999 require higher level skills in thinking and are often based on foundation courses. Career course numbers do not necessarily follow the above system.

Courses numbered below 1000 do not meet the requirements of "college level" as specified for each of the several degrees offered by Century.

### Prerequisite, Restriction, Recommendation

Course prerequisites, restrictions, and recommendations are listed immediately following the course descriptions.

A *prerequisite* is a body of knowledge or level of competence a student should have achieved to ensure readiness for a course. In special circumstances, a prerequisite may be waived by approval of the appropriate department. Students are not permitted to register for courses for which prerequisites have not been met. A prerequisite is met by earning credit in a course. Some courses may have specific grade requirements. See course description for grade requirements.

A *restriction* indicates a condition which may prevent a student from earning credit in a particular course. Exceptions to a restriction may be granted by the instructor.

A *recommendation* indicates a condition which is desirable but not necessary. They usually are used to indicate when prior learning experience makes success in the course more attainable.

## 7 Course Descriptions

### **Intermediate Accounting ACCT 2050 4 Credits**

This course provides an in-depth presentation of accounting for balance sheet accounts, financial statement preparation and analysis. This course expands on financial accounting topics such as inventory and financial statement analysis.

*Prerequisite:* ACCT 1010 or ACCT 2020.

### **Professional Issues in Accounting ACCT 2060 3 Credits**

This course requires students to apply financial accounting concepts and examine current issues in the accounting profession. Topics covered include the development of work papers, writing of accounting reports, understanding accounting documents, and the accountant-client relationship.

*Prerequisite:* ACCT 1010 or ACCT 2020 and ENGL 1021. *Recommendation:* CAPL 1025 or CSCI 1021.

### **Accounting Cases and Applications ACCT 2070 3 Credits**

A course that examines the accounting profession through case studies and the application of accounting principles. This course includes group projects, an examination of professional ethics, and the writing aspects of the profession.

*Prerequisite:* ACCT 2060 or consent of instructor.

## Anthropology

### **Introduction to the Social and Behavioral Sciences: ANTH, PSYC and SOC ANTH 1000 3 Credits**

This course serves as a broad introduction to three of the social and behavioral sciences: Anthropology, Psychology, and Sociology. The course provides an overview of the history, theories, research methods, and research publications of each discipline. The course is designed to help students to acquire the knowledge and skills that will enable them to succeed in the introductory courses in these three disciplines.

*Prerequisite:* Assessment score placement in RDNG 0090, or completion of RDNG 0080 with a grade of "C" or higher or consent of the

instructor. *Restriction:* May not be taken for credit if credit has been earned in PSYC 1000 or SOC 1000.

### **Introduction to Physical Anthropology: Human Origins**

#### **ANTH 1022 3 Credits MnTC: Goals 03 & 10**

This course is an introduction to physical anthropology through the study of human origins. This includes a detailed introduction to evolutionary theory and related topics, such as Mendelian and population genetics, taxonomy, and primate behavior and ecology. Central to the course is the human and non-human primate fossil evidence, and the evolutionary origins of modern Homo sapiens. This course is intended for new students in anthropology.

*Prerequisite:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

### **Introduction to Cultural Anthropology ANTH 1023 3 Credits**

#### **MnTC: Goals 05 & 08**

This course examines the fundamental social processes that universally bind humans together and tear them apart: subsistence, language, kinship, reproduction, alliances, food production, economics, competition, warfare and death. The anthropological approach to these topics is to study human societies from around the world using the guiding concepts of culture and evolution.

### **Introduction to Archaeology ANTH 1025 3 Credits**

#### **MnTC: Goals 05 & 07**

Archaeology is the study of past human behaviors. Using excavation and other methods, archaeologists study the material remains of people from the past. Students will study specific archaeological discoveries from all over the world and at different time periods, and learn about the methods and theories that archaeologists employ in their investigation of the past. Students will have hands-on experience with methods like mapping and excavation documentation and opportunities to discuss ethical issues in archaeology.

*Prerequisite:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

### **Sex and Gender ANTH 2031 3 Credits MnTC: Goals 05 & 08**

This course will examine sex and gender from an anthropological perspective. Anthropology recognizes that human behavior and social systems arise as a result of the interaction of our biology and our environment. This class will begin by studying sex from an evolutionary perspective. Later, the class will turn to the topic of gender, which is the behavior associated with each sex as defined varyingly by different cultures. Students will study gender across many different cultures around the world and look for patterns to seek a better understanding of our species and ourselves.

*Prerequisite:* Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher, and assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Word processing proficiency.

### **Anthropology of Human Nature ANTH 2061 3 Credits**

#### **MnTC: Goals 05 & 10**

This class introduces the broad anthropological study of behavior from a Darwinian perspective. Students explore the evidence concerning the evolution of primate behavior and the past several million years of human evolution with a strong emphasis on the behavior of our ancestors. Initial topics include a detailed introduction to natural selection and a brief survey of human evolution. This is followed by readings and lectures on the evolution of primate and human tool use, meat-eating, cooperation, food-sharing, mate selection, sex, child-rearing, and conflict. Once the students are familiar with evolutionary theory and the evolutionary history of human behavior the focus turns to universal patterns in modern human behavior.

*Prerequisite:* Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher, and assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

## Art

### Art Appreciation

#### ART 1020 3 Credits

##### MnTC: Goals 06 & 08

This course introduces students to art from a variety of cultures and historical contexts. Topics include: major art movements, varieties of materials, and aesthetic theories. Coursework covers formal terms, elements, and principles common to the study of art and architecture.

**Recommendation:** Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

### Art History of the Western World I

#### ART 1021 3 Credits

##### MnTC: Goals 06 & 08

This course traces the development of art and architecture in the west from the Paleolithic through the Gothic Periods – the art, architecture, philosophies, and traditions that continue to shape the modern western world. Students examine individual historical styles, techniques and ideological movements that have evolved in western art making, architecture and design.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher and placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### Art History of the Western World II

#### ART 1022 3 Credits

##### MnTC: Goals 06 & 08

This course traces the development of Art in the West from the Renaissance Period through the 20th Century - the art, architecture, philosophies, and traditions that continue to shape the modern western world. Students examine individual historical styles, techniques and ideological movements that have evolved in western art making, architecture and design.

**Prerequisite:** Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher and placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### American Art

#### ART 1023 3 Credits

##### MnTC: Goals 06 & 07

This course introduces students to American art and architecture from the Colonial period to the present. Coursework includes Native American culture, as well as influences from cultures outside of the United States. Emphasis is on the way historical events have shaped American diversity, values and vision. Students will analyze major movements, artwork and architecture, using terms and principles common to art.

**Recommendation:** Assessment score placement in ENGL 1020 or completion of ENGL 0090 with a grade of a "C" or higher. Assessment score placement in RDNG 1000, or the completion of RDNG 0090 with a grade of "C" or higher.

### 2D Design

#### ART 1024 3 Credits

##### MnTC: Goal 06

This course is a foundation level study of the development, principles, and elements of two-dimensional design. Students will explore the concepts of composition through guided projects and demonstrations, discovering a working creative process, an awareness of design in our culture, and awareness of current design issues.

### 3D Design

#### ART 1025 3 Credits

##### MnTC: Goal 06

This course is a foundation level study of the principles and elements of three-dimensional design. Students use a variety of media and art techniques to explore three-dimensional design; form, line, plane, volume, mass, space, texture, light, and time. Projects emphasize a working creative method for problem solving in three-dimensions as well as a general knowledge of historical and contemporary design issues.

### Photography 1

#### ART 1031 3 Credits

##### MnTC: Goal 06

This course is designed as an exploration of photography as a means of visual communication and creative expression. Students are introduced to basics of 35 mm cameras, black and white darkroom practices, and digital photography. Projects address a

range of design, aesthetic, and conceptual issues fundamental to the art of photography. Strong emphasis is on the development of both a technical foundation and a critical awareness of the medium as a creative tool. This course requires 2 additional lab hours per week.

**Recommendation:** ART 1020.

### Drawing I

#### ART 1041 3 Credits

##### MnTC: Goal 06

This course introduces students to fundamental drawing strategies. Projects emphasize direct observation of nature, still life, and the human form. Assignments are designed to improve drawing skills, engage creative problem-solving, as well as broaden students' knowledge of the cultural/historical relevance of drawing.

### Painting I

#### ART 1051 3 Credits

##### MnTC: Goal 06

This course provides an introduction to the fundamentals of painting principles, methods, materials, and critique. Students work from observation, simultaneously strengthening perceptual abilities increasing knowledge and use of acrylic paint. Painting assignments are supported by readings, discussions and research of historic, cultural and contemporary painting issues.

**Recommendation:** ART 1024, ART 1041.

### Watercolor

#### ART 1055 3 Credits

##### MnTC: Goal 06

This course introduces fundamental strategies for painting form and spatial illusions with watercolor. Students explore their perceptions and creative ideas through a sequence of structured exercises. Projects emphasize direct observation of still life objects and nature. Coursework includes cultural and historical aspects of the medium. **Recommendation:** ART 1041.

### Sculpture I

#### ART 1061 3 Credits

This course introduces students to a variety of materials and processes common to sculpture. Hands-on projects expand 3D design concepts and encourage students to develop their own creative ideas. Students will explore

## 7 Course Descriptions

contemporary trends and applications, as well as research cultural traditions throughout history. Coursework includes access to Century's FAB LAB, which can enhance projects, and connect students to projects around the world.

*Prerequisite:* ART 1025

### **Ceramics I**

**ART 1071 3 Credits**

**MnTC: Goal 06**

This course introduces basic hand-building and wheel techniques with clay. Students will examine the diverse cultural history of ceramic art and its continued relevance as a form of creative expression. The principles of 3 dimensional design, along with functional and nonfunctional applications, will be explored through a series of hands-on exercises and projects.

### **Independent Study**

**ART 1790` 1-3 Credits**

Independent study is an opportunity for intermediate and advanced art students to complete an in-depth project or body of work in studio art or art-related research.

*Prerequisite:* Students must have completed all or most art courses offered at Century College or provide proof (transcripts or portfolio) of completing college-level foundation art courses. Project must be approved, prior to enrollment, first by instructor, and then dean. *Recommendation:* This offering is meant to assist students who are planning to major in studio art, art history, or art education.

### **Photography II**

**ART 2031 3 Credits**

**MnTC: Goal 06**

This course will challenge students to consider different ways that a variety of photographic processes can be used to communicate ideas. Students will be introduced to the tools, applications and creative methods used in making traditional as well as, nontraditional, alternative, and nonsilver photographic images. Through class critiques, discussions of the history of photography and contemporary trends in art, and reading and writing assignments, students will expand their ability to evaluate, interpret and express ideas through the use of the camera and light sensitive materials. A group field trip to a

major metro area art venue is required.

*Prerequisite:* Students must have a basic understanding of 35mm SLR cameras and darkroom experience.

### **Drawing II**

**ART 2041 3 Credits**

This course expands and refines concepts covered in Drawing I. Additional topics include thematic intent and deeper investigation into the impact of composition. Students will also explore the properties of a variety of wet and dry materials, including color. Projects and exercises are based on direct observation of still life, the human form, architectural spaces, and nature. Coursework includes cultural/historical research and considers a range of contemporary professional applications.

*Prerequisite:* ART 1041. *Recommendation:* ART 1024.

### **Figure Drawing**

**ART 2042 3 Credits**

This course emphasizes traditional strategies for drawing the live human form, clothed and unclothed. Topics include proportional canons, relational measuring, basic anatomy for artists, portraiture, gesture drawing, and construction techniques. Students will study the way the human image has been used throughout art history, as well as explore contemporary trends and applications of figure drawing.

*Prerequisite:* ART 1041 with a grade of "B" or higher. *Recommendation:* ART 2041.

### **Painting II**

**ART 2051 3 Credits**

This course expands on the foundational concepts presented in Painting I. Emphasis is placed on traditional and experimental approaches to painting using water-based oils. Students will explore themes based on landscape, interior spaces, still life and the human form. Painting assignments are supported by sketchbook exercises, readings, discussions, and research of historic, cultural, and contemporary painting issues.

*Prerequisite:* ART 1024, ART 1041, ART 1051.

### **Ceramics II**

**ART 2071 3 Credits**

This course is an expansion of concepts covered in Ceramics I. Students will refine technical skills as well as explore design

concepts of greater complexity. Coursework includes functional and nonfunctional applications, glazing techniques, effects and functions of various clay bodies, firing procedures, and studio safety. In addition, students will research the diverse history of ceramic art and pottery, including contemporary trends and movements.

*Prerequisite:* ART 1071. *Recommendation:* ART 1025.

### **Portfolio: Professional Practices**

**ART 2099 2 credits**

This course presents topics related to the creation of professional materials common to the Art profession. In addition to the creation of a professional portfolio of artwork, discussions will include presenting to galleries, creation of an artist resume, and professional studio practices. This class is part of the final semester of the AFA-Art degree.

*Prerequisite:* Sufficient credits in ART and consent of instructor

## Auto Body

### **Introduction to Auto Body Trade**

**ABOD 1000 4 Credits**

This course covers shop safety, tool maintenance, professionalism and the major work areas in a typical shop. Students are also exposed to the steps necessary in repairing a wrecked vehicle. Students must be able to perform physical tasks to complete course requirements.

### **Introduction to Welding for Auto Body**

**ABOD 1010 4 Credits**

This course covers the identification and performance of gas, plasma cutting, and MIG equipment as it pertains to auto body. Topics include welding terms and safety procedures, setup, shutdown and performance on various gauges of steel in a variety of positions. Students will perform bead, lap and butt welding in the vertical and overhead positions. Students must be able to perform physical tasks to complete course requirements.

### **Auto Body Sheet Metal**

**ABOD 1020 2 Credits**

This course covers sheet metal repair processes for minor damage. Students will use

tools and equipment on actual sheet metal panels and damaged vehicle panels. Students must be able to perform physical tasks to complete course requirements.

### **Introduction to Auto Body Refinishing ABOD 1030 4 Credits**

This course is an introduction to automotive refinishing. Topics include refinishing safety, tools, equipment, surface preparation and material application procedures. Students must be able to perform physical tasks to complete course requirements.

### **Corrosion Protection and Body Fillers ABOD 1040 3 Credits**

This course covers rust repair techniques and corrosion protection material safety, tools, equipment and application. Topics include safe use of body fillers and repair sectioning or replacement of fiberglass body repairs. Students must be able to perform physical tasks to complete course requirements.

### **Glass, Trim and Hardware ABOD 1050 2 Credits**

This course covers safe procedures for the removal and replacement of all stationary and movable glass and various types of attachments on auto body trim and hardware. Glass and trim are not considered structural, but they are important components in the reconstruction of a vehicle. Different methods of glass removal, glass adhesives, and fasteners are discussed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 1000, ABOD 1010, ABOD 1020, ABOD 1030, ABOD 1040 or instructor consent.

### **Collision Repair and Overall Refinishing ABOD 1060 3 Credits**

This course covers the overall techniques for restoring damaged cars, reconditioning vehicles, and cleaning up. Topics include refinishing procedures and preparation for overall refinishing, hammer and dolly techniques, and removal of paint from damaged areas. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 1000, ABOD 1010, ABOD 1020, ABOD 1030, ABOD 1040 or instructor consent.

### **Auto Body Electrical and Mechanical Components**

#### **ABOD 1070 5 Credits**

This course covers repairs to electrical, air conditioning, charging and recharging systems damaged in collisions. Topics include personal and shop safety, drive train, steering system, suspension, severed wiring, and engine sensors. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 1000, ABOD 1010, ABOD 1020, ABOD 1030, ABOD 1040 or instructor consent.

### **Specialty Refinishing**

#### **ABOD 2000 4 Credits**

This course covers identification and correction of color mismatching, techniques in spot repairing full panels, application of pin striping, interior and plastics repairs, chip protection and custom paint finishes. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 2010, ABOD 2020, ABOD 2030 or instructor consent.

### **Computer Estimating**

#### **ABOD 2010 2 Credits**

This course covers identification and calculation of the cost of vehicle damage, calculating cost of parts, material, and labor written from a manual or computer.

*Prerequisite:* ABOD 1050, ABOD 1060, and ABOD 1070 or instructor consent.

### **Unibody and Frame Damage**

#### **ABOD 2020 4 Credits**

In this course, students will use specialized equipment to locate key reference points on a damaged vehicle and compare them with published dimensions from an undamaged vehicle. The students will use this information to repair or replace the necessary parts.

Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 1050, ABOD 1060, and ABOD 1070 or instructor consent.

### **Major Collision Lab**

#### **ABOD 2030 5 Credits**

In this course, students will focus on analysis of impact damage from a major collision and determine strategies for repairs. Topics include determining the extent of damage to structural steel body panels and repairing,

welding, or replacing in accordance with vehicle manufacturers' specifications.

Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 1050, ABOD 1060, and ABOD 1070 or instructor consent.

### **Auto Body Management**

#### **ABOD 2040 1 Credit**

This course covers proper shop management procedures including parts ordering, payroll, employer-employee relations, customer relations, and communication skills as if the student owns and operates a body shop.

Students are required to write a plan to build and operate their own shop.

*Prerequisite:* ABOD 2010, ABOD 2020, ABOD 2030 or instructor consent.

### **Refinishing Lab**

#### **ABOD 2050 4 Credits**

This course focuses on advanced color theory and repair procedures to a complete vehicle. It also includes undercoat and topcoat functions, types of undercoats, and application techniques for major or minor damage.

Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 2010, ABOD 2020, ABOD 2030 or instructor consent.

### **General Auto Body Lab**

#### **ABOD 2060 4 Credits**

In this course, students will apply concepts and skills learned in previous courses.

Students must develop a repair plan, time line, and cost estimate, and perform repair to industry standards. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 2010, ABOD 2020, ABOD 2030 or instructor consent.

### **Mechanical Suspension and Wheel Alignment Lab**

#### **ABOD 2070 6 Credits**

In this course, students will replace damaged water pumps, radiators, and engines using proper safety techniques. Topics also include proper wheel alignment, suspension, and electrical repairs. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* ABOD 2010, ABOD 2020, ABOD 2030 or instructor consent.

## 7 Course Descriptions

### Automotive Service Technology

---

Note: Prior to registering for any AST course students must attend a new student orientation session, program orientation, and registration session.

#### **Automotive Workplace Safety** **AST 1005 1 Credit**

This course covers safe practices in the automotive workplace. Topics include the labeling, handling, storage, removal, disposal, and recycling of hazardous and toxic materials, Minnesota Right to Know Act, and emergency shop procedures. Students must be able to perform physical tasks to complete course requirements.

#### **Automotive Brakes** **AST 1015 4 Credits**

This course covers drum and disc brake systems, hydraulic systems, power brakes, and the basic theory of anti-lock brake systems. Theory, diagnosis, adjustment, and complete system rebuilding will be included during group discussions and shop applications. Students must be able to perform physical tasks to complete course requirements.  
*Prerequisite:* AST 1005.

#### **Steering and Suspension Systems** **AST 1025 3 Credits**

This course provides the basis for repairs and adjustments to the steering and suspension systems found on the modern automobile. Operating design theory, diagnosis, adjustment, and repair are included during group discussions and shop applications. Students must be able to perform physical tasks to complete course requirements.  
*Prerequisite:* AST 1005.

#### **Four Wheel Alignment** **AST 1035 4 Credits**

This course covers diagnosis, corrections, and adjustments of the steering and suspension systems to correct poor handling, noise, and abnormal tire wear. Alignment theory, pre-alignment inspection, and adjustments using factory adjustments and after-market modifications on modern equipment are

covered in group discussions and shop applications. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1025.

#### **Standard Drive Train** **AST 1045 4 Credits**

This course covers the theory and operation of manual transmissions/transaxles, clutches, RWD, universal joints, FWD, constant velocity joints, differentials, and 4-wheel drive systems. Group activities and shop work include the adjustments, repair, replacement and/or rebuilding of these units. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1035.

#### **Automotive Service** **AST 1055 2 Credits**

This course covers all of the tasks that are required for a person starting in the automotive field. Topics include automotive tools and equipment, perform tire service, lubrication, safety inspection, aim headlights, exhaust repair, drill and tap threads, install a helicoil, and interpret numbers associated with automotive repairs. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1005.

#### **Electrical Principles** **AST 1065 3 Credits**

This course covers electrical terms, what electricity is, what it does as it flows through a circuit, series and parallel circuits, Ohm's Law, how to connect and use a DVOM, battery theory, and how to test batteries using a VAT-40. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1005.

#### **Body Electrical Systems** **AST 1075 2 Credits**

This course introduces the student to reading wiring diagrams and testing common automotive electrical circuits. In this course, students will be exposed to wiring diagrams and how to test power door locks, power windows, the turn and brake light circuits, the blower motor circuits, parking, headlights and dimmer circuits, along with the wipers

and washer circuits. Students will practice on training boards and then move into testing and repair on live vehicles. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1065.

#### **Starting and Charging Systems** **AST 1085 4 Credits**

In this course, students will study the components, circuits, and theory of operation of the starting and charging systems. Students will use test equipment, diagnostic procedures, and flowcharts to interpret test results so that the correct repairs will be performed on inoperative starting and charging systems. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1075.

#### **Automatic Transmission** **AST 1095 4 Credits**

This course covers automatic transmission theory, sub-assembly operation, and operational controls. Rebuilding techniques, service procedures and diagnosis are covered in group discussions and shop applications. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1085.

#### **Automotive Engines** **AST 2005 4 Credits**

This course covers engine construction, operating theory and overhaul procedures. All engine subsystems will be studied in great detail. A complete engine overhaul on a component engine will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Completion of all AST 1000 level courses.

#### **Engine Diagnosis** **AST 2015 3 Credits**

This course covers the diagnostic test procedures used to determine the operating condition of a gasoline engine. Diagnostic testing and test interpretation will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2005.

**Cooling System Service****AST 2025 2 Credits**

This course covers the operation and service of the cooling system. Cooling system service and coolant recovery/recycling procedures will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2015.

**Emission Control****AST 2035 3 Credits**

This course covers the need for vehicle emission control. A complete description of the function and operation of most common emission control devices will be addressed. Testing of emission control devices will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2025.

**Computerized Engine Control****AST 2045 4 Credits**

This course covers the fundamentals of the microcomputer system used to control the automotive engine. Concepts covered include: central processing, memory/storage devices, input/output devices, adaptive strategy, and on-board diagnostics. Computer scanners will be used to test and analyze the engine control computer system. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2035.

**Electronic Fuel Injection****AST 2055 2 Credits**

This course covers the operation and service of electronic fuel injection systems. System testing and necessary repairs will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2045.

**Engine Performance Maintenance****AST 2065 4 Credits**

This course covers ignition system theory, testing and repair procedures, four-gas analysis and engine performance maintenance. Engine performance maintenance using a variety of diagnostic test equipment will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2055.

**Supplemental Computer Systems****AST 2075 2 Credits**

In this course, students will study supplemental computer systems used to control inflatable restraint systems. Repair and diagnostic procedures will be performed on live vehicles. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2065.

**Air Conditioning****AST 2085 3 Credits**

This course covers the fundamentals and service of the automotive air conditioning system. Topics include system operation, recovery/recycling of 134A, system charging, leak detection, performance testing, and retrofitting. Air conditioning service using typical service equipment will be performed. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 2075.

**New Automotive Technology****AST 2095 3 Credits**

This course introduces students to new technology in the automotive industry. Course content will range from shop management trends to new federally mandated systems that are and will be required on vehicles. Course content will change as vehicle technologies emerge. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* AST 1005, AST 1085, AST 1095, AST 1015, AST 1045.

**Carburetor Rebuild****AST 2115 2 Credits**

This course will cover the purpose and theory of operation of each of the seven carburetors' circuits for two- and four-barrel carburetors. Rebuild procedures and adjustments will be demonstrated with students performing complete rebuilds on vehicles. Computer controlled carburetors will also be explained and demonstrated. Students cannot be allergic to carburetor cleaner. Students must be able to perform physical tasks to complete course requirements.

**Biology****Biology Concepts****BIOL 1020 4 Credits****MnTC: Goal 03**

This is a lab science course dealing with the basic concepts of general biology including cell biology, energy capture and utilization, heredity, origin and descent of life, classification of organisms, and environmental relationships of living things. Laboratory experiences are provided to acquaint students with basic lab methods and techniques.

*Prerequisite:* Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. *Recommendation:* High school chemistry or CHEM 1020 or equivalent.

**Biology of Women****BIOL 1021 3 Credits****MnTC: Goal 03**

This course investigates the history of women's treatment by the medical and scientific community, male and female reproductive anatomy and physiology, the basis of scientific inquiry and investigation, sexual and reproductive biology of women and men including contraception, pregnancy, childbirth, and infertility. The biology of cancers, sexually transmitted diseases and infections, and systemic chronic diseases throughout the lifespan is also included. Course is open to both women and men.

*Prerequisite:* RDNG 0090 with a grade of "C" or higher, or assessment score placement in RDNG 1000. *Restriction:* Closed to students who have earned credit in BIOL 2050. *Recommendation:* High school biology or BIOL 1020 or its equivalent.

**Introduction to Forensic Biology****BIOL 1023 4 Credits****MnTC: Goal 03**

This course deals with many of the basic concepts of general and human biology using forensic biology to demonstrate the concepts. These will include a survey of the organ systems and applications of forensic science to the human body systems, including the biology of DNA. Offered F, S.

*Prerequisite:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with

## 7 Course Descriptions

a grade of "C" or higher. **Restriction:** Closed to students who have already earned credit for Biology 1024, Human Biology.

### Human Biology

**BIOL 1024**      **3 Credits**

**MnTC: Goal 03**

This course is a survey of the human organ systems by structure and function. Organ systems include integumentary, skeletal, muscular, nervous, endocrine, circulatory, respiratory, digestive, urinary, and reproductive. The scientific method of inquiry, human reproduction, development and heredity are other topics integrated into the biology of the human body. This course is designed for students who wish to gain a better understanding of the biology of the human body, including liberal arts majors.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. **Restriction:** Closed to students who have earned credit in BIOL 1023, 2031, 2032, 2040 or 2045.

**Recommendation:** High school biology or BIOL 1020 or equivalent.

### Field Biology

**BIOL 1025**      **4 Credits**

**MnTC: Goals 03 & 10**

This is a lab science course dealing with interrelationships between environmental influences and organisms as well as surveying flora and fauna. Concerns considered include climate change, ozone depletion, ground water contamination, acid rain, and hazardous waste disposal. This is an experience-centered course in which students have the opportunity to learn fundamental environmental principles, basic concepts of biology, and conservation through integrated laboratory and lecture presentation and field work. This is a lab science general education course.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. **Recommendation:** High school biology or BIOL 1020 or equivalent.

### Plants and Society

**BIOL 1026**      **4 Credits**

**MnTC: Goals 03 & 10**

This is a lab science course dealing with the biological, historical, and cultural perspectives of roles plants have played in human civilizations. The course begins with

an overview of roles of plants in our daily lives and follows with theories of the origins of agriculture, while integrating discussions of benefits of hundreds of plants and plant products. Also considered are the potential of yet to be discovered benefits of many plants. Laboratory demonstrations provide students with direct access to plants and plant products necessary to everyday life. This is a lab science course intended for liberal arts majors and for students with a general interest in plant biology.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. **Recommendation:** High school biology or BIOL 1020 or equivalent.

### Ecology

**BIOL 1028**      **4 Credits**

**MnTC: Goals 03 & 10**

This is a lab science course covering the basic concepts of ecology, including physical factors that influence the distribution and abundance of organisms, population regulation and interactions, nutrient cycling and energy flow, community change and succession. Natural and human disturbances of ecosystems and the concept of sustainability will also be integrated within the basic concepts of ecology. The major biomes of Minnesota - prairie and coniferous and deciduous forests - will be explored in relationship to these concepts. The course is intended to be a lab science general education course.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. **Recommendation:** High school biology or BIOL 1020 or equivalent.

### Microbes and Society: An Introduction to Microbiology

**BIOL 1029**      **4 Credits**

**MnTC: Goal 03**

Microbes and Society introduces students to the biology of the major microbial groups, their role in our everyday existence, and the methods of scientific inquiry. Contemporary topics, such as genetic engineering, bioterrorism, antibiotic resistance, biotechnology, emerging infectious diseases, and the consequences of public policies on the emergence, spread, and control of infectious disease will be examined. The laboratory will acquaint students with basic techniques used in the handling of microorganisms,

and investigate the properties and uses of microbes. This course is intended for students who require a laboratory science course to fulfill general education or degree requirements. This course is not intended for students who require a microbiology course for Nursing, Pharmacy, Dental Hygiene or other allied health programs.

**Prerequisite:** RDNG 0090 with a grade of "C" or higher, or assessment score placement in RDNG 1000.

### Principles of Biology I

**BIOL 1041**      **5 Credits**

**MnTC: Goal 03**

This is a lab science course that provides a general introduction to biological principles. Topics include the scientific method, molecular and cellular biology, energy acquisition and use, cell reproduction, genetics, ecology, and evolution. Laboratory exercises provide students with practical means to understand basic biological principles. This is a laboratory science course intended for biology and related liberal art majors and for pre-professional students.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. Completion of CHEM 1020 and BIOL 1020 with a grade of "C" or higher, or high school biology and chemistry within the last three years.

### Principles of Biology II

**BIOL 1042**      **5 Credits**

**MnTC: Goal 03**

This is a lab science course dealing with a taxonomic survey of the major groups of organisms. It is a continuation of BIOL 1041. Topics include phylogeny, morphology, development, and structure-function relationships of viruses, bacteria, protists, plants, fungi and animals. Laboratory exercises consist of practical identification of various organisms and structures. This is a laboratory science course intended for biology and related majors.

**Prerequisite:** BIOL 1041 or equivalent.

### General Biology Independent Study

**BIOL 1790**      **1 - 3 Credits**

An opportunity for an in-depth study of a particular topic.

**Prerequisite:** Consent of instructor and dean.

## 7 Course Descriptions

### General Biology Independent Research

**BIOL 1795 1 - 3 Credits**

*Prerequisite:* Consent of instructor and dean.

### Human Anatomy and Physiology I

**BIOL 2031 4 Credits**

**MnTC: Goal 03**

This is the first of a two-semester lab science course. Human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Homeostasis is an integrating theme throughout this course. Subjects considered include basic anatomical and directional terminology, fundamental concepts and principles of cell physiology, histology, and the integumentary, skeletal, muscular, endocrine, nervous, and hematopoietic systems. This course is intended for anyone interested in gaining a better understanding of the anatomy and functioning of the human body.

*Prerequisite:* Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. CHEM 1020 and BIOL 1020 with a grade of "C" or higher or high school biology and chemistry with a grade of "C" or higher within the last three years. *Recommendation:* BIOL 1041 and CHEM 1041.

### Human Anatomy and Physiology II

**BIOL 2032 4 Credits**

**MnTC: Goal 03**

This is the second of a two-semester lab science course. Human anatomy and physiology are studied using a body systems approach, with emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Homeostasis is an integrating theme throughout this course. Subjects considered include the cardiovascular system, lymphatic system and immunity, respiratory system, digestive system and metabolism, urinary system, fluid/electrolyte and acid/base balance, and reproductive systems. This course is intended for anyone interested in gaining a better understanding human anatomy and body functions.

*Prerequisite:* BIOL 2031 or equivalent.

### Microbiology

**BIOL 2035 3 Credits**

**MnTC: Goal 03**

This is a lab science course that surveys the major groups of microorganisms with an emphasis on their structural characteristics, factors affecting growth and reproduction, interactions with host organisms and physical and chemical methods of control. Issues related to antibiotic use and infectious diseases are included. The laboratory portion includes experiences in the safe handling of microorganisms, and methods for the culture, visualization, and identification of known and unknown microorganisms.

*Prerequisite:* Completion or concurrent enrollment in BIOL 2032 or BIOL 2045 with a grade of "C" or higher.

### Comprehensive Human Anatomy

**BIOL 2040 4 Credits**

This is a lab science course dealing with detailed anatomical study of the human organ systems, including: the integumentary, muscular, skeletal, nervous, endocrine, digestive, cardiovascular, lymphatic, respiratory, urinary, and reproductive systems. The focus is on anatomy of the human body but does not ignore principles of physiology. Laboratory experiences provide students with a practical means to understanding human gross anatomy through comparisons to animal anatomy and selected organ dissections. This is a lab-science course intended for students in medically related programs.

*Prerequisite:* BIOL 1041 and CHEM 1020 or equivalents. *Recommendation:* CHEM 1041.

### Comprehensive Human Physiology

**BIOL 2045 4 Credits**

This is a lab science course dealing with a detailed physiological study of the human organ systems, including protection, construction and locomotion; coordination and sensation; hormonal regulation; circulation and immunoregulation; respiration and digestion, and excretion and reproduction. Laboratory experiences provide students with a practical means to gaining an understanding of human physiological concepts through individual experimentation and computer simulation. This is a lab-science course intended for students in medically related programs.

*Prerequisite:* BIOL 2040 or equivalent.

### Human Disease Concepts

**BIOL 2050 2 Credits**

This course provides students with a foundation in the structural and functional changes caused by disease or injury in tissues and organs. There is an emphasis on the more common and important diseases affecting various human organ systems. Basic disease concepts are studied and correlated with diagnosis, clinical manifestations, and principles of treatment. This is a lecture-demonstration course primarily intended for students in allied health programs.

*Prerequisite:* BIOL 2031 and BIOL 2032, or BIOL 2040 and BIOL 2045, or equivalents.

## Business Management

### Personal Finance

**BMGT 1005 2 Credits**

This course covers patterns of personal income, savings, compound interest, and consumer spending. Topics include techniques for planning and budgeting, consumption expenditures, taxes, student loans, and savings.

Restriction: Credit cannot be earned in BMGT 1005 if credit has been earned in ACCT 2025 -Managerial Accounting or BMGT 2090 Business Finance or their equivalents (for transfer students). *Recommendation:* Assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade of "C" or higher.

### Introduction to Business

**BMGT 1020 3 Credits**

This course is a study of contemporary business concepts in the areas of economics, business formation, management, marketing, accounting, finance and the future scope of business. The emphasis of the course includes learning business terminology and understanding applications of concepts in the business world. The perspective includes business interrelationships within the economic, legal, technological, competitive, social, and global environments.

### Survey of Business Economics

**BMGT 1030 3 Credits**

This course is a survey of both branches of economics-macroeconomics and

## 7 Course Descriptions

microeconomics. Topics include economic institutions and tools and techniques of economic analysis, as they relate to the business community. Current economic issues and the impact of economic decisions upon individual and aggregate business activity are analyzed. This course does not fulfill Goal 5 of the MNTC curriculum or AA degree.

**Restriction:** May not be taken for credit if credit has been earned in ECON 1021.

### Independent Study

#### **BMGT 1790 1 - 3 Credits**

This variable-credit elective course emphasizes the student's independent search for advanced knowledge as well as additional hands-on skills beyond business management program offerings. The student and instructor will devise a formal plan of study to satisfy credit workload requirements within a one semester timeframe.

**Prerequisite:** Consent of instructor and dean.

### Management Fundamentals

#### **BMGT 2030 3 Credits**

This course is a study of the foundations, principles, and functions of management. The emphasis is on planning, organizing, staffing, leading, and controlling resources in organizations. Managerial strategies and decision models are analyzed, which contributes to the development and improvement of managerial skills and expertise.

**Prerequisite:** BMGT 1020.

### Human Relations in Business

#### **BMGT 2035 3 Credits**

This course covers the creation and maintenance of well-managed working relationships in all types of organizations. The course includes a comprehensive discussion of the background and basis for human relations. Three core human relations skills are developed—motivation, leadership and communication. Additional aspects of human behavior in the work environment are explored including team building, the human/technology interface, and managing change.

### Human Resources Management

#### **BMGT 2040 3 Credits**

This course is a study of the importance of human resource management in contributing to the achievement of organizational

objectives. Topics include the principle functions performed in human resource management such as planning and recruitment, training and career development, compensation and security, productive work environments, and employee-management relations. Students study leaders who have contributed to the field as well as the various regulations, laws, events, and forces that have an impact upon it.

### Legal Environment of Business

#### **BMGT 2051 3 Credits**

This course is a study of the principles, rules, and logic of business law and its relation to the social, economic, and moral forces underlying justice in our society. It provides an overview of the legal system including basic laws, contracts, constitutional law, and tort law.

### Business Communications

#### **BMGT 2060 3 Credits**

This course covers the theory and processes of business communication. It concentrates on building skills and strategies used by business professionals including etiquette, interviewing, small and large group meetings, oral presentations, as well as business correspondence. This course examines nonverbal, intercultural, technological, and ethical aspects of business communications. Students develop employment search skill for career entry or advancement.

**Prerequisite:** ENGL 1021.

### Business Finance

#### **BMGT 2090 3 Credits**

This course is a study of financial management from the perspective of finance executives, employees, shareholders, and creditors. Students engage in problem solving activities related to financial analysis and forecasting, leverage analysis, current asset management and short-term financing, time value of money, capital budgeting, and long-term equity and debt financing.

**Prerequisite:** ACCT 1010 or ACCT 2020 or equivalent.

### International Business

#### **BMGT 2095 3 Credits**

This course is a study of the key concepts and issues involved in the conduct of international business. Topics will include an examination

of international economics and politics, comparative management styles and methods, international marketing and finance, business transactions in the major trading regions of the world, and ethical and cultural issues involved in international business.

### Special Topics

#### **BMGT 2790 1 - 3 Credits**

A course in which one of a variety of contemporary topics of interest would be selected as the focus for study. The specific topic will be announced in advance, and published at the time of registration.

**Prerequisite:** Consent of instructor and dean.

## Career Studies

---

### Career Exploration and Planning

#### **CRRS 1005 1 Credit**

This course guides students in the general exploration of appropriate career and educational options. Through assessment of interests, personality, skills, and values, students will examine themselves and explore their personal, career, and educational goals.

**Restriction:** Cannot be taken for credit if credit has been received for CRRS 1010.

### Career and Life Planning

#### **CRRS 1010 2 Credits**

This course guides students through the lifelong career exploration and decision-making process, using various career planning strategies and resources. It includes an examination of individual strengths, personality types, interests, values, and skills. Student will explore the world of work, examine educational options, and establish specific goals. The course presents processes for determining what gives meaning to students' lives and integrating the work role with other life roles.

**Prerequisite:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

**Restriction:** Cannot be taken for credit if credit has been received for CRRS 1005.

## Chemical Dependency

### Introduction to Drugs and Alcohol CDEP 1020 3 Credits

This course provides an overview of classification of mood altering addictions, signs and symptoms of addicted behavior, treatment, prevention, and cultural issues. The course meets the academic coursework requirement for Minnesota Statute 2005 Chapter 148C: "Overview of alcohol and drug counseling, focusing on the transdisciplinary foundations of alcohol and drug counseling and providing an understanding of theories of chemical dependency, the continuum of care and the process of change." Service learning will be a component of this course.

### Pharmacology of Chemical Dependency CDEP 1030 3 Credits

This course is an overview of the basics of pharmacology as applied to various classifications of mood altering chemicals. It is also an examination of the central nervous system and drug/neurotransmitter interactions. The course examines substance abuse, detoxification, withdrawal, drug interaction, and dynamics of addiction. The course meets academic coursework criteria of Minnesota Statute 2005 Chapter 148c, Subdivision 5a, Area 2: "pharmacology of substance abuse disorders and the dynamics of addiction."  
*Prerequisite:* CDEP 1020 or consent of instructor.

### Overview of Gambling CDEP 1040 3 Credits

This course presents a historic overview of gambling and describes gambling addiction and the variety of ways in which it manifests itself in society. The course will also identify diagnostic criteria and treatment strategies for the pathological gambler and how gambling impacts family, society, and crime. When the academic coursework is completed to satisfy Minnesota Statute 2005 Chapter 148C, this course would be credited toward the 270 hours needed for chemical dependency licensure.

### Professional Conduct in Chemical Dependency CDEP 1060 3 Credits

This course addresses the multicultural

aspects of chemical dependency, professional and ethical responsibilities, orientation, consultation, reporting and record keeping, referral, case management and treatment planning. Students explore a model for ethical decision making in reference to chemical dependency. They also discuss confidentiality, professional boundaries, and rules of conduct. The course includes a minimum of six hours of ethics as required by the Minnesota Certification Board, Minnesota Association of Resources for Recovery, and Chemical Health and National Association of Alcohol and Drug Abuse Counselors. This course meets academic coursework criteria of Minnesota Statute 2005 Chapter 148c, Subdivision 5a, Area 2 and Minnesota Rule 4747. Service learning is a component of this course.  
*Prerequisite:* CDEP 1020 and HSER 1030.

### Chemical Dependency Assessments CDEP 2010 3 Credits

This course addresses the screening, intake, assessment, treatment planning, and the multicultural aspects of chemical dependency, case management, referral, record keeping, reports, consultation and professional conduct. Students focus on chemical dependency assessment and criteria including Rule 25, the Six Dimensions of treatment planning according to Rule 31. This course meets the academic course work requirement for Minnesota Statute 2005 Chapter 148C and Minnesota Rule 4747.  
*Prerequisite:* CDEP 1020 and HSER 1030.

### Advanced Counseling CDEP 2020 3 Credits

This course addresses chemical dependency counseling theory and practice, crisis intervention, orientation, client education, referral, professional and ethical responsibility, treatment planning, case management, reporting and record keeping, as well as culturally appropriate models for counseling. The course focuses on enhancing motivation for change in substance abuse treatment, stages of client change, and counseling skills appropriate for each particular stage. Students also address issues in crisis intervention, grief and loss, and the 12 steps. This course meets the requirement for Minnesota Statute 2005 Chapter 148C and Minnesota Rule 4747.  
*Prerequisite:* CDEP 1020 and HSER 1030.

### Group Counseling CDEP 2030 3 Credits

This course addresses chemical dependency group counseling theory and practice, crisis intervention, orientation, client education, referral, and professional and ethical responsibility, treatment planning, reporting and record keeping, and case management. Culturally appropriate models for group counseling, formation of groups, ground rules and documentation in groups are addressed. This course meets the academic course work requirement for Minnesota Statute 2005 Chapter 148C and Minnesota Rule 4747.  
*Prerequisite:* CDEP 1020 and HSER 1030.

### Case Management for Chemical Dependency Treatment CDEP 2050 3 Credits

This course will address an overview of the multi-axial assessment of the DSM-IV. Special problems, including mental health issues will be discussed. The course provides students with knowledge and practice in case management, through screening, assessment, treatment planning, consulting, referral, and recordkeeping. The student will practice documentation of client problems, goals, objectives, and progress notes as required by treatment centers. This course meets the requirement for Minnesota Statute 2005 Chapter 148C and Minnesota Rule 4747.  
*Prerequisite:* CDEP 1020 and HSER 1030.

### Co-Occurring Disorders: Substance Abuse and Mental Health CDEP 2055 3 Credits

This course will meet the Rule 31 criteria for training in co-occurring mental health problems and substance abuse. The course will include competencies related to philosophy, screening, assessment, diagnosis and treatment planning, documentation, programming, medication, collaboration, mental health consultation and discharge planning. The core functions involved include screening, intake, assessment, treatment planning, crisis intervention, referral and multicultural aspects of chemical dependency.  
*Prerequisite:* CDEP 1020 and HSER 1030 or instructor consent.

### Chemical Dependency Internship I CDEP 2781 5 Credits

This is the first internship course in a two-

## 7 Course Descriptions

internship sequence. Students will work in a treatment facility to gain work experience integrating the 12 core chemical dependency counseling functions defined by state law in their practicum. Internship I consists of 440 hours of the 880 required by state law. In addition to work experience, students will meet with faculty at assigned times to discuss their internship experiences.

**Prerequisite:** All required chemical dependency and human service coursework completed and consent of chemical dependency coordinator. **Recommendation:** Student should plan to complete CDEP 2781 and CDEP 2782 in two consecutive semesters.

### Chemical Dependency Internship II CDEP 2782 5 Credits

This is the second internship course in a two-internship sequence. Students will work in a treatment facility to gain work experience integrating the 12 core chemical dependency counseling functions defined by state law in their practicum. It consists of the remaining 440 hours of the 880 required by state law. In addition to work experience, students will meet with faculty at assigned times to discuss their internship experiences.

**Prerequisite:** All required chemical dependency and human service coursework completed and consent of chemical dependency coordinator. **Recommendation:** Student should complete CDEP 2781 and CDEP 2782 in two consecutive semesters.

## Chemistry

### Chemistry Concepts CHEM 1020 4 Credits MnTC: Goal 03

This course deals with the basic concepts of chemistry. Topics include general properties of matter, the development of the model of the atom, nuclear chemistry, basics of chemical bonding, chemical equations and their uses, acids and bases, oxidation-reduction, and an introduction to organic chemistry. The laboratory portion of the course introduces students to basic equipment and procedures used in the science laboratory and provides an opportunity to observe some of the concepts discussed in the classroom. This course is

intended for students who have not had a high-school chemistry course within the last three years.

**Prerequisite:** Assessment score placement in MATH 0070 or above, or completion of MATH 0030 with a grade of "C" or higher. Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher.

### Principles of Chemistry I CHEM 1041 5 Credits MnTC: Goal 03

This is the first course in a two-course introduction to chemistry. Students will investigate the basic concepts of chemistry, including atomic theory and structure, chemical nomenclature, chemical equations and stoichiometry, electron configuration and periodicity, chemical bonding, molecular structure, enthalpy changes associated with chemical reactions, the behavior of gases, and an introduction to organic chemistry. Quantitative laboratory experiments emphasize observation, organization of data, and analysis of data. This course is intended for students who need a course in general chemistry to fulfill a requirement for a variety of majors such as: chemistry, medicine, biology, nursing, dentistry, physical therapy and liberal arts.

**Prerequisite:** Assessment score placement in MATH 1061 or above, or completion of MATH 0070 with a grade of "C" or higher. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher. **Recommendation:** High school chemistry or Chem 1020.

### Principles of Chemistry II CHEM 1042 5 Credits MnTC: Goal 03

This course is a continuation of CHEM 1041. Students will investigate solid state structure, properties of solutions, chemical kinetics, chemical equilibria, acids and bases, oxidation and reduction, and chemical thermodynamics. The laboratory work emphasizes observation, organization of data, analysis of data, and experimental design. This course is intended for students who need a second course in general chemistry to fulfill a requirement for a variety of majors such as: chemistry, medicine, biology, nursing, dentistry, physical therapy and liberal arts.

**Prerequisite:** Completion of CHEM 1041 with a grade of "C" or higher.

### Independent Study CHEM 1790 1 - 3 Credits

An opportunity for an in-depth study of a particular topic.

**Prerequisite:** Consent of instructor and dean.

### Organic Chemistry I CHEM 2041 5 Credits

An introduction to organic chemistry. Topics include a review of covalent bonding, acid-base chemistry, and reaction energetics, and an introduction to organic functional groups, stereochemistry, and substitution reactions. The laboratory work provides an introduction to laboratory techniques used in organic chemistry synthesis, and the use of chromatography and spectroscopy in the analysis of organic compounds. Offered F.

**Prerequisite:** CHEM 1042 or equivalent.

### Organic Chemistry II CHEM 2042 5 Credits

A continuation of Chemistry 2041. Topics include the study of the properties and reaction of carbonyl compounds, alkenes, aromatic compounds, and free radicals. Applications of organic chemistry, including polymers, natural products, and photochemistry will be introduced and discussed. The laboratory work will include examples of these reactions and the chemical and instructional identification of organic compounds. Offered S.

**Prerequisite:** CHEM 2041 or equivalent.

## Chinese

### Beginning Chinese I CHIN 1011 5 Credits MnTC: Goal 08

This course is an introduction to Mandarin Chinese. Fundamental grammar, correct oral-expression, aural comprehension and reading are stressed. Weekly listening and laboratory work are required. An introduction to Chinese culture is also included.

**Restriction:** If students have completed any Chinese language course, consent of instructor is required.

**Beginning Chinese II**  
**CHIN 1012 5 Credits**  
**MnTC: Goal 08**

This course is the second course in a beginning sequence and a continuation of Chinese 1011. Continued development of all four language skills (speaking, listening comprehension, writing and reading) is stressed. Weekly listening and laboratory work are required. A further exploration of Chinese culture is included.

*Prerequisite:* CHIN 1011 or equivalent.

**Intermediate Chinese I**  
**CHIN 2021 5 Credits**  
**MnTC: Goal 08**

This course is the first term of second-year Chinese. Students will converse with a Mandarin speaker on simple topics of daily life, as well as formulate and understand structurally more complicated sentences. In addition, students will practice paragraph-level Chinese reading and writing. The course material will incorporate topics that are of interest to the students with social and cultural aspects in Chinese-speaking societies. Two hours per week in the language laboratory are required.

*Prerequisite:* CHIN 1012 or equivalent.

**Intermediate Chinese II**  
**CHIN 2022 5 Credits**  
**MnTC: Goal 08**

This course is the second term of second-year Chinese, focused on developing communicative skills when dealing with routine tasks and social situations in Chinese. Students will read authentic Chinese texts and write compositions on specifically assigned topics to foster a deeper understanding of Chinese society and culture. Two hours per week in the language laboratory are required.

## Communication

**Fundamentals of Public Speaking**  
**COMM 1021 3 Credits**  
**MnTC: Goals 01 & 09**

This course focuses on learning techniques for effective public speaking in academic, business, professional, and community settings. Students practice these skills by

preparing and presenting informative and persuasive oral presentations in class. Course topics include audience analysis, ethics, speech purpose, organization, delivery, visual aids, outlining, and speaker evaluation. Offered F, S, SS.

*Prerequisite:* Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher.

**Introduction to Intercollegiate Debate**  
**COMM 1023 3 Credits**

Students will prepare for and compete in intercollegiate debate competition. Students will learn debate theory, current events research techniques, and presentation skills necessary to enter debate competition.

**Note:** Interested students should contact instructor concerning weekend travel for competition and other requirements for participation on the debate team. These requirements may happen outside of scheduled class time. Students traveling off-campus for competition must meet established academic standards. The instructor can answer any questions about travel, extra meetings or academic standards.

*Prerequisite:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher, or consent of instructor.

**Advanced Intercollegiate Debate**  
**COMM 1024 3 Credits**

Students will develop skills learned in Introduction to Intercollegiate Debate by preparing for and competing in intercollegiate debate competition. Students will learn advanced debate theory, advanced current events research techniques, and advanced presentation skills necessary to enter advanced levels of debate competition. **Note:** Interested students should contact instructor concerning weekend travel for competition and other requirements for participation on the debate team. These requirements may happen outside of scheduled class time. Students traveling off-campus for competition must meet established academic standards. The instructor can answer any questions about travel, extra meetings or academic standards.

**Interpersonal Communication**  
**COMM 1031 3 Credits**  
**MnTC: Goals 01 & 07**

This course focuses on basic communication theories and concepts, and the practice of interpersonal communication skills. Topics include the self and others as communicators, verbal and nonverbal messages, listening, conflict management, self-disclosure, and the dynamics of human relationships. The course content applies to everyday communication situations at home and on the job. Offered F, S, SS.

*Recommendation:* Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher, and assessment score placement in ENGL 0090, or completion of ENGL 0080 with a grade of "C" or higher.

**Small Group Communication**  
**COMM 1041 3 Credits**  
**MnTC: Goals 01 & 09**

This course focuses on communication in small groups. Topics include small group communication theory and effective interpersonal skills; group leadership, cohesion, and emergence roles; conflict management; problem-solving and decision-making; planning and conducting meetings; and parliamentary procedure. The course content applies to everyday situations in the community and workplace, with emphasis on practical application and practice of oral skills. Some group meetings and activities outside scheduled class hours are required. Offered F, S.

*Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

**Intercultural Communication**  
**COMM 1051 3 Credits**  
**MnTC: Goals 01 & 08**

Study cultural differences and how they affect communication and cause misunderstanding. Are people really different from one another or are they basically alike? Topics include the role of culture in human behavior; references to a wide range of specific cultural groups; cultural aspects of domestic and international business; issues in refugee/immigrant resettlement and adaptation; and intercultural relationships. Materials/activities include

## 7 Course Descriptions

reading, films, class discussions, group events, personal interviews. Offered F, S, SS.

**Recommendation:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of “C” or higher.

### **Communication, Travel and Tourism COMM 1053 1 Credit**

#### **MnTC: Goals 01 & 08**

This course is an introduction to being a cross-culturally effective traveler: intercultural communication applied to international travel. Topics include world tourism, its positive and negative effects on individuals and countries; tourism as an instrument of national development; appropriate everyday tourist behaviors; and survival skills for any trip abroad. For all students, especially those going overseas on business, for pleasure, or to study. Offered F, S.

### **Introduction to Mass Communication COMM 1061 3 Credits**

#### **MnTC: Goals 05 & 09**

This course focuses on the historical, cultural, economic, and political impact of mass communication on individual media consumers and on American and global cultures. Topics may include corporate control, the role of government, freedom of expression, values and ethics, journalism, advertising, public relations, and media effects. Specific media industries, including radio, television, movies, newspapers, books, magazines, and the internet, will be examined. Offered F, S.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher, completion of ENGL 1021 with a grade of “C” or higher.

### **Interviewing COMM 2011 3 Credits**

This course focuses on developing a working knowledge of the interview process and the communication skills necessary to effectively interview. Students will develop and conduct several types of interviews, which may include oral history, journalistic, research, persuasive, and employment interviews. Students’ communication skills, including effective listening, appropriate responding, nonverbal

communication, perception, and empathy, will be examined, practiced, and evaluated.

**Prerequisite:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher. **Recommendation:** Completion of ENGL 1021 with a grade of “C” or higher or concurrent enrollment in ENGL 1021.

### **Nonverbal Communication COMM 2033 3 Credits**

#### **MnTC: Goals 01 & 07**

Effective communication requires an understanding of nonverbal messages. Students will study a variety of nonverbal communicators, including gestures, facial expression, appearance, vocal cues, space, and time. This course is intended to help students understand and analyze their own and others’ nonverbal communication in interpersonal, intercultural, and workplace relationships.

**Prerequisite:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher.

### **Minnesota’s New Immigrants: Communication, Culture and Conflict COMM 2051 3 Credits**

#### **MnTC: Goals 05 & 07**

Minnesota’s recent immigrant/refugee population is markedly different from that of the rest of the U.S., with proportionately significant numbers of Hmong, Somalis, Liberians, and Tibetans among others. In this course we study some of the more visible groups and the regions they come from: Southeast Asia, Horn of Africa, West Africa, Latin America, and former Soviet Union/Eastern Europe. Why did they leave their homeland? What culture and communication did they bring with them? What communication adjustment and cultural conflicts do they experience? What are some important issues for their lives in Minnesota as they communicate with the larger society? Materials/activities include readings, films, discussions, interviews, and guest speakers/on-site visits when possible. Offered S.

### **Communication and Gender COMM 2071 3 Credits**

#### **MnTC: Goals 01 & 07**

This course studies how communication and culture create, maintain, and influence

perceptions of gender. Patterns of women’s and men’s communication, why these patterns differ, and how communication differences are perceived will be emphasized. Various communication contexts covered in this course will include the family, friendship, romantic relationships, education, the workplace, and the media.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher, and assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of “C” or higher.

### **Health Communication COMM 2081 3 Credits**

#### **MnTC: Goals 01 & 07**

This course will explore the vital relationship between health and communication. Topics include the study of personal, cultural, and political contexts in examining the theories of health communication to improve health literacy throughout a lifetime of change. This course applies to health communication situations at home and on the job.

**Prerequisite:** Assessment score placement in RDNG 1000 or completion of RDNG 90 with a grade of “C” or higher. **Recommendation:** Completion of ENGL 1021 with a grade of “C” or higher, or concurrent enrollment in ENGL 1021.

### **Communication Certificate Capstone COMM 2099 1 Credit**

This course will give students an opportunity to review communication courses successfully completed in the certificate program. Students will reflect on how these courses have enhanced their current level of knowledge and skills and demonstrate how they have achieved the Communication Student Competencies defined in the Minnesota Transfer Curriculum. In addition, students will work with the course instructor to explore future career and academic goals as related to the Communication Certificate.

**Prerequisite:** Consent of Instructor.

### **Special Topics COMM 2790 1 - 3 Credits**

Topics of special interest which may vary. Prerequisite: Consent of instructor.

## Computer Application Technology

### Computer Literacy

#### CAPL 1000 1 Credit

This class is appropriate for first-time computer users. In a hands-on lab environment, students will be introduced to the computer and its terminology. Topics include computer system overview, basic exploration of some popular software packages, and managing computer files. This class explores the impact of technology on the way we live, work and learn.

*Prerequisite:* OFFT 0092 or consent of instructor. Restriction: Closed to students who have earned credit in CAPL 1010 or CSCI 1020.

### Introduction to Software Applications

#### CAPL 1010 3 Credits

This introductory course is an overview of the following Microsoft Office programs: Microsoft Word—a word processing program; Excel—an electronic spreadsheet; Access—a database program; and PowerPoint—a presentation graphics program. Students will reinforce their skills by completing assignments that integrate the applications. This course emphasizes hands-on computer applications.

*Prerequisite:* Keyboarding skills.

### Personal Information Management

#### CAPL 1022 1 Credit

This course uses Microsoft Outlook as an information management tool for business and personal use. This software includes a calendar feature, task and contact management, note taking, a journal, web browsing, and e-mail.

### Microsoft Word

#### CAPL 1023 3 Credits

This course uses a comprehensive word processing program to create and edit professional-looking business documents. Students will create letters, memos, announcements, resumes, fax cover sheets, mailing labels, mail-merge documents, Web pages, and other types of business documents.

*Prerequisite:* OFFT 1001 or consent of instructor.

### Microsoft Excel

#### CAPL 1025 3 Credits

This course covers spreadsheet software that enables the student to organize data, work with formulas, charts and graphics, work with reports, and develop a professional worksheet. Also covered will be Excel lists, use of multiple worksheets/workbooks and Excel's editing and Web tools. The students will apply critical thinking and problem-solving skills to real-life spreadsheet projects.

*Prerequisite:* CAPL 1010 or CSCI 1020.

### Microsoft Access

#### CAPL 1027 3 Credits

This course covers the newest version of database software that enables the student to create and build databases, define table structures, maintain and query databases, create and use forms and reports, enhance databases using advanced tools, integrate, analyze, and automate tasks, and secure a database. The students will apply critical thinking and problem-solving skills to real-life database projects.

*Prerequisite:* CAPL 1010 or CSCI 1020.

### Microsoft Project

#### CAPL 1028 1 Credit

This course covers project management skills including planning a project, creating project schedules, communicating project information, assignment resources, tracking progress, and sharing information across application and the Web. Microsoft Project is used to facilitate project management as it is applied to various records-related projects. Trends and emerging technologies will be explored.

*Prerequisite:* CAPL 1010 or consent of instructor.

### Web Design, Creation and Management

#### CAPL 1050 3 Credits

This course offers a hands-on approach to learning various browsers and learning skills necessary to plan, create, publish, and maintain a Web site. Students will use professional Web design software to create modern, standards-based sites. Topics include HTML, hyperlinks, graphics, and best practices in Web page and site design. No prior knowledge of Web design is assumed.

*Prerequisite:* Keyboarding (35 WPM or OFFT 1001) and basic knowledge word processing software or instructor consent.

### Introduction to Macromedia-Dreamweaver, Fireworks, and Flash

#### CAPL 1053 3 Credits

Students will learn how to develop exciting, interactive Web sites with animation, multimedia, and graphically enhanced pages. Fireworks is used to edit and manipulate images as well as, create image maps, buttons and rollovers, and animations—all of which can greatly enhance the visual appeal of a Web page and make it easier for users to navigate. Along with covering the basics of Flash, the course focuses on best practices and design, stressing the importance of usability, optimization, and performance.

*Prerequisite:* Keyboarding (35 wpm) and basic knowledge of a document formatting software such as Microsoft Word.

*Restriction:* Basic knowledge of the Web environment and Web browsers.

### Desktop Publishing

#### CAPL 2020 3 Credits

In this course, students will use the advanced features and design concepts in Word and Publisher to create a portfolio of a variety of business and personal publications. Document examples include conference signs, cover sheets, fax sheets, agendas, memos, letterheads, envelopes, business cards, compact disc (CD) covers, calendars, address labels, personal stationery, and certificates. Throughout the course, students will apply problem-solving, critical-thinking, and creative-thinking abilities as well as the hands-on computer skills to real-world situations.

*Prerequisite:* CAPL 1023 or consent of instructor.

## Computer Forensics and Investigative Technology

### Introduction to Computer Forensics

#### CFIT 2065 3 Credits

This introductory course presents methods to properly conduct a computer forensics investigation including ethics, tools, procedures and analysis. This aligns with the objectives of the International Association of Computer Investigative Specialists (IACIS) certification.

*Prerequisite:* Consent of instructor.

## 7 Course Descriptions

### **Windows and NTFS File System Forensics**

#### **CFIT 2070 3 Credits**

This course provides an in-depth examination of the forensic evidence left on Windows based file systems using a variety of methods and tools to investigate any event for the workplace. It covers Windows methods that ensure maximum evidence capture without poisoning key evidence residing in disk space and memory. This course aligns with the objectives of the International Association of Computer Investigative Specialists (IACIS) certification.

*Prerequisite:* CFIT 2065 or consent of instructor.

### **Computer Investigative Law for Forensic Analysts**

#### **CFIT 2075 3 Credits**

This course presents the essential legal foundation for computer professionals managing or working in incident handling teams. Topics include: the legal constraints of information sharing, rules for voluntary disclosure, and response to government requests for information as well as the use of honey-pots, hack-back, and trace-back procedures as investigative strategies within the legal limitations of the information technology industry. Emphasis is placed on preserving and maintaining chain of custody protocols for computer evidence.

### **Open Source Forensic Methodology**

#### **CFIT 2080 3 Credits**

This forensic course begins with file system fundamentals but moves rapidly to using advanced open source toolkits to perform a forensic audit of suspect computer systems. Forensic analysis is performed on gathered evidence contained in "disk images". Using a disk image of a computer involved in an actual forensic case, students apply what they learn in class by investigating the incident in a hands-on setting.

*Prerequisite:* CFIT 2065 or consent of instructor.

### **Incident Handling and Computer Crime Investigation**

#### **CFIT 2081 3 Credits**

This forensic course explores a step-by-step incident handling model for dealing with a computer incident. It focuses on risk assessment and business impact analysis

models that assist computer auditors to document their findings and explain their recommendations. Additional topics include common hardware and software vulnerabilities and their identification during a complete security audit.

*Prerequisite:* MCST 2011, MCST 2013, ITT 1031, ITT 2031 and ITT 2010 with a grade of "C" or better OR MCP Client OS, MCP Server and CCNA OR Network+ industry certification OR instructor consent.

### **Windows Security and Auditing**

#### **CFIT 2083 3 Credits**

This course provides a technical focus on the numerous security controls and settings available on a Windows operating system, particularly in terms of compliance management and auditing. The material provides updated information on current Windows 2000, XP and .NET security issues. Additional topics include a variety of Microsoft utilities available to secure the Microsoft Windows OS, including HFNETCHK, MBSA, URLSCAN, and IIS Lockdown.

*Prerequisite:* MCST 1011 and MCST 1013 with a grade of "C" or better OR MCP Client OS, MCP Server and CCNA OR Network+ industry certification OR instructor consent.

### **Computer and Network Hacker Techniques I**

#### **CFIT 2085 3 Credits**

This course presents methods for conducting an effective computer vulnerability and penetration testing analysis. Additionally, students will study the ethical use of hacking techniques and details of reconnaissance and scanning. Students who complete this course will benefit from understanding how to design, build, and operate their unique systems to prevent, detect, and respond to attacks.

### **Computer and Network Hacker Techniques II**

#### **CFIT 2088 3 Credits**

This course explores system vulnerability by covering common hacking techniques often used for compromising systems, analyzing worm developments, exploiting weakness on web applications and projecting these trends into the future to get a feel for the Super Worms the industry is likely to face soon. It also covers the application of basic hacking techniques to design an IT audit checklist for

different OS platform.

*Prerequisite:* CFIT 2085.

### **Independent Study**

#### **CFIT 2795 1 - 3 Credits**

This variable-credit elective course emphasizes the student's independent search for advanced knowledge as well as additional hands-on skills beyond current Computer Forensics course offerings. The student and instructor will devise a formal plan of study to satisfy credit workload requirements within a one semester timeframe.

*Prerequisite:* Consent of instructor and dean.  
Recommendation: CFIT 2065 and CFIT 2080.

## Computer Science

---

### **Exploring Computer Science**

#### **CSCI 1010 3 Credits**

This course will take students on an exploration of computer science and the wide variety of educational and career paths available. It will provide a hands-on introduction to programming computers, interacting with databases, and designing hardware and software systems. It will also provide an interactive introduction to specialized topics such as computer graphics, robotics, artificial intelligence, Web-based applications, and bioinformatics. Special focus will be given to topics of current interest. Students will also have the opportunity to explore the variety of educational and career opportunities available in computer science and to chart their own potential path through these opportunities.

### **Introduction to Game Programming**

#### **CSCI 1011 3 Credits**

What goes into creating a computer game? This course, for students with no programming background, explores fundamental game elements such as sprites, basic animation, collision detection, event-response mechanisms, and sound. Students will use game development software to create complete games of varying complexity. By using programming scripts the games' complexity will be limited only by the students' imagination and ingenuity.  
*Prerequisite:* Basic computer competency (use of keyboard, mouse, Windows).

### **Introduction to Personal Computers and Information Systems**

#### **CSCI 1020 3 Credits**

This course is intended to give the layperson an understanding of personal computers and information systems. Computer concepts and applications will be covered. The concepts will include basic information on how personal computers, networks, and software work. Enterprise information systems and technologies will be discussed. Additional topics such as security, privacy, ethics, information literacy, and technological trends will be presented. Students will gain hands-on experience using current business applications (such as word processing, database, and spreadsheet software).

*Prerequisite:* Basic knowledge of Microsoft Windows.

### **Spreadsheet & Database Software**

#### **CSCI 1021 3 Credits**

This course teaches the theory and application of spreadsheet and database management software. The current software technologies will be used to demonstrate these concepts and principles. Students will study and apply spreadsheet concepts such as data lists, pivot tables, one-variable and two-variable input tables, importing data, and the creation of spreadsheet applications using a programming language. Students will study and apply database concepts such as table relationships, queries, forms and reports, macros, and the creation of database applications using a programming language. The intent of this course is to prepare students to be able to customize spreadsheet and database software applications.

*Prerequisite:* Basic knowledge of Microsoft Windows, introductory knowledge of spreadsheets and databases.

### **Internet Essentials: Concepts, Use and Design**

#### **CSCI 1050 3 Credits**

This course provides a comprehensive overview of the Internet. Students begin by examining the basic technologies that support the Internet such as TCP/IP, HTML, and JavaScript. This is followed by learning how to effectively use many of the Internet's most important features such as advanced e-mail and search techniques, instant messaging, file transfer and internet conferencing. Also

covered is Internet security and an introduction to web site design and management. Current software technologies, such as Internet Explorer and Dreamweaver, are used throughout to demonstrate the concepts and develop student proficiency.

*Recommendation:* CAPL 1000 and OFFT 0091, or equivalent knowledge.

### **Introduction to Programming**

#### **CSCI 1060 3 Credits**

This course provides a comprehensive introduction to fundamental programming concepts for students interested in exploring computer programming for the first time. Program logic, algorithm design and programming control structures are emphasized. Programming activities using Visual Basic introduce the student to contemporary concepts such as objects, graphical user interfaces and event-driven programming. Gaining knowledge of these concepts will prepare the beginning student to learn additional programming languages.

*Prerequisite:* Basic knowledge of Microsoft Windows. Assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade or "C" or higher.

### **Visual Basic for Applications**

#### **CSCI 1062 3 Credits**

This course is designed to provide knowledge of how to use Visual Basic for Applications (VBA) to customize Microsoft Office applications. The course will cover the basic programming constructs in the VBA language and then demonstrate how they can be used to develop customized Word, Excel, and Access applications. VBA will be used by students to create working applications.

*Prerequisite:* CSCI 1021 or equivalent working knowledge of Microsoft Office.

### **Visual Basic**

#### **CSCI 1065 3 Credits**

This course explores how to develop Windows-based applications using the core features of Visual Basic (VB). Topics include programming Windows controls, event-driven programming, writing modular code, and using lists, arrays, structures and files. Using VB to write Internet applications will also be introduced.

*Prerequisite:* Some knowledge of some

another programming language (such as C, C++, Java, JavaScript, FORTRAN, etc.). Working knowledge of Microsoft Windows. No knowledge of Windows programming is required. Assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade or "C" or higher.

### **Programming Fundamentals**

#### **CSCI 1081 3 Credits**

This course introduces the fundamental concepts, structures and techniques of programming. Topics include introduction to algorithms, design and development, fundamental programming and data constructs. It also covers programming support for numerical applications, introduction to computer architecture, and mechanics of running, testing, and debugging.

*Prerequisite:* Assessment score placement in MATH 0070 or above, or completion of MATH 0030 with a grade or "C" or higher.

### **Object-Oriented Programming**

#### **CSCI 1082 3 Credits**

This course introduces the concepts of object-oriented programming to students with a background in the procedural paradigm. It begins with a review of control structures and data types with emphasis on structured data types and array processing. It then moves on to introduce the object-oriented programming approach, focusing on the definition and use of classes along with the fundamentals of object-oriented design. Other topics include an overview of programming language principles, simple analysis of algorithms and an introduction to software engineering issues.

*Prerequisite:* CSCI 1081 or CSCI 2011.

### **Internet Programming: Client-Side Scripting and Applications**

#### **CSCI 2005 3 Credits**

This course covers how to create the Internet programs that are such a key component of today's dynamic websites. Specifically, it will focus on current technologies used to develop Internet client applications that take full advantage of the power of contemporary browsers. These client-side technologies include XHTML, Cascading Style Sheets, the DOM, XML and the de facto standard programming language of the browser: JavaScript.

## 7 Course Descriptions

**Prerequisite:** Working knowledge of a contemporary programming language such as Java, C++ or Visual Basic. **Recommendation:** CSCI 1050; CSCI 1081 or CSCI 1082; familiarity with (X)HTML.

### Internet Programming: Server-side Applications

#### CSCI 2006 3 Credits

This course focuses on the server-side components involved in developing Internet programs. The course will examine some of the current languages, interfaces and technologies used to develop server-based applications that work in concert with client-side logic. Server-side scripting languages such as PHP and Ruby (in the Rails framework) will be used in conjunction with MySQL to create database-driven websites. Ajax will also be explored as a technique for enhancing the interactivity of a website.

**Prerequisite:** Working knowledge of an object-oriented programming language such as Java or C++. Working knowledge of JavaScript. **Recommendation:** CSCI 2005, CSCI 1081 or CSCI 1082. Introductory knowledge of database concepts and techniques.

### Concepts and Applications of Online Education Technology

#### CSCI 2007 3 Credits

This course provides an introduction to concepts and application of online education technology. Students will be introduced to essential software and network concepts. A survey of current hardware and software technologies will be presented. Students will apply these technologies gaining practical experience developing online content. Additional legal and social topics such as intellectual property rights, privacy, ADA compliance, assessment and accreditation will also be presented. Effective support resources for online education will be presented.

**Prerequisite:** Basic knowledge of Microsoft Windows.

### Discrete Structures of Computer Science

#### CSCI 2014 4 Credits

This course covers discrete mathematical techniques and structures used in computer science. The content stresses problem solving techniques that involve the use of logic,

various methods of proof, and sets. Topics of particular interest to computer scientists include big-O notation, recursion, and the fundamentals of trees and graphs.

**Prerequisite:** Assessment score placement into MATH 1081 or completion of MATH 1061 with a grade of "C" or higher.

### Introduction to the Organization of Computer Systems

#### CSCI 2016 4 Credits

This course is an introduction to hardware/software components of a computer system. Topics covered will include data representation, computer arithmetic, basic logic design, machine-level programs, instruction set architectures, processor and memory organization, storage hierarchy, optimization techniques and future trends. Students will write programs in a low-level language, such as assembly language.

**Prerequisite:** CSCI 1020 or equivalent working knowledge; some experience in high-level language programming, and familiarity with basic concepts in computer science, such as those covered in CSCI 1060, CSCI 1065, or CSCI 1081.

### Introduction to Numerical Computing

#### CSCI 2031 3 Credits

An introduction to numerical computing for CSCI students. Uses computing methods to cover numerical error, root finding, systems of equations, interpolation, numerical differentiation and integration, least squares, and differential equations. The goal is to teach the principles of Numerical Analysis, especially the concepts and tools involving in modeling real continuous mathematical problems on the digital computer, and the effects of using floating point arithmetic.

**Prerequisite:** MATH 2082.

### Data Structures and Algorithms

#### CSCI 2040 3 Credits

This course introduces the student to the theory, use, design and implementation of common data structures and related algorithms. Topics include algorithm analysis, software engineering, linked lists, queues, stacks, trees, graphs, sorting and hashing. Class assignments will include writing programs for selected data structures.

**Prerequisite:** CSCI 2012 or CSCI 2020 or consent of instructor.

### Database Management Systems

#### CSCI 2050 3 Credits

This course covers the design, implementation, maintenance, securing, and querying of modern relational database management systems (DBMS). The focus of the course will be on making appropriate design decisions and using SQL (the Structured Query Language) to create, modify, query, and secure a relational DBMS.

**Prerequisite:** CSCI 1020 or equivalent knowledge. **Recommendation:** Some knowledge of computer programming.

### Database Management Systems II

#### CSCI 2052 3 Credits

This course presents advanced database management systems (DBMS) concepts and applications. The emphasis is on those topics important to gain advanced understanding of installing, configuring, maintaining and using a multi-user client-server database system. Topics such as installation, maintenance, security, backup, replication and performance monitoring will be presented. Students will complete hands-on exercises using a current client/server database system.

**Prerequisite:** CSCI 2050 or consent of instructor. **Recommendation:** MCST 2013.

### Operating Systems

#### CSCI 2060 3 Credits

This course covers the core functionality of modern operating systems. Topics include process management, memory management, processor scheduling, file systems, and I/O. Students will perform system-level programming in a UNIX or UNIX-like environment in addition to studying the theory of operating system implementation.

**Prerequisite:** CSCI 2016 and CSCI 2082.

### Data Structures and Algorithms

#### CSCI 2082 3 Credits

This course builds on the foundation provided by the CSCI 1081, CSCI 1082 sequence to introduce the fundamental concepts of data structures and the algorithms that proceed from them. Topics include recursion, the underlying philosophy of object-oriented programming, fundamental data structures (including stacks, queues, linked lists, hash tables, trees, and graphs) and the basics of algorithmic analysis.

**Prerequisite:** CSCI 1082 or CSCI 2020.

## **Introduction to Functional Programming CSCI 2090 1 Credit**

Students will learn to use a functional programming language (such as Scheme) as a formal method of creating programs and expressing program ideas. Recursion will be presented as an algorithm development technique. Use of abstraction to hide program details and of modularity to manage complexity of large programs will be emphasized through the course.

## **Independent Study CSCI 2795 1 - 4 Credits**

This course allows advanced computer science students to pursue topics of individual interest that are either outside of the existing CSCI offerings or which go beyond them in depth. Prerequisite: Students must have completed or be currently completing the core of the CSCI curriculum as defined by the core of the AS in Computer Science. Project must be approved, prior to enrollment, first by instructor, and then dean.

## Cosmetology

Note: Prior to registering for any COS course students must attend a new student orientation session.

### **Preclinical Introduction COS 1000 3 Credits**

This course provides an introduction to cosmetology careers including professional image, Minnesota laws and rules, safety, and sanitation. Anatomy, electricity, and chemistry as related to the profession will also be included. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

### **Preclinic Hair Styling and Design COS 1007 3 Credits**

This course provides elementary hair service skills including trichology, shampooing, conditioning, thermal and wet hairstyling on all types and lengths of hair, wigs, and extensions. Students must be able to

perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 or concurrent enrollment.

### **Preclinic Nail Care COS 1010 3 Credits**

This course provides an introduction to nail care including manicuring, pedicuring, and artificial nail application. Also, the safe use of products will be covered. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 or concurrent enrollment.

### **Preclinic Chemical Control COS 1015 3 Credits**

This course provides an introduction to cosmetology chemicals and their applications. This includes curl reformation, permanent waving, soft curl perming, and chemical relaxing. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 or concurrent enrollment.

### **Preclinic Skin Care COS 1020 3 Credits**

This course provides an introduction to dermatology, skin analysis, facial massage, makeup application, and waxing. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 or concurrent enrollment.

### **Preclinic Hair Color COS 1025 3 Credits**

This course provides an understanding of temporary, semi-permanent, and permanent hair color services as well as hair lightening and corrective color. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 or concurrent enrollment.

### **Preclinic Haircutting COS 1035 3 Credits**

This course provides basic and advanced skill training in haircutting on women and men using shears, razor, clipper, and texturizing techniques. Students must be able to perform

physical tasks to complete course requirements. *Prerequisite:* COS 1000 or concurrent enrollment.

### **Salon Preparation COS 1040 3 Credits**

This course prepares students for clinical experiences including salon management, Minnesota Cosmetology laws and rules, communication skills as related to cosmetology, and retail operations. A service learning component is required, which may include an offsite assignment. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* COS 1000 and 750 hours in Cosmetology or 125 hours in Nail Technician or instructor consent.

### **Clinic Introduction COS 1051 3 Credits**

This course provides practical skill development using skills learned in preclinic courses. Students will have an initial exposure to the Century College clinic. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Completion of or concurrent enrollment in COS 1000 and one of the following: COS 1007, 1010, 1015, 1020, 1025, 1035.

### **Clinic I COS 1053 3 Credits**

This is the first clinical course in an eight-course sequence. This course provides students with a clinical experience in the Century College clinic for practical skill development. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 240 hours in Cosmetology.

### **Clinic II COS 1055 3 Credits**

This is the second clinical course in an eight-course sequence. This course provides students with a clinical experience in the Century College clinic for practical skill development. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 240 hours in Cosmetology.

## 7 Course Descriptions

### **Clinic III** **COS 1057**      **3 Credits**

This is the third clinical course in an eight-course sequence. This course provides students an opportunity in the Century College clinic to expand their knowledge and develop practical skills necessary for entry-level salon work. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 500 hours of Cosmetology.

### **Clinic IV** **COS 1059**      **3 Credits**

This is the fourth clinical course in an eight-course sequence. This course provides students an opportunity in the Century College clinic to expand their knowledge and develop practical skills necessary for entry-level salon work. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 500 hours in Cosmetology.

### **Clinic V** **COS 1061**      **3 Credits**

This is the fifth clinical course in an eight-course sequence. This course provides students an opportunity in the Century College clinic to expand their knowledge and develop practical skills necessary for entry-level salon work. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 500 hours in Cosmetology or instructor consent.

### **Clinic VI** **COS 1063**      **3 Credits**

This is the sixth clinical course in an eight-course sequence. This course provides students the opportunity in the Century College clinic to apply theories and skills learned throughout the program. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 750 hours in Cosmetology or instructor consent.

### **Clinic VII** **COS 1065**      **2 Credits**

This is the seventh clinical course in an eight-course sequence. This course provides students the opportunity in the Century College clinic to apply theories and skills learned throughout the program. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 750 hours in Cosmetology or instructor consent.

### **Clinic VIII** **COS 1067**      **2 Credits**

This is the eighth clinical course in an eight-course sequence. This course provides students the opportunity in the Century College clinic to apply theories and skills learned throughout the program. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 750 hours in Cosmetology or instructor consent.

### **Cosmetology Capstone** **COS 1068**      **3 Credits**

This capstone course enables students to update current skills in all areas of cosmetology. This course prepares students for the demands of a salon by using the peer teaching/learning process. This course prepares students for the state licensing exam and certification of skills. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 900 hours in Cosmetology.

### **Nail Clinic/License Preparation** **COS 1070**      **4 Credits**

This course provides students the opportunity in the Century College clinic to apply theories and skills learned throughout the nail program. Emphasis will be placed on speed, accuracy, and proper selection of nail products to prepare students for the salon, the state licensing exam, and certification of skills. Students must be able to perform physical

tasks to complete course requirements.

*Prerequisite:* COS 1010, COS 1051 or concurrent enrollment.

### **Salon Operations I** **COS 1081**      **1 Credit**

This course gives students additional clinical experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure and students reactivating a manicurist license. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or previous Minnesota Manicurist license or instructor consent.

### **Salon Operations II** **COS 1082**      **2 Credits**

This course gives students additional clinical experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or instructor consent.

### **Salon Operations III** **COS 1083**      **3 Credits**

This course gives students additional clinical experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or instructor consent.

### **Salon Operations IV** **COS 1084**      **4 Credits**

This course gives students additional clinical

experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or instructor consent.

**Salon Operations V**  
**COS 1085 5 Credits**

This course gives students additional clinical experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or instructor consent.

**Salon Operations VI**  
**COS 1086 6 Credits**

This course gives students additional clinical experience to complete the required services and/or hours for licensure, including students desiring Wisconsin licensure. Emphasis will be placed on speed, accuracy, and proper selection of chemicals and services to prepare students for the salon. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Minimum of 1350 hours in Cosmetology or 250 hours in Nail technology or instructor consent.

**Cosmetology Reactivation Course: Theory**  
**COS 2011 3 Credits**

This course meets the Minnesota 155-hour Reactivation Course requirements needed for reactivating a license. This course introduces recent changes in Minnesota laws and rules and technological and product developments for stylists seeking to reactivate their license.

**Prerequisite:** Previous Minnesota Cosmetology license.

**Cosmetology Reactivation Course: Practical**  
**COS 2013 3 Credits**

This course meets the practical portion of the Minnesota 155-hour Reactivation Course requirements needed for reactivating a license. This course introduces recent Minnesota law and rule changes and technological and product developments for stylists seeking to reactivate their license. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** COS 2011 or concurrent enrollment; previous Minnesota Cosmetology license.

**Cosmetology/Nail Technician Reactivation Course: Practical**  
**COS 2015 1 Credit**

This course prepares students for the written examination and certification of skills practical exam required for the reactivation of a license. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Previous Minnesota cosmetology license for cosmetology students, or previous Minnesota manicure license for the nail technician students.

## Criminal Justice

**Careers in Criminal Justice**  
**CJS 1020 2 Credits**

This course is recommended as a first course for all students interested in the field of criminal justice. Students will study various career paths within the criminal justice field and will establish a course selection pathway based on the student's intended career or education endeavors. The students will develop a portfolio to be used as an opportunity to exhibit their experience to transfer institutions or potential employers.

**Foundations of Intelligence & Crime Analysis**  
**CJS 2010 3 Credits**

This class will teach law enforcement, criminal justice, and other public safety students the history of the intelligence cycle and an explanation of the processes and functions of an analysis unit. Students will

study implementation of the intelligence cycle within an agency and community in order to develop information to support stakeholders and decision-makers. This class will teach core analytical and statistical skills using data sources commonly found in public government.

**Prerequisite:** Assessment score placement in MATH 0030 or completion of MATH 0010 with a grade of "C" or higher and SOC 1020 and SOC 1080.

**Emerging Technologies in the Investigative Sciences**  
**CJS 2060 2 Credits**

This course provides an overview of emerging technologies as they apply to investigative sciences, criminal justice agencies, and the private sector security. Applications include information management, identification technology, crime analysis, and crime investigation. Students will evaluate technology products and programs to determine their quality and suitability for agency applications.

**Private Sector Security and Investigations**  
**CJS 2070 3 Credits**

This course covers the historical development of private sector security and investigations in American society. It considers the legal ramifications of privatization and its growing presence in the area of social control and emerging technologies. Topics include the role of private security in the private industry, retail, the judicial system, homeland security, and public safety.

**Police in the Community**  
**CJS 2081 3 Credits**

This course examines the role of police in various types of communities. It considers the general and specialist approach to police-community relations, training, evaluation, performance, and changes in the role of the police due to homeland security, social policy, and emerging technologies. There is a 40-hour service learning requirement for this class.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or, completion of ENGL 0090 with a grade of "C" or higher. Students should not enroll in this course concurrently with CJS

## 7 Course Descriptions

2085 because that also has a service learning requirement.

### **Introduction to Corrections CJS 2083 3 Credits**

This course will use the criminal justice perspective to explore analysis of corrections and correctional policy within the criminal and juvenile justice system in American society. Systematic organization of punishment and incarceration will be studied according to institutional and community-based programs with regard to recurrent and chronic issues for management and officers. This course is a requirement for the criminal justice program and the investigative sciences program for criminal justice.

**Recommendation:** Students should have completed 15 college credits prior to taking this class. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Community Corrections CJS 2084 3 Credits**

This course introduces alternatives to traditional incarceration for convicted criminals and people on probation and parole. Topics include the history of community corrections and alternatives available, the legal framework for community corrections, the growth potential of the field, and the role of the corrections professional. This course applies to students interested in the criminal justice, law enforcement, human services, emergency medical services (EMS), and public safety fields.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher; CJS 2083 with a grade of "C" or better or instructor consent. **Recommendation:** completion of or concurrent enrollment in CJS 2095.

### **Juvenile Justice and Delinquency CJS 2085 3 Credits**

This course is an introductory survey of the juvenile justice system with specific coverage of terminology, laws, and procedures unique to the juvenile in the system. This

course also covers theories of delinquency, delinquent acts, corrective actions, custody, and disposition. There is a 40 hours service learning requirement for this class.

**Restriction:** It is advised that students not enroll in this course concurrently with CJS 2081 Police in the Community because that also has a service learning requirement.

**Recommendation:** Fifteen college credits. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Criminal Law CJS 2089 3 Credits**

This course offers students a foundation in the interpretation of criminal law. Examples of criminal cases will be used to illustrate and analyze the essence and interpretation of criminal law. Sociological theory and methods will be used to study the substantive nature and historical development of criminal law and its role in shaping society.

**Prerequisite:** An assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

**Recommendation:** Fifteen college credits prior to enrollment in this course. Any course in Criminal Justice Sciences should be among these credits.

### **Crime and Incident Mapping for Public Safety I CJS 2091 3 Credits**

This course is designed to teach interactive usage of crime mapping techniques as well as develop an understanding of social and geographical principles and issues for crime mapping. This course will be especially helpful for people intending to work within the criminal justice system or public safety. Students will develop a theoretical and applied understanding of developing technology for the interpretation of social and geographical data.

**Prerequisite:** An assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher. Students must have at least 15 college credits

before enrolling in this class. CAPL 1000 or equivalent computer experience is required.

### **Crime and Incident Mapping for Public Safety II CJS 2092 3 Credits**

In this course, students will use criminal justice Geographic Information Systems (GIS) software for mapping information that uncovers emerging geographic and demographic patterns of crime and other events according to location and social significance. Students will query data, working with specific attributes and software features to aggregate and analyze data. Students will create and edit spatial data and become acquainted with other types of data images and computer-aided design (CAD) drawings.

**Prerequisite:** CJS 2091 with a grade of "C" or higher or consent of the instructor.

### **Terrorist and Extremist Groups CJS 2093 3 Credits**

This course examines the social trend of terrorism. Social theory and methods within the criminal justice perspective are used to analyze group dynamics and social interaction. Group leadership, social influence, social networks, group cohesion, development, group performance, and motivation of terrorism will be studied. Groups that will be considered in course material will include extremist groups prone to violence, terrorism, and anti-government sentiment.

**Prerequisite:** Fifteen college credits and an assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Fundamentals of Criminal Investigations CJS 2094 3 Credits**

This course will explore the fundamental principles and procedures employed in the criminal investigation process. Students will examine the various methods and techniques utilized by law enforcement to solve a variety of crimes. Areas of study will include the preliminary and follow-up investigation, crime scene analysis, evidence collection and processing, report writing and preparing a case for prosecution.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with

## 7 Course Descriptions

a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Interview, Interrogation, and Investigation CJS 2095 3 Credits**

This course examines oral and nonverbal communication and collection of verbal information using criminal justice theory and methods. Students will practice the skills of interviewing and interrogation. Students will learn various methods and legal guidelines for interviewing, interrogation, and investigation.

*Prerequisite:* Fifteen completed college credits. Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

*Recommendation:* Six college credits in criminal justice sciences before enrolling in this class.

### **Crime Scene Investigations CJS 2096 3 Credits**

This course will provide students with an in-depth look into of the topic of crime scene investigations. Students will study the search process, collection of physical evidence, and processing of evidence in the crime lab. Students will examine the equipment and methods used in the collection and processing of specific categories of physical evidence. Students will also explore the legal and ethical issues involved in collecting and processing evidence.

*Prerequisite:* Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher; CJS 2094 with a grade of "C" or better or instructor consent.

### **Homeland Defense CJS 2097 3 Credits**

This course explores the concept of national defense with attention to changing issues for the criminal justice system. Students will employ scientific theories and methods to analyze the changing roles of police and military involvement in defense. Topics will include terrorism, weapons of mass destruction (WMDs), civil rights and constitutional issues related to defense.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher and assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Investigative Sciences Capstone CJS 2099 2 Credits**

This capstone course will allow students to integrate philosophies, methods and processes necessary to evaluate and analyze programs, problems, and field study experiences within the criminal justice system.

*Prerequisite:* Fifteen completed college credits with a grade of "C" or higher in each course or instructor permission. An assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

*Recommendation:* Six college credits in criminal justice sciences with a grade of "C" or higher in each course.

## Dental Assisting

**Note:** Prior to registering for any DENA course students must attend a new student orientation session. Instructor signature required prior to registration.

### **Introduction to Dental Assisting DENA 1000 3 Credits**

This is an introductory course that explores the role of a Certified Dental Assistant and a Registered Dental Assistant. Topics to be covered include dental history, terminology, occupational safety, common dental emergencies and professional development. This is a chance to explore the dental clinic and dental laboratory utilizing dental instruments and equipment.

### **Dental Assisting Pre-Clinic I DENA 1011 3 Credits**

This course meets accredited guidelines with basic understanding and knowledge of oral embryology / histology, oral health and dental nutrition. Also included is a strong foundation in general anatomy / physiology, head & neck

anatomy and tooth morphology.

*Prerequisite:* DENA 1000 or concurrent enrollment.

### **Dental Assisting Pre-Clinic II DENA 1012 3 Credits**

This course includes content in the intraoral and extraoral diseases, disease transmission concepts and prevention, OSHA guidelines, and dental pharmacology as it relates to dental procedures.

*Prerequisite:* DENA 1011 or concurrent enrollment.

### **Dental Materials DENA 1020 3 Credits**

This course is an essential component for most clinical procedures and provides the basic knowledge and skills required for the Dental Assistant in the dental office. Technical and practical hands-on experience will be given for dental materials used in operative, restorative, specialty and laboratory procedures.

*Prerequisite:* DENA 1012 or concurrent enrollment.

### **Dental Radiology I DENA 1031 2 Credits**

The course will focus on the study and practical application of the principles of radiation safety, operating and maintaining radiographic equipment and exposing and processing diagnostically acceptable intraoral radiographs on mannequins.

*Prerequisite:* Completion of DENA 1020 or concurrent enrollment in DENA 1041 and DENA 1042 or documented approval granted by the Minnesota State Board of Dentistry. *Restriction:* If a student is pregnant, a physician's approval is required for enrollment because of radiation exposure. *Recommendation:* MATH 0030 with a grade of "C" or higher or assessment placement score in MATH 0070 or higher.

### **Dental Radiology II DENA 1032 3 Credits**

This course will focus on the study and practical applications of exposing, processing and evaluating diagnostically acceptable intraoral radiographs on mannequins and patients.

*Prerequisite:* Completion of DENA 1031 or concurrent enrollment in DENA 1061

## 7 Course Descriptions

and DENA 1062 or documented approval granted by the Minnesota State Board of Dentistry. **Restriction:** If a student is pregnant, a physician's approval is required for enrollment because of radiation exposure. **Recommendation:** MATH 0030 with a grade of "C" or higher or assessment score placement in MATH 0070 or higher.

### **Chairside Dental Assisting I** **DENA 1041 2 Credits**

This course will focus on how to utilize and maintain a dental clinic. This course follows the American Dental Association Occupational Safety Health Act and the Centers for Disease Control guidelines in preparing, assisting with and dismissing patients. The student will utilize chair side four-handed dentistry in a variety of procedures, as well as teach personal oral hygiene to patients.

### **Chairside Dental Assisting II** **DENA 1042 3 Credits**

This course will focus on how students will take and record dental and medical histories of patients, chart the oral cavity, take and record vital signs, apply topical medications and varnishes. The student will also be able to recognize the effects certain medications have on patients and apply the principles and techniques of operative dentistry.

**Prerequisite:** DENA 1041 or concurrent enrollment.

### **Dental Specialties** **DENA 1050 3 Credits**

This course provides instruction in fundamental principles, instrumentation and procedures for the specialty areas of dentistry: oral & maxillofacial surgery, endodontics, periodontics, fixed & removable prosthodontics, pediatric dentistry community dentistry, the medically and physically compromised patient, and orthodontics.

**Prerequisite:** DENA 1042 or concurrent enrollment.

### **Dental Assisting Advanced Functions I** **DENA 1061 3 Credits**

This course will focus on the following Minnesota Registration Advanced Functions: take impressions and bite registration; apply topical medications; place and remove rubber dam; remove excess cement; place and

remove periodontal dressing; remove sutures; pre-select orthodontic bands; place ligatures and o-rings; and remove excessive orthodontic adhesive.

### **Dental Assisting Advanced Functions II** **DENA 1062 2 Credits**

This course is a continuation of the Dental Assisting Advanced Functions I. It covers the following: coronal polish, fluoride application and applying pit and fissure sealants.

**Prerequisite:** Completion of DENA 1050, or concurrent enrollment in DENA 1061 and DENA 1063, or documented approval granted by the Minnesota State Board of Dentistry.

### **Nitrous Oxide Inhalation Sedation** **DENA 1063 1 Credit**

This course will focus on the utilization of nitrous oxide sedation for anxiety and pain control in dentistry.

**Prerequisite:** Completion of DENA 1050 or concurrent enrollment in DENA 1061 and DENA 1062 or documented approval granted by the Minnesota State Board of Dentistry.

### **Introduction to Dental** **Assisting Internships**

#### **DENA 1780 3 Credits**

This course is an introduction to the business aspect of a dental practice and completion of professional development activities. It includes preparation for employment and knowledge of legal and ethical standards. Students will review their prior knowledge in preparation for their clinical internships.

**Prerequisite:** Completion of or concurrent enrollment in, all courses prior to DENA 1780. **Recommendation:** Keyboarding and computer skills.

### **Dental Assisting Specialty Internship** **DENA 1781 3 Credits**

This course focuses on the application and practice of dental assisting skills in a dental specialty practice.

**Prerequisite:** All previous courses must be completed. Must have HBV series of inoculations; must be covered by medical insurance and professional liability insurance.

### **General Clinical Internship** **DENA 1782 4 Credits**

This course focuses on the application and practice of dental assisting skills in a general

dental practice.

**Prerequisite:** All previous courses must be completed. Must have HBV series of inoculations; must be covered by medical insurance and professional liability insurance.

## Dental Hygiene

---

### **Head and Neck Anatomy** **DENH 1021 2 Credits**

Study of hard and soft tissues of the head and neck, including the skeletal muscular, nervous, and venous systems with particular emphasis on the masticatory system.

### **Oral Anatomy** **DENH 1023 2 Credits**

Study of the anatomy of the oral cavity and the functional and morphological characteristics of the teeth, with an emphasis on root morphology.

### **Oral Histology and Embryology** **DENH 1025 2 Credits**

Study of the microscopic anatomy of the oral tissues and embryonic development of the face and oral cavity with emphasis on the masticatory system.

### **Advanced Radiology** **DENH 1030 1 Credit**

This course reviews the basic principles of radiology and introduces students to radiographic interpretation and the treatment of patients undergoing radiation therapy. Students must be able to perform physical tasks to complete course requirements.

### **Dental Hygiene Principles I** **DENH 1040 3 Credits**

This course will provide students with the fundamental dental hygiene theory needed prior to seeing their first patient. Focus is on the history, philosophy, and theories relevant to the dental hygiene discipline; the prevention of disease transmission; introduction to the periodontium; patient assessment and education; etiology and prevention of oral diseases; infection/exposure control and hazardous materials; introduction to the SOAP method of record-keeping.

## 7 Course Descriptions

### **Dental Hygiene Practice I** **DENH 1045 2 Credits**

This course provides an introduction to clinical dental hygiene with emphasis on preventing disease transmission in the dental office, current sterilization techniques and theories, the use and care of equipment, introduction to instrumentation, with a focus on the psychomotor skills necessary for the delivery of preventive, educational, and therapeutic dental hygiene procedures. Students must be able to perform physical tasks to complete course requirements.

### **Periodontology** **DENH 1050 3 Credits**

This study of the science of periodontal diseases including pathogenesis, diagnosis, nonsurgical, and surgical treatments. Emphasis will be on the progression of periodontal disease and the role of the hygienist as a prevention specialist and periodontal co-therapist.

*Prerequisite:* DENH 1021, DENH 1023, DENH 1025, DENH 1030, DENH 1040, DENH 1045. Concurrent enrollment in DENH 1080 and DENH 1085.

### **Dental Pharmacology** **DENH 1060 2 Credits**

This course will provide an introduction to drug actions, mechanisms of drug actions, and bodily reactions. Special emphasis will be given to the oral and other implications of drugs as they affect dental treatment.

*Prerequisite:* CHEM 1020, BIOL 1031, BIOL

1032 or concurrent enrollment in DENH 1040 and DENH 1045.

### **Applied Biochemical Nutrition** **for the Dental Hygienist** **DENH 1070 3 Credits**

The study of cellular biochemistry and general nutrition including recent advances in dental nutrition, and the application of this knowledge to nutritional counseling and dietary analysis of patients with high dental caries rates, dental erosions, stomatitis, glossitis, periodontal disease, eating disorders, morning sickness, and nursing bottle caries within the framework of the patient's cultural, economic, and psychosocial environment.

### **Dental Hygiene Principles II** **DENH 1080 3 Credits**

This course is a continuation of DENH 1040 and introduces students to more dental hygiene theory needed to make a comprehensive patient assessment. Theory during the first half of the semester will focus on developing a dental hygiene diagnosis, developing the dental hygiene treatment plan, and record-keeping. The second half of the semester will focus on providing dental hygiene treatment to special needs patients.  
*Prerequisite:* Concurrent enrollment in DENH 1050 and DENH 1085.

### **Dental Hygiene Practice II** **DENH 1085 3 Credits**

This course is a continuation of DENH 1045 and provides further instrumentation

techniques, more advanced assessment skills, new clinical procedures, development of the dental hygiene diagnosis, and the development of a dental hygiene treatment plan as students begin to see their first patients from an outside population. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Concurrent enrollment in DENH 1050 and DENH 1080.

### **Dental Hygiene Principles III** **DENH 2000 1 Credit**

This course introduces students to the theoretical portion of techniques needed to diagnose and treat clients with high caries rates, advanced periodontal disease, orthodontic patients, and patients requiring local anesthesia, and nitrous oxide sedation. Emphasis on emergency care for all procedures.

*Prerequisite:* DENH 1040, DENH 1045, DENH 1080. Concurrent enrollment in DENH 2005.

### **Dental Hygiene Practice III** **DENH 2005 2 Credits**

This course introduces students to the lab/clinic portion of techniques needed to diagnose and treat patients with high caries rates, advanced periodontal diseases, orthodontic patients, and patients requiring local anesthesia and nitrous oxide sedation. Emergency procedures will be taught for all new procedures introduced. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* DENH 1040, DENH 1045, DENH 1080, DENH 1085. Concurrent enrollment in DENH 2000.

### **Dental Hygiene Principles IV** **DENH 2010 2 Credits**

Advanced dental hygiene techniques including the study of implants, pulp vitality testing, Actisite fibers, gingival curettage, periodontal dressings, suture removal, and journal article review of current literature. Case presentations will be used during the second half of the semester to help students develop their abilities to use the findings of the medical history, hard/soft tissue exams, perio exams, x-rays, and cultural assessment to develop their dental hygiene diagnosis and treatment plan.

## 7 Course Descriptions

*Prerequisite:* DENH 2005. Concurrent enrollment in DENH 2015, DENH 2020, DENH 2030 and DENH 2040.

### **Dental Hygiene Practice IV DENH 2015 4 Credits**

Dental Hygiene clinic with emphasis on the treatment of moderate to advanced periodontal disease, the development of speed, and the introduction of advanced clinical techniques for treatment of periodontal patients. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* DENH 2005. Concurrent enrollment in DENH 2010, DENH 2020, DENH 2030 and DENH 2040.

### **Oral Pathology DENH 2020 2 Credits**

Study of the principles of diseases and immunology pertaining to the head and neck.

*Prerequisite:* BIOL 2050, DENH 1021, DENH 1023, DENH 1025, DENH 1030. Concurrent enrollment in DENH 2010, DENH 2015, DENH 2030 and DENH 2040.

### **Community Dental Health and Epidemiology DENH 2030 3 Credits**

Characteristics of community dental health programs are examined with emphasis on epidemiology, dental public health, and assessment of community needs, program planning, implementation, and evaluation.

*Prerequisite:* PSYC elective, SOC elective, SPCH elective, and ENGL 1021. Concurrent enrollment in DENH 2010, DENH 2015, DENH 2020 and DENH 2040.

### **Community Dental Health Practice DENH 2035 1 Credit**

Students will assess, plan, implement, and evaluate dental health education talks and projects before a wide range of populations in the community.

*Prerequisite:* DENH 2030.

### **Legal Aspects of Dental Practice DENH 2040 2 Credits**

This course focuses on the ethical and legal implications of providing dental and dental hygiene care. A case studies approach will be used throughout the course to provide

students experience in resolving legal and ethical dilemmas in a simulated dental office setting.

*Prerequisite:* DENH 2005. Concurrent enrollment in DENH 2010, DENH 2015, DENH 2020 and DENH 2030.

### **Restorative Expanded Functions DENH 2050 3 Credits**

This course offers training that leads toward certification for Minnesota licensed dental hygienists and registered dental assistants in the placement of dental restorations, as specified by the Minnesota Board of Dentistry. The Century College Dental Institute will function as a resource site for the course. Students will participate in lecture, lab exercises, and complete the clinical requirements. The clinical portion will be completed at the Century College community dental clinic under the supervision of a dentist.

*Prerequisite:* The course is limited to Registered Dental Assistants, Licensed Dental Hygienist, and with instructor permission, student currently enrolled in an accredited dental hygiene program.

### **Dental Hygiene Principles V DENH 2060 1 Credit**

This course focuses on topics of interest to the graduating hygienist, including resume writing, interviewing skills, remuneration for professional services, fringe benefits, appointment control, teamwork, professional development, service to the community, and involvement in professional associations.

*Prerequisite:* DENH 2005. Concurrent enrollment in DENH 2065.

### **Dental Hygiene Practice V DENH 2065 5 Credits**

Continued refinement of advanced periodontal skills and the development of speed that is at a pace more congruent with that of a private office. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* DENH 2005. Concurrent enrollment in DENH 2060.

## Earth Science

### **Earth Science ESCI 1020 4 Credits MnTC: Goals 03 & 10**

This course is a survey of the earth sciences as a broad and nonquantitative introduction to topics in geology, oceanography, meteorology, and astronomy. It views solid earth, the liquid hydrosphere, and the gaseous atmosphere in terms of continuous interactions as air comes in contact with rock, rock with water, and water with air. Laboratory investigations and hands-on experiences provide the framework for the semester's study.

### **Interdisciplinary Physical and Environmental Science ESCI 1025 3 Credits**

MnTC: Goals 03 & 10

This course introduces a variety of topics in chemistry, physics, and earth science, relating each topic to real-life environmental issues and projects. Students explore the scientific method of inquiry from both historic and present-day perspectives as they examine the relationships among chemistry, physics, and earth science in daily life. The history of science and how our view of nature has changed is discussed when appropriate. Hands-on activities provide students the opportunity to observe basic physical science principles in action.

*Prerequisite:* Assessment score placement into Reading 1000 or successful completion of Reading 0090 with grade C or higher.

### **Physical Geology ESCI 1030 4 Credits MnTC: Goals 03 & 10**

This course introduces the student to rocks & minerals, geologic time, plate tectonics, and geologic landforms. Laboratory investigations provide the framework for rock and mineral identification and map interpretation of geologic features and processes.

### **Energy Concepts ESCI 1040 3 Credits MnTC: Goals 03 & 10**

This course introduces students to the topic of energy and examines energy production, supply, efficiency, and future needs. It also

## 7 Course Descriptions

explores the potential of solar, biomass, photovoltaics, wind, and other continuous flow sources: including crude oil, natural gas, coal, and nuclear. The impact of our current U.S. policy is viewed from an interdisciplinary approach that includes environmental, political, economic, and ethical considerations. *Recommendation:* Concurrent enrollment in ESCI 1045.

### Energy Concepts Lab

**ESCI 1045 1 Credit**

**MnTC: Goals 03 & 10**

This laboratory course examines various energy concepts through hands-on learning. Topics will include, but are not limited to: liquid fuels, solid fuels, biomass, wind, solar, insulation, heat storage, pollution and conservation.

*Prerequisite:* ESCI 1040 or concurrent enrollment, and assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade of "C" or higher.

### Introduction to Meteorology

**ESCI 1050 3 Credits**

**MnTC: Goals 03 & 10**

This course introduces the basic scientific principles involved in meteorology. Students explore the basic properties of the atmosphere, weather instruments, weather phenomena, terminology, and forecasting. *Recommendation:* Concurrent enrollment in ESCI 1055.

### Meteorology Lab

**ESCI 1055 1 Credit**

**MnTC: Goals 03 & 10**

In this introductory meteorology laboratory, students construct and interpret graphs, analyze weather maps, and also gather, record, and interpret weather data. Concepts covered include structure of the atmosphere, solar and terrestrial radiation, stability of the atmosphere, atmospheric motion, severe storms, and weather map analysis.

*Prerequisite:* ESCI 1050 or concurrent enrollment, or consent of instructor.

### Introduction to Oceanography

**ESCI 1060 3 Credits**

**MnTC: Goals 03 & 10**

This course presents the principles of historical, geological, biological, chemical and physical oceanography. It explores contemporary

problems related to marine pollution, resources, and Maritime Law for students wishing to become more aware of the growing importance of the sea in their lives.

### Natural Disasters

**ESCI 1080 3 Credits**

**MnTC: Goals 03 & 10**

This course will investigate the physical processes, origins, as well as the human and economic impacts caused by natural disasters. Students will examine earthquakes, volcanism, severe weather, climate change, wildfires, and floods among other natural catastrophic phenomenon. They will have the opportunity to access information from government agencies and universities involved in the study of these phenomena.

### Earth Science for Educators

**ESCI 1090 4 Credits**

This course is intended for education majors. It includes a survey of the Earth sciences with a broad and non-quantitative introduction to topics in geology, oceanography, meteorology, and astronomy. In addition, course will provide curriculum surveys of media and instruction models for Pre-Educators in K-8 education tracks. It will cover four major Earth event to spheres (lithosphere, hydrosphere, atmosphere, and biosphere) modeling projects with an emphasis in interrelated systems analysis that are applicable to grades K-8. Students will develop these four models working in small collaborative..... groups. Laboratory investigations, field work, collaborative projects and a minimum 20 hour service learning component, arranged through the Service Learning Coordinator, will provide hands on, real time individual, and group learning opportunities for this class.

## Economics

### Macroeconomics

**ECON 1021 3 Credits**

**MnTC: Goal 05**

This course is an introduction to macroeconomics. It emphasizes demand and supply theory, fiscal and monetary policy, national income, money and banking. Other topics include international economics,

foreign exchange rates, international trade theory, and balance of trade. This course has broad general education applications but is especially appropriate for economics, accounting, and business majors.

### Microeconomics

**ECON 1023 3 Credits**

**MnTC: Goal 05**

This course is an introduction to microeconomics. It emphasizes the price system, production costs, income distribution, and market structures. The impact of international economics will also be discussed. This course has broad general education applications but is especially appropriate for economics, accounting, and business majors.

*Prerequisite:* ECON 1021.

### Statistics for Business and Economics

**ECON 2021 3 Credits**

This course is an introduction to quantitative decision making. It will focus on probabilistic and statistical techniques as applied to business decision-making. Topics include probability, classical statistics, expected value, and sampling. This course includes the use of a statistical software package.

*Prerequisite:* Assessment score placement in Math 1081 or above, or completion of Math 1061 with a grade of "C" or higher.

## Education

### Education Field Experience/Tutoring

**EDUC 1000 2 Credits**

The course introduces students and community volunteers to best practices in teaching while providing opportunities to test those practices in the real world. The class is open to students earning degrees in education or other degrees, and to members of the community who want to work with students in local community schools. For students earning education degrees at Century College, this class will provide an opportunity to accumulate additional hours in service learning. Students will tutor a minimum of 30 hours in a K-12 school classroom. Prospective students should be aware that a background check may be required for the field experience.

## 7 Course Descriptions

**Recommendation:** Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of “C” or higher. Assessment score placement in Math 30 or above, or completion of Math 10 with a grade of “C” or higher.

### **Portfolios for Educators I** **EDUC 1020 1 Credit**

This course is recommended as a first semester course for all education majors. Participants will study current education issues, national education news, educational law and portfolio pedagogy. Students will begin an education portfolio containing current events which affect education in Minnesota and the nation.

**Recommendation:** CAPL 1000.

### **Portfolios for Educators II** **EDUC 1021 1 Credit**

This second portfolio course presents the Minnesota Consortium of Paraeducators (MCP) standards for paraeducators as well as the Interstate New Teacher and Student Consortium (INTASC) standards. Students will expand the process portfolios begun in EDUC 1020 using the MCP or INTASC standards.

**Prerequisite:** EDUC 1020 and nine credit hours. **Recommendation:** Completion of ENGL 1021 or ENGL 1022.

### **Portfolios for Educators III** **EDUC 1022 1 Credit**

Portfolios for Educators III is the capstone project for students in the education program. Students will prepare portfolios for presentation at a mock employment interview. The course will assist students to complete their competencies in the Minnesota Paraeducators Consortium Standards for Paraeducators or INTASC standards as applicable. The final portfolio will be reviewed by peers and staff.

**Prerequisite:** EDUC 1020, EDUC 1021, and 30 credits.

### **Education Standards** **EDUC 1025 1 Credit**

This course focuses primarily on Minnesota’s K-12 academic standards and the assessment tools used to determine student growth. Through reading and discussion, students will gain an understanding of the complex issue of balancing educational activities that meet

the needs of a diverse student population while collecting data that keeps educators accountable for student growth.

### **Orientation to Education** **EDUC 1045 3 Credits**

This course is designed to introduce potential teachers/paraeducators to the foundations of the American education system. Throughout this course students will examine the teaching profession through the historical, philosophical, social, curricular, and assessment foundations of education.

**Prerequisite:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher.

### **Reading and Study Skills Strategies for Paraeducators** **EDUC 1050 3 Credits**

This course presents the basic strategies used in teaching K-12 reading and study skills.

The focus is on sensory modalities and their application to the diverse learning abilities and styles within the K-12 classroom. Visits to K-12 classrooms off campus can be arranged and are highly recommended for interaction with students and opportunities to practice and reflect on strategies learned in class.

### **Basics in TESOL for Paraeducators** **EDUC 1060 3 Credits**

This course will introduce students to the basics of TESOL (teaching English to speakers of other languages), and the strategies for teaching the English language and American school culture to speakers of other languages in American schools. Students will learn strategies for being effective paraeducators in ESL classrooms and with English-language learners in mainstream classes. Visits to K-12 classrooms off campus can be arranged and are highly recommended for interaction with non-native English speakers to practice and reflect on ESL strategies.

**Prerequisite:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher. For nonnative speakers of English: concurrent enrollment in or completion of ESL 1010 or ESOL 1035 with a grade of “C” or higher, or English language proficiency equivalent to ESL 1010 or ESOL 1035; see course instructor.

**Recommendation:** Basic computer literacy.

### **Mathematics Support Strategies for Paraeducators** **EDUC 1070 3 Credits**

This course provides the skills that paraeducators need to assist teachers in the K-8 mathematics educational setting. Topics include current standards in mathematics education, sensory modalities, learning styles, error analysis, use of technology, and use of manipulatives. Students will complete a portfolio of various games, activities, and manipulatives that can be used to support K-8 mathematics instruction.

**Prerequisite:** MATH 0070 with a grade of “C” or higher, or assessment score placement into MATH 1025 or higher.

### **Creating Culturally Responsive Classrooms** **EDUC 2025 3 Credits**

This course is designed to prepare teacher/paraeducator students to work in culturally diverse classrooms. Students will investigate assumptions about culture, cultural backgrounds, how culture influences student motivation, and how culture impacts the learning setting.

**Prerequisite:** Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of “C” or higher.

**Recommendation:** EDUC 1045.

### **Classroom Management** **EDUC 2040 3 Credits**

The focus of this course is to guide future and current educators as they develop strategies for creating productive classroom environments. Fundamental principles of classroom management and discipline are presented along with ways to create positive learning environments.

**Prerequisite:** Assessment score placement into RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher.

**Recommendation:** Basic computer literacy.

### **Legal Issues in Education** **EDUC 2050 3 Credits**

This course presents an overview of the legal environment and legal issues in education. The course will contrast sources of regulation from federal, state and local authorities and will examine a variety of issues relating to the rights and obligations of both students and educators. Students in the class will

## 7 Course Descriptions

learn to recognize circumstances in the education environment which may have legal consequences.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### Writing Support Strategies or Paraeducators

#### EDUC 2055 3 Credits

This course is designed to provide students with the skills necessary to support and reinforce the instruction of K-12 students in writing following written and oral lesson plans developed by licensed teachers. Students will learn instructional strategies in writing, will be trained in all required competencies for paraeducators in the academic area of writing, and may observe and practice writing-support skills in K-12 settings off campus.

**Prerequisite:** Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of “C” or higher, and assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of “C” or higher.

### Special Education Issues for Educators

#### EDUC 2070 3 Credits

This course provides a foundation of knowledge and practice pertaining to special education, with an emphasis on the role of the classroom teacher and the paraeducator in the EC-12 school system. Assignments may include off-site field experience.

**Prerequisite:** Assessment score placement into RDNG 1000 or completion of RDNG 0090 with a “C” or better. **Recommendation:** Completion of EDUC 1020.

## Emergency Medical Services

**Note:** Prior to registering for any EMS course students must attend a new student orientation session.

### AHA BLS for the Healthcare Provider (CPR)

#### EMS 1010 1 Credit

The focus of this course is on basic life support of the cardiac and/or respiratory arrest

victim for the healthcare provider. The course includes adult, child, and infant CPR skills, including AED, in both the out-of-hospital and in-hospital settings. An American Heart Association BLS for the Health Care Provider card provided at successful completion of course.

**Note:** For basic level American Red Cross CPR, see HLTH 1005. Student must be physically able to do CPR skills on a manikin.

### First Responder

#### EMS 1015 2 Credits

This course is designed to provide the First Responder at a scene of a medical or trauma emergency the necessary knowledge and skill to manage patient care until the arrival of ambulance personnel. Obtaining AHA Healthcare Provider CPR certification is a component of this course. Student must be able to perform physical tasks to complete course requirements.

**Restriction:** As a result of 1999 Minnesota Legislation, First Responders who have committed misdemeanors, gross misdemeanors, or felonies may not qualify to obtain initial certification or recertification as a Minnesota First Responder. Students whose First Responder status has expired for greater than one year are not allowed to take the First Responder Refresher course. (Expiration of greater than one year will result in retaking a First Responder course to gain certification in Minnesota).

### First Responder - Refresher

#### EMS 1017 1 Credit

This course, approved by the Minnesota EMSRB, will refresh the student to the most current First Responder standards in the state of Minnesota. It is intended as a refresher on revised emergency care skills and techniques for re-certification. Renewing AHA Healthcare Provider CPR certification is a component of this course. Successful completion will result in a renewed two-year certification as a Minnesota First Responder. Student must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Must provide Minnesota First Responder number and valid expiration date. **Restriction:** As a result of 1999 Minnesota Legislation, First Responders who have committed misdemeanors, gross

misdemeanors, or felonies may not qualify to regain certification as a Minnesota First Responder. Students whose First Responder status has expired for greater than one year are not allowed to take the First Responder Refresher course. (Expiration of greater than one year will result in retaking a First Responder course to gain certification in Minnesota.).

### EMS Interventions I

#### EMS 1025 5 Credits

This course enhances the current EMT’s basic life support (BLS) skills and prepares the student to assist in advanced procedures and assessment techniques. Under paramedic instructor guidance, the student will synthesize and apply theories and skills learned throughout the class in order to assist a paramedic. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements. Successful completion of this class, along with EMS 1026, with a grade of “B” or higher will meet the 50-run requirement for entrance into the Century College Paramedic Program.

**Prerequisite:** Current state EMT certification; current American Heart Association (AHA) BLS for the Healthcare Provider certification.

**Recommendation:** Basic word processing skills.

### EMS Interventions II

#### EMS 1026 2 Credits

This advanced practicum provides the EMT with opportunities in entry-level and advanced care with a fire department or ambulance provider. Under paramedic instructor and/or paramedic preceptor guidance, the student will synthesize and apply theories and skills learned throughout the class, to assist a paramedic. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements. Successful completion of this class, along with EMS 1025, with a grade of “B” or higher will meet the 50-run requirement for entrance into the Century College Paramedic Program.

**Prerequisite:** Successful completion of

## 7 Course Descriptions

EMS 1025 with a grade of "B" or higher, or concurrent enrollment in EMS 1025; Minnesota Human Services background study with no restrictions; current State EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Cardiac Life Support EMS 2001 1 Credit**

The American Heart Association (AHA) Advanced Cardiovascular Life Support (ACLS) course is designed for healthcare providers who either direct or participate in the resuscitation of a patient, whether in or out of hospital. Through the ACLS course, providers will practice their skills in the treatment of the adult victim of a cardiac arrest and other cardiopulmonary emergencies. Upon successful completion of this course, the student will obtain AHA ACLS certification. Students must have knowledge of cardiac medications and proficiency in obtaining vascular access, ECG interpretation, and manual defibrillator operation prior to enrolling in this course.

**Prerequisite:** Completion of EMS 1010 with current certification or current American Heart Association (AHA) Basic Life Support Healthcare Provider or equivalent certification. Students must possess certification or licensure as a paramedic (EMT-P), registered nurse (RN), medical doctor (MD), doctor of osteopathy (DO), respiratory therapist (RT), dentist (DDS), or physician's assistant (PA).

### **Pediatric Advanced Life Support with PEPP EMS 2002 1 Credit**

This course is designed to provide physicians, nurses, paramedics, respiratory therapists, and other healthcare providers with the skills to provide advanced life support to pediatric patients. Through the PALS with PEPP course, providers will enhance their skills in the treatment of the pediatric victim of cardiac, respiratory, trauma, and other emergencies. Upon successful completion of this course, the student will obtain PALS and PEPP certification. Students must have knowledge

of cardiac medications and proficiency in obtaining vascular access, ECG interpretation, and manual defibrillator operation prior to enrolling in this course.

**Prerequisite:** Completion of EMS 1010 with current certification or current American Heart Association (AHA) Basic Life Support Healthcare Provider or equivalent certification. Students must possess certification or licensure as a paramedic (EMT-P), registered nurse (RN), medical doctor (MD), doctor of osteopathy (DO), respiratory therapist (RT), dentist (DDS), or physician's assistant (PA).

### **International Trauma Life Support Provider EMS 2004 1 Credit**

ITLS is a comprehensive course for EMTs, paramedics, registered nurses, physicians and other EMS personnel. The ITLS course covers the skills necessary for rapid assessment, resuscitation, stabilization and transportation of trauma patients. The course emphasizes evaluation steps and sequencing and techniques for resuscitating and packaging a patient. Upon completion of this course the student will be issued either a Basic ITLS or Advanced ITLS Provider card depending on whether they are certified/licensed to provide basic or advanced life support.

**Prerequisite:** Must possess current certification or licensure as an emergency medical technician (EMT), paramedic (EMT-P), registered nurse (RN), medical doctor (MD), doctor of osteopathy (DO), or physician's assistant (PA).

### **CPR Instructor EMS 2010 1 Credit**

This course is designed to teach participants the fundamentals of teaching Basic Life Support (BLS) to a variety of audiences. Successful completion of this course allows the participant to teach CPR and offer American Heart Association course completion cards to lay rescuers and health professionals. Successful completion of this course will result in American Heart Association CPR Instructor certification.

**Prerequisite:** Completion of EMS 1010 with current certification or current American Heart Association (AHA) Basic Life Support Healthcare Provider.

### **Pediatric Advanced Life Support Instructor EMS 2012 1 Credit**

This course is designed to prepare individuals to become instructors in pediatric advanced life support (PALS). Upon completion of the PALS instructor course, instructor candidates will be able to teach a PALS course using the video and lesson maps in the PALS course instructor materials. Successful completion of this course will result in American Heart Association PALS Instructor certification.

**Prerequisite:** EMS 2002 or current PALS certification. Completion of EMS 1010 with current certification or current American Heart Association (AHA) Basic Life Support Healthcare Provider. Students must possess current certification or licensure as a paramedic (EMT-P), registered nurse (RN), medical doctor (MD), doctor of osteopathy (DO), respiratory therapist (RT), dentist (DDS), or physician's assistant (PA). **Recommendation:** One year as an advanced life support (ALS) provider.

### **International Trauma Life Support Instructor EMS 2014 1 Credit**

This course is designed to prepare individuals to become instructors for the International Trauma Life Support course. Upon completion of the ITLS Instructor course, instructor candidates will be able to teach an ITLS course using ITLS course instructor materials. Successful completion of this course will result in ITLS Instructor certification.

**Prerequisite:** EMS 2004 or Prehospital Trauma Life Support (PHTLS) instructor or provider certification. Must possess current certification or licensure as an emergency medical technician (EMT), paramedic (EMT-P), registered nurse (RN), Medical Doctor (MD), Doctor of Osteopathy (DO), respiratory therapist (RT), or physician's assistant (PA). **Recommendation:** One year as basic or advanced life support provider.

## Emergency Medical Services – Basic

**Note:** Prior to registering for any EMSB course students must attend a new student orientation session.

### Emergency Medical Technician EMSB 1020 6 Credits

This certificate meets the needs of the entry-level Emergency Medical Technician for direct employment in an emergency ambulance service, basic transport service, an emergency room, police department, security department or fire department. Completion of the EMT course prepares the student for the National Registry of EMT examination. Successful completion of the National Registry exam is recognized by the State of Minnesota to generate the state certification required to work and volunteer as an EMT in Minnesota.

**Prerequisite:** The National Registry of EMT examination testing requires a minimum age of 18. Proof of current/unexpired AHA (American Heart Association) Healthcare Provider CPR card required prior to end of EMT course. (The AHA Healthcare Provider CPR course may be taken concurrently with EMT course.). Students must successfully pass a Background Study through the Minnesota Human Services Department and the Emergency Medical Services Regulatory Board (EMSRB).

### Emergency Medical Technician– Refresher

#### EMSB 1022 2 Credits

This course, approved by the EMSRB, will refresh the student with the most current EMT standards in the State of Minnesota. It is intended as an update on revised emergency care skills and techniques for re-certification. Completion of course requirements and a successful State of Minnesota practical test will result in a renewed two-year certification as a Minnesota certified EMT. Student must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Current AHA BLS for the Healthcare Provider CPR card prior to course completion; must provide Minnesota EMT number and expiration date. **Recommendation:** As a result of

1999 Minnesota Legislation, EMTs who have committed misdemeanors, gross misdemeanors, or felonies may not qualify to regain certification as a Minnesota or Nationally Registered EMT. Students whose EMT status has been expired for more than one year will need to contact the EMSRB to determine if this course will fulfill all the requirements needed to regain certification as an EMT in the State of Minnesota.

## Emergency Medical Services – Experienced

### (Paramedic for the Experienced EMT Program)

**Note:** Prior to registering for any EMSE course students must attend a new student orientation session.

#### Paramedic Preparation

##### EMSE 1140 1 Credit

This course is designed for experienced EMT's desiring entry into the Paramedic Program. Students will perform skills and demonstrate proficiency in areas required for entrance into EMSE 1141. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Application and acceptance into the Paramedic Program; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current State EMT certification; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

#### Introduction to Paramedics

##### EMSE 1141 3 Credits

This course introduces the student to the roles, responsibilities, and ethics of a paramedic. It integrates a comprehensive understanding of the EMS systems, medical-legal issues, and the safety and well-being of a paramedic. An overview of medical terminology, acid-base balance, and the anatomy and physiology of the human body is also emphasized. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1140

with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

#### Advanced Assessment, Communication, and Documentation

##### EMSE 1146 2 Credits

This course introduces advanced life support patient assessment concepts, skills, and prioritization. It also provides opportunities for developing critical thinking skills and life-saving interventions in the out-of-hospital environment. Emphasis is placed upon radio communication and documentation. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1141 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

#### Advanced EMS Operations

##### EMSE 1148 1 Credit

This course introduces concepts and skills in the areas of triage, resource management, and incident command during a simulated Mass Casualty Incident (MCI). Students will design and participate in a multi-station MCI tabletop exercise. Emphasis includes special considerations for patient care at the scene of a crime. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1141 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

## 7 Course Descriptions

### **Advanced EMS Pharmacology EMSE 1149 3 Credits**

This course introduces the applications and principles of pharmacological interventions and intravenous cannulation commonly used in the prehospital environment. Emphasis is placed upon drug classifications, dosage calculations, pharmacokinetics, and pharmacodynamics of medications and their administration routes and techniques. Students will practice IV/IO access, blood draws, and medication administration skills. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1146 with a grade of "C" or higher; assessment score placement in MATH 0030/1000 or above, or completion of MATH 0010 with a grade of "C" or higher, or completion of MATH 1000 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Medical Emergencies I EMSE 1153 4 Credits**

This course develops the student's ability to formulate and manage a comprehensive treatment plan for a medical emergency encountered in the prehospital setting. Emphasis is placed upon shock, advanced respiratory interventions, and renal and anaphylactic emergencies. A practicum will allow students to synthesize didactic and practical assessment skills in simulated emergency scenarios and occupational settings. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1149 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Medical Emergencies II EMSE 1154 4 Credits**

This course provides the student with knowledge and skills to manage and formulate a comprehensive treatment plan for a medical emergency encountered in the prehospital setting. Emphasis is placed upon toxicology, environment, psychiatry, crisis management, neurology, death and dying, cultural diversity, and communicable disease, and infection. A practicum will allow students to synthesize didactic and practical assessment skills in mock scenarios and a hospital setting. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1149 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Prehospital Cardiac Care I EMSE 1160 4 Credits**

This course introduces the paramedic student to cardiac anatomy and physiology, cardiovascular diseases, and the function of the heart. Additional topics include EKG interpretation and cardiac monitoring devices. The student will apply their cardiac knowledge in classroom simulations. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1154 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Prehospital Cardiac Care II EMSE 1161 4 Credits**

This course builds upon EMS 1160 and presents concepts and skills for assessing and managing the out-of-hospital cardiac patient. Emphasis will be placed upon recognition, interpretation and management of EKG rhythms, and cardiac arrest management with

the use of pacemakers, defibrillators, and medications. A practicum, with occupational experiences in a cardiac cath lab, coronary care unit, and emergency departments, will provide the student with an opportunity to provide paramedic-level interventions. Obtaining ACLS Provider certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1160 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Prehospital Trauma Care EMSE 1164 1 Credit**

This course provides the paramedic student with the concepts, theory, and skills to effectively assess and manage a trauma patient. Students will synthesize material learned in simulated scenarios and advanced skills evaluations. Obtaining ITLS or PHTLS Advanced certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1161 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Pre-Hospital Special Populations EMSE 1166 5 Credits**

This course will provide the paramedic student with the concepts, theory, and skills to assess and manage the special patient populations. Emphasis will be placed upon pediatric, gynecologic, obstetric, neonate, and geriatric patients during simulated scenarios. A practicum, with clinical experiences in obstetrics, pediatrics, and a specialty-care hospital, will provide the student with an

opportunity to observe and provide paramedic-level interventions. Obtaining PALS and PEPP provider certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1161 with a grade of “C” or higher; Minnesota Human Services background study with no restrictions; current AHA BLS Healthcare Provider certification; current state EMT certification; required immunizations; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Paramedic Preparation and Assessment EMSE 1170 2 Credits**

This course assesses the paramedic student’s advanced skills in preparation for field experience and National Registry practical testing. Students will also be introduced to best practices in job seeking and career planning in the EMS profession. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1148, EMSE 1164, EMSE 1166 with a grade of “C” or higher. Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum I EMSE 1175 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with a high-volume metropolitan ambulance provider. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1170 with a grade of “C” or higher; Minnesota

Human Services background study with no restrictions; current state EMT certification; current AHA BLS Provider certification; required immunizations; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum II EMSE 1176 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with a community-based ambulance provider. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1170 with a grade of “C” or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS Provider certification; required immunizations; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum III EMSE 1177 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with specialty providers which may include police departments, fire departments, critical care transportation, and fixed or rotary wing air ambulances. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSE 1170 with a grade of “C” or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS Provider certification;

required immunizations; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Integration and Transition to the Paramedic Role**

#### **EMSE 1180 1 Credit**

This course is designed to synthesize and assess the paramedic student’s hospital and ambulance experiences. Emphasis will be placed upon preparation for the National Registry Computer-Based Test (CBT) and regulatory requirements for the EMS profession.

**Prerequisite:** Completion of EMSE 1175, EMSE 1176, and EMSE 1177 with a grade of “C” or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS Provider certification; current healthcare insurance; valid driver’s license; driver’s license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

## Emergency Medical Services – Paramedic

---

**Note:** Prior to registering for any EMSP course students must attend a new student orientation session.

### **Introduction to Paramedics EMSP 1041 5 Credits**

This course introduces the student to the roles, responsibilities, and ethics of a paramedic. It integrates a comprehensive understanding of the EMS systems, medical-legal issues, and the safety and well-being of a paramedic. An overview of medical terminology, acid-base balance, and the anatomy and physiology of the human body is also emphasized. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current State EMT certification; current healthcare insurance; valid driver’s license; driver’s license

## 7 Course Descriptions

check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Assessment, Communication, and Documentation**

#### **EMSP 1046 3 Credits**

This course introduces advanced life support patient assessment concepts, skills, and prioritization. It also provides opportunities for developing critical thinking skills and applying life-saving interventions in the out-of-hospital environment. Emphasis is placed upon radio communication and documentation. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1041 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current State EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced EMS Operations**

#### **EMSP 1048 3 Credits**

This course introduces special considerations for patient care at the scene of a crime as well as operational aspects of working while specialized rescue efforts are occurring. Additional emphasis also includes special concepts and skills in the areas of triage, resource management, and incident command, and Mass Casualty Incident (MCI) scenario. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1041 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced EMS Pharmacology**

#### **EMSP 1049 4 Credits**

This course introduces the applications and principles of pharmacological interventions and intravenous cannulation commonly used by paramedics. Emphasis is placed upon drug classifications, dosage calculations,

pharmacokinetics, and pharmacodynamics of medications and their administration routes and techniques. Students will practice IV/IO access, blood draws, and medication administration skills. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1046 and EMSP 1048 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Medical Emergencies I**

#### **EMSP 1053 4 Credits**

This course develops the student's ability to formulate and manage a comprehensive treatment plan for a medical emergency encountered in the pre-hospital setting. Emphasis is placed upon shock, advanced respiratory interventions, and renal and anaphylactic emergencies. Simulations will allow students to utilize didactic and practical assessment skills in simulated emergency scenarios. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1049 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current state EMT certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Medical Emergencies II**

#### **EMSP 1054 4 Credits**

This course provides the student with knowledge and skills to manage and formulate a comprehensive treatment plan for a medical emergency encountered in the prehospital setting. Emphasis is placed upon toxicology, environment, psychiatry, crisis management, neurology, death and dying, cultural diversity, communicable disease, and infection. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1053 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Prehospital Cardiac Care I**

#### **EMSP 1060 2 Credits**

This course introduces the paramedic student to cardiac anatomy and physiology, cardiovascular diseases, and the function of the heart. Additional topics include EKG interpretation and cardiac monitoring devices. The student will apply their cardiac knowledge in classroom simulations. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1053 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current State EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Prehospital Cardiac Care II**

#### **EMSP 1061 4 Credits**

This course builds upon EMSP 1060 and presents concepts and skills for assessing and managing the out-of-hospital cardiac patient. Emphasis will be placed upon recognition, interpretation and management of EKG rhythms, and cardiac arrest management with the use of pacemakers, defibrillators, and medications. Obtaining ACLS Provider certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1060 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

## 7 Course Descriptions

### **Advanced Prehospital Trauma Care EMSP 1064 2 Credits**

This course provides the paramedic student with the concepts, theory, and skills to effectively assess and manage a trauma patient. Students will synthesize material learned in simulated scenarios and advanced skills evaluations. Obtaining ITLS or PHTLS Advanced certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1061 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Prehospital Special Populations EMSP 1066 4 Credits**

This course will provide the paramedic student with the concepts, theory, and skills to assess and manage special patient populations. Emphasis will be placed upon pediatric, gynecologic, obstetric, neonate, and geriatric patients during simulated scenarios. Obtaining PALS and PEPP provider certification is a component of this course. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1068 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current AHA BLS for the Healthcare Provider certification; current state EMT certification; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills. **Recommendation:** Basic word processing skills.

### **Paramedic Preparation and Assessment EMSP 1070 3 Credits**

This course assesses the paramedic student's advanced skills in preparation for field experience and National Registry practical testing. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1064 and

EMSP 1066 with a grade of "C" or higher. Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Clinical Practicum I EMSP 1071 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with occupational experiences in a cardiac cath lab, coronary care unit, and emergency department. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1070 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Clinical Practicum II EMSP 1072 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with occupational experiences in anesthesia, labor and delivery, neurological, and special care units. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1070 with a grade of "C" or higher; Minnesota Human Services background study with no

restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum I EMSP 1075 4 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with a high-volume metropolitan ambulance provider. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1071 and EMSP 1072 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum II EMSP 1076 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with a community-based ambulance provider. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1071 and EMSP 1072 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance;

## 7 Course Descriptions

valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Advanced Life Support Practicum III EMSP 1077 3 Credits**

This practicum provides the student with opportunities for entry-level paramedic care with specialty providers which may include police departments, fire departments, critical care transportation, and fixed or rotary wing air ambulances. Under instructor and preceptor guidance, the student will synthesize and apply theories and skills learned throughout the program. Emphasis will be placed upon team leading, critical thinking, prioritization, assessment, therapeutic communication, and life-saving interventions. Students must be able to perform physical tasks to complete course requirements.

**Prerequisite:** Completion of EMSP 1071 and EMSP 1072 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; required immunizations; current healthcare insurance; valid driver's license; driver's license check passed according to MnSCU policy.

**Recommendation:** Basic word processing skills.

### **Integration and Transition to the Paramedic Role EMSP 1080 2 Credits**

This course is designed to synthesize and assess the paramedic student's hospital and ambulance experiences. Emphasis will be placed upon preparation for the National Registry Computer-Based Test (CBT) and regulatory requirements for the EMS profession.

**Prerequisite:** Completion of EMSP 1075, EMSP 1076, and EMSP 1077 with a grade of "C" or higher; Minnesota Human Services background study with no restrictions; current state EMT certification; current AHA BLS for the Healthcare Provider certification; valid driver's license; driver's license check passed according to MnSCU policy. **Recommendation:** Basic word processing skills.

## Engineering

### **Introduction to Engineering ENGR 1020 4 Credits**

This course presents the art and practice of engineering. Topics include an overview of the engineering profession, engineering design, fabrication, prototyping, use of computer packages, and visual, oral, and written communication. Engineering graphics will be presented including the use of CAD software. Team and individual project work includes reverse engineering of existing products and creative design and fabrication of new ideas and products. Speakers from industry will discuss engineering career options. The Century engineering curriculum and transfer options will be presented.

### **Statics ENGR 1080 3 Credits**

This course examines rigid body mechanics where bodies are in equilibrium. Topics include force and moment vectors, principles of statics, and equilibrium analysis. In addition, the course covers static analysis of simple trusses, frames, and machines. Also distributed loads, centroids, moments of inertia, and principles of friction will be presented. Design of simple structures in equilibrium is integrated throughout the course.

**Prerequisite:** PHYS 1081 and concurrent enrollment in MATH 1082.

### **Independent Study ENGR 1790 1 - 3 Credits**

This course is an opportunity for an additional, in-depth study of engineering concepts.

**Prerequisite:** Consent of instructor and dean. Completion of at least one Engineering course with a grade of "B" or above.

### **Robotics ENGR 2020 4 Credits**

This hands-on course will introduce students to mechatronics, which is the fusion of electronics, mechanical systems, and software. A robot is an example of mechatronics as are the intelligent machines and products that we see all around us. The course begins with microcontroller concepts, BASIC programming, electronics concepts, various types of sensors, motors and other actuators, and then proceeds

to more advanced topics such as analog to digital conversion, serial communication, signal conditioning, and various methods of process control. Hands on, team based design projects will be integrated throughout the course.

**Prerequisite:** ENGR 1020 or ENGR 2091 or ENGR 2095 or consent of instructor.

### **Dynamics ENGR 2080 3 Credits**

This course is a study of rigid body motion and the forces that cause motion. Topics include particle dynamics, planar kinematics, kinetics of a rigid body, and mechanical vibrations. Design of elementary dynamic systems is integrated throughout this engineering course.

**Prerequisite:** ENGR 1080.

### **Deformable Body Mechanics ENGR 2085 3 Credits**

This engineering course examines the internal effects and deformations that are caused by applied loads on a body. Topics include stress and strain, material behavior and linear elasticity, uniaxially loaded members, shafts in torsion, beams in bending, shear and moment diagrams, stress and strain transformation, and design of shafts and beams.

**Prerequisite:** ENGR 1080.

### **Circuits I ENGR 2091 4 Credits**

This first course in engineering circuits introduces circuit theorems and analysis techniques and includes an introduction to elementary semiconductor devices. Topics include Kirchhoff's Laws, mesh analysis, nodal analysis, source transformations, superposition, Thevenin's theorem, operational amplifiers, bipolar junction transistors, MOSFETs, and RLC circuits. Circuits analysis software is introduced. Design of simple electrical circuits is integrated throughout this course. This course includes a two-hour lab each week.

**Prerequisite:** PHYS 1082; concurrent enrollment in MATH 2081.

### **Circuits II ENGR 2092 4 Credits**

This course builds on information and skills developed in Circuits I and focuses on AC circuit theory. Topics include sinusoidal analysis, phasors, frequency response, two-port networks, Laplace transforms, and

frequency response. The frequency response of BJT and MOSFET amplifiers is presented. Design of AC circuits is integrated throughout the course. This course includes a two-hour lab each week.

*Prerequisite:* ENGR 2091; concurrent enrollment in MATH 2082.

**Digital Fundamentals**  
**ENGR 2094 2 Credits**

This course provides an introduction to digital circuits and is intended primarily for mechanical engineering students. Topics include Boolean algebra, logic gates, Karnaugh mapping, and analysis of combinational circuits. The course includes a two-hour lab each week for eight weeks.

*Prerequisite:* MATH 1081. *Restriction:* Credit will not be granted for both ENGR 2094 and ENGR 2095.

**Introduction to Digital Design**  
**ENGR 2095 4 Credits**

This course presents important digital design concepts for students studying electrical or computer engineering. A variety of analysis and design techniques applicable to digital circuits is introduced. Topics include Boolean algebra, logic gates, Karnaugh mapping, combinational circuits, sequential circuits, and computer simulation of digital circuits. This course includes a two-hour lab each week.

*Prerequisite:* MATH 1081. *Restriction:* Credit will not be granted for both ENGR 2094 and ENGR 2095.

## Engineering CAD Technology

**Interpreting Engineering Drawings**  
**ECAD 1020 2 Credits**

This course is designed to give students an understanding of the concepts required to read industrial blueprints. Topics include sketching, multiview drawing, symbols, scaling, dimensioning, finishes, screw threads, auxiliary and assembly drawings. Also covered is an introduction to Geometric Tolerancing.

*Restriction:* Closed to students who have already earned credit for ECAD 1023 Blueprint Reading for Renewable Energy.

*Recommendation:* MATH 0010.

**How to Make Almost Anything**  
**ECAD 1025 3 Credits**

This course is an introduction to “personal digital fabrication” using the Century College Fab Lab modeled after the Fab Lab at MIT. It is designed for “garage inventors”, entrepreneurs, artists, or individuals with new business ideas needing to create prototypes. Students will use laser cutters, 3-D printers, vinyl cutters, ShopBot CNC routers, and desktop milling machines to fabricate and test their design projects. The Lab is designed to allow students to explore their interests in a variety of fields including graphic design, art, business, computer-assisted design (CAD), physical and natural science, mathematics, and engineering.

**Engineering Drafting I**  
**ECAD 1040 4 Credits**

In this course students will use CAD software to create various geometric constructions, multiview drawings, 1st & 3rd angle projections, and simple dimensioning. Detail drawings will be created that incorporate auxiliary and section views, tolerancing, and finishes. Other topics include an overview of the drafting profession, drafting office practices, revisions, and standard parts.

*Prerequisite:* ECAD 1020, 1070; an assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade of “C” or higher.

**Introduction to CADkey**  
**ECAD 1050 3 Credits**

This course will introduce students to CADkey software. Students will create, manipulate and edit 2D geometry and symbols and section, dimension, and print 2D drawings. Creation of 3D models and drawings from those models will also be covered. Students will work in a self-paced open-lab setting.

*Prerequisite:* ECAD 1020 or equivalent experience. *Recommendation:* ECAD 1070 or equivalent experience.

**Materials and Manufacturing Process**  
**ECAD 1060 3 Credits**

When designing and drafting industrial products, the individual parts, materials, and manufacturing processes must be considered. This course is an introduction to engineering materials and properties; common

manufacturing processes such as casting, forging, machining, welding, forming, and molding.

*Recommendation:* MATH 0010.

**Introduction to AutoCAD**  
**ECAD 1070 3 Credits**

This course teaches the fundamental concepts, tools, and commands of the AutoCAD software. AutoCAD knowledge learned includes skills necessary to draw, edit, set up and plot drawings, as well as to display two-dimensional drawings. Learning to identify the components of AutoCAD drawings will be part of this process. This course will be taught with a hands-on approach to learning and will build a foundation for continued training or self-instruction.

*Recommendation:* Previous experience with drawings in your chosen field or completion of any the following courses: ECAD 1020, INTD 1020 or KBD 1010. MATH 0010 with a grade of “C” or higher, or an assessment score placement in MATH 0030.

**ECAD Independent Study**  
**ECAD 1790 1 - 4 Credits**

This variable-credit elective course emphasizes the student’s independent search for advanced knowledge as well as additional hands-on skills beyond current ECAD course offerings.

The student and instructor will devise a formal plan of study to satisfy credit workload requirements within the semester timeline.

*Prerequisite:* Consent of instructor and dean. ECAD 1070 or ECAD 2050 or ECAD 2055 or its equivalent with a grade of “B” or higher.

**Geometric Dimensioning and Tolerancing**  
**ECAD 2020 2 Credits**

This course provides in-depth coverage of form, orientation, runout, profile, and location tolerances. Applications include analyzing production drawings, investigating inspection procedures, and calculating and specifying tolerances.

*Prerequisite:* Assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade of “C” or higher. ECAD 1020 or consent of instructor. *Recommendation:* Completion of MATH 0030; concurrent enrollment with ECAD 2025.

## 7 Course Descriptions

### **Geometric Dimensioning and Tolerancing Lab**

**ECAD 2025 1 Credit**

In this course, students will investigate tooling, machining and inspection aspects of GDT.

*Prerequisite:* Assessment score placement in MATH 0030 or above, or completion of MATH 0010 with a grade of "C" or higher; ECAD 2020 or concurrent enrollment or consent of instructor. *Recommendation:* MATH 0030.

### **Descriptive Geometry and Applications**

**ECAD 2030 2 Credits**

Students will graphically solve problems dealing with true lengths, sizes, distances, angles and intersections of various points, lines and planes. Other topics include vectors, sheet metal development and detail drawings and bend allowance calculations.

*Prerequisite:* ECAD 1040; assessment score placement in MATH 0070 or above, or completion of MATH 0030 with a grade of "C" or higher. *Recommendation:* ECAD 2050, MATH 1015 strongly recommended

### **Engineering Drafting II**

**ECAD 2040 4 Credits**

This course covers assembly, production and pictorial drawings. CAD models and drawings will be created based on various manufacturing processes such as casting, forging, molding, machining, and welding. Other topics include joining methods using threaded and non-threaded fasteners.

*Prerequisite:* ECAD 1040, ECAD 1060; completion of or concurrent enrollment in the following courses: ECAD 2020, MATH 1015. *Recommendation:* ECAD 2050 or ECAD 2055.

### **Introduction to Inventor**

**ECAD 2050 3 Credits**

Students will use Autodesk's Inventor software to sketch, create, edit, and dimension 3D solid models, as well as create 2D drawings from these models. Assembly modeling and 2D & 3D printing are also covered. These skills are necessary for job qualification in many areas such as mechanical design and engineering. The class uses a hands-on approach in order to build a foundation for continued training or self-instruction.

*Prerequisite:* ECAD 1070 or ENGR 1020 or instructor consent.

### **Introduction to Pro/Engineer**

**ECAD 2055 3 Credits**

Students will use Pro/Engineer software by Parametric Technology Corp. to sketch, create, edit, and dimension 3D solid models. They will also create 2D drawings from these models and assemble them. 2D & 3D printing are also covered. Many mechanical design and engineering jobs require these skills for entry. The class uses a hands-on approach in order to build a foundation for continued training or self-instruction.

*Prerequisite:* ECAD 1020 or ENGR 1020 or instructor consent. *Recommendation:* ECAD 2050.

### **Basic Tooling Fixtures**

**ECAD 2060 3 Credits**

This course will introduce students to tool design. Topics include workholding theory, standard tooling components, drill jigs, milling fixtures, and inspection gages.

*Prerequisite:* ECAD 1060, ECAD 2040. *Recommendation:* ECAD 2050 or ECAD 2055.

### **Power Transmission Devices**

**ECAD 2070 4 Credits**

Topics covered include determining dimensions, loads, stresses and sizes of gears, cams, bearings, seals, clutches, belt and chain drives to create detail and assembly drawings. Various design practices will be discussed.

*Prerequisite:* MATH 1015, PHYS 1041, ECAD 2040.

### **Applying Pro/E**

**ECAD 2075 3 Credits**

Students will use Pro/Engineer software to investigate applications such as assemblies, product design, tool design and more advanced modeling commands.

*Prerequisite:* ECAD 2055, ECAD 2060. *Recommendation:* MATH 1015.

### **Design Project**

**ECAD 2080 2 Credits**

This course introduces students to various design methodologies such as Concurrent Engineering, Design for Manufacture (DFM), Design for Assembly (DFA), Green Design, and others. Students apply these methodologies to a design project of their own by creating a CAD model and prototype of the design.

*Prerequisite:* ECAD 1025 or ECAD 1060, ECAD

2040 or ENGR 1020, MATH 1015 or higher, PHYS 1041 or higher. *Recommendation:* Concurrent enrollment in ECAD 2070.

### **ECAD Internship**

**ECAD 2780 1 - 3 Credits**

This course is designed to provide students the opportunity to apply knowledge and skills learned in the Engineering CAD program in a real life job environment. Students will work in a professional atmosphere while applying and learning a variety of communication, business and technical skills. This may be a paid or unpaid experience.

*Prerequisite:* Completion of at least 15 ECAD credits and consent of instructor.

### **Special Topics in Engineering CAD**

**ECAD 2790 1 - 3 Credits**

This course will explore one of a variety of contemporary topics of interest that would be selected as the focus for study. The specific topic will be announced in advance, and published at the time of registration.

## English

Note: Students registering for an English course for the first time must take a reading and writing assessment as described in the Assessment section of this publication. Students must begin any English coursework at their assessed skill level. Students who do not follow listed assessment and prerequisite requirements will be required to change registration to comply with Century's Assessment Policy.

### **Basic Writing and Grammar**

**ENGL 0080 4 Credits**

The main purpose of this course is to develop and/or enhance the student's use of English sentences and increase competence in recognizing and composing sentences and short paragraphs. Special emphasis will be placed on eliminating common errors such as fragments, comma splices, and run-ons. Students enrolled in sections of 0080 meeting fewer than four hours per week must complete one hour per week of supervised writing center time.

*Prerequisite:* Assessment score placement

## 7 Course Descriptions

in ENGL 0080 or above and assessment score placement in RDNG 0080 or above.

**Restriction:** Students may not enroll in more than one composition course in one semester.

### **Introduction to Writing ENGL 0090 4 Credits**

This course introduces students to basic principles of composition, including organization, development, unity, and coherence in paragraphs and brief essays. Special emphasis will be placed on eliminating common errors and increasing fluency. Students enrolled in sections of 0090 meeting fewer than four hours per week must complete one hour per week of supervised writing center time.

**Prerequisite:** Assessment score placement in ENGL 0090 or completion of ENGL 0080 with a grade of "C" or higher, and assessment score placement in RDNG 0090 or above or completion of RDNG 0080 with a grade of "C" or higher.

### **Composition I ENGL 1021 4 Credits MnTC: Goal 01**

This college composition course for all students emphasizes the expository essay, purposeful writing, selection and organization of material, and fluency. Students will be introduced to citing and documenting outside sources. Students enrolled in sections of 1021 meeting fewer than four hours per week must complete one hour per week of supervised writing center time.

**Prerequisite:** Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher, and assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher. **Restriction:** Students may not enroll in more than one composition course concurrently.

### **Composition II ENGL 1022 3 Credits MnTC: Goal 01**

This college composition course emphasizes analytical writing and the techniques of academic research using literature and other texts as the basis for composition.

**Prerequisite:** ENGL 1021 with a grade of "C" or higher. **Recommendation:** Word processing proficiency.

### **Technical Writing ENGL 1025 3 Credits**

This course emphasizes writing in workplace environments using current technology. Typical assignments include instructions, informational reports, abstracts and summaries, proposals for action, letters of application, and extended projects. The course includes consideration of format, design, and visuals. This course assumes familiarity with a word processing program.

**Prerequisite:** ENGL 1021 with a grade of "C" or higher.

### **American Literature: Colonial to Civil War ENGL 2011 3 Credits MnTC: Goal 06**

This college literature course intended for all students will analyze and explore American Literature from the Colonial Period to the Civil War. Typical writers may include Bradstreet, Edwards, Franklin, Emerson, Thoreau, Fuller, Hawthorne, Douglass, Melville, Poe, Dickinson, and Whitman.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** Completion of ENGL 1021 with a grade of "C" or higher.

### **American Literature: Civil War to Present ENGL 2012 3 Credits MnTC: Goals 06 & 07**

This college literature course intended for all students will analyze and explore American Literature from the Civil War to the present. Typical writers may include Clemens, Crane, Chopin, James, Cather, Fitzgerald, Hughes, Faulkner, Thurston, Hemingway, and Frost.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** Completion of ENGL 1021 with a grade of "C" or higher.

### **African American Literature ENGL 2013 3 Credits MnTC: Goals 06 & 07**

This college course intended for all students will analyze and explore literature by African American authors. Authors may include Alice Walker, Frederick Douglass, Ida B. Wells-Barnett, Langston Hughes, Richard Wright, Zora Neal Hurston, and Dr. Martin Luther King, Jr.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. **Recommendation:** Completion of ENGL 1021 with a grade of "C" or higher.

### **Minnesota Writers ENGL 2014 3 Credits MnTC: Goal 06**

This college course intended for all students will explore literature by Minnesota writers. Selections may include poetry, novels, short stories, and non-fiction by such writers as Sinclair Lewis, F. Scott Fitzgerald, Jim Northrup, Allison McGee, Connie Wanek, and Bill Holm.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** Completion of ENGL 1021 with a grade of "C" or higher.

### **American Indian Literature ENGL 2015 3 Credits MnTC: Goals 06 & 07**

This college literature course intended for all students will analyze and explore an introductory survey of major literary works written by and/or attributed to American Indian authors, from the oral tradition to contemporary literature. Selections may include works by Sherman Alexie, Black Elk, Ella Vine Deloria, Louise Erdrich, Linda Hogan, N. Scott Momaday, and Leslie Marmon Silko.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Introduction to Folklore ENGL 2018 3 Credits MnTC: Goals 06 & 07**

In this course, students will be introduced to the study of folklore. They will learn to critically analyze traditional folk literature and customary texts through literary, comparative, structural, functional, and contextual methods. Texts may include myths, legends, folktales, riddles, proverbs, and material folklore.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** Completion of ENGL 1021 with a grade of "C" or higher.

## 7 Course Descriptions

### **Creative Writing: Poetry & Fiction**

**ENGL 2023 3 Credits**

**MnTC: Goal 06**

This creative writing course focuses on the writing and reading of poetry and fiction. Students will engage in critical analysis, form aesthetic judgments, and write and revise poems and short stories. This course does not fulfill the Literature requirement for the A.A. or MnTC.

*Prerequisite:* Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

### **Creative Writing: Nonfiction**

**ENGL 2025 3 Credits**

**MnTC: Goal 09**

This course offers study and practice of various forms of nonfiction writing including the personal narrative/memoir, personality profile, event story, and opinion pieces. Writing suitable for publication in popular newspapers, magazines, and journals is emphasized. This type of writing is fundamental to the free exchange of ideas in society, a necessary mechanism of understanding for a variety of viewpoints required by well-informed citizens.

*Prerequisite:* Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

### **Newspaper Practicum**

**ENGL 2027 1 - 2 Credits**

This course offers academic credit for work involved as a staff member of the campus student newspaper, The Century Times. Two options are available. One Credit Contributor: Staff member will attend staff meetings, contribute story ideas, and collaborate with other staff members to produce issues. Staff member will contribute to each issue by writing an article and/or taking photographs, editing stories, designing and laying out pages, managing advertisements, and other duties as assigned. Two Credit Major Contributor: In addition to the duties of the One Credit Contributor, staff member will make a major contribution to each issue by serving a leadership role. Duties will include: assigning stories, photos, editing, and other tasks to staff

members; making editorial decisions on final content and layout of all issues; organizing staff meetings and workshops; and promoting the newspaper at campus activity fairs and events.

*NOTE:* This course may be taken in multiple semesters up to a maximum of 8 credits. Recommendation: Concurrent enrollment in or completion of ENGL 2025.

### **British Literature: Medieval to Romantic**

**ENGL 2031 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze early British Literature. Typical authors may include Chaucer, Shakespeare, Donne, Milton, and Pope.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **British Literature: Romantic to Present**

**ENGL 2032 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze and explore British Literature from 1800 to the present. Typical authors may include works by Mary Shelley, Austen, Dickens, Woolf, Shaw, and Eliot.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Shakespeare**

**ENGL 2035 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze a representative selection of works by William Shakespeare. The course will consider what the plays reveal about Elizabethan societies as well as what they suggest about the human condition in general.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Literature and Film**

**ENGL 2043 3 Credits**

**MnTC: Goal 06**

This college literature course intended for all students will analyze and explore Literature and Film. Students will explore written and visual texts in order to understand the scope and variety of the human experience. Students will read, discuss, and analyze narrative texts as expressions of the human experience. Some attention will be given to film terminology and techniques.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Modern World Literature**

**ENGL 2051 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will introduce and explore Modern World Literature from the first half of the 20th century. Course offerings may include poetry, fiction, and/or drama with a global perspective.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Contemporary World Literature**

**ENGL 2052 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze and explore Contemporary World Literature from 1945 to the present. Course offerings may include poetry, fiction, and/or drama with a global perspective.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Mythology**

**ENGL 2055 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze and explore several major works of classical and world mythology and relate the works and ideas to modern thought and world literature.

*Prerequisite:* Assessment score placement

## 7 Course Descriptions

in RDNG 1000 or above, or completion of RDNG 0090 with a grade of 'C' or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of 'C' or higher.

### **An Introduction to African Literature ENGL 2057 3 Credits**

**MnTC: Goals 06 & 08**

Africa's literary backdrop is as vibrant and varied as the gamut of peoples, cultures, languages, and histories that make up the world's second largest continent. In this course students will retrace the major developments of African literature from the oral to the written, thereby exploring the different themes and the diversely rich approaches used by the practitioners of these different forms. From the epic of Shaka Zulu to the enthralling novels of Linus Asong, African literature offers exciting insights to the interplays of orality and literacy, of the ancient and the modern.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Middle Eastern Literature ENGL 2058 3 Credits**

**MnTC: Goals 06 & 08**

This course, intended for all students, will analyze and explore Middle Eastern literature in the post-colonial era. It will examine major representative works of poetry, fiction and drama written by well-known Middle Eastern authors representing a variety of Middle Eastern countries, such as Egypt, Saudi Arabia, Algeria, Sudan, Lebanon, Palestine and Israel.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Women in Literature: British & Colonial ENGL 2061 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will discuss, analyze, and interpret works written in English by women in England and the British Empire.

*Prerequisite:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Women in Literature: American ENGL 2062 3 Credits**

**MnTC: Goals 06 & 09**

This college literature course intended for all students will explore literature written by American women in their own distinct literary tradition, perspectives, and themes. Works are considered as a reflection of their times, including social, ethical, political, and economic conditions.

*Prerequisite:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Women in Literature: World Voices ENGL 2063 3 Credits**

**MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze and explore literary works by contemporary women writers from six major regions of the non-Western world such as the Caribbean, Latin America, Sub-Saharan Africa, the Middle East, South Asia, and East Asia. Readings include translated short stories, poems, plays, and novels.

Students are encouraged to better understand an increasingly interdependent world and be exposed to some intellectual and psychological challenges posed by values and ways of life that are very different from their own.

*Prerequisite:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Children's Literature ENGL 2071 3 Credits**

**MnTC: Goal 06**

This college course intended for all students will analyze and explore the literature written for children. Students will explore the history of children's literature, children's poetry, picture books, realistic and fantasy novels as well as criteria for evaluating these works. Selections may include works by E. B. White, J. K. Rowling, Mildred Taylor, and Christopher Paul Curtis.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Graphic Narratives: Comics as Literature ENGL 2072 3 Credits**

**MnTC: Goal 06**

This college literature course intended for all students will analyze and explore selected graphic novels and other comics. Students will

study the literary and formal design elements of the works selected and consider the unique features of this medium. Selections may include works by Lynda Barry, Daniel Clowes, Will Eisner, Neil Gaiman, Scott McCloud, Alan Moore, Marjane Satrapi, and Art Spiegelman.

*Prerequisite:* Assessment score placement in RDNG 1000 or higher, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Short Novel ENGL 2073 3 Credits**

**MnTC: Goal 06**

This college literature course intended for all students will analyze and explore selected short novels. Authors may include Henry James, Conrad, Chopin, Wharton, James Joyce, or Faulkner.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Science Fiction and Fantasy ENGL 2075 3 Credits**

**MnTC: Goal 06**

This college literature course intended for all students will analyze and explore science fiction and fantasy literature. Authors may include Mary Shelley, H.G. Wells, Aldous Huxley, Tolkien, and LeGuin.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Mystery ENGL 2077 3 Credits**

**MnTC: Goal 06**

This college literature course intended for all students will explore mystery literature. The mystery story may include works by Poe, Conan Doyle, Sayers, Chandler, and Hillerman.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

## 7 Course Descriptions

### **Latin American Literature** **ENGL 2083 3 Credits** **MnTC: Goals 06 & 08**

This college literature course intended for all students will analyze and explore poetry, short stories, and novels by authors such as Marquez, Neruda, Borges, Allende, Lispector, Cortazar, Paz, and others.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Bible As Literature** **ENGL 2085 3 Credits** **MnTC: Goal 06**

This college literature course intended for all students will analyze and explore Biblical Literature. It may include Old Testament literature that demonstrates the genres of short story, biography, tragedy, philosophy, and epic narratives. The course does not study theology or doctrine, but rather focuses on events, characters, and literary techniques.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

### **Ethics and Environments:** **The Literature of Place** **ENGL 2095 3 Credits** **MnTC: Goals 06 & 10**

This college literature course intended for all students will analyze writing about the relationships between humans and their environments. The literature will include historical, philosophical, scientific, and literary perspectives in both fiction and non-fiction writing. Authors will be chosen from a variety of traditions and cultures.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Completion of ENGL 1021 with a grade of "C" or higher.

## English for Speakers of Other Languages

---

**Note: Enrollment for all ESOL classes is determined by a proficiency test, a writing sample, an on-site interview, and an evaluation of educational background. Students must meet with ESOL staff before registering. Call the Assessment Office at 651.779.3352 for more information about testing.**

### **Grammar and Writing II** **ESOL 0021 5 Credits**

This course focuses on basic writing skills. You will improve your grammar, writing fluency, editing skills, and ability to write short paragraphs. You will also learn to use the computer to improve your writing and editing skills.

*Prerequisite:* Appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

*Recommendation:* Students should take advantage of community based ABE/ESL programs and have some previous English reading, writing and speaking experience, along with some previous formal educational experiences to build basic academic skills.

### **Reading II** **ESOL 0022 5 Credits**

This course focuses on increasing your ability to comprehend a variety of written material. You will learn to skim for main ideas and scan for specific information. You will also develop your ability to understand vocabulary through context clues and a dictionary.

*Prerequisite:* Appropriate scores on the language proficiency test with background information, oral interview, and writing sample. *Recommendation:* Students should take advantage of community based ABE/ESL programs and have some previous English reading, writing and speaking experience, along with some previous formal educational experiences to build basic academic skills.

### **Listening and Speaking II** **ESOL 0023 5 Credits**

This course develops your self-expression and listening abilities in English. You will improve

the clarity of your speech and learn strategies for interacting in real-life speaking situations. Class activities will include video/audio tapes, lectures, demonstrations, dictations, interviews, group work and oral presentations.

*Prerequisite:* Appropriate scores on the language proficiency test with background information, oral interview, and writing sample. *Recommendation:* Students should take advantage of community based ABE/ESL programs and have some previous English reading, writing and speaking experience, along with some previous formal educational experiences to build basic academic skills.

### **Grammar and Writing III** **ESOL 0031 5 Credits**

This course focuses on practicing and developing basic writing skills by applying them to a variety of situations. You will improve your grammar, writing fluency, self-editing skills, and ability to write short essays. You will also learn to follow a writing process that will include using the computer to edit and revise your essays.

*Prerequisite:* ESOL 0021 and ESOL 0022 with grades of "C" or higher or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Reading III** **ESOL 0032 5 Credits**

This course continues to introduce the skills and strategies necessary for understanding a variety of written materials. You will begin to identify main and supporting details in non-fiction, increase your reading rate and comprehension, and analyze features of fiction. You will also learn about resources in the college library. In addition, you will build vocabulary using a variety of strategies.

*Prerequisite:* ESOL 0022 with a grade of "C" or higher or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Listening and Speaking III** **ESOL 0033 5 Credits**

This course provides an introduction to the basics of speech sound production for American English. You will learn through classroom and computer-based activities how to produce more precise consonants, consonant clusters and vowels. Intonation

## 7 Course Descriptions

and stress patterns of English will also be introduced. You will learn the IPA (International Phonetic Alphabet) to better understand the differences between written and spoken language. You will listen to short lectures, conversations, directions and media segments in order to improve your understanding of oral English.

*Prerequisite:* ESOL 0023 with a grade of "C" or higher or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Grammar and Writing IV ESOL 0041 4 Credits**

This course develops higher level writing skills for a variety of situations. You will improve your grammar, writing fluency, self-editing skills, and ability to write essays of varying lengths and genres. You will also practice and improve your writing skills through extensive writing and word processing, follow a writing process to edit and revise your essays.

*Prerequisite:* ESOL 0031 and ESOL 0032 with grades of "C" or higher, or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Reading IV ESOL 0042 4 Credits**

This course develops your ability to understand a variety of written materials. You will learn to identify main ideas and supporting details in non-fiction, increase your reading rate and comprehension, and analyze features of fiction. Summary writing and how to make use of library resources are also included. In addition, you will increase your vocabulary using a variety of strategies.

*Prerequisite:* ESOL 0032 with a grade of "C" or higher, or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Listening and Speaking IV ESOL 0043 4 Credits**

This course provides the knowledge and practice necessary to further improve your listening, speaking and pronunciation skills in English in order to help you be more successful in future academic courses. You will work on these skills through activities such as listening

to lectures, tapes, and videos, taking notes in English, doing dictations, participating in discussions, doing interviews, giving presentations and doing exercises in the language lab.

*Prerequisite:* Successful completion of ESOL 0033, or appropriate scores on the language proficiency test with background information, oral interview, and writing sample.

### **Pronunciation and Articulation of American English**

#### **ESOL 0044 2 Credits**

This course, intended for intermediate and advanced students, focuses on and provides practice in articulating the sounds of American English. Classroom and computer-based activities will show how to produce more precise consonants, consonant clusters and vowels. Students will also practice intonation and stress patterns of American English. Students will use the IPA (International Phonetic Alphabet) to better understand the differences between written and spoken language. This course requires two hours of additional practice in the language lab plus two hours of homework per week.

*Recommendation:* Prior or concurrent enrollment in ESOL 0033 or ESOL 0043.

### **English for Speakers of other Languages - Individualized Study**

#### **ESOL 0790 1 Credit**

This course provides an opportunity for students to work in any area of ESOL-for example, grammar, listening, reading, pronunciation, vocabulary-which can improve their basic skills. Programs are designed for the individual student.

*Prerequisite:* Appropriate scores on the language proficiency tests, background information, oral interview and writing sample; or grades of C or higher in other of ESOL classes. *Recommendation:* Concurrent or prior registration in another ESOL course.

### **Occupational English for Speakers of Other Languages - Grammar**

#### **ESOL 0791 1 - 3 Credits**

This course provides program support for eligible students who have been accepted into their major programs but still need ESOL support. Goals of the course are content-based and focus on the individual student's needs.

*Prerequisite:* Minimum completion of ESOL 0030s level courses with grades of "C" or higher, or assessment score placement in to ESOL 0040s level or above, or instructor approval.

### **Occupational English for Speakers of Other Languages - Writing**

#### **ESOL 0792 1 - 3 Credits**

This course provides program support for eligible students who have been accepted into their major programs but still need ESOL support. Goals of the course are content-based and focus on the individual student's needs.

*Prerequisite:* Minimum completion of ESOL 0030s level courses with grades of "C" or higher, or assessment score placement in to ESOL 0040s level or above, or instructor approval.

### **Occupational English for Speakers of Other Languages - Reading**

#### **ESOL 0793 1 - 3 Credits**

This course provides program support for eligible students who have been accepted into their major programs but still need ESOL support. Goals of the course are content-based and focus on the individual student's needs.

*Prerequisite:* Minimum completion of ESOL 0030s level courses with grades of "C" or higher, or assessment score placement in to ESOL 0040s level or above, or instructor approval.

### **Directed Grammar Study ESOL 0796 1 Credit**

In this course, students will choose 1-3 grammar points for focused study. Students will develop and implement their own study plans and will learn new strategies for studying grammar. Students will practice using computers and the internet to help with grammar. Typically, this class will meet in the classroom some weeks; other weeks, students will complete their assignments online. At the end of the course, students will demonstrate that their grammar has improved.

*Prerequisite:* ESOL 0031 with a grade of "C" or higher, or a score at the ESOL 0041 level on the language proficiency test (including background information, oral interview, and writing sample). Instructor's signature required for registration. *Recommendation:* Readiness for online learning.

## 7 Course Descriptions

### **American English: Advanced Listening and Speaking**

#### **ESOL 1033 3 Credits**

This course addresses your need to reduce accent interference, and for effective communication, both speaking and listening, in American English. You will focus on increasing verbal and nonverbal skills, improving listening comprehension, and increasing your ability to participate effectively in small and whole group processes. The skills and strategies learned in this course will serve to help you throughout your educational and professional careers.

*Prerequisite:* Successful completion of ESOL 0043 with a grade of "C" or higher, or oral interview and permission of the instructor.

### **ESOL for College**

#### **ESOL 1035 3 Credits**

This course focuses on college reading, writing, and the use of library resources. You will practice the types of writing projects and oral presentations typical of college courses. You will review the grammar of complex sentences and improve your computer skills for research and writing.

*Prerequisite:* Appropriate score on the language proficiency test with background information, oral interview and writing sample, or grades of "C" or higher in developmental levels of ESOL.

## Facility Systems Technology

---

### **Construction Technology**

#### **FST 1000 4 Credits**

This course covers building repairs including safety and building emergency systems, hand and power tools, fasteners, wall patching, wall construction, roof repairs, water damage repairs, blueprint reading, and concrete repairs. Students must be able to perform physical tasks to complete course requirements.

### **Facility Workplace Safety**

#### **FST 1001 2 Credits**

This course covers safe practices in the facilities workplace as per OSHA. Topics include Material Safety Data Sheets (MSDS), labeling, handling, storage, removal, disposal,

and recycling of hazardous toxic materials. Other topics include safety in the workplace (confined space, falls, hearing, etc.) the MN Right to Know Act; and the National Fire Protection Association (NFPA). Students must be able to perform physical tasks to complete course requirements.

### **Plumbing Basics**

#### **FST 1020 3 Credits**

This course is intended to introduce students to the repair, maintenance, and installation of various plumbing fixtures and piping systems in a facility. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1000 or concurrent enrollment, or consent of instructor.

### **Basic Electricity**

#### **FST 1030 3 Credits**

This is an introductory course in basic electrical theory and practices. This course covers electrical safety, electrical terms, Ohms Law, AC/DC circuits, series/parallel circuit layout, electric meter operation, and repairs in both the HVAC and FST fields. Students must be able to perform physical tasks to complete course requirements.

### **Electric Motors and Electric Controls**

#### **FST 1033 3 Credits**

This course deals with electrical fundamentals including types of electric motors, capacitors, AC terminology, transformers, wire sizing, codes and motors. The students will practice proper use of analog and digital meters and wiring diagrams to diagnose and repair electric motors and control circuits. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1030 or consent of instructor.

### **Locks, Keys, and Security**

#### **FST 1060 2 Credits**

This course covers cutting keys, re-keying, master keying, mounting locks, lubricating locks and operating security systems. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1000 or concurrent enrollment.

### **Commercial Electric Controls And Wiring Methods**

#### **FST 2020 3 Credits**

This course introduces the concepts and principles of three-phase commercial electric controls. Topics include building wiring systems, basic electrical circuits, service panels, switches, and receptacles. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1033 with a grade of "C" or higher or consent of instructor.

### **Computerized Maintenance and Energy Management Systems**

#### **FST 2050 3 Credits**

This course covers the basics of commercial building operation. Topics covered will include air handlers, pneumatic control systems, DDC, and analog control systems. Also included will be instruction on how energy management computers are utilized to monitor and control HVAC equipment. Instruction will also include the operation of a computerized energy management program. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* HVAC 1042 and CAPL 1000 or consent of instructor.

## French

---

### **Beginning French I**

#### **FREN 1011 5 Credits**

#### **MnTC: Goal 08**

This course is an introduction to the French language and francophone cultures. It stresses grammar, correct written and oral self-expression, aural comprehension and reading. A two-hour weekly tape or CD listening and laboratory work is required. The course introduces and discusses French-speaking cultures to provide a grounded awareness of the reach and uses of the French language around the world.

*Restriction:* If students have completed three years of high school French, consent of instructor is required. A test will be given to determine appropriate level for placement.

### **Beginning French II**

#### **FREN 1012 5 Credits**

#### **MnTC: Goal 08**

This course is a continuation of FREN 1011. It

continues to develop all four language skills (listening comprehension, speaking, writing and reading). A two-hour weekly tape or CD listening and laboratory work is required. It introduces French-speaking cultures to add more awareness of the reach of the French language around the world.

**Prerequisite:** FREN 1011 or equivalent.

**Restriction:** If students have completed four years of high school French, consent of instructor is required. A test may be given to determine appropriate level for placement.

### Independent Study

#### **FREN 1790 1 - 3 Credits**

This course is an opportunity for an additional, in-depth study of an area of the French language.

**Prerequisite:** Consent of instructor and dean. Completion of FREN 1012 or equivalent with a grade of B or above.

### Intermediate French I

#### **FREN 2021 5 Credits**

#### **MnTC: Goal 08**

This course is a comprehensive review of oral and written French employing a variety of literary and cultural texts. It strengthens the oral and aural skills developed in beginning French, and puts new emphasis on written composition. It includes a study of historical and contemporary issues facing French-speakers, and engages students in discussing the French-speaking world. A two-hour weekly tape or CDs listening, and laboratory work is required.

**Prerequisite:** FREN 1012 or equivalent.

### Intermediate French II

#### **FREN 2022 5 Credits**

#### **MnTC: Goal 08**

This course is a continuation of FREN 2021. It focuses on a comprehensive review of oral and written French employing a variety of literary and cultural texts. It puts a strong emphasis on writing, discussion, as well as research on cultural topics pertinent to French-speaking cultures and current issues that they face.

**Prerequisite:** FREN 2021 or equivalent.

### Special Topics

#### **FREN 2790 1 - 3 Credits**

Topics of special interest which may vary.

**Prerequisite:** Consent of instructor and dean.

## Geography

### Physical Geography

#### **GEOG 1021 3 Credits**

#### **MnTC: Goals 03 & 10**

Students are introduced to the physical and environmental systems of the Earth, the dynamic processes that shape and characterize our planet, and to the geography of the natural world. Processes of and scientific terminology related to the Earth's atmosphere (weather and climate), hydrosphere (water on Earth), biosphere (geography of ecological systems), and lithosphere (materials and processes of the Earth's crust) are studied. This course also examines the powerful influences people and the environment have upon each other (e.g. storms and other natural disasters; human modification of the Earth).

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher, or concurrent enrollment in RDNG 0090.

### Human Geography

#### **GEOG 1023 3 Credits**

#### **MnTC: Goals 05 & 08**

In this course students study and compare characteristics of human populations and societies. The processes underlying and explaining the geographic patterns of human activities are also examined, as are real world examples from many disciplines and diverse world regions. Study areas include human population dynamics (population growth and distribution, migrations, settlement patterns, urbanization), cultural geography (world languages and religions, folk and popular cultures), political and economic geography (political organization of the world, territorial issues, the global economy, and comparing more and less developed world regions), and land use (agriculture and industry).

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher, or concurrent enrollment in RDNG 0090.

### World Regional Geography

#### **GEOG 1031 3 Credits**

#### **MnTC: Goals 05 & 08**

This course introduces students to world regions including: U.S. and Canada, Latin America, Europe, Russia and former Soviet states, East and Southeast Asia, the Indian subcontinent, the Middle East and North Africa, Sub-Sahara Africa, and Oceania. Emphasis is on the environmental, cultural, political, and economic characteristics of each region, as well as differences and similarities from one region to another and how each is impacted by globalization.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher, or concurrent enrollment in RDNG 0090.

### Minnesota Geography

#### **GEOG 1041 3 Credits**

#### **MnTC: Goals 05 & 07**

In this course students explore the characteristics of Minnesota from a geographic perspective. Study areas include Minnesota's physical environment and natural features, population dynamics, migrations, settlement history and patterns, cultural, political, and economic characteristics, land use (e.g. agriculture and industry), and Minnesota's regions.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher, or concurrent enrollment in RDNG 0090.

### Fundamentals of Geographic Information Systems (GIS)

#### **GEOG 1051 3 Credits**

In this course, students are introduced to basic concepts in Geographic Information Systems (GIS) a computer-based set of tools, techniques, and concepts used in spatial analysis. GIS is widely used in many fields such as the environmental and social sciences. Typical activities in GIS include importing, organizing, and analyzing geographic information, and producing computerized maps. Topics covered include map design and data sources. Students will also have opportunities to gain practical experience working with GIS software.

## 7 Course Descriptions

**Recommendation:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher. Assessment score placement in MATH 0070 or higher or completion of MATH 0030 with a grade of "C" or higher. Interest in and basic familiarity with computers is important. Completion of CAPL1000 is recommended for those lacking basic computing skills.

### Global Studies

#### Introduction to Global Studies

**GST 2010 3 Credits**

**MnTC: Goals 05 & 08**

This course introduces students to the basic concepts and various trends, perspectives and interconnections of a global society. Students will examine the growing interdependence of nations and peoples and the global issues that affect these relationships. Students will explore global and regional perspectives through such topics as politics, economics, medicine, technology, history, sociology, the arts, or ethics. Offered F, S, SS.

**Prerequisite:** ENGL 1021 with a grade of "C" or higher.

### Health

#### Medical Terminology

**HLTH 1001 2 Credits**

The course includes a study of the structure of medical words/terms including the spelling, definition, pronunciation, common prefixes, suffixes, word roots, and how to combine them to form medical words. Learning strategies for dealing with new terminology as students progress in the health care field are included.

**Prerequisite:** Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a grade of "B" or higher.

#### Worker Right to Know: Health and Safety in the Workplace

**HLTH 1003 1 Credit**

Worker Right to Know is designed to provide students with an understanding of the development and application of health and

safety regulations in the workplace. Topics addressed include the Hazard Communication Standard, Minnesota Right to Know, properties of hazardous substances, labeling of hazardous materials, safety practices and equipment, and the storage and disposal of hazardous wastes. Offered F, S.

#### Basic CPR, Red Cross

**HLTH 1005 1 Credit**

A study of citizen responder principles in areas of choking, and respiratory and cardiac arrests. This is a lab course involving adult, child, and infant situations. Upon successful completion, students will receive American Red Cross certification in Standard First Aid and Adult CPR plus Infant and Child CPR. Offered F, S, SS.

**Note:** For Professional level American Heart CPR, see EMS 1010.

#### Standard First Aid and Safety

**HLTH 1010 2 Credits**

A study of first aid principles and CPR. This is a lecture-lab course that includes victim evaluation, adult, child, and infant CPR and basic first aid care. Upon completion, student will receive American Red Cross certification in "Community First Aid CPR" with adult 2-person endorsement. Offered F, S.

#### Personal and Community Health

**HLTH 1020 3 Credits**

This course explores contemporary health and wellness and implications for the individual, family, and community. The course emphasizes general health topics designed to stimulate critical thinking and awareness of where responsibility lies in the promotion of health in the home and community.

#### Women's Health

**HLTH 1035 3 Credits**

This course examines health issues affecting women throughout their life span. Current guidelines for maintaining health and promoting wellness will be included. The course will examine the impact of factors such as race, class, gender, and sexuality on women's health.

**Prerequisite:** RDNG 0090 or higher with a grade of "C" or higher or assessment score placement in RDNG 1000.

#### Stress Management

**HLTH 1040 2 Credits**

This course is for students interested in the study of stress and stress management as it relates to personal health and wellness. Emphasis will be placed on stress management techniques and strategies to improve their quality of life. In addition, this course investigates the perceptions of stress, personal challenges, illnesses related to stress, and time management.

#### Human Sexuality

**HLTH 1050 3 Credits**

This course introduces students to multiple facets of human sexuality throughout the lifespan. It will cover the dynamics of human sexuality from many perspectives: physical, psychological, socio-cultural and legal.

#### Consumer Health

**HLTH 1055 3 Credits**

This course focuses on the knowledge and skills needed to be an effective health consumer. A major emphasis of the course is critically evaluating health issues and information using scientific principles, which provide a framework for making informed decisions when selecting healthcare, products and services.

#### Drug Education

**HLTH 1060 3 Credits**

This course explores the physical, mental, and social aspects of the use and abuse of drugs. Topics include history of use, classifications of drugs, and the effects of drug use on the family and society. Emphasis is placed on the role drugs have in our society and our responsibility in preventing abuse.

#### Nutrition

**HLTH 1070 3 Credits**

This course explores the basic principles of nutrition throughout the individual lifecycle. Nutritional choices as they relate to health and wellness will be emphasized. Personal dietary analysis is included in this course.

## Health Sciences

### Introduction to Healthcare Careers HSCI 1000 3 Credits

This course is designed for students interested in exploring various careers in the healthcare industry, e.g., dental assisting/hygiene, diagnostic imaging, emergency medical services, medical assisting, medical office careers, orth-optics and prosthetics, nursing, and other allied health fields. It is an overview of how healthcare is delivered in the United States. This course will give students an opportunity to explore their future in the healthcare industry.

*Prerequisite:* Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher, or concurrent enrollment.

### Nursing Assistant HSCI 1001 4 Credits

This course introduces concepts of basic human needs, health/illness continuum, and basic nursing skills in long-term care, acute care, and/or home care environments. Skills are taught in a simulated laboratory setting utilizing demonstration and role-playing. Upon successful completion of classroom studies, students will participate in a minimum of 16 hours of supervised clinical experience in a long-term care facility. This course meets the state and federal requirements as detailed for educating the nursing assistant. Upon completion of this course, students will be eligible to take the examination for placement on the Minnesota Department of Health Nursing Assistant Registry.

*Prerequisite:* Must be 16 years of age or older. Placement into RDNG 0080 or ESOL 0032. MN Human Services Study with no restrictions.

### Acute Care Skills for the Nursing Assistant HSCI 1005 3 Credits

This course builds on skills and concepts learned in the basic Nursing Assistant curriculum. More complex theories and procedures are introduced as they pertain to nursing assistants' role with patients in acute care settings. Students will participate in classroom, skills lab, and attend a supervised

clinical in an acute care environment.

*Prerequisite:* Registered Nursing Assistant.

## Heating, Ventilation, and Air Conditioning Technology

### Sheet Metal and Metal Brazing Practices HVAC 1000 2 Credits

In this course, students will solder and braze copper tubing and will make basic sheet metal fittings. This course also introduces the student to sheet metal fabrication common to the HVAC industry. Students must be able to perform physical tasks to complete course requirements.

### Load Calculating HVAC 1020 2 Credits

In this course, students will study the psychrometric chart and its uses in determining a proper residential heating and cooling load. Topics include properties of air and air measurements. Students must be able to perform physical tasks to complete course requirements.

### Basic Refrigeration I HVAC 1041 3 Credits

This course covers the basic physical laws relating to refrigeration systems components, refrigeration theory, the refrigeration cycle, system operation, and accessories. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1030 or concurrent enrollment or consent of instructor.

### Basic Refrigeration II HVAC 1042 3 Credits

This course covers the following areas of refrigeration: applications and properties, refrigerant oils, piping, dehydration, charging and recovery, recycling, reclaiming, installations, heat pumps, part load and troubleshooting. The government EPA CFC Certification Test will be administered as part of this course. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* HVAC 1041 with a grade of "C" or higher.

### Fundamentals of Heating HVAC 1060 2 Credits

In this course, students will study the history of heating. They will be introduced to the different types of heating systems, various fuels, and types of accessories. Students will also practice service procedures on accessories. Students must be able to perform physical tasks to complete course requirements.

### Oil Heating Service and Troubleshooting HVAC 1065 3 Credits

This course covers the theory and operation of oil-burning heating systems, service, repair practices, combustion testing, and maintenance. Procedures for logically troubleshooting oil-fired heating systems will also be covered. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1030 or concurrent enrollment.

### Gas Heat HVAC 1067 4 Credits

This course covers the fundamentals of gas heat. Topics include gas burners, gas controls, gas ignition, safety, operating controls, service and maintenance on gas furnaces, and combustion efficiency testing procedures. Proper procedures and performance skills for logically troubleshooting a gas heating system will also be covered. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* FST 1030 or concurrent enrollment.

### Heat Pumps, Chillers and Electric Heat HVAC 1069 2 Credits

This course covers alternate systems used to heat and cool a residence. Topics covered include installation, function, performance, and limitations of these systems. Students will perform basic tests on heating and cooling systems and controls. Commercial chiller and heat pump operations will also be covered. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* Completion of, or concurrent enrollment in, any core HVAC or FST course.

## 7 Course Descriptions

### **Electronic Ignition and Condensing Furnaces**

#### **HVAC 1070 2 Credits**

This course covers the different types of ignition systems and how to service these systems. Topics include flame rectification and how to diagnose flame rectification problems. High efficiency condensing furnaces and their installation, maintenance, and troubleshooting procedures will also be covered. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* HVAC 1067 or concurrent enrollment.

### **Hydronic and Low- Pressure Steam Boilers**

#### **HVAC 1073 3 Credits**

This course is intended to introduce students to the safe, efficient operation of low-pressure steam and hot water boilers and related equipment. The Minnesota State Special Engineer License and its requirements will also be covered. Students must be able to perform physical tasks to complete course requirements.

### **Residential Energy Auditing and Conservation**

#### **HVAC 1080 3 Credits**

This course provides an introduction to assessing housing for energy improvements. Students will explore ways of collecting information and using it to develop a practical plan for reducing energy use. Home diagnostics, air sealing, insulation, HVAC equipment and electric appliances are covered. Completion of this course will qualify students to sit for a competency examination to demonstrate they meet the state of Minnesota's minimum qualifications for residential energy auditors. Students will also be required to volunteer a minimum of 10 hours to perform weatherization and insulation work for a community organization.

*Prerequisite:* Assessment score placement in MATH 1061 or above or completion of MATH 1015 with a grade of "C" or higher.

### **Advanced Refrigeration I**

#### **HVAC 2051 4 Credits**

This course covers light commercial refrigeration and air conditioning equipment. Service and maintenance practices will be

performed on various systems. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* HVAC 1042 with a grade of "C" or higher and EPA CFC certification or consent of instructor.

### **Advanced Refrigeration II**

#### **HVAC 2052 4 Credits**

In this course, students will be required to complete standard maintenance on malfunctioning units. This troubleshooting and repair process will be either on school equipment, customer equipment, or students' own refrigeration equipment. Students must be able to perform physical tasks to complete course requirements.

*Prerequisite:* HVAC 2051 with a grade of "C" or higher or concurrent enrollment or consent of instructor

## History

---

### **Western Civilization: From Antiquity to the 18th Century**

#### **HIST 1021 3 Credits**

#### **MnTC: Goals 05 & 08**

This first-year course is a survey of human experience in the Western world from ancient civilizations to the 18th Century. The focus is on Western Europe and its relation to the rest of the world. Major social, cultural, political, and economic developments, as well as critical factors such as class, gender and race, will be integrated into the course.

*Recommendation:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Western Civilization: From the 18th Century to the Present**

#### **HIST 1022 3 Credits**

#### **MnTC: Goals 05 & 08**

This first-year course is a survey of human experience in the Western world from the 18th Century to the present. The focus is on Western Europe and its relation to the rest of the world. Major social, cultural, political, and economic developments, as well as critical

factors such as class, gender and race, will be integrated into the course.

*Recommendation:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **United States to 1877**

#### **HIST 1031 3 Credits**

#### **MnTC: Goals 05 & 07**

This first-year course is a survey of American economic, political, and social history from pre-European contact through the aftermath of the Civil War. Topics include Colonial America and the Revolution, the creation of an American national identity, and the Civil War and Reconstruction. Students will focus on the contributions of men and women from different ethnic and racial backgrounds.

### **United States Since 1877**

#### **HIST 1032 3 Credits**

#### **MnTC: Goals 05 & 07**

This first-year course is a survey of American economic, political, and social history since the end of the Civil War era. Topics include the consequences of industrialization, the rise of the United States as a world power, and the changing nature of the American people and their relationship with their government. Students will focus on the contributions of men and women from different ethnic and racial backgrounds.

*Recommendation:* Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Minnesota History**

#### **HIST 1035 3 Credits**

#### **MnTC: Goals 05 & 09**

This first-year course is a survey of the social, political and economic history of Minnesota from its origins to the present. Minnesotans like to think their home is unique among the fifty states, and this course will examine the validity of that. Topics to be studied include the role of Native Americans, European immigration, economic and political development, the growth of the Twin Cities,

and the changing nature of the state's diverse people and environment.

**Recommendation:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

**East Asia Since 1600**  
**HIST 1051 3 Credits**  
**MnTC: Goals 05 & 08**

This first-year course is a survey of the human history of one of the world's most important geographical regions. Focusing on China, Japan, Korea, and their neighbors, students will have the opportunity to learn their social, political, economic, and intellectual history since 1600.

**Recommendation:** Assessment score placement in Reading 1000 or above, or completion of Reading 0090 with a grade of "C" or higher and assessment score placement in English 1021, or completion of English 0090 with a grade of "C" or higher.

**World History: 1400 to Present**  
**HIST 1061 3 Credits**  
**MnTC: Goals 05 & 08**

This first-year course explores global connections and disconnections, studying both global themes and regional variations. It will stress issues of diversity, power imbalances, and interactive factors such as race, ethnicity, class, and gender. In addition, students will explore intended and unexpected consequences as regions and peoples confronted connection and change.

**Myths in American History**  
**HIST 2041 3 Credits**  
**MnTC: Goals 05 & 09**

This second-year course is a survey of American history from the alternative perspective of popular myths (the stories that we tell about ourselves). Students will explore the symbols, stereotypes, and distortions which contribute to their sense of American history. Myths to be examined will vary, but may include such broad topics as race and gender, war and peace, common ideals or American heroes.

**United States Since 1945**  
**HIST 2043 3 Credits**  
**MnTC: Goals 05 & 09**

This second-year course is an in-depth study of the social, political, and economic history of the United States since the end of World War II. Focusing on the immediate origins of the world they live in, students will investigate a range of topics including American involvement in international affairs, attitudes towards national institutions, civil rights and multiculturalism, and the development of a modern consumer society.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

**The American West: An Environmental History**  
**HIST 2045 3 Credits**  
**MnTC: Goals 05 & 10**

This second-year course is an in-depth study of the American West since 1500. Students will examine the historical intersection between human history and the western environment, focusing on the region's dependence on the exploitation of natural resources, its ethnic and cultural diversity, and the ways the modern environmental movement affects the modern West.

**20th Century Global Conflicts and Crises**  
**HIST 2051 3 Credits**  
**MnTC: Goals 05 & 09**

This second-year course is an in-depth study of the major conflicts of the 20th century. It investigates international social, political, economic, and intellectual questions from an historical and ethical perspective. Emphasis will vary, but topics may include the effects of colonial imperialism, world war, human rights, genocide and disease. Students will explore the complex causes of the century's conflicts and analyze the success or failure of attempted resolutions.

**Prerequisite:** Assessment score placement in RDNG 1000, or completion of RDNG 0090 with a score of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

**Southeast Asia and the Vietnam War**  
**HIST 2053 3 Credits**  
**MnTC: Goals 05 & 08**

This second-year course is an in-depth study of Southeast Asia history with an emphasis on the period of the Vietnam War between 1945 and 1975. Emphasizing the different perspectives of the peoples involved in the war, students will examine the colonial period, independence movements, the conflict between the Southeast Asians and Americans, and Southeast Asia today.

**U.S. Women's History**  
**HIST 2061 3 Credits**  
**MnTC: Goals 05 & 07**

This second-year course is an in-depth study of the diversity of women's history in the United States since the early colonial period. It explores both the changes and continuity in women's roles over the last three centuries, covering topics such as Family Life, Legal and Political Rights, War and Consumerism, Sexuality and Work. Students will analyze how race, class, age, and belief systems influence women's experiences and the ways in which historical events often effect women and men differently.

**Prerequisite:** Completion of ENGL 1021 with a grade of "C" or higher.

**Women, Health and Medicine**  
**HIST 2063 3 Credits**  
**MnTC: Goals 05 & 07**

This second-year course is an in-depth study of women's health and medical issues since the 18th century. It investigates the intersection of Western medical practice and cultural norms. Students will analyze and discuss the gendered nature of medical theory and medical practice. Topics include Woman-Centered Childbirth, Surgical Gynecology, Reproductive Technology, and Women as Health Care Professionals.

**Prerequisite:** Completion of ENGL 1021 with a grade of "C" or higher.

**Special Topics**  
**HIST 2790 1 - 3 Credits**

Topics of special interest which may vary.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in

## 7 Course Descriptions

ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### Horticulture

---

#### **Introduction to Horticulture HORT 1000 3 Credits**

This course will introduce students to horticulture and the horticulture industry. Topics covered include the plant kingdom, basic plant identification, soils and fertilizers, greenhouse operations, the nursery industry, landscape design and installation, landscape maintenance and turf, interior foliage plants, and fruit and vegetable growing.

#### **Issues and Opportunities in Horticulture HORT 1010 2 Credits**

Horticulture careers follow several professional tracks: natural resource management, agriculture, arboriculture, environmental sciences, turf and lawn maintenance for park and recreation departments, golf courses, sports fields as well as nursery and greenhouse production facilities, garden center retailing, interior and exterior landscaping. This course covers the nature, organization, history and professional development opportunities in the field. Learners will investigate the current issues and challenges that the "green" industry faces in business today.

#### **Horticultural Plant Biology HORT 1021 3 Credits**

This course provides an essential understanding of the structure and function of a wide variety of horticultural plants. In this course students will study plant classification and identification principles. Plant functions introduced include activities of the plant cell, photosynthesis, respiration, transpiration, plant genetics and breeding.

#### **Soil Science HORT 1023 3 Credits**

In this course, students will study soil profiles, soils of the world, nutrients and fertilizers, soil testing, soils for container growing and greenhouse potting, soil-working equipment, and hydroponics.

*Recommendation:* Concurrent enrollment in HORT 1021.

#### **Plant Propagation HORT 1024 3 Credits**

This course covers current commercial methods of propagating annual and perennial herbaceous plants, woody plants, and tropical indoor plants. Methods covered include propagation by seed, division, cuttings, layering, grafting, and tissue culture. Students will propagate a wide variety of plants and in many cases bring them to the final production stage.

#### **Pest Management HORT 1025 3 Credits**

Pests can cause a great deal of aesthetic and economic damage to plants. Students will identify pests that affect the quality and production of horticultural plants and examine ways to manage the pests by chemical means or natural methods. Students will examine weeds, diseases, insects and other pests. This course will help prepare students for the state commercial pesticide applicator examination.

#### **Organic and Environmentally Friendly Horticulture**

##### **HORT 1027 3 Credits**

This course focuses on ways to effectively practice smaller-scale domestic gardening as well as commercial production based on environmentally-friendly methods. Students will apply organic best practices in plant and crop production in the campus greenhouses. They will study current guidelines to become a United States Department of Agriculture (USDA) certified organic grower.

#### **Greenhouse Crops I HORT 1032 3 Credits**

In this course students study crops produced in greenhouses. Topics covered include herbaceous plants that are intended for outdoor use, interior foliage plants, potted indoor flowering plants, greenhouse cut flowers, greenhouse food production, and greenhouse applications for woody plant production. Students will produce an assortment of greenhouse crops.

#### **Woody Plants HORT 1041 3 Credits**

Woody plants make up the backbone of the landscape. In this course, students will identify over 100 varieties of woody plants including the common and botanical names,

site preference, landscape use, and special features of each.

#### **Landscape Installation I HORT 1049 3 Credits**

In this course students will study the practices of sustainable site development and the construction of concrete and paving brick patios and sidewalks. The installation of herbaceous and woody landscape plantings and the selection and installation of a variety of edgings and mulches will be covered.

*Recommendation:* HORT 1041 and HORT 1051.

#### **Herbaceous Plants HORT 1051 3 Credits**

In this course, students will identify and determine the growing requirements for 150 herbaceous plants. The herbaceous plants covered include annual, biennial, and perennial ornamental plants. Students will study light, soil, and water requirements as well as bloom time, pest problems, and suggested varieties of herbaceous plants.

#### **Horticulture Internship I HORT 1781 1 - 3 Credits**

The Horticulture Internship is designed to enhance the student's learning by putting to use the knowledge and skills that the student has already attained and then building on them. Students will get experience working in the field and will be evaluated by employers and the instructor on a variety of skills.

*Prerequisite:* Consent of instructor.

*Restriction:* This course may be repeated a maximum of three times.

#### **Greenhouse Operations HORT 2031 3 Credits**

In this course, students will explore the greenhouse industry, greenhouse structures and equipment and maintenance of a proper growing environment. Greenhouse crops will be studied as to their marketability and cost of production.

#### **Greenhouse Crops II HORT 2032 3 Credits**

This course covers advanced techniques in greenhouse crop production and management. Topics covered include advanced greenhouse production methods for bedding plants, foliage plants, flowering indoor plants, cut flowers,

## 7 Course Descriptions

edible plants and nursery stock. Students will produce an assortment of greenhouse crops. Prerequisite: HORT 1032 or instructor consent.

### **Tropical Indoor Plants and Interiorscaping**

#### **HORT 2033 3 Credits**

Tropical indoor plants are common in homes, offices and commercial locations. They add aesthetic qualities and are increasingly used to clean the air we breathe indoors. Interiorscaping offers year round employment and business opportunities for horticulturists in temperate climates. In this course, students will study over 100 tropical indoor plants and their water, light, temperature and media preferences. Students will explore the commercial production of tropical indoor plants and their use in interiorscaping. *Recommendation:* HORT 1021 and HORT 1032.

### **Nursery Operations**

#### **HORT 2041 3 Credits**

In this course students will examine the various types of nurseries, and will explore field growing vs. container production. Students will study licensing and grading standards. Topics include propagation, planting, cultural practices, digging, storage and handling, as well as examine specialized nursery industry equipment.

### **Landscape Maintenance and Management**

#### **HORT 2044 3 Credits**

This course prepares students to handle the complex task of developing maintenance schedules and directing employees in grounds keeping for residential and commercial properties, parks and recreational facilities. Horticultural techniques for the care for herbaceous and woody plants and turf will be studied. The course focuses on management strategies, problem-solving and current issues in landscape management.

### **Turfgrass Science and Management**

#### **HORT 2045 3 Credits**

Turf grass plays an important role in horticulture for ornamental, functional, and recreational purposes. In this course students examine varieties of turf grasses used in home, commercial and public landscapes. Cultural practices such as establishment,

mowing, fertility, irrigation and pest management are covered.

### **Horticulture Equipment and Technology**

#### **HORT 2046 3 Credits**

The horticulture industry is becoming more mechanized as labor availability decreases and the sophistication of equipment and technology increases. In this course, students will explore, examine, operate, and maintain equipment and technologies used in horticultural practices. GPS and GIS applications will be covered.

### **Landscape Design**

#### **HORT 2047 3 Credits**

In this course students will examine the elements of residential and commercial landscape design and develop drawing and drafting skills in the preparation of several landscape designs. Using design theory and technical skill students will develop landscape plans that meet the needs of clients and their sites.

*Prerequisite:* HORT 1049 or instructor's consent. *Recommendation:* HORT 1041 and HORT 1051.

### **Landscape Installation I**

#### **HORT 2048 3 Credits**

Installing landscapes offers many exciting and challenging opportunities. In this class, students will examine the construction and installation of retaining walls, patios, sidewalks, fences, weed barriers, edging, mulches, low voltage lighting, in addition to proper installation of plants, sod, and irrigation systems.

### **Landscape Installation II**

#### **HORT 2049 3 Credits**

This course covers the design and construction of segmental and natural stone retaining walls, fence and deck construction, low voltage lighting and irrigation systems. Landscape contracting practices, including plan reading and proposal development, are introduced.

*Prerequisite:* HORT 1049 or instructor's consent. *Recommendation:* HORT 1041 and HORT 1051.

### **Urban and Local Food Systems**

#### **HORT 2051 3 Credits**

Producing fruits, vegetables, herbs and

other specialty crops locally and in urban areas offers the advantages of freshness, lower transportation costs and increased sustainability. In this course students will study the growing requirements, processing options and the marketing potential of these crops. Crops covered include small fruits, tree and vine fruits, vegetables, herbs, cut flowers and other niche crops. This course provides background in processing and marketing opportunities for these crops.

### **Creating Native Landscapes**

#### **HORT 2052 3 Credits**

Native plants can provide beautiful, cost-effective landscaping alternatives, environmental benefits and habitat for wildlife. Increasingly, native plants are being used in home gardens as well as to restore and reclaim natural areas. Designed to introduce students to a wide array of native plant species and utilization in the landscape, this class covers plant identification, production methods of native plants and sustainable landscaping practices for special purposes including wildlife habitats, rainwater gardens, butterfly gardens and shoreline landscaping.

### **Sports and Golf Turf Grass Management**

#### **HORT 2055 3 Credits**

The management of high quality sports turf grass requires knowledge and skill. In this class students will learn about turf grasses used in sports fields and golf courses and their management including: establishment, fertility, irrigation, pests, mowing, aeration, and other maintenance procedures.

### **Computer Assisted Landscape Design**

#### **HORT 2057 3 Credits**

This course covers the three major areas of computer-assisted landscape design: editing images of existing landscapes, designing landscapes in the plan view, and preparing proposals from those images and plans. It is intended for students planning careers in landscape design and construction as well as current employees in the landscape industry. *Prerequisite:* HORT 2047 or instructor consent. *Recommendation:* CAPL 1010, CSCI 1020 or equivalent computer competency.

## 7 Course Descriptions

### Human Services

---

#### **Introduction to Human Services HSER 1020 3 Credits**

This course provides a survey of the human services field which will include: history of human service; education and training; worker roles; agencies, programs and community resources; career and job opportunities; skills, knowledge and values of the human service worker.

#### **Helping Skills HSER 1030 3 Credits**

This course provides a basic introduction to helping and interviewing concepts with a focus on individual skill development. Emphasis will be placed on the application of skills and knowledge to human service settings and situations. Self-awareness, and its impact on helping others will also be discussed.

#### **Dynamics of Violence in Contemporary Society HSER 1040 3 Credits**

Presents a contemporary perspective on violence in American Society. The extent, causes, and impact of physical, sexual, emotional, racial, cultural, and domestic violence will be identified. Current prevention, intervention, and treatment modalities will be reviewed. Culturally sensitive approaches to dealing with victims and perpetrators will be examined.

#### **Applied Theories of Family Functioning HSER 1060 3 Credits**

This course studies the family with attention to its organization, function, and dynamics. Emphasis is placed on the impact and effects of family on individual development. Topics include: introduction to family systems theory, normal and problematic family systems, and general family functioning concepts. Contemporary problems and how they affect the family will be discussed.

#### **Helping Clients with Disabilities HSER 1070 3 Credits**

Students will develop an understanding of the impact of disability on clients, their families, and the community. Helper interventions with

a focus on client empowerment and advocacy will be applied through a skills approach.

#### **Learning Through Community Service HSER 1770 1 - 2 Credits**

This course is designed to offer students the opportunity to combine community service experiences with academic and personal goals. Service sites are selected by students according to their interests and skills. Specific service projects will meet community needs. Students formulate individualized learning goals and objectives, reflect on their service experience, and grapple with issues concerning civic responsibility and social justice.

#### **Techniques of Working With Groups HSER 2000 3 Credits**

A course designed to teach students the dynamics of working in groups. Lecture, discussion, participation in and facilitation/co-facilitation of classroom training groups will be used. Upon completion of the course, students will be able to use basic group facilitation/co-facilitation skills and demonstrate practical application of theory to the group process.

#### **Working with the Mentally Ill in Human Service Settings HSER 2030 3 Credits**

This course will provide an overview of mental illnesses likely to be encountered in human service settings. Emphasis will be placed on: 1) developing an understanding of the impact of mental illness on the individual, the family, and the community and 2) on developing necessary skills so to work effectively in a variety of human service settings serving people with these illnesses. The goal of this class is not to teach diagnosis and treatment, rather it is intended to prepare students to be sensitive to the needs of the mentally ill.

#### **Crisis Assessment and Intervention HSER 2040 3 Credits**

This course is designed to present basic concepts of crisis assessment, intervention and referral. The application of strategies and techniques with a discussion of intervention, assessment and referral models are included. An overview and a survey of community resources and an assessment model for making appropriate referrals is presented.

#### **Seminar: Current Issues and Topics HSER 2050 3 Credits**

This course is designed to provide students with current information in the field of Human Services. Current issues will be examined by reviewing the definition and history of the specific problem or concern; the current data and research on the topic.

#### **Case Management HSER 2060 2 Credits**

This course introduces the theory of casework from a multidisciplinary perspective. It offers students the opportunity to practice skills such as: case management, record keeping, intake procedures, assessment models and methods, and to become familiar with the state and federal requirements and mandates.

#### **Internship HSER 2780 4 Credits**

Work experience in a human service agency, providing an opportunity to further develop skills and gain additional knowledge of human services practices and concepts. Students may take both HSER 2780 and 2781 in the same term. 180 hours required in each course for a total of 360 hours for 8 credits of internship.  
*Prerequisite:* Permission of the Human Service Program Director.

#### **Internship HSER 2781 4 Credits**

Work experience in a human service agency, providing an opportunity to further develop skills and gain additional knowledge of human services practices and concepts. Students may take both HSER 2780 and 2781 in the same term. 180 hours required in each course for a total of 360 hours for 8 credits of internship.  
*Prerequisite:* Permission of the Human Service Program Director.

### Humanities

---

#### **Introduction to the Humanities: Europe and the U.S. HUM 1021 4 Credits MnTC: Goals 06 & 08**

This course concentrates on the creative works from the areas of Europe and the United States. Topics covered include

## 7 Course Descriptions

visual art, music, theatre, film, literature, mythology, philosophy and religion. This broad survey focuses on the value of the arts in understanding human experience and popular culture. The artistic contributions from other cultural areas are considered as points of contrast.

**Note:** Attendance at an art gallery, play and/or concert outside of class time may be required.

### **Introduction to the Humanities:**

#### **A World View**

#### **HUM 1025 4 Credits**

MnTC: Goals 06 & 08

This course concentrates on creative works from the areas of Africa, the Americas, Asia and the Middle East. Topics covered include visual art, music, theatre, film, literature, mythology, philosophy and religion. This broad survey focuses on the value of the arts in understanding human experience and popular culture. The artistic contributions from Europe and the United States are considered as points of contrast.

**Note:** Attendance at an art gallery, play and/or concert outside of class time may be required. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

#### **Culture and Civilization of Spanish Speaking Peoples**

#### **HUM 1030 3 Credits**

MnTC: Goals 06 & 08

Taught in English, this course introduces students to the culture and civilization of Spain and Spanish-speaking peoples of the Americas. Students study geography, history, politics, economics, arts, and literature to develop an awareness of the cultural, religious and social values of other cultures. Students will also examine interconnections with Spanish-speaking peoples and nations to develop an understanding of the responsibility world citizens share for our common global future.

#### **Culture and Civilization of French Speaking Peoples**

#### **HUM 1035 3 Credits**

MnTC: Goals 06 & 08

This course is an introduction to the cultures of France and the French-speaking regions

of the world: Europe, North America, the Caribbean, North Africa, Sub-Saharan Africa, parts of Asia, and various islands. The study of geography, history, arts, and literature will help students develop awareness of the cultural, religious, and social values of other peoples. Students will also explore the responsibility that world citizens share for their common global future, by comparing and contrasting their own culture with that of French-speaking cultures. The course is taught in English.

#### **Culture and Civilization of Chinese Speaking Peoples**

#### **HUM 1040 3 Credits**

MnTC: Goals 06 & 08

This course serves as an introduction to the various cultures of Chinese-speaking people around the world. The study of geography, history, literature, and arts will foster interest in the traditional, religious and social values of other cultures. Students will explore the responsibility world citizens share for our common global future by examining interconnections with Chinese-speaking peoples.

#### **The Art of Film**

#### **HUM 1041 3 Credits**

MnTC: Goals 06 & 08

This course is an introduction to film as an art form. This course presents the study of film as a medium for portraying ideas, myths, human concerns, and aesthetic principles. Included in the course are an examination of film techniques, film theories, and artistic styles of film such as formalism, surrealism, expressionism, and neorealism.

#### **International Film**

#### **HUM 1043 3 Credits**

MnTC: Goals 06 & 08

This course presents a study of film as an art form and as a means of cultural communication from an international point of view. The course is designed to cultivate an ability to think about film in a critical way, as well as to broaden understanding of film and cultures in a global context. Each semester a variety of national cinematic traditions are examined, including film works from Russia, Eastern Europe, Germany, France, Scandinavia, the United Kingdom, Italy, the Middle East, Asia, and Latin and South America.

#### **American Film**

#### **HUM 1045 3 Credits**

MnTC: Goals 06 & 07

Film is not only for entertainment, it is also an art form, a technology, an industry, and a medium of communication and expression. This course presents a survey of the history of film in the United States, and is intended to improve visual literacy so that students will understand and think about film in an intelligent and critical way. The entire history of American films is studied, from the early moving-picture inventions up to the digital revolution. Included in this course are representative examples of major American filmmakers, film genres, film theories, film techniques, and the historical and cultural events that were related to production, exhibition, styles, and the content of films in the United States from 1895 to the present.

#### **African American Cultural Perspectives**

#### **HUM 1051 3 Credits**

MnTC: Goals 06 & 07

This course surveys broad elements of humanities that comprise the culture of African Americans from slavery to present day. Its aim is to show how elements such as literature, science, politics, history, religion, music, theater, language, art, television, and motion pictures have contributed to the formation and some current appreciations and interpretations of African American culture. These elements are studied in the context of how white culture, though the institution of slavery, sharply influenced these elements, and therefore, African American culture itself. The course also focuses on how African American, European American, and other non-African Americans respond to overall characteristics of African American culture, and how African American culture has influenced the dominant American culture.

#### **Independent Study**

#### **HUM 1790 1 - 3 Credits**

This course offers students an opportunity for a further in-depth exploration of (an) aspect(s) of culture. This may include art, literature, film, music, theater, philosophy, etc.

*Prerequisite:* Approval of instructor and dean, and completion of a HUM course, with a grade of B or above.

## 7 Course Descriptions

### Women in the Arts

**HUM 2061 3 Credits**

**MnTC: Goals 06 & 07**

This course is an introduction to the history of women's involvement in the visual and musical arts. It focuses on Western Civilization and covers artistic issues for women from the Classical Greek to contemporary times both chronologically and thematically. Visual art and music created by women will be examined within social and historical contexts. Significant art works representing women as well as musical performance by women will be evaluated from a feminist perspective. The course explores the cultural assumptions about gender that have influenced artistic choice and interpretation.

### Special Topics

**HUM 2790 1 - 3 Credits**

Topics of special interest which may vary. Prerequisite: Consent of instructor and dean.

## Individualized Competency Based Education

---

### Individualized Education Planning

**ICBE 1000 3 Credits**

Intended for students who want to design an educational plan that is flexible, individualized, and competence-based. Special attention is given to the identification of learning goals, competence objectives, learning strategies, assessment techniques, and Century College CBE policies and procedures. Students will be expected to write an educational degree plan. This course is required for students who seek admission to the CBE Program. This is a pass/fail course.

### CBE Independent Study

**ICBE 1790 3 Credits**

Specifically designed for the CBE student who wants to develop or expand a competence in an area of special interest beyond the course offerings at Century College. The student will work out an independent study project with a faculty member. The project will usually involve extensive reading or research on a

specific topic.

*Prerequisite:* ICBE 1000 and consent of CBE Coordinator.

### Prior Competencies

**ICBE 1800 1 - 3 Credits**

Credit awarded for academic competencies obtained through experiential learning and processed through the Competency-Based Education Program. Faculty and qualified evaluators verify student demonstrated competence(s) through appropriate measurement and evaluation techniques.

*Prerequisite:* ICBE 1000 and consent of CBE Coordinator.

### CBE Internship

**ICBE 2780 3 Credits**

Specifically designed for CBE students who want to learn through on-site experience and study in a field of their choice that relates to career goals or broad field interest. The course will involve determining goals, consultation with a faculty member, working with a supervisor at the internship site, and completing the objectives of the internship.

*Prerequisite:* ICBE 1000 and consent of CBE Coordinator.

## Information and Telecommunications Technology

---

### Introduction to Information and Telecommunications Technology

**ITT 1020 3 Credits**

This course provides an orientation for students enrolled in the Information and Telecommunication Technology and Microcomputer Support Technology A.A.S. degree programs. This course focuses on terminology and industry IT acronyms associated with data, voice, and multi-media based technologies. Students will investigate career directions and job opportunities with respect to current and emerging industry directions.

### Principles of Information Security

**ITT 1021 3 Credits**

This course is designed to investigate the

analysis and implementation of network security policies, procedures, and guidelines for establishing, monitoring, and controlling methodologies for local and wide area networks.

### Network Fundamentals (CCNA-1)

**ITT 1031 3 Credits**

This course provides an introduction to the OSI 7 and TCP/IP models used in data communication and computer networks with emphasis on network infrastructure design, configuration, and implementation. This course is the first in a four-course sequence designed to prepare students to take the Cisco Certified Network Associate (CCNA) examination.

### Routing Protocols and Concepts (CCNA-2)

**ITT 1032 3 Credits**

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include static and dynamic routing, Variable Length Subnetmasking (VLSM), Classless Inter-Domain Routing (CIDR), Distance-Vector and Link-State routing, as well as close examination of the routing table used by routers. This course is the second in a four-course sequence designed to prepare students to take the Cisco Certified Network Associate (CCNA) examination.

*Prerequisite:* ITT 1031 or Instructor consent.

### Network Infrastructures and Data Center Design (BICSI)

**ITT 1033 3 Credits**

This course focuses on structured cabling and design issues related to data, voice, video connections, and provides an understanding of the networking industry and its worldwide standards. Types of media and cabling, physical and logical networks, as well as signal transmission will be examined. This course stresses documentation, design, and installation, laboratory safety, on-the-job safety, and working effectively within groups. This course prepares students to take the Level 1-Installer Building Industry Consulting Service International (BICSI) certification.

### Telephony Systems

**ITT 1070 3 Credits**

This course introduces student to voice, data and video network integration and convergence technologies. The course focuses

## 7 Course Descriptions

on developing a fundamental understanding of analog and digital telecommunications including VoIP technologies and VoIP configuration.

### Independent Study

#### ITT 1790 1 - 4 Credits

This variable-credit elective course emphasizes the student's independent search for advanced knowledge as well as additional hands-on skills beyond current Information and Telecommunication Technology course offerings. The student and instructor will devise a formal plan of study to satisfy credit workload requirements within a one semester timeframe.

*Prerequisite:* Consent of instructor and Dean.

### Network Security Fundamentals

#### ITT 2020 3 Credits

This course covers the overall security process based on security policy design and management, with an emphasis on security technologies, products, and solutions. The course covers authentication, authorization, and accounting (AAA) implementation using routers and security appliances and securing the network at both Layer 2 and Layer 3 of the OSI reference model.

*Prerequisite:* ITT 1021 and ITT 1031 or instructor consent.

### Firewalls and Network Security

#### ITT 2025 3 Credits

This course is designed for the network administrator who needs to learn the basics of network firewalls and VPN security. It covers basic installation techniques, discusses how to make an intelligent choice of firewall technology, and presents basic firewall troubleshooting.

*Prerequisite:* CCNA industry certification or ITT 2020 or instructor consent.

### LAN Switching and Wireless (CCNA-3)

#### ITT 2031 3 Credits

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include static and dynamic switching, Virtual Local Area Networks (VLANs), VLAN Trunking Protocol (VTP), Spanning Tree Protocol (STP), inter-VLAN routing, as well as providing an introduction to wireless LANs. This course is

the third in a four-course sequence designed to prepare students to take the Cisco Certified Network Associate (CCNA) examination.

*Prerequisite:* ITT 1031 or instructor consent.

### Accessing the WAN (CCNA-4)

#### ITT 2032 3 Credits

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include Wide Area Network (WAN) connectivity and protocols, network security, Access Control Lists (ACLs), providing remote users network access, IP address conservation and assignment, and network troubleshooting.

This course

is the fourth in a four-course sequence designed to prepare students to take the Cisco Certified Network Associate (CCNA) examination.

*Prerequisite:* ITT 1031, ITT 1032, and ITT 2031 or instructor consent.

### CCNA Capstone

#### ITT 2033 1 Credit

This course will prepare students to take the CCNA industry certification by applying critical thinking skills associated with designing and constructing complex networks. Network performance metrics and troubleshooting techniques will be integrated into case study or lab scenarios.

*Prerequisite:* ITT 2032 or instructor consent.

### Network Attached Storage

#### ITT 2036 3 Credits

This course will be focused on implementing Network Attached Storage (NAS) appliances in a local area network. Students will plan, install, operate, and troubleshoot NAS appliances in an Ethernet environment.

*Prerequisite:* ITT 2031 or instructor consent.

### Storage Area Network Management

#### ITT 2038 3 Credits

This course focuses on integrating a Storage Area Network (SAN) into a Local Area Network (LAN). Students will plan, install, configure, secure, and troubleshoot a SAN.

*Prerequisite:* ITT 2036 or instructor consent.

### Building Scalable Cisco Internetworks (CCNP-1)

#### ITT 2041 3 Credits

This course provides instruction on the knowledge and skills necessary to use

advanced IP addressing and routing in implementing scalability for Cisco ISR routers connected to LANs and WANs. The course also covers topics on routing principles, multicast routing, IPv6, manipulating routing updates, configuring basic BGP, configuring EIGRP, OSPF, and IS-IS. In addition, this course prepares students to take the Cisco Certified Networking Professional (CCNP) Building Scalable Cisco Internetworks Exam.

*Prerequisite:* ITT 2032 or current CCNA certification or instructor consent.

### Implementing Secure Converged WANs (CCNP-2)

#### ITT 2042 3 Credits

This course provides instruction on the knowledge and skills necessary to secure and expand the reach of an enterprise network to teleworkers and remote sites with a focus on securing remote access and VPN client configuration. The course covers topics on Cisco hierarchical network model as it pertains to the WAN, teleworker configuration and access, frame mode MPLS, site-to-site IPSEC VPN, Cisco EZVPN, strategies used to mitigate network attacks, Cisco device hardening, and IOS firewall features. In addition, this course prepares students to take the Cisco Certified Networking Professional (CCNP) Secure Converged Wide Area Networks exam.

*Prerequisite:* ITT 2032 or instructor consent.

### Building Converged Cisco Multilayer Switched Networks (CCNP-3)

#### ITT 2043 3 Credits

This course provides instruction on the knowledge and skills necessary to implement scalable multilayer switched networks. The course includes topics on campus networks, describing and implementing advanced Spanning Tree concepts, VLANs and Inter-VLAN routing, High Availability, Wireless Client Access, Access Layer Voice concepts, and minimizing service Loss and Data Theft in a Campus Network. In addition, this course prepares students to take the Cisco Certified Networking Professional (CCNP) Building Converged Multilayer Switched Networks exam.

*Prerequisite:* ITT 2032 or current CCNA certification or instructor consent.

## 7 Course Descriptions

### Optimizing Converged Networks (CCNP-4)

#### ITT 2044 3 Credits

This course provides instruction on the knowledge and skills in optimizing and providing effective Quality of Service (QoS) techniques for converged networks. The topics include implementing a VoIP network, implementing QoS on converged networks, specific IP QoS mechanisms for implementing the DiffServ QoS model, AutoQoS, wireless security and basic wireless management. In addition, this course prepares students to take the Cisco Certified Networking Professional (CCNP) Optimizing Converged Cisco Networks exam.

*Prerequisite:* ITT 2041 and ITT 2043 or instructor consent.

### Enterprise Computing Virtualization

#### ITT 2051 3 Credits

This course focuses on integrating a virtual computing environment into a local area network. Students will plan, install, configure, secure, and troubleshoot a virtual cross-platform computing environment.

*Prerequisite:* MCST 1030 or instructor consent.

### Network Management

#### ITT 2055 3 Credits

This course is designed to provide students with a working knowledge of local and wide area network management techniques and tools. Emphasis is on troubleshooting and diagnostic hardware and software tools and approaches including proactive and reactive management methods.

*Prerequisite:* ITT 1032.

### Computer Telephony Integration

#### ITT 2060 3 Credits

This course covers voice and data network integration and convergence technology issues and constraints. The course focuses on VoIP design, configuration and implementation.

*Prerequisite:* ITT 1070 and ITT 1032 or instructor consent.

### Information Security Management

#### ITT 2065 3 Credits

This course is designed for individuals responsible for the overall design and management of information security for an enterprise. It is intended for those wanting to

work in the Information Security Management field and covers a broad range of management oriented issues including ethics, establishing policies, developing procedures, principles, and strategies designed to allow for controlled access and efficient network administration.

*Prerequisite:* ITT 2025.

### Video Integration

#### ITT 2070 3 Credits

This course addresses video and data network integration in Local and Wide Area Networks as well as convergence technology issues. The course focuses on Internet Protocol (IP) video network design, configuration, and optimization issues.

*Prerequisite:* ITT 1070 and ITT 1032 or instructor consent.

### Wireless Network Security

#### ITT 2075 3 Credits

This course will focus on learning using the latest enterprise wireless LAN security and auditing equipment. Topics include wireless LAN intrusion, security policies and solutions for wireless LANs, and risk management analysis using auditing tools.

*Prerequisite:* ITT 1021 or CWNA certification.

### Technology Planning and Architecture

#### ITT 2080 3 Credits

This is an advanced course designed to integrate technology architecture, planning, and business process. Content includes development and implementation of a standardized process framework necessary to design, construct and manage complex technology-based systems in order to support business functions within an organization. Focus is on design and management of complex technical information based business systems. Additional emphasis will be on life-cycle development and project management.

*Recommendation:* Should be taken in the student's second year.

### Internship

#### ITT 2780 1 - 6 Credits

This course is designed to provide students with the opportunity to apply knowledge and skills learned in the Information and Telecommunication Technology program in a real life job environment. Students will work in a professional environment while applying and

learning a variety of communication, business, and technical skills.

*Prerequisite:* Consent of instructor.

## Interior Design

---

Note: New students must attend a new student orientation session and an Interior Design orientation.

### Drafting for Interior Design

#### INTD 1020 3 Credits

This introductory course focuses on hand drafting (architectural drawing) skills necessary to design any given space. It covers reading and drawing a set of floor plans, using drafting tools and drafting appropriate architectural symbols, dimensioning, lettering, elevations, sections, and detailing. This course provides the foundation for all other Interior Design courses.

### Design and Color

#### INTD 1030 3 Credits

This course identifies the fundamental elements and principles of design and demonstrates how they relate to home and commercial interiors. Students explore applied color theory, light theory, color harmonies, and color relationships as well as color psychology through extensive experiential projects.

### Elements of Interior Design

#### INTD 1040 3 Credits

This course focuses on "sourcing" - locating and using professional design resources that demonstrate a systematic approach for specifying fabrics, furniture, finishes, and fixtures in students' own design work. This course requires off campus site visits to a variety of "trade only" showrooms during regular business hours.

*Prerequisite:* Assessment score placement in MATH 0030 or completion of MATH 0010 with a grade of "C" or higher and assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher. INTD 1020 with a grade of "C" or higher or concurrent enrollment or consent of instructor.

*Recommendation:* ENGL 1021.

## 7 Course Descriptions

### Lighting Fundamentals

#### INTD 1050 3 Credits

This course focuses on lighting fundamentals for residential and commercial interiors. It covers the four functions of light: task, accent, decorative, and ambient. Students apply problem-solving techniques to a variety of lighting scenarios. This course requires field trips to the “trade only” vendors during regular business hours.

*Prerequisite:* INTD 1020 with a grade of “C” or higher.

### Furniture Styles and Periods

#### INTD 1060 3 Credits

This course focuses on the historical aspects of architecture, interiors, and furniture. It explores historic styles of the home and its furnishings as a reflection of peoples’ needs and values. It provides a foundation of knowledge useful for subsequent studio courses.

### Textile Applications

#### INTD 1080 3 Credits

This introductory course examines textile fibers, yarns, fabric construction, dyeing, printing, and finishing used in residential and commercial interior design applications. It covers safety and wear testing codes as well as recommended care for textiles, carpeting, and leather products. Students focus on selection of appropriate materials to meet client specifications.

### Sustainable Design

#### INTD 1090 3 Credits

This course introduces students to the principles and practices of sustainable design. They will be introduced to environmental concerns, challenges, and processes associated with employing sustainable materials for design. This class requires field trips to “trade only” vendors during regular business hours.

*Prerequisite:* INTD 1020 with a grade of “C” or higher or consent of instructor.

### Independent Study

#### INTD 1790 1 - 3 Credits

This variable-credit elective course emphasizes the student’s independent search for advanced knowledge as well as additional hands-on skills beyond current Interior Design course offerings. The student and instructor

will devise a formal plan of study to satisfy credit workload requirements within the semester timeline.

*Prerequisite:* Consent of instructor and Dean.

*Recommendation:* INTD 1020, INTD 1030 and INTD 1040 with a grade of “C” or higher.

### Residential Studio I

#### INTD 2001 3 Credits

This course builds on INTD 1020 Drafting for Interior Design. Students prepare a full set of working drawings to design a residential space and incorporates order processing, client invoicing, writing purchase orders, and reviewing vendor acknowledgements. This more advanced course is designed to enhance students’ estimating and drafting skills and refine their written, verbal, and visual communication skills when working with clients and contractors.

*Prerequisite:* INTD 1020 and INTD 1040 with a grade of “C” or higher. *Recommendation:* INTD 1030.

### Residential Studio II

#### INTD 2002 3 Credits

This course builds on Residential Studio I. It focuses on planning a space that meets programming requirements, residential code requirements and Americans with Disabilities Act (ADA) guidelines. This course is modeled after the National Council for Interior Design Qualification (NCIDQ) practicum exam.

*Prerequisite:* INTD 2001 with a grade of “C” or higher. *Recommendation:* ECAD 1070 and INTD 1020.

### Professional Practice for Interior Design

#### INTD 2020 3 Credits

This course covers the basic principles of operating an Interior Design business, planning for profit and growth, writing contracts, marketing, selling, and project management. These principles are applied through interactive role plays of increasing complexity.

*Prerequisite:* INTD 1020 and INTD 1040 with a grade of “C” or higher.

### Design Sales

#### INTD 2030 3 Credits

This course explores specific relationship selling skills and techniques to assure success in this highly competitive industry. Coursework includes business etiquette, entrepreneurship,

self marketing strategies, effective written and oral communication, and customer service skills.

*Prerequisite:* INTD 1020 with a grade of “C” or higher.

### Dimensional Drawing

#### INTD 2040 3 Credits

This course focuses on dimensional design drawings of interior spaces. Students will render floor plans, elevations, and draft one and two point perspectives of interior spaces. This course builds upon all interior design studio classes.

*Prerequisite:* INTD 2001 with a grade of “C” or higher. *Recommendation:* Concurrent enrollment in INTD 2002.

### Commercial Design Studio

#### INTD 2050 3 Credits

This course concentrates on designing a commercial space that meets programming requirements, commercial building codes, and the American with Disabilities Act (ADA) Design Guidelines. It entails creating a full set of working drawings as well as sourcing furniture and finishes to meet commercial expectations.

*Prerequisite:* INTD 2001 with a grade of “C” or higher. *Recommendation:* ECAD 1070.

### Feng Shui for Interior Design

#### INTD 2080 3 Credits

This course is designed as an introduction to the Chinese concept known as Feng Shui and how to use these principles as an interior designer. Topics include basic Feng Shui principles, the Feng Shui approach to architectural and design elements, and Feng Shui for the home, workspace and other commercial spaces.

*Prerequisite:* Must have AAS degree in Interior Design or instructor consent.

### Internship in Interior Design

#### INTD 2780 2 Credits

This course engages students in 160 hours of learning experience at the business/industry site that compliments and reinforces the program’s academic work. With employer’s input, students are evaluated on a variety of skills. This course involves analyzing one’s own work style and skills, then matching personal traits and needs to the workplace. Students use this experience to gain a

# 7 Course Descriptions

competitive edge in the industry.  
*Prerequisite:* Consent of instructor.

## Kitchen and Bath Design

---

Note: Kitchen and Bath Design classes are held at the International Market Square-Suite C-19, 275 Market Street, Minneapolis, MN 55405. For further information, please leave a message at 651.748.2600.

### Presentation Standards for Kitchen and Bath Design KBD 1010 3 Credits

This course covers architectural hand drafting techniques, architectural symbols, measuring and sketching a space, hand drafting floor plans, electrical plans, interior elevation, isometric drawing, and two-point perspective drawing all in accordance with the National Kitchen & Bath Association (NKBA) standards.

### Construction and Mechanical Systems for Kitchen and Bathroom Design KBD 1020 3 Credits

This foundational course focuses on residential kitchen and bath construction basics, mechanical systems and interpretation of blueprint drawings. Included is an introduction to the plumbing, HVAC (heating, ventilation, and air conditioning), electrical and lighting systems typically used in a residential construction.

*Prerequisite:* Completion of KBD 1010 or taken concurrently, or a prior drafting course with instructor's consent.

### Basic Kitchen and Bath Design KBD 1030 3 Credits

This course includes a comprehensive introduction of the basics of both kitchen and bathroom design. Emphasis is placed on the NKBA Guidelines and NKBA documentation.

*Prerequisite:* Completion of KBD 1010, prior hand drafting course subject to instructor approval, and/or concurrent enrollment in KBD 1020, KBD 1040, KBD 1050 and KBD 2781.

### Materials and Estimating KBD 1040 2 Credits

The course covers various materials used in kitchen and bathroom spaces, their appropriateness and installation considerations. Topics include material specifications, measurement, and estimation for cabinetry, countertop materials, floor and wall surfacing treatments, lighting, ceiling finishes, and window treatments.

*Prerequisite:* Completion of KBD 1010 or taken concurrently, or a prior drafting course with instructor's consent.

### Lighting for Kitchens and Baths KBD 1050 1 Credit

This course covers lighting design and its application for kitchen and bathroom spaces. Students will examine a variety of light sources, evaluate their advantages and limitations to create a basic lighting and electrical plan for installations.

*Prerequisite:* Completion of KBD 1010 or taken concurrently, or a prior drafting course with instructor's consent.

### Advanced Kitchen and Bath Design KBD 2010 3 Credits

This advanced course examines the concepts of universal design and theme design within kitchen and bathroom spaces. A review of ergonomics includes a stronger emphasis on universal design guidelines, American with Disabilities Act considerations, multiple cook design, and the application of theme design (historical applications). The graphic standards as recommended by NKBA (National Kitchen and Bath Association) are components of each project assigned. The completion of the NKBA Student Design Competition acts as a culminating project for this course.

*Prerequisite:* Completion of KBD 1030, KBD 1010, KBD 1040, KBD 1020, KBD 1050 or equivalent courses and/or training as reviewed and accepted by faculty.

### Basic CAD for Kitchen and Bath Design KBD 2020 3 Credits

This course includes drafting kitchen and bath floor plans using a CAD program. Commands include drawing, editing, placement, drafting complete floor plans with dimensions, preparing drawings such as rendered drawings, isometric drawings, perspective drawings, and interior elevation drawings.

Additional items include preparing quotes and a bill of materials.

### Business Practices for Kitchen and Bath Design KBD 2030 1 Credit

This course addresses aspects of managing and/or owning a kitchen and/or bathroom design business. Students will complete some of the necessary contract documents needed to insure the timely installation of a project from surveying the client to appropriate follow-up procedures. Topics include business basics, how financing is handled, how to price products and services, how to manage inventory, how to market a business, how to determine who should be hired to work within the organization and whom to contact as outside help, and how to keep an organization motivated and on track.

*Prerequisite:* Completion of KBD 1010, KBD 1020, KBD 1030, KBD 1040, KBD 1050, or equivalent as approved by faculty.

### Advanced CAD for Kitchen and Bath Design KBD 2060 3 Credits

Students apply more advanced applications of the computer-aided drafting skills learned in KBD2020. This CAD program is most commonly used for the design of kitchen and bath spaces in the design industry. Skills utilized will include more complex techniques for the execution of the following drawings: floor plans, elevation drawings, dimensional drawings, customization of cabinetry and layout, remodeling aspects, renovation aspects, color coding drawings and creating complete quotes and Bill of Materials for projects. This advanced application of computer skills entails designing additional spaces such as entertainment area, home office, condo and incorporating universal design applications into a residential two cook kitchen.

### Customized Consulting and Presentation KBD 2080 3 Credits

This course addresses communication styles, selling philosophies, value-added selling, client relationships, product strategies, ethics, customer strategies, and conducting successful sales presentations for the kitchen and bath clientele. All course content is specifically designed for selling in the kitchen

and bath design field.

**Prerequisite:** KBD 1010, KBD 1020, KBD 1030, KBD 1040, KBD 1050, and/or adequate experience in the kitchen and bath design industry or sales courses previously taken may apply with consent of the instructor.

### **Kitchen and Bath Design Internship I KBD 2781 2 Credits**

This course aids the KBD students in preparing for their KBD internship experience. Students develop/revise professional skills, as well as conduct informational interviews of KBD industry professionals.

**Prerequisite:** Current enrollment in the KBD program. **Recommendation:** This course can be completed concurrently with Fall Semester courses and/or KBD 2782.

### **Kitchen and Bath Design Internship II KBD 2782 3 Credits**

Internship II gives the KBD student an opportunity to complete an “on-the-job” experience that is kitchen and/or bath design related, and approved by faculty prior to enrollment. Each student is required to complete a minimum of 160 hours to receive their Kitchen & Bath Design certificate and qualify to take the Associate of Kitchen & Bath Design (AKBD) exam upon graduation. Internship II may be completed during Fall and/or Spring Semesters and may be completed concurrently with Internship I.

**Prerequisite:** Must be currently enrolled in the KBD program. **Recommendation:** This course can be completed concurrently with Fall Semester courses and/or KBD 2781.

## Linguistics

### **Introduction to Linguistics LING 2020 4 Credits**

Students will consciously think about language and its structure, identify patterns in language, and compare structures that are shared across languages. The course practices logical reasoning and deduction. Problem sets will focus on a variety of languages with special emphasis on English, and immigrant languages, such as Hmong, Somali, Spanish, and Liberian Creole.

**Prerequisite:** Assessment score placement in

RDNG 1000, or completion of RDNG 0090 with a grade of “C” or higher. Assessment score placement in MATH 0070, or completion of MATH 0030 with a grade of “C” or higher or completion of PHIL 1041 with a “C” or higher.

### **Introduction to Socio-Linguistics LING 2030 4 Credits**

**MnTC: Goal 05**

This course looks at the interrelationship of language and society. It looks at the social aspects of language, including usage, attitudes towards usage of various varieties of language, and issues of language planning and policy. Students will examine factors that affect their choice of language and how language affects the hearer’s perception of the speaker.

## Marketing

### **Visual Merchandising and Store Planning MKTG 1020 3 Credits**

This course emphasizes merchandise presentation as a seller’s tool for getting customers and clients “in touch” with branded products and services in conventional retail settings as well as non-traditional venues like grocery stores, special events, and trade shows. Students analyze branding and visual image in existing stores and devise ways to physically present products/services to targeted markets. They can expect to apply art principles and elements of design to create store fronts, floor plans, wall elevations, fixture layouts, lighting plans, and select site-appropriate props, mannequins and fixtures. The course stresses creativity and innovation in class projects as well as outside assignments related to student interests or current employment.

**Prerequisite:** MKTG 2050.

### **Professional Development MKTG 1025 3 Credits**

This course alerts students to the importance of accurately identifying and assessing elements of the workplace culture - values, norms, behaviors, and ethics that can support employee wellness and satisfaction on the job. Students are encouraged to analyze their current workplace climates relative to their

own positions within those organizations. Projects and case studies focus on leadership traits, motivational theory, and teamwork development as well as time-management and stress-management strategies in workplace and classroom settings.

**Recommendation:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of “C” or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of “C” or higher.

### **Fashion Marketing Essentials MKTG 1043 3 Credits**

This course focuses on the history and traditions of the global fashion industry - from haute couture design to budget-priced mass market apparel. It offers basic information about fabrication and production processes, and provides selling tools like textile basics, fashion terminology, apparel design elements, and color trends that increase sales and profitability at retail. Students also explore the psychological, sociological, and ethical factors that influence both producer and consumer behavior while guiding contemporary marketing strategy at the retail level.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### **Event Production and Marketing MKTG 1066 3 Credits**

This course provides necessary background for the execution of special events for commercial businesses and not-for-profit community organizations. Effective planning is a dynamic process that begins well in advance of actual production. It includes organizational mission and goal setting, audience targeting, branding, effective marketing communications, sponsorship development, program planning, logistics, risk management, crisis planning, and a variety of other elements that ensure safety, service, entertainment, and satisfaction for all event stakeholders and participants.

**Recommendation:** MKTG 2050 and MKTG 2063.

### **Marketing Independent Study MKTG 1790 1 - 3 Credits**

This variable-credit elective course emphasizes the student’s independent search

## 7 Course Descriptions

for advanced knowledge as well as additional hands-on skills beyond current Marketing course offerings. The student and instructor will devise a formal plan of study to satisfy credit workload requirements within the semester timeline.

**Prerequisite:** Consent of instructor and dean. MKTG 2050 or its equivalent with a grade of "B" or higher.

### **Customer Service Strategies MKTG 2000 3 Credits**

This course investigates marketing trends and changing practices in the customer service sector. It focuses on developing and managing cost-effective, value-adding service strategies, policies, and procedures to enhance consumers' experiences with business organizations. The course stresses effective face-to-face and/or electronic communication strategies with both external and internal customers in a variety of business settings. It also covers recent advances in customer relationship management (CRM) strategies, data mining, and Website customer service activities.

**Recommendation:** MKTG 2050 (or concurrent registration). Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Entrepreneurship Fundamentals MKTG 2005 3 Credits**

This course emphasizes basic elements that potential entrepreneurs must consider in preparation for launching a new business venture. It focuses on the tasks involved with the launch of a business, product, and/or service -- financial planning, market planning and research, advertising, and project management. Students will also investigate ethics, succession planning, and other essentials needed to create a unique business plan. It stresses innovation in class projects and assignments related to the student's knowledge and expertise in a particular interest area with business potential. Students present their completed projects to the class at semester's end.

**Recommendation:** MKTG 2050 and MKTG 2080 (or BMGT 1020).

### **Workplace Leadership MKTG 2010 3 Credits**

This course explores the responsibilities and scope of frontline leadership from two perspectives - as an internal first step toward a management position in a business and also as an employee. Topics include hiring practices, orientation and training, goal-setting and productivity, scheduling and personnel budgets. The course also covers a variety of important legal issues relative to employers and their employees as well as best practices in team-building, communication, motivation, delegation, morale (climate and culture-building), and employee retention.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Negotiation Strategies MKTG 2020 3 Credits**

Negotiating is a fundamental skill that can be learned. This course introduces students to the techniques and tactics employed by sales professionals in a variety of business transactions. The skill of principled negotiation is used regularly by people engaged in business but is often overlooked by the same people in the conduct of their daily lives where it can influence and facilitate a number of important human activities.

**Recommendation:** Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Trend Analysis MKTG 2035 3 Credits**

This course focuses on trends - the directions in which marketing concepts, production, and outputs seem to be moving. Sometimes quickly and sometimes slowly, trends traverse the marketplace in response to demand and consumer acceptance. Trend analysis mostly learns from the past but always looks to the future - what consumers will want - because timely anticipation and response to demand is critical to competitiveness and profitability.

**Recommendation:** MKTG 2050. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Principles of Marketing MKTG 2050 3 Credits**

This course introduces current marketing theories and practices that bring ideas, products, and services to targeted consumers. In a consumer-driven marketplace, the successful conception, pricing, promotion and distribution of products and services depends on scanning the competitive environment; analyzing the constraints affecting marketing decision making; and identifying profitable, effective marketing strategies and tactics.

This course provides the foundation for more specialized courses in business and marketing. **Recommendation:** CAPL 1010 and BMGT 1020. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### **Electronic Marketing Concepts MKTG 2055 3 Credits**

This introductory course exposes students to the basic tools for marketing electronically in the business-to-business (B2B) or business-to-consumer (B2C) marketplace. It covers basic e-commerce processes, translating marketing strategies into accessible, attractive, and profitable options for consumers. Students will plan and develop e-commerce components, payment processes, security procedures and customer service delivery plans for online business.

**Prerequisite:** MKTG 2050.

**Recommendation:** CAPL 1050 and CAPL 1053. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

### **Relationship Selling MKTG 2060 3 Credits**

This course provides comprehensive coverage of contemporary professional selling with an emphasis on a trust-based relationship sales philosophy. Topics include an overview of relationship selling, methods of building effective communication skills and an exploration of sales careers. Students will study techniques to initiate customer relationships and better understand the buyer's needs, while gaining trust and understanding and establishing solid relationships. Students will also plan sales dialogues and presentations.

## 7 Course Descriptions

**Recommendation:** MKTG 2050 or BMGT 1020. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### **Advertising and Sales Promotion MKTG 2063 3 Credits**

This course introduces the basics of sales promotion and advertising as elements of effective sales campaigns that stimulate consumer demand and increase sales of products and services. Under the umbrella of the promotional mix, students will create, discuss and analyze advertisements and promotional pieces. In addition, they will select media as they devise coordinated promotional campaigns employing several promotional tools.

**Prerequisite:** MKTG 2050.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### **Retailing Principles and Practices MKTG 2080 3 Credits**

This course introduces students to retailing strategies that include an examination of various types of retailing options available to consumers today. It addresses “brick-and-mortar” retail stores in conventional shopping areas as well as “bricks-and-clicks” where store retailers also maintain an online presence. Topics include: consumer behavior, store organization, store and non-store retailing trends, technological advances for logistics, inventory control, and customer service delivery.

**Recommendation:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### **Marketing Internship MKTG 2780 1 - 6 Credits**

The internship experience provides an opportunity for marketing majors to work beside marketing practitioners in the field. Students select areas of interest to pursue in the internship setting -- sales, advertising, sales promotion, visual merchandising, special events, customer service, and sales force supervision. Students often intern with their current employers but may also work as

unpaid interns or volunteers for organizations that they wish to explore.

**Prerequisite:** Last semester before graduation and instructor consent.

## Mathematics

**Note:** Students registering for a mathematics course for the first time must take a mathematics assessment test as described in the Assessment section of this publication. Students must begin any mathematics coursework at their assessed skill level. Students who do not follow listed assessment and prerequisite requirements will be required to change registration to comply with Century’s Assessment Policy. Students should be aware that they will not receive credit for a course which is a prerequisite for a course for which they have already received credit. Students are restricted from back tracking in the math sequence.

### **Basic Mathematics**

#### **MATH 0010 3 Credits**

This course is designed to improve the student’s computational skills with whole numbers, fractions, decimals, percents, and signed numbers. A major emphasis of this course is to be able to perform these calculations by hand. Students will also learn to solve simple equations. Offered F, S, SS.

### **Introductory Algebra with Geometry**

#### **MATH 0030 5 Credits**

This course is a developmental course for students needing beginning algebra and geometry. Algebra topics include algebraic operations and properties of natural numbers, integers, rational numbers, and real numbers; solving linear equations and inequalities; applications of linear equations and inequalities; operations with polynomials; factoring; solving quadratics by factoring; graphing linear equations; and integer exponents. Geometry topics include lines and angles; angle pairs; parallel and perpendicular lines; triangles, quadrilaterals, circles, and sectors; area and perimeter; prisms, pyramids, cylinders, and cones; and surface area and volume. Offered F, S, SS.

**Prerequisite:** Math 0010 with a grade of “C” or higher, or assessment score placement in Math 0030.

### **Intermediate Algebra**

#### **MATH 0070 5 Credits**

This course is equivalent to a second course in high school algebra. Topics include polynomials and rational expressions and equations; systems of linear equations; linear, absolute value, polynomial, and rational inequalities; rational exponents, radicals, and complex numbers; linear, quadratic, exponential, and logarithmic functions; and the binomial theorem. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered F, S, SS.

**Prerequisite:** MATH 0030 with a grade of “C” or higher, or assessment score placement in MATH 0070.

### **Introductory Trigonometry**

#### **MATH 0090 2 Credits**

This course is designed for students who have never had a course in trigonometry or who need to review trigonometry before attempting college level trigonometry.

Topics include definitions of trigonometric functions, solving right triangles, laws of sines and cosines, trigonometric identities, trigonometric equations, radian measure, graphs of trigonometric functions. MATH 0090 may be taken concurrently with MATH 1061. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator.

**Prerequisite:** MATH 0070 with a grade of “C” or higher, or assessment score placement in MATH 0090.

### **Medical Dosages Calculations**

#### **MATH 1000 1 Credit**

This course is designed for students who are currently enrolled in or planning to enroll in the nursing or other health programs. Topics include metric, apothecary, and household systems; conversion between systems; measuring oral medication; parenteral therapy; preparation of solutions and pediatric dosages. Offered F, S, SS.

**Prerequisite:** MATH 0010 with a grade of “B” or higher, or assessment score placement in MATH 1000.

## 7 Course Descriptions

### Applied Mathematics

#### **MATH 1015** 5 Credits

This course integrates algebraic, geometric and trigonometric topics and their technical application. These topics include scientific and engineering notation, precision and accuracy, linear and non-linear equations, systems of equations, functions, plane figure and solid figure geometry, trigonometric functions, right triangle trigonometry, vectors, exponential and logarithmic functions, and statistics. The primary purpose is to help prepare students for technical and scientific careers. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered S.

*Prerequisite:* MATH 0030 with a grade of "C" or higher, or assessment score placement in MATH 1015. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Statistics

#### **MATH 1025** 4 Credits

##### **MnTC: Goal 04**

This course is an algebra based statistics course that introduces the basic concepts involved in collecting, analyzing, and interpreting data. Topics include graphs, frequency distributions, measures of central tendency and variation, probability, probability distributions, expected value, sampling distributions, normal distribution, confidence intervals, hypothesis testing for one and two population means and proportions, chi square, linear regression, and correlation. This course includes analysis and interpretation of data using the Minitab software package and using the TI-83/TI-84 calculator. Students are required to have a TI-83 or a TI-84 calculator. Offered F, S, SS.

*Prerequisite:* MATH 0070 with a grade of "C" or higher, or assessment score placement in MATH 1025. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Mathematics for the Liberal Arts

#### **MATH 1030** 3 Credits

##### **MnTC: Goal 04**

This course is designed for liberal arts and humanities majors whose program does

not require statistics, college algebra, or precalculus. Topics include problem-solving strategies, logical systems, mathematics in culture and society, mathematical modeling and applications, and finite mathematics. Not intended as a prerequisite for other mathematics courses. Use of a scientific or graphing calculator is required. (See instructor for acceptable models). Offered F, S.

*Prerequisite:* MATH 0070 with a grade of "C" or higher or assessment score placement in MATH 1030. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Finite Mathematics

#### **MATH 1050** 3 Credits

##### **MnTC: Goal 04**

This is an introductory course providing examples of how mathematics is applied in business, science, and social science. Topics include applications of linear equations, matrix algebra, linear programming, mathematics of finance, counting techniques, probability, and Markov chains. Use of a scientific or graphing calculator is required (see instructor for acceptable models). Offered S.

*Prerequisite:* MATH 70 with a grade of "C" or higher, or assessment score placement in MATH 1050.

### College Algebra I

#### **MATH 1061** 4 Credits

##### **MnTC: Goal 04**

College Algebra I is a college-level algebra course and serves as the prerequisite for Survey of Calculus or Calculus I. Topics include: linear, quadratic, absolute value equations and inequalities; solving radical and rational equations; graphing linear, absolute value, and radical equations; functions and graphs; polynomial, rational, exponential, and logarithmic functions; systems of equations and inequalities; data analysis, regression, and modeling. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered F, S, SS.

**Note:** College Algebra I is the prerequisite for Survey of Calculus. College Algebra I is also one of the prerequisites for College Algebra II with Trigonometry which is the prerequisite for Calculus I. *Prerequisite:* MATH 0070 with a grade of "C" or higher, or assessment score placement in MATH

1061. *Restriction:* Students may not receive credit for both MATH 1040 and MATH 1061. *Recommendation:* MATH 0090 is a prerequisite for MATH 1062. Take MATH 0090 prior to or concurrently with MATH 1061. Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### College Algebra II with Trigonometry

#### **MATH 1062** 4 Credits

##### **MnTC: Goal 04**

This course is the second course of a two-semester sequence for students planning to take Calculus I. Topics include right triangle trigonometry, trigonometric functions of any real number, graphs of trigonometric functions, trigonometric equations, linear models and systems of equations, sequences, parametric equations, polar coordinates, and conics. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered F, S, SS.

*Prerequisite:* MATH 0090 and MATH 1061 with a grade of "C" or higher, or MATH 1061 with a grade of "C" or higher and original assessment score placement into MATH 1061 or higher. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Survey of Calculus

#### **MATH 1070** 4 Credits

##### **MnTC: Goal 04**

This course is designed for those who need only an introduction to calculus. Topics include limits and continuity, derivatives, differentials, indefinite integrals, definite integrals, exponential and logarithmic functions, techniques of integration, applications of differential and integral calculus, integral tables, functions of two variables, partial derivatives, maxima and minima, and applied problems. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Students planning to take more than one semester of calculus should begin with MATH 1081. Offered S.

*Prerequisite:* MATH 1061 with a grade of "C" or higher, or assessment score placement in MATH 1070. *Restriction:* Credit will not be granted for both MATH 1070 and MATH 1081. *Recommendation:* Assessment score placement in RDNG 1000 or above, or

completion of RDNG 0090 with a grade of “C” or higher.

### Single Variable Calculus I MATH 1081 5 Credits

#### MnTC: Goal 04

This is the first course in the two-semester sequence of Single Variable Calculus.

Topics include functions of a single variable, limits and continuity, differentiation, antidifferentiation, and integration of algebraic and transcendental functions with associated applications in each area. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered F, S.

*Prerequisite:* MATH 1062 with a grade of “C” or higher, or assessment score placement in MATH 1081. *Restriction:* Credit will not be granted for both MATH 1070 and MATH 1081.

### Single Variable Calculus II MATH 1082 5 Credits

#### MnTC: Goal 04

This course is the second course of the two-semester sequence of single variable calculus. Topics include applications of the definite integral, techniques of integration, numerical integration, improper integrals, infinite series, elementary differential equations, parametric curves, and polar curves. A graphing calculator is required. Instruction will be provided in the use of the TI-83/TI-84 calculator. Offered F, S.

*Prerequisite:* MATH 1081 with a grade of “C” or higher.

### Probability and Statistics MATH 2025 4 Credits

This calculus-based course is intended for students majoring in statistics, mathematics, computer science, and some engineering programs. Topics include descriptive statistics, probability, probability distributions for discrete and continuous random variables, joint probability distributions, point estimation, and inferences based on one and two samples. Analysis and interpretation of data using a statistical software package and/or the TI-83/84 series calculator is required.

*Prerequisite:* MATH 1082 with a grade of “C” or higher. *Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### Multivariable Calculus MATH 2081 5 Credits

This course is intended for students majoring in chemistry, engineering, physics, science, mathematics, mathematics education, and computer science. Topics include vectors in 3-space, vector functions, functions of two or more variables, partial derivatives, and the chain rule; applications to max/min problems, double and triple integrals; change of variable; polar and spherical coordinates; integration on curves and surfaces; vector fields and the theorems of Green, Gauss, and Stokes. Use of a 3-D graphing calculator, such as a TI-89, is required. Limited use of a computer algebra system will be made. Offered F, S.

*Prerequisite:* MATH 1082 with a grade of “C” or higher, or consent of instructor.

*Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

### Linear Algebra and Differential Equations MATH 2082 5 Credits

This course is intended for students majoring in chemistry, engineering, physics, science, mathematics, mathematics education, and computer science. This is a basic course in Differential Equations including ordinary differential equations, matrix formulation of linear systems, the nonhomogeneous case, variation of parameters, and undetermined coefficients. The companion topics from Linear Algebra include vector spaces, independence, bases, linear transformations, and eigenvectors. Use of a 3-D graphing calculator, such as a TI-89, is required. Limited use of a computer algebra system will be made. Offered S.

*Prerequisite:* MATH 1082 with a grade of “C” or higher, or consent of instructor.

*Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

## Medical Assistant

**Note:** Prior to registering for any MEDA course student must attend a new student orientation session.

### Laboratory Techniques I MEDA 1001 5 Credits

This course is designed for persons interested in pursuing a career in medical assisting. It introduces diagnostic procedures routinely performed in the physician’s office laboratory, including the collection and preparation of appropriate specimens, federal guidelines, safety, quality control, metric system, electrocardiography (ECG) and routine urinalysis. The legal and ethical responsibilities for the health care professional are presented.

*Prerequisite:* HLTH 1001 and BIOL 1024 and concurrent enrollment in MEDA 1011.

### Laboratory Techniques II MEDA 1002 5 Credits

Continuation of physician’s office laboratory procedures, including phlebotomy, hematology procedures, blood chemistries, basic principles of microbiology and serology.

*Prerequisite:* MEDA 1001 and MEDA 1011 with a grade of “C” or higher and concurrent enrollment in MEDA 1012.

### Clinical Assisting I MEDA 1011 5 Credits

This course is designed for persons interested in pursuing a career in Medical Assisting. The student will focus on identifying ways to prevent transmission of disease, followed by disinfecting and sterilizing surgical/office instruments. This course will also discuss Federal Guidelines and Regulations along with therapeutic approach to AIDS patients. The student will perform vital signs, patient draping and positioning, prepare patients for physical examination and discuss nutrition.

*Prerequisite:* HLTH 1001 and BIOL 1024 and concurrent enrollment in MEDA 1001.

### Clinical Assisting II MEDA 1012 5 Credits

This course is designed for persons interested in pursuing a career in Medical Assisting. The student will study the importance of Pharmacology along with proper drug administration and documentation. Students will also prepare patients for physical examination, medical specialty exams, apply skeletal supportive devices and simulate assisting physician with sterile procedures and office surgery.

## 7 Course Descriptions

### **Administrative Procedures for Medical Assistants**

#### **MEDA 1020 4 Credits**

This course introduces common manual and computerized office procedures associated with a clinical practice. Topics include reception and telephone management, appointment scheduling, mail processing, filing, banking, bookkeeping, payroll, ICD-9-CM and CPT coding, insurance claims processing, and health care law and ethics. The student will complete a computerized simulation of a medical practice integrating the above topics. *Prerequisite:* CAPL 1010 or CSCI 1020, HLTH 1001.

### **Clinical Externship**

#### **MEDA 1780 6 Credits**

This course provides students with learning experiences in administrative, clinical, and laboratory procedures through performance in selected physician's offices and clinics. The 300 hour externship is unpaid.

*Prerequisite:* All program requirements must be completed prior to externship. Instructor's signature required. CPR certification required either through American Heart Association-(Healthcare provider), or American Red Cross-(Professional Rescuer). *Recommendation:* The student should obtain their Limited Radiographer X-ray Operators License through the State of Minnesota.

## Microcomputer Support Technology

---

### **PC Hardware and Software**

#### **MCST 1001 4 Credits**

This course covers the fundamentals of computer hardware and software as well as advanced concepts. The course will focus on describing the internal components of a computer, assembling a computer system, installing an operating system, and troubleshooting using system tools and diagnostic software.

### **Supporting Microsoft Windows XP Professional**

#### **MCST 1011 3 Credits**

Students will study the skills needed to effectively manage and configure the

Windows XP Professional client operating environment. Topics include how to use functions and utilities, manage user interface properties, manage hardware devices, and installing the Windows XP Professional operating system. This course will help prepare students for the Microsoft Certified Professional (MCP) industry certification.

### **Supporting Microsoft**

#### **Windows Server 2003**

#### **MCST 1013 3 Credits**

This course will cover the skills needed to effectively manage the Microsoft Server operating system environment. Students will study how to use functions and utilities, manage program properties, manage hardware devices, and install operating system and applications. This course will help prepare students for the Microsoft Certified Professional (MCP) industry certification.

### **Linux Operating System**

#### **MCST 1030 3 Credits**

This course introduces the student to the Linux operating system. Basic/intermediate commands, file/directory structure and management, file/directory security, redirection, pipes, variables and aliases are among the topics discussed. In this class, students will study the necessary core Linux concepts and practical usage in order to work effectively in this operating system environment.

### **Administering the Active Directory**

#### **MCST 2015 3 Credits**

Students will study the skills needed to effectively manage the Windows Server Active Directory Services. In a lab setting, students will use functions and utilities, install, configure, administer, monitor and troubleshoot Microsoft Windows 2003 Active Directory. This course will help prepare students for the Microsoft Certified Professional (MCP) industry certification.

*Prerequisite:* MCST 1013 or MCST 2013 or Microsoft Server (MCP) industry certification.

### **Windows Server 2003**

#### **Network Infrastructure**

#### **MCST 2017 3 Credits**

This course is designed to provide students with the skills and knowledge necessary to

configure, manage and troubleshoot Windows Server 2003 network infrastructure. This course will help prepare students for the Microsoft Certified Professional (MCP) industry certification.

*Prerequisite:* MCST 1013 or MCST 2013 or Windows Server MCP industry certification.

### **Windows Server 2003 Network Design**

#### **MCST 2019 3 Credits**

Students will study the skills needed to effectively plan, configure and manage a TCP/IP physical and logical networking topology and optimize a routing strategy. Students will study how to planning, configuring and troubleshooting DHCP, DNS, WINS, IPSec and network access issues. This course will help prepare students for the Microsoft Certified Professional (MCP) industry certification.

### **Systems Analysis/End User Network**

#### **Computing**

#### **MCST 2020 3 Credits**

This course covers the concepts of systems analysis and design from the microcomputer end-user standpoint. Topics include new system planning, documentation, feasibility, data collection and analysis, system integration and implementation. Students are required to work as a member of an analysis team to design a system network solution to a given problem and to present the solution to the class as an oral presentation.

*Prerequisite:* MCST 1013 or MCST 2013.

### **Help Desk Technologies**

#### **MCST 2021 3 Credits**

This course will cover the skills needed to effectively assist help desk clients. Topics include the tools, techniques, technologies, and customer service skills the student will need to successfully integrate their technical knowledge into a customer-focused help desk environment.

*Prerequisite:* MCST 1001 and MCST 2020 or consent of instructor.

### **Linux/UNIX Shells and Scripting**

#### **MCST 2031 3 Credits**

This course introduces the student to the Linux/UNIX shell, its uses, and related concepts including types of shells, login profiles, special characters, processes and variables. Shell programming (scripting) is covered in introductory and intermediate

levels. In this class, students will study the necessary UNIX scripting concepts and practical usage within the Linux/UNIX operating system environment.

**Linux/UNIX System Administration  
MCST 2032 3 Credits**

This course presents intermediate and advanced Linux/UNIX operating system concepts and commands from a user and system administrator viewpoint. Traditional system management topics covered include security, software product installation, startup and shutdown, backups, performance and disk management.

*Prerequisite:* MCST 1030 or instructor consent.

**Linux/UNIX Network Administration,  
Security and Troubleshooting  
MCST 2033 3 Credits**

This course continues advanced UNIX operating system concepts and commands from an administrative perspective, covering the critical areas of network administration, security and troubleshooting.

*Prerequisite:* MCST 2031 or instructor consent.

**Supporting Microsoft Windows 2000  
Professional and Server  
MCST 2120 3 Credits**

This course provides students with the knowledge and skills necessary to install and configure Microsoft Windows Professional on stand-alone and client computers that are part of a workgroup or domain.

*Prerequisite:* MCST 2110 or equivalent knowledge. *Recommendation:* The knowledge to describe the principal features of the Windows 2000 operating system and the fundamentals of Transmission Control Protocol/Internet Protocol (TCP/IP).

**Internship  
MCST 2780 1 - 6 Credits**

This course is designed to provide students with the opportunity to apply skills learned in the Microcomputer Support Technology program in their career field. Students will learn to work in a professional environment while honing their technical skills.

*Recommendation:* Last semester before graduation or the consent of instructor.

## Music

**Century College Choir**

**MUSC 1000 1 Credit**

The Century College Choir is a vocal ensemble that sings a variety of choral literature.

Concerts are presented each semester. No previous singing experience or audition is required. Some special evening rehearsals are required as scheduled by the director.

Students may take this course for academic credit up to four times.

*Note:* Registration for choir may be done as an activity for academic credit or through Continuing Education.

**Century Chamber Singers**

**MUSC 1005 1 Credit**

Designed as an advanced opportunity in choral performance, the Century Chamber Singers is open to students and community musicians with previous singing experience. A wide variety of music is performed and at least one major choral concert is presented each semester. Some special evening rehearsals are required as scheduled by the director. Registration for Chamber Singers may be done as an activity for academic credit or through Continuing Education. Students may repeat this course up to four times and receive academic credit.

*Prerequisite:* An audition or an interview with the director is required.

**Century Chamber Orchestra**

**MUSC 1010 1 Credit**

The Century Chamber Orchestra rehearses and performs a wide variety of orchestral music in a series of concerts during the academic year. The primary object of the ensemble is to develop the musicians' ensemble playing ability and their understanding of orchestral technique and literature. The ensemble is open to musicians with previous performing experience. Students may take this course for academic credit up to four times.

*Note:* Registration for orchestra may be done as an activity for academic credit or through Continuing Education. Additional rehearsal time may be scheduled for the week of each performance. *Prerequisite:* An interview and audition with the instructor.

**Theatre Orchestra**

**MUSC 1011 1 Credit**

The Theatre Orchestra will rehearse and perform a full-length, fully staged musical as part of a production by the Theatre Dept. The primary object of the ensemble is to develop the musicians' playing ability as an accompanying ensemble within the American musical theatre tradition. The ensemble is open to musicians with previous performing experience.

*Note:* Registration for Theatre Orchestra may be done as an activity for academic credit or through Continuing Education. Additional rehearsal time will be scheduled for the week prior to the opening night performance ("tech week"). Students may take this course for academic credit up to four times.

*Prerequisite:* An audition or an interview with the director is required.

**Century Concert Band**

**MUSC 1015 1 Credit**

The Century Concert Band is a musical ensemble dedicated to the study and performance of quality band literature. The music performed is from a wide variety of styles ranging from the Baroque period to the music of today. The objective of this course is to expand students' understanding and enjoyment of music through the performance and study of music of various periods and styles. The membership in the band includes students and community members. Students may take this course for academic credit up to four times.

*Note:* Registration for band may be done as an activity for academic credit or through Continuing Education. *Prerequisite:* Must have prior experience playing a wind or percussion instrument.

**Century Jazz Ensemble**

**MUSC 1017 1 Credit**

This course involves the study and performance of high level jazz arrangements with emphasis on improvisation. The ensemble also presents a Jazz Festival each year with a notable jazz soloist. In addition to performing at the college, the group makes numerous appearances at other locations around the state. An audition with the instructor is required. Registration for Jazz Ensemble may be done as an activity for academic credit or through Continuing Education. Students may

## 7 Course Descriptions

repeat this course up to four times and receive academic credit.

*Prerequisite:* Consent of instructor.

### **Century Guitar Ensemble** **MUSC 1018 1 Credit**

The Century Guitar Ensemble rehearses and performs a variety of guitar ensemble music in concerts during the academic year. The primary objective of the ensemble is to develop the musician's ensemble playing ability and their understanding of classical guitar technique and ensemble literature. Students must provide their own nylon string classical guitar. Students may take this course for academic credit up to four times.

*Note:* Registration for guitar ensemble may be done as an activity for academic credit or through Continuing Education. Additional rehearsal time may be scheduled for the week of each performance. *Prerequisite:* An interview and audition with the instructor.

*Recommendation:* Ability to read standard notation on the guitar.

### **Century Piano Ensemble** **MUSC 1019 1 Credit**

Students in the Century Piano Ensemble rehearse and perform a wide variety of piano ensemble music in concerts during the academic year. The primary objective of the ensemble is to further develop each musician's ensemble playing, collaborative skills, and performing skills through the study of the diverse repertoire for piano ensemble. Students may take this course for academic credit up to four times.

*Note:* Registration for piano ensemble may be done as an activity for academic credit or through Continuing Education. Additional rehearsal time may be scheduled for the week of each performance. *Prerequisite:* An interview and audition with the instructor.

*Recommendation:* Sight reading skills and the ability to perform on the piano at the intermediate level or higher.

### **Beginning Group Piano** **MUSC 1020 2 Credits**

This course is group instruction for students with little or no previous keyboard experience. Basic skills in sightreading, chording, harmonization, and technique are learned. Students must practice outside of class time to successfully complete this course.

### **Century Jazz Combo** **MUSC 1021 1 Credit**

The Century Jazz Combo rehearses and performs a wide variety of music during the academic year. The primary object of the ensemble is to develop the musicians' improvisation skills and ensemble playing ability, as well as their understanding of jazz technique and literature. The ensemble is open to musicians with previous performing experience. Students may take this course for academic credit up to four times.

*Note:* Registration for jazz combo may be done as an activity for academic credit or through Continuing Education. Additional rehearsal time may be scheduled for the week of each performance. *Prerequisite:* An interview and audition with the instructor.

### **Intermediate Group Piano** **MUSC 1025 2 Credits**

This course is group instruction for students with some piano background and for those who have successfully completed Beginning Group Piano. Students must practice outside of class time to successfully complete this course.

### **Fundamentals of Music** **MUSC 1030 3 Credits**

Fundamentals of Music is an introduction to basic music theory. The course covers concepts such as tonality, rhythm, scales and harmony, as well as a general survey of significant genres of Western classical music. This course satisfies some music education requirements and serves as an introduction to basic music theory for general students or those considering a career in music.

### **Enjoyment of Classical Music** **MUSC 1035 3 Credits** **MnTC: Goal 06**

Enjoyment of Classical Music is a survey of Western classical music from the Middle Ages in Europe to the present in Europe and North America. The course explores various musical styles and forms, including orchestral, choral and chamber music. There is an emphasis on focused listening, with the purpose of enhancing the ability to understand and appreciate music.

### **Popular Music in American Society** **MUSC 1045 3 Credits** **MnTC: Goals 06 & 07**

This course surveys the history of American popular music from the 1950s to the present. The course examines the development of various music styles, such as rock and hip-hop, and explores the relationship between cultural trends and popular music. Notable recordings and musicians will be studied. Attendance at one concert is required.

### **Music Theory I** **MUSC 1061 3 Credits**

This course is designed to help the music student develop the analytical and compositional skills necessary for a more complete understanding of music. The course focuses on melody, harmony, rhythm and musical structure. Topics include notation, scales and modes, keys, intervals and transposition, chords, cadences, non-chord tones and melodic structure. Students will apply music theory concepts by analyzing music examples and by writing short music compositions.

*Prerequisite:* Concurrent enrollment in MUSC 1071 or consent of instructor.

*Recommendation:* Students should be able to read music at a basic level.

### **Music Theory II** **MUSC 1062 3 Credits**

This course is the continuation of Music Theory I (MUSC 1061). The course focuses on music texture, two- and four-part voice leading, harmonic progressions, a variety of seventh chords, and modulation. Students will apply music theory concepts by analyzing music examples and by writing music compositions.

*Prerequisite:* MUSC 1061; concurrent enrollment in MUSC 1072, or consent of instructor.

### **Ear Training I** **MUSC 1071 2 Credits**

This course is designed to help the music student strengthen their musical abilities through focused listening and sight singing. It is intended for all students who desire a deeper understanding of music. Topics include ear training and sight singing on basic melodies in major and minor keys, and learning to recognize, write and sing basic melodic and rhythmic examples and harmonic

## 7 Course Descriptions

progressions. This course applies many of the concepts learned concurrently in Music Theory I (MUSC 1061).

**Prerequisite:** Concurrent enrollment in MUSC 1061 or consent of instructor.

### **Ear Training II MUSC 1072 2 Credits**

This course is the continuation of Ear Training I (MUSC 1071). The course is designed to further help the music student strengthen their musical abilities through focused listening and sight singing. Topics include ear training and sight singing on advanced melodies in major and minor keys, and learning to recognize, write and sing advanced melodic and rhythmic examples and harmonic progressions. This course applies many of the concepts learned concurrently in Music Theory II (MUSC 1062).

**Prerequisite:** Concurrent enrollment in MUSC 1062 or consent of instructor.

### **Private Instrumental MUSC 2011 1 Credit**

This course is individual instruction in learning to play a woodwind, brass, string, or percussion instrument. The student's needs and interests will determine the selection of music literature. Students may repeat this course up to four times and receive academic credit.

### **Private Instrumental-Advanced MUSC 2012 1 Credit**

This course is individual instruction on a woodwind, brass, string, or percussion instrument for the advanced player. The student's progress will be reviewed at the end of each semester by the music faculty (jury). Students may repeat this course up to four times and receive academic credit.

**Restriction:** Consent of instructor.

### **Beginning Group Guitar MUSC 2020 2 Credits**

Group instruction for students with little or no previous guitar instruction. Basic skills in chords, strumming, finger picking, harmony/theory, improvisation, music reading and guitar technique. Practice outside class is necessary for completion of this course. Students must provide their own guitar. Offered F, S.

**Restriction:** Students already proficient in the areas listed in the course description should register for individual instruction.

### **Private Guitar MUSC 2021 1 Credit**

This course is individual instruction in learning to play the guitar. The student's needs and interests will determine the selection of music literature. Students may repeat this course up to four times and receive academic credit.

### **Private Guitar-Advanced MUSC 2022 1 Credit**

This course is the study of the guitar for the advanced player. Depending on the student's needs and interests, this course will have a Classical, Jazz, or Rock and Blues emphasis. The student's progress will be reviewed at the end of each semester by the music faculty (jury). Students may repeat this course up to four times and receive academic credit.

**Restriction:** Consent of instructor.

### **Private Piano MUSC 2031 1 Credit**

This course is individual piano instruction for elective credit. The focus of the course is on the development of elementary and intermediate keyboard skills with an emphasis on technique, theory and interpretation of musical styles. The student's needs and interests will determine the selection of music literature. Students may repeat this course up to four times and receive academic credit.

### **Private Piano-Advanced MUSC 2032 1 Credit**

This course focuses on the development of advanced keyboard skills. Standard classical literature from the Baroque, Classical, Romantic, Impressionist, or Modern periods will be studied. The student's progress will be reviewed at the end of each semester by the music faculty (jury). Students may repeat this course up to four times and receive academic credit.

### **Private Voice MUSC 2041 1 Credit**

This course is individual instruction for elective credit. The emphasis of this course is on proper voice function in speaking and singing through basic techniques including correct posture, breath management, free tone production, proper diction, and expression. The student's needs and interests will determine the selection of music literature. Students may repeat this course up to four times and receive academic credit.

### **Private Voice-Advanced MUSC 2042 1 Credit**

This course focuses on vocal development for the advanced singer. A variety of vocal literature will be studied. The student's progress will be reviewed at the end of each semester by the music faculty (jury). Students may repeat this course up to four times and receive academic credit.

**Prerequisite:** Consent of instructor.

### **World Music MUSC 2051 3 Credits**

#### **MnTC: Goals 06 & 08**

This course introduces students to traditional music from a variety of cultures, such as India, China, Japan, Indonesia, Ghana, Zimbabwe, and the Middle East. The course also examines the relationships between American popular music and non-Western societies. There is an emphasis on focused listening, with the purpose of enhancing the ability to appreciate and understand music.

### **Advanced Music Theory I MUSC 2061 3 Credits**

This course is the continuation of Music Theory II (MUSC 1062). It is an advanced study of chromatic harmony including borrowed chords, Neapolitan 6th chords, augmented 6th chords, extended chords, altered dominants, and chromatic mediants. Students will apply advanced music theory concepts by analyzing music examples and by writing music compositions.

**Prerequisite:** MUSC 1062; concurrent enrollment in MUSC 2071, or consent of instructor.

### **Advanced Music Theory II MUSC 2062 3 Credits**

This course is the continuation of Advanced Music Theory I (MUSC 2061). It is an advanced study of form in music including binary and ternary form, two-voice 18th Century counterpoint, the fugue, variation technique, sonata form, and rondo form. Students will apply advanced music theory concepts by analyzing music examples and by writing music compositions.

**Prerequisite:** USC 2061; concurrent enrollment in MUSC 2072, or consent of instructor.

## 7 Course Descriptions

### **Advanced Ear Training I MUSC 2071 2 Credits**

This course is a of Ear Training II (MUSC 1072). It is designed to help the music student strengthen their advanced musical abilities through focused listening and sight singing. Topics include advanced melodies (chromaticism, non-harmonic tones), advanced rhythms (syncopation, asymmetrical rhythms, dotted rhythms) and advanced chord progressions (7th chords, applied dominants, modulation). This course applies many of the concepts learned concurrently in Advanced Music Theory I (MUSC 2061).

*Prerequisite:* Concurrent enrollment in MUSC 2061 or consent of instructor.

### **Advanced Ear Training II MUSC 2072 2 Credits**

This course is the continuation of Advanced Ear Training I (MUSC 2071). It is a continuation of the advanced study of focused listening and sight singing. Topics include advanced melodies (suspensions), advanced rhythms (double dotting, polyrhythms, meter shifts), advanced chord progressions (diminished 7th chords, Neapolitan 6th chords, augmented 6th chords) and extended harmony. This course further applies concepts learned in Advanced Music Theory I (MUSC 2061), and learned concurrently in Advanced Music Theory II (MUSC 2062).

*Prerequisite:* Concurrent enrollment in MUSC 2062 or consent of instructor.

### **Music History I: Antiquity Through 1800 MUSC 2081 3 Credits**

This course explores the development of Western classical music from antiquity through 1800. Students will examine the lives and works of notable composers, the changing role of music in Western civilization, the advancement of music theory, and the development of music styles and genres.

*Prerequisite:* Completion of or concurrent enrollment in MUSC 1061 and MUSC 1071, or consent of instructor.

### **Music History II: 1800 Through Present MUSC 2082 3 Credits**

This course will study the development of Western classical music from 1800 to the Present. Students will examine the lives and works of notable composers, the changing

role of music in Western civilization, the advancement of music theory, and the development of music styles and genres.

*Prerequisite:* Completion of MUSC 2081 with a grade of "C" or higher, or consent of instructor. *Restriction:* Open only to students who are able to read music.

## Nursing

(Also see courses under HSCI)

### **The Registered Nurse Role in Health and Wellness NURS 1020 4 Credits**

This course introduces the role of the Associate Degree Registered Nurse in healthcare. Concepts include holistic therapies, cultural diversity, nursing process, assessment, pharmacology, communication, teaching-learning theory, documentation, legal-ethical issues and professional boundaries. Course emphasis includes holism, critical thinking and primary, secondary and tertiary prevention with patients and families throughout the lifespan. The fundamental concepts of therapeutic nursing interventions and the relationship to health and wellness are integrated throughout the course. This course prepares the Associate Degree Nursing student to care for patients in chronic and acute care settings.

*Prerequisite:* Admission to the Nursing Program, concurrent enrollment in NURS 1025, MATH 1000, and BIOL 2031 unless previously successfully completed. *Recommendation:* Computer skills are essential.

### **Clinical Application for NURS 1020 NURS 1025 4 Credits**

This course applies theoretical concepts to nursing practice in individual, small group and large group settings. The therapeutic nursing interventions include medication administration, physical assessment, sterile technique, catheterization, wound care, enteral tubes, and intravenous fluid administration. The practicum experiences include contact with patients across the lifespan in a variety of settings such as nursing lab, long term care, acute care, ambulatory clinics and the community.

*Prerequisite:* Nursing Assistant course or equivalent, concurrent enrollment in NURS 1020, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Directed Study in Nursing NURS 1028 1 - 4 Credits**

This course provides opportunity for directed study in nursing theory and/or lab and clinical for nursing students in the classroom, long term care, community, or acute care settings. The course content is individualized based on an assessment of each student's learning needs. Focus of the course will be demonstration of competency in identified learning goals related to safe, holistic nursing care.

*Prerequisite:* Admission to the Nursing Program and consent of the Nursing Program Director.

### **Nursing Intervention I: Health, Healing and Holism and the Role of the RN NURS 1030 4 Credits**

This course provides students with theoretical content related to acute, chronic, and terminal health conditions of the respiratory, immune, renal, endocrine, neurological and musculoskeletal systems, cancer and infectious diseases. The course includes exploration of patterns of health and wellness for patients within their environment. Course emphasis includes critical thinking in the application and analysis of therapeutic nursing interventions, pain management, and levels of prevention in relation to the health of patients across the lifespan.

*Prerequisite:* NURS 1020, NURS 1025, MATH 1000, BIOL 2031, concurrent enrollment in BIOL 2032 and NURS 1035.

### **Clinical Application for NURS 1030 NURS 1035 4 Credits**

This course applies theoretical concepts to holistic nursing practices promoting critical thinking, assessment skills, caring behaviors, therapeutic nursing interventions, prevention of disease, and health and wellness throughout the life span. This practicum, with clinical experiences in acute care, ambulatory care clinics, long term care, community agencies, and the Nursing Learning Resource Center, provides the student with

opportunities to provide intermediate level nursing interventions. Course emphasis includes holism, nursing process with emphasis on assessment and interventions, prioritization, communication, and health teaching in both acute care and community service learning.

**Prerequisite:** Concurrent enrollment in NURS 1030, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Health, Healing and Holism and Role Transition from LPN to RN NURS 1160 4 Credits**

This course introduces the Licensed Practical Nurse to the Registered Nurse role in healthcare. Content includes communication, teaching-learning theory, caring theory, levels of prevention, critical thinking and collaborative process. An emphasis of holism throughout the life span provides the basis for nursing assessment and diagnosis of patients and families. The beginning concepts of nursing interventions and their relationship to health and wellness are presented, as well as evaluation of nursing care. Professional boundaries, leadership concepts, and current healthcare trends are also included.

**Prerequisite:** Admission to the LPN Mobility Nursing Track, BIOL 2031 and BIOL 2032.

**Recommendation:** Computer skills are essential.

### **Clinical Application for NURS 1160 NURS 1165 2 Credits**

This course applies theoretical concepts to professional registered nursing practice in individual, small group, and large group settings. Application of the nursing process, critical thinking, holistic nursing care, and health promotion are included. Demonstrations and validations of professional nursing skills are performed in the Nursing Learning Resource Center and clinical setting. Practicum experiences include interactions with patients across the lifespan in a variety of healthcare settings.

**Prerequisite:** Admission to the LPN Mobility Nursing Track, concurrent enrollment in NURS 1160, Healthcare Provider CPR certification, background clearance, and required immunizations. **Recommendation:** Computer skills are essential.

### **Nursing Interventions I: Health, Healing and Holism and the Role of the RN NURS 1230 4 Credits**

This course provides mobility (Paramedic) students with theoretical content related to acute, chronic, and terminal health conditions of the respiratory, immune, renal, endocrine, neurological and musculoskeletal systems, cancer and infectious diseases. This course includes exploration of patterns of health and wellness for patients within their environment. Critical thinking in the application and analysis of therapeutic nursing interventions, pain management, and levels of prevention in relation to the health of patients across the lifespan are emphasized.

**Prerequisite:** NURS 1260, NURS 1265, and concurrent enrollment in NURS 2235.

### **Health, Healing, and Holism and Role Transition from Paramedic to RN NURS 1260 4 Credits**

This course introduces the Nationally Registered Emergency Medical Technician-Paramedic (EMT-P) to the Registered Nurse role in health care. This course builds upon the competencies of the Paramedic in addition to expanding their knowledge in content that includes communication, teaching-learning theory, caring theory, levels of prevention, critical thinking and group process. An emphasis on holism throughout the lifespan provides the basis for assessment of patients and families. The beginning concepts of therapeutic nursing interventions and their relationship to health and wellness, professional boundaries, and leadership concepts are presented.

**Prerequisite:** Admission to the Paramedic Mobility Nursing Track, BIOL 2031 and BIOL 2032 (or equivalent), concurrent enrollment in NURS 1265.

### **Clinical Application for NURS 1260 NURS 1265 2 Credits**

This is a transition course for Nationally Registered Emergency Medical Technician-Paramedics (EMT-P) that includes an introduction to the role of the Registered Nurse in health care settings. This course builds upon the clinical competencies of the Paramedic in addition to expanding their knowledge and psychomotor skills in clinical settings. An emphasis on holism throughout the lifespan provides the basis for assessment

and nursing care of patients and families.

The beginning practice of therapeutic nursing interventions and their relationship to health and wellness, professional boundaries, and leadership practice are applied.

**Prerequisite:** Admission to the Paramedic Mobility Nursing Track, concurrent enrollment in NURS 1260, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Clinical Specialty Focus NURS 2025 1 - 4 Credits**

This course provides an opportunity to increase knowledge and nursing skills within a specialized lab or clinical setting utilizing the Nursing Learning Resource Center, acute care or community settings. The course builds upon content taught within the Nursing Program while providing the opportunity to expand experiential learning and go beyond the basics in a specialized field of nursing.

**Prerequisite:** Successful completion of at least one nursing course, concurrent enrollment in the Nursing Program, Healthcare Provider CPR certification, background clearance, required immunizations, and consent of instructor.

### **Nursing Interventions II: Health, Healing and Holism and the Role of the RN NURS 2030 4 Credits**

This course provides the student with the theoretical content related to health and wellness in the infant, child and adult. Primary, secondary and tertiary health care management and health conditions are discussed throughout the lifespan. Critical thinking skills, therapeutic nursing interventions, communication, prioritization, collaborative care and the holistic nursing process are emphasized. Major content areas include maternal/child health, mental health, cardiac, and gastrointestinal conditions as well as emergency and trauma care.

**Prerequisite:** NURS 1030, NURS 1035, and concurrent enrollment in NURS 2035.

**Recommendation:** NURS 2222 or concurrent enrollment.

### **Clinical Application for NURS 2030 NURS 2035 4 Credits**

This course applies theoretical concepts to nursing practice. This practicum, with clinical experiences in acute, specialty and

## 7 Course Descriptions

community settings, provides the student with opportunities to provide comprehensive nursing care to multiple clients. Course content emphasizes team leading, health teaching, holism, nursing process with an emphasis on evaluation, communication and the RN role. Unique to this course is community screening, maternal/child health, newborn assessment, and a comprehensive family assessment. Concepts of supervision/delegation, critical thinking and prioritization are emphasized. Additional application includes identification and facilitation of patterns in health and wellness for clients within their environment.

**Prerequisite:** Concurrent enrollment in NURS 2030, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Synthesis and Transition to the Registered Nurse Role NURS 2050 3 Credits**

This course uses a case study modality to synthesize concepts taught previously such as health, healing, and holism. It emphasizes evidence-based practice, leadership, ethics, group dynamics/ processes, and economic, social, political, and current trends in health care. The case studies allow students to plan and evaluate holistic, individualized nursing interventions for patients with complex health care needs.

**Prerequisite:** NURS 2030, NURS 2035, NURS 2222, and concurrent enrollment in NURS 2055.

### **Clinical Application for NURS 2050 NURS 2055 4 Credits**

This course applies and synthesizes concepts presented in NURS 2050. The practicum experience focuses on critical thinking, team leading, leadership/management, supervision/delegation, and decision-making/priority setting while providing holistic care to multiple patients with complex health needs and situations. A preceptorship, with a selected RN, encourages students to prepare themselves for the personal and professional transition to the role of registered nurse. Additional course activities involve the exploration of career opportunities, preparing and presenting teaching projects, working in collaboration with health care professionals, working collaboratively with peers in

developing a patient discharge/referral plan, and participating in service learning within the community.

**Prerequisite:** NURS 2030, NURS 2035, concurrent enrollment in NURS 2050, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Nursing Interventions II: Health, Healing and Holism and the Role of the RN NURS 2130 4 Credits**

This course provides the LPN mobility student with the theoretical content related to health and wellness in the infant, child and adult. Primary, secondary and tertiary health care management and health conditions are discussed throughout the life span. Course emphasis includes critical thinking skills, therapeutic nursing interventions and communication, prioritization, collaborative care and the holistic nursing process. Major content areas include maternal/child health, mental health, cardiac and gastrointestinal conditions as well as emergency and trauma care.

**Prerequisite:** NURS 1160, NURS 1165, and concurrent enrollment in NURS 2135.

**Recommendation:** NURS 2222 or concurrent enrollment.

### **Clinical Application for NURS 2130 NURS 2135 4 Credits**

This course applies theoretical concepts to nursing practice for the LPN mobility student. This practicum, with clinical experiences in acute, specialty and community settings, provides the student with opportunities to provide comprehensive nursing care to multiple clients. Course content emphasizes team leading, health teaching, holism, nursing process with an emphasis on evaluation, communication and the RN role. Unique to this course is community screening, maternal/child health, newborn assessment, and a comprehensive family assessment. Concepts of supervision/delegation, critical thinking and prioritization are emphasized. Additional application includes identification and facilitation of patterns in health and wellness for clients within their environment.

**Prerequisite:** Concurrent enrollment in NURS 2130, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Synthesis and Transition to the Registered Nurse Role NURS 2150 3 Credits**

This course uses a case study modality to synthesize concepts taught previously such as health, healing, and holism. It emphasizes evidence-based practice, leadership, ethics, group dynamics/ processes, and economic, social, political, and current trends in health care. The case studies allow students to plan and evaluate holistic, individualized nursing interventions for patients with complex health care needs.

**Prerequisite:** NURS 2130, NURS 2135, NURS 2222, and concurrent enrollment in NURS 2155.

### **Clinical Application for NURS 2150 NURS 2155 3 Credits**

This course applies and synthesizes concepts presented in NURS 2150. The practicum experience focuses on critical thinking, leadership/management, and decision-making/priority setting while providing holistic care to multiple patients with complex health needs and situations. A preceptorship, with a selected RN, encourages students to prepare themselves for the personal and professional transition to the role of registered nurse. Additional course activities involve the exploration of career opportunities, preparing and presenting teaching projects, working in collaboration with health care professionals, working collaboratively with peers in developing a patient discharge/referral plan, and participating in service learning within the community.

**Prerequisite:** NURS 2130, NURS 2135, concurrent enrollment in NURS 2150, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **A Pathophysiological Approach to Health Problems and Pharmacologic Therapy NURS 2222 3 Credits**

This course analyzes the progressive changes that take place in the human organism when normal adaptive processes are influenced by chemical, microbial, genetic and/or psychological stress. The course focuses on the pathophysiology of major health problems that lead to mortality and morbidity. This course connects the interrelationship between pathophysiology and pharmacology,

## 7 Course Descriptions

emphasizing the importance of pharmacology to these major health problems. This knowledge is applied to the planning of holistic nursing care and pharmacologic interventions of patients with these health problems.

**Prerequisite:** BIOL 1031 and 1032, NURS 1020, NURS 1025, and completion or concurrent enrollment in NURS 1030 and 1035 or admission to the LPN or Paramedic Mobility Nursing Track.

### **Clinical Application for Nursing 1230 NURS 2235 4 Credits**

This course is for paramedic mobility students and applies theoretical concepts of holistic nursing practices promoting critical thinking, assessment skills, caring behaviors, therapeutic nursing interventions, prevention of disease, and health and wellness throughout the life span. This practicum, with clinical experiences in acute care, community agencies, and the Nursing Learning Resource Center, provides the student with opportunities to provide intermediate level nursing interventions. Course emphasis includes holism and the nursing process with emphasis on assessment and interventions, prioritization, communication, and health teaching in both acute care and community service learning.

**Prerequisite:** NURS 1260, NURS 1265, concurrent enrollment in NURS 1230, Healthcare Provider CPR certification, background clearance, and required immunizations. **Recommendation:** Completion or concurrent enrollment in NURS 2222.

### **Synthesis and Transition to the Registered Nurse Role NURS 2250 3 Credits**

This course uses a case study modality to synthesize concepts taught previously such as health, healing, and holism. It emphasizes evidence based practice, leadership, ethics, group dynamics/ processes, and economic, social, political, and current trends in health care. The case studies allow students to plan and evaluate holistic, individualized nursing interventions for patients with complex health care needs. **Prerequisite:** NURS 1230, NURS 2235, NURS 2222, and concurrent enrollment in NURS 2255.

### **Clinical Application for NURS 2250 NURS 2255 3 Credits**

This course applies and synthesizes concepts presented in NURS 2250. Practicum experience focuses on critical thinking, team leading, leadership/management, supervision/delegation, and decision-making/priority setting while providing holistic care to multiple patients with complex health needs and situations. A preceptorship with a selected RN encourages students to prepare themselves for the personal and professional role transition to the role of registered nurse. Other applications will involve exploration of career opportunities, preparing and presenting teaching projects, working collaboratively with health care professionals, working collaboratively with peers in developing a patient discharge/referral plan, and service learning within the community.

**Prerequisite:** NURS 1230, 2235, concurrent enrollment in NURS 2250, Healthcare Provider CPR certification, background clearance, and required immunizations.

### **Clinical Internship NURS 2785 1 Credit**

This elective clinical internship course provides learning opportunities to apply nursing theory to nursing practice. The focus is on gaining depth of understanding of the role of the registered nurse as well as strengthening nursing skills in the clinical setting. Students will be precepted by nurses in the practice setting and by nursing faculty.

**Prerequisite:** Successful completion of two semesters in an associate degree nursing program, acceptance into an approved metro area clinical internship program, and permission of nursing director. Healthcare Provider CPR certification, background clearance, and required immunizations.

## Office Technology

---

### **Introduction to Keyboarding I OFFT 0091 1 Credit**

This course develops basic keyboarding techniques and skills using a computer. The emphasis will be learning the touch method of typing the alphabetic keys.

### **Introduction to Keyboarding II OFFT 0092 1 Credit**

This course is a continuation of Keyboarding I. The emphasis of this course is using proper keyboarding technique to develop speed and accuracy on alphabetic material and the numeric keypad.

**Prerequisite:** OFFT 0091 or consent of instructor.

### **College Keyboarding OFFT 1001 1 Credit**

This keyboarding class will integrate keyboarding instruction with word processing. The student will create professional-looking documents such as memos, letters, reports and tables. Students will continue to build strong keyboarding skills through speed and accuracy.

**Prerequisite:** OFFT 0092, or equivalent, or consent of instructor.

### **Speech Recognition OFFT 1002 1 Credit**

This course is designed to prepare students to use speech-recognition technology to produce business documents in corporate and medical office settings. This course is valuable for new students and individuals who wish to update their skills.

**Prerequisite:** OFFT 1001 or equivalent, or instructor consent.

### **Advanced Word Processing OFFT 1035 3 Credits**

This course reinforces and applies previously learned skills to complete complex and integrated business projects such as itineraries, newsletters, expense reports, forms and other business-related tasks. Students will complete business documents using multiple software applications and apply critical thinking and problem-solving skills in realistic business situations.

**Prerequisite:** CAPL 1010 and CAPL 1023 or consent of instructor.

### **Independent Study OFFT 1790 1 - 6 Credits**

The intent of this course is to allow flexibility in providing learning experiences to meet the unique needs of the individual. This will include specific assignments that are customized/designed for the student.

**Prerequisite:** Consent of instructor and dean.

## 7 Course Descriptions

### Records Classification Systems

#### OFFT 2000 3 Credits

This course presents techniques for the control of records and information with emphasis on the four basic methods of filing—alphabetic, numeric, geographic, and subject. Students will investigate and practice how to implement, maintain, and justify a records management system—storing, retrieving, and transferring records. Legal and ethical issues regarding records management (hard copy and electronic) will be covered. Current database software is used in this course.

*Prerequisite:* CAPL 1010 or CSCI 1020 or consent of instructor.

### Medical Office Fundamentals

#### OFFT 2006 3 Credits

This course introduces students to the healthcare office environment in which paper medical records are utilized. Topics covered in the course include professional organization guidelines, organization of healthcare facilities, and the role of healthcare office personnel. Students will be exposed to the various medical specialties and the language of each specialty. Use of medical reference materials will be incorporated, along with an introduction of medical records, and medicolegal ethics. Students will focus on preparing patient records, billing, telephone procedures, appointments, professional reports, medical meetings, and travel arrangements.

*Recommendation:* BIOL 1024, CAPL 1023, and ENGL 1021.

### Medical Office Terminology

#### OFFT 2010 3 Credits

This course is intended for students interested in medical office careers. The focus is on medical terminology as it relates to healthcare documentation with an emphasis on word-building techniques, usage, and spelling.

*Prerequisite:* OFFT 2006 or instructor consent.

*Recommendation:* Concurrent enrollment in OFFT 2012, OFFT 2013, and OFFT 2041.

### Medical Office: Disease Concepts

#### OFFT 2012 2 Credits

This course is intended for students interested in medical office careers. It is an overview of the language and nature of disease and its treatment. Students will study disease

conditions organized by body systems for effective medical documentations.

*Prerequisite:* OFFT 2006, concurrent enrollment in OFFT 2010 or equivalent, or instructor consent. *Recommendation:* Concurrent enrollment in OFFT 2013 and OFFT 2041.

### Medical Office: Pharmacology and Lab Medicine

#### OFFT 2013 2 Credits

This course is intended for students interested in medical office careers. It is a system-by-system overview of the principles and language of pharmacology and laboratory medicine, including drugs and drug classes, diagnostic tests, indications, techniques, expressions of values, and significance of findings for effective medical documentation.

*Prerequisite:* OFFT 2006, concurrent enrollment in OFFT 2010 or equivalents, or instructor consent. *Recommendation:* Concurrent enrollment in OFFT 2012 and OFFT 2041.

### Electronic Health Records

#### OFFT 2021 3 Credits

This course is intended for students interested in healthcare careers. Students will focus on practical applications and hands-on exercises using an electronic health record (EHR) that will be transferable to many prominent EHR systems currently in use in medical clinics.

*Prerequisite:* OFFT 2006, OFFT 2010, or equivalents, or instructor consent.

### Medical Office: Insurance and Coding

#### OFFT 2030 3 Credits

This course introduces the student to insurance and coding procedures for the medical office.

*Prerequisite:* OFFT 2006 and OFFT 2010, or instructor consent.

### Beginning ICD-9-CM Coding

#### OFFT 2031 3 Credits

Medical coders use their medical knowledge to ensure adherence to insurance requirements and federal regulations. This course is the first in a series. It is an introduction to basic coding guidelines for International Classification of Diseases-ninth edition, Clinical Modification (ICD-9-CM). The course focuses on how to code using the ICD-

9-CM and guidelines for usage.

*Prerequisite:* Concurrent enrollment in OFFT 2031 or instructor approval.

*Recommendation:* OFFT 2010, OFFT 2012, OFFT 2013, OFFT 2030.

### Beginning CPT Coding

#### OFFT 2032 3 Credits

Medical coders use their medical knowledge to ensure adherence to insurance requirements and federal regulations.

This course is the first in a series. It is an introduction to basic medical procedural coding guidelines. Student will focus on basic Current Procedural Terminology-4 (CPT-4) coding (Anesthesia, E&M, Surgical, Pathology/Laboratory, Radiology and Medicine) and Healthcare Procedural Coding System (HCPCS) codes.

*Prerequisite:* Completion of or concurrent registration in OFFT 2031, or instructor approval. *Recommendation:* OFFT 2006, OFFT 2010, OFFT 2012, OFFT 2013, OFFT 2030.

### Advanced ICD-9-CM Coding

#### OFFT 2033 3 Credits

This course is designed for students interested in advanced procedural coding. It is a continuation of OFFT 2031, working on complex case studies.

*Prerequisite:* OFFY 2031 and OFFT 2032, or instructor approval.

### Advanced CPT Coding

#### OFFT 2034 3 Credits

This course is a continuation of OFFT 2032 using advanced coding of medical case studies, and an introduction to procedure-based payment systems, e.g., Resource-Based Relative Value Scale (RBRVS), Evaluation and Management (E&M) codes, and Ambulatory Payment Classification (APC) assignments.

*Prerequisite:* OFFT 2031 and OFFT 2032, and concurrent enrollment in OFFT 2033, or instructor approval.

### Beginning Medical Transcription

#### OFFT 2041 3 Credits

This course introduces transcription of basic healthcare dictation. It incorporates skills in English language, technology, medical knowledge, proofreading, editing, and research.

*Prerequisite:* OFFT 2006, concurrent enrollment in OFFT 2010 or equivalents,

or instructor consent. *Recommendation:* Concurrent enrollment in OFFT 2012 and OFFT 2013.

### **Intermediate Medical Transcription OFFT 2042 3 Credits**

This course is a continuation of OFFT 2041. Students will transcribe intermediate level physician-dictated reports, organized by medical specialty. Emphasis will be placed on the development of accuracy, speed, proofreading, editing, and knowledge of a variety of medical documents.

*Prerequisite:* OFFT 2041.

### **Medical Transcription Capstone OFFT 2044 3 Credits**

In this course, students will be transcribing original healthcare dictation using advanced proofreading, editing, and research skills, while meeting progressively demanding accuracy and productivity standards. Emphasis will be on the current professional style guidelines and medical editing practice. This course assists in preparing the student for the registered medical transcription (RMT) exam.

*Prerequisite:* OFFT 2042 or instructor consent.

### **Administrative Office Procedures OFFT 2055 3 Credits**

Today's business employee must be knowledgeable about the concepts and procedures basic to the information management, problem solving, and communication tasks that are performed in businesses. This course identifies the administrative professional's role in the challenging work environment of the 21st Century. The student will be exposed to patterns of work, current technology, skills, and abilities necessary to succeed in the workplace.

*Prerequisite:* CAPL 1010 or consent of instructor.

### **Internship OFFT 2780 1 - 3 Credits**

This course is designed to provide students with the opportunity to apply knowledge and skills learned in the Office Technology area. Students will learn to work in a professional environment while applying a variety of communication, business, and technical skills.

*Prerequisite:* Consent of faculty member.

### **Medical Office Practicum OFFT 2783 1 - 3 Credits**

This course is designed to provide a realistic occupational experience in the medical office working directly with a professional medical administrative assistant or medical transcriptionist.

*Prerequisite:* Consent of instructor.

## Orthotic Practitioner

---

### **Applied Orthotic Biomechanical Physics and Patient Analysis ORPR 2900 4 Credits**

This course introduces the role of orthotist as a member of the rehabilitation team. It explores the relationship between mechanical principles and forces affecting human locomotion, providing a foundation for the understanding of pathological gait and functional loss impacting orthotic design and treatment for the lower limb.

*Prerequisite:* Acceptance into the Orthotic Practitioner Program.

### **Functional Orthotic Anatomy and Pathology ORPR 2910 4 Credits**

This course concentrates on the effects of disease, trauma and malformation on the ankle-foot complex related to functional loss in the foot and ankle. It is also an in-depth anatomical study of lower extremities; specifically the skeletal, muscular, articular and nervous systems. This course helps students identify and select proper components, footwear and footwear modifications.

### **Foot Orthoses and Metal Ankle-Foot Orthoses ORPR 2920 3 Credits**

During this course students concentrate on patient evaluation, measurement and management skills to successfully fabricate and fit several different types of foot and ankle-foot orthoses. The patient's gait is analyzed using a video gait lab to evaluate orthotic function and outcomes.

*Prerequisite:* ORPR 2910 or concurrent enrollment.

### **Plastic Ankle Foot Orthoses ORPR 2925 2 Credits**

During this course students focus on patient evaluation, measurement and management skills to successfully fabricate and fit various types of plastic and axial unloading ankle-foot orthoses. The patient's gait will be analyzed using a video gait lab to evaluate orthotic function and outcomes.

*Prerequisite:* ORPR 2920 or concurrent enrollment.

### **Metal Knee-Ankle-Foot Orthoses and Related Pathology ORPR 2930 3 Credits**

This course presents an in-depth anatomical study of thigh and hip skeletal, muscular, and articular systems. Students employ patient evaluation, measurement, and management skills to select components, fabricate, and fit knee-ankle-foot and hip-knee-ankle-foot orthoses. Using the video gait lab, they evaluate patients' orthotic functions and outcomes. The course also focuses on the pathological effects of disease, trauma, and malformation of the knee and hip related to functional loss.

*Prerequisite:* ORPR 2925 or concurrent enrollment.

### **Plastic Knee-Ankle-Foot Orthoses and Fracture Management ORPR 2935 3 Credits**

In this course students apply a plaster negative mold of the patient's affected limb, modify the positive model and fabricate the plastic knee-ankle-foot orthoses, including axial unloading designs. The video gait lab is used to evaluate orthotic function and outcomes. There is intense focus on patient evaluation, measurement and management skills, selection of components, fabrication and fitting the plastic knee-ankle-foot orthoses. Theories and procedures involved with the management of lower leg and thigh fractures and application of various types of fracture braces are covered as well as sections on diagnostic imaging and business management.

*Prerequisite:* ORPR 2930 or concurrent enrollment.

### **Orthotic Upper-Limb Anatomy and Pathology ORPR 2950 2 Credits**

This course includes identifying upper-limb

## 7 Course Descriptions

muscles as well as description of their function in relation to the overall musculoskeletal system. Pathology and evaluation includes examination of the effect of disease, spinal cord lesions, injury, and malformation of the upper-limb followed by identification of specific pathologies related to functional loss in order to determine proper orthotic treatment.

### **Upper Limb Orthoses** **ORPR 2955 3 Credits**

In this course students evaluate patients for metal and plastic hand and wrist-hand orthoses. This process includes measuring and fabricating the basic orthoses as well as additional components to control specific joints of the hand and fingers.

*Prerequisite:* ORPR 2950 or concurrent enrollment.

### **Orthotic Spinal Anatomy, Pathology, and Patient Evaluation** **ORPR 2970 3 Credits**

The course includes identification of the spinal muscles as well as description of their function in the overall musculoskeletal system. Pathology and evaluation includes examination of the effect of disease, spinal cord lesions, injury, and malformations of the spine. Students focus on identification of specific pathologies related to functional loss in order to determine proper orthotic treatment. ORPR 2955 or concurrent enrollment.

### **Spinal Orthoses Fittings** **ORPR 2975 3 Credits**

This course includes evaluation for and measurement, casting and fitting of pre-made and custom fabricated spinal orthoses designed to treat related spinal pathologies. Students concentrate on the specific fitting criteria and orthoses selection to achieve the goal of functional biomechanical control of the affected trunk segments. Fitting sessions with patient models will include post-operative body jackets, metal and plastic spinal orthoses, soft corsets, and cervical devices.

*Prerequisite:* ORPR 2970 or concurrent enrollment.

### **Scoliosis Treatment and Cervical Traction; Mobility and Adaptive Equipment** **ORPR 2980 3 Credits**

This course focuses on treatment of scoliosis,

identification of curve patterns, clinical evaluation, orthotic design, fitting, and curve monitoring. Traction by use of the halo ring and vest in addition to mobility aids and adaptive equipment for improved patient independence, safety, attitude and successful rehabilitation are among other course topics.  
*Prerequisite:* ORPR 2975 or concurrent enrollment.

### **Orthotic Practitioner Practicum** **ORPR 2990 7 Credits**

This practicum provides students with opportunities to apply the theories and skills learned in the program in an approved clinical setting with actual patient contact. Practicum students work under the direct supervision of a Certified Orthotist preceptor in an approved professional facility. In addition, students are observed periodically on site by a Century College program instructor who also confers with facility supervisors/preceptors.

*Prerequisite:* Completion of entire ORPR program curriculum and consent of instructor.

### **Orthotic Practitioner Advanced Practicum Internship** **ORPR 2995 1 - 12 Credits**

This course tracks the student's clinical experience and progress toward fulfillment of the prerequisite, postgraduate clinical exposure required by the American Board for Certification in Orthotics and Prosthetics prior to national certification testing. During the 1-12 credits of the Orthotic Practitioner Advanced Practicum Internship, the post-graduate student works in an orthotic facility or department, and applies learned theory and skills to actual patient contact under the direction of a certified orthotist supervisor at the practicum site as well as oversight by the program instructor. Students may repeat this course up to a total of 12 credits.

*Prerequisite:* Graduation from the Orthotic Practitioner Program or Orthotic Associate Practitioner Program.

## Orthotic Technology

---

Note: Prior to registering for any ORTE course, students must attend a new student orientation session. Instructor signature required prior to registration.

### **Introduction to the Orthotic Lab and Basic Hand Skills**

#### **ORTE 1020 5 Credits**

This course introduces the role of the orthotic technician and the safety practices and habits required by the profession. Students become familiar with the tools, equipment, materials, and components commonly used in orthotic fabrication. Lab work concentrates on basic metal-working skills necessary to fabricate a properly functioning orthotic device.

### **Spinal Orthoses Fabrication** **ORTE 1030 5 Credits**

This course concentrates on identification of spinal anatomy and interpretation of spinal orthometry assessment forms. Students fabricate three types of spinal orthoses that cover and control specific areas of the spine. Students also focus on application of appropriate covering materials to ensure patient comfort and utility.

*Prerequisite:* ORTE 1020 or concurrent enrollment.

### **Foot Orthosis Fabrication and Shoe Modification/Repair**

#### **ORTE 1040 3 Credits**

This course covers the biomechanical principles of the foot and ankle as they respond to the effects of shoe modification and external forces generated by the application of an orthotic device. This hands-on laboratory experience focuses on repairing and modifying prescription orthopedic shoes along with fabricating prescribed custom-molded foot orthoses to control and support the structure of the foot.

*Prerequisite:* ORTE 1030 or concurrent enrollment.

### **Stirrup Layout and Fabrication** **ORTE 1050 3 Credits**

This course introduces the musculoskeletal system and examines body movements and planes that divide the human body. In the laboratory setting, students integrate this theoretical knowledge with practical orthotic theory to correct a tracing of the lower-limb and fabricate a stirrup, shaping and attaching it to the patient's shoe to accommodate ankle deformities.

## 7 Course Descriptions

### **Ankle-Foot Orthoses Fabrication**

**ORTE 1060 3 Credits**

This course focuses on the theories and skills required for the fabrication of ankle-foot orthoses both with and without tibial torsion. Students interpret various orthotic prescriptions to create one-of-a-kind orthotic devices in the laboratory setting.

*Prerequisite:* ORTE 1050 or concurrent enrollment.

### **Knee-Ankle-Foot Orthoses Fabrication**

**ORTE 1070 5 Credits**

The focus of this course is the requisite skills for proper layout and correction for a knee-ankle-foot orthoses and fabrication of these with and without tibial torsion and growth extension. Lab work consists of fabrication of three types of knee-ankle-foot orthoses.

*Prerequisite:* ORTE 1060.

### **Leatherwork for Lower-Limb Orthoses**

**ORTE 2000 4 Credits**

This course concentrates on fabricating leather cuffs and closures, corrective T-straps, and knee control pads, which are all essential parts of the lower limb orthosis to hold the limb in a secure and functional position.

*Prerequisite:* ORTH 1070 or concurrent enrollment.

### **Thermoplastic Orthoses**

**ORTE 2010 4 Credits**

In this course students practice skills necessary to accurately vacuum form polypropylene plastic over a variety of plaster models to create acceptable orthoses. Practical skills include negative wraps creating positive plaster models, and the adding of metal components contoured and aligned to finish the orthoses.

*Prerequisite:* ORTE 2000 or concurrent enrollment.

### **Upper-Limb Fabrication**

**ORTE 2020 4 Credits**

This course concentrates on identification of the skeletal structure, joints and landmarks of the hand, wrist, and forearm. Identification of various types of upper-extremity orthoses includes, measurements used for fabrication and interpretation of upper-extremity orthometry forms. Students fabricate both metal and plastic hand and wrist-hand orthoses to specific prescription from

measurements and a plaster model of the upper extremities in the orthotics lab.

*Prerequisite:* ORTE 2010 or concurrent enrollment.

### **Orthotic Technician Clinical**

**ORTE 2780 4 Credits**

During this 160-hour orthotic clinical, students are placed in an orthotic facility or department. This clinical experience provides opportunities to apply theory and skills learned in the program. All student work is performed under the direct supervision of a certified orthotist or clinical supervisor in each clinical facility.

*Prerequisite:* Completion of all ORTE program curriculum and consent of instructor.

## Philosophy

### **Introduction to Western Philosophy**

**PHIL 1021 3 Credits**

**MnTC: Goal 06**

For over 2500 years philosophy has been concerned with an understanding of one's self, one's world, one's relationship with others, and one's place in the world. Philosophy integrates the findings of other disciplines and examines them in broader philosophical perspectives. Students will be introduced to the concerns and questions of philosophy through a variety of readings, both historical and contemporary and mainly from a Western perspective. The areas of philosophy that this course may cover: general introduction to philosophy, philosophical argumentation, epistemology, metaphysics, ethics and the historical development of the discipline of philosophy.

*Prerequisite:* An assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Introduction to Eastern Philosophy**

**PHIL 1025 3 Credits**

**MnTC: Goals 06 & 08**

"Who am I?" "How should I live?" "What is real?" "What can I know?" These are the perennial questions that philosophy has asked and answered for thousands of years and will

be the basis of this course. Students will be introduced to these concerns and questions of Eastern philosophy (East India - Hinduism and Buddhism, China - Confucianism and Daoism, and perhaps Japan) through a variety of readings both historical and contemporary. The areas of philosophy that this course may cover are general introduction to philosophy, philosophical argumentation, epistemology, metaphysics, ethics, and the historical development of the discipline of Eastern philosophy.

*Prerequisite:* An assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* An assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Ethics**

**PHIL 1031 3 Credits**

**MnTC: Goals 06 & 09**

This course will examine questions of what is morally right and wrong. Theoretical questions such as "what makes an action morally right or wrong?", "what type of moral character should a person have?" and "are there correct answers to moral questions?" will be studied. Included in the course will be the study of ethical theory and the application of ethical theory to modern moral problems.

*Prerequisite:* An assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### **Biomedical Ethics**

**PHIL 1035 3 Credits**

**MnTC: Goals 06 & 09**

This course, intended for all students, provides background material in basic ethical theories, principles, and decision-making guidelines used in health care ethics. It examines moral issues confronting health care consumers, practitioners, and patients. It emphasizes the philosophical analysis of moral reasoning on specific topics such as truth-telling, confidentiality, human cloning, medical research, abortion, transplantation, allocation of resources, and euthanasia. Readings are selected from contemporary literature in bioethics.

*Prerequisite:* An assessment score

## 7 Course Descriptions

placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** An assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Introduction to Logic

**PHIL 1041 3 Credits**

**MnTC: Goal 04**

This course introduces students to the formal study of reasoning using the concepts and techniques of symbolic logic. Topics covered include representing the underlying logical structure of English sentences and arguments, testing whether arguments have good form, identifying valid and invalid argument forms, and recognizing common examples of bad reasoning. While it can be abstract and challenging, learning symbolic logic does have its practical side: it may lead to a deeper appreciation of the uses and abuses of language, more careful and critical reading skills, and a better understanding of how to craft well-reasoned writing.

### World Religions

**PHIL 1051 3 Credits**

**MnTC: Goals 06 & 08**

This course is an introduction to the major world religions. The course will focus on the historical formation of the religions and those who founded them. It will also focus on their scriptures, practices and the ways each religion answers the fundamental questions concerning the nature of reality, purpose in life, ethics and death.

**Recommendation:** An assessment score placement in RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

## Physical Education

---

**Mission Statement:** To provide contemporary and applicable healthy lifestyle information and skills that students can adopt and utilize throughout their lifespan. Students are encouraged to take both a fitness course and a lifetime sports activity class that provides a new experience. Please note that some

classes are held off campus and may involve additional fees.

### Archery

**PE 1000 1 Credit**

Beginning fundamentals of archery including selection, care and knowledge of equipment. Shooting technique, safety practices, and etiquette are all included.

### Bowling

**PE 1005 1 Credit**

This course introduces the basic strategies of bowling. Topics will include the history of bowling, scoring, selection and care of equipment, etiquette, fundamental techniques, and rules. Students will be responsible for shoe rental, lane fees and transportation to the bowling facility.

### Badminton

**PE 1010 1 Credit**

This course introduces students to basic badminton skills, techniques, and rules for singles and doubles play. Emphasis will be placed on the development of strokes, serves, offensive and defensive strategies, as well as an appreciation for badminton as a lifetime activity.

### Tennis

**PE 1013 1 Credit**

Course intended for novice through intermediate tennis player. Emphasis will be on skills development for recreational purposes. Stroke development, rules, and strategies for singles and doubles are covered.

### Golf

**PE 1015 1 Credit**

Students will actively participate in learning the basic fundamentals of golf, including selection and care of equipment, etiquette, scoring, and actual play on a local golf course. Intended for beginners and students who have not had formal golf instruction. Students are responsible for green fees. Offered F, S.

### Social Dance

**PE 1016 1 Credit**

In this course students will participate in the following types of dance: folk, square, line, country, salsa, swing, hip-hop, and ballroom. Emphasis will be placed on the fundamentals of dance and various dance styles. This class

is intended for beginning dancers of all ages who have not had formal instruction.

### Snowboarding

**PE 1020 1 Credit**

Snowboarding course intended to introduce students to alpine snowboarding and/or develop current skill level. Using the American Teaching System (ATS), classes are split into 9 skill levels, beginning through advanced. Offered S.

### Downhill Skiing

**PE 1023 1 Credit**

Alpine ski course intended to introduce students to alpine skiing and/or develop current skill level. Using the American Teaching System (ATS), classes are split into 9 skill levels, beginning through advanced. Offered S.

### Recreational Volleyball

**PE 1030 1 Credit**

This course introduces students to the social as well as the competitive aspects of the game of volleyball. The course includes instruction in fundamental skills, techniques, rules, and strategies of team play. Emphasis will be on skill development for the recreational player. Sand volleyball is also offered as weather permits. Offered F,S.

### Recreational Softball

**PE 1035 1 Credit**

This course introduces students to the recreational aspects of the game of softball. The course includes instruction in fundamental skills, techniques, rules, and strategies of slow-pitch softball. Emphasis will be on skill development for the recreational player.

### Rock Climbing

**PE 1040 2 Credits**

Rock climbing course that includes selected reading, classroom work, and artificial and natural climbing. Techniques, safety, etiquette and equipment care and selection are covered. Culminates in a climbing field trip at local climbing areas. Offered F, S, SS.

**Note:** Students are required to provide some equipment at a cost of \$80-\$100. A list will be provided.

## 7 Course Descriptions

### Soccer

#### PE 1045 1 Credit

This is a course intended to introduce students to soccer. The course will examine the rules and regulations of soccer, as well as the fundamental skills necessary to participate. Cooperative skills along with a willingness to participate are an integral part of the course.

### Biking

#### PE 1055 1 Credit

This course introduces students to biking as a fitness activity for all skill levels. Emphasis will be placed on conditioning, maintenance, techniques, etiquette, and regulations for biking. *Prerequisite:* Students must have bike and helmet.

### Personal Fitness

#### PE 1060 2 Credits

This course is for students interested in developing a personal exercise program based on their own fitness level as part of a healthy lifestyle. The personal fitness program will incorporate the health-related components of physical fitness. Emphasis is placed on the personal development of fitness, based on individualized goals. Offered F,S,SS.

### Aerobic Exercise

#### PE 1063 2 Credits

This course is for students interested in participating in group fitness activities as a means of improving their cardiovascular fitness. A variety of instructor-led aerobic activities will be offered including high/low-impact aerobic exercise, step, and cardio kickboxing. Offered F,S.

### Yoga

#### PE 1064 1 Credit

This course introduces students to the fundamental philosophies, skills, techniques and terms of yoga. Emphasis is placed on the performance of yoga postures, breathing exercises, meditation, and relaxation techniques. Offered F, S.

**Note:** Students should furnish their own yoga mats.

### Step Aerobics

#### PE 1065 2 Credits

Designed for students interested in developing cardiovascular fitness through step aerobics. Emphasis also placed on muscle strength and endurance, and development of flexibility.

### Fitness Walking

#### PE 1067 2 Credits

This course focuses on individual improvement in cardiovascular fitness through fitness walking, while emphasizing exercise as a part of a healthy lifestyle. Students will develop a personal walking program based on current fitness levels and fitness principles. Flexibility and muscular strength and endurance exercises are also incorporated into exercise programs. Offered F, S, SS.

### Fitness for Life

#### PE 1070 2 Credits

This course is designed for students interested in participating in group fitness activities as a means of improving their fitness level. Emphasis is placed on using exercise as part of a healthy lifestyle. Students will participate in a variety of circuit, cardiovascular, and resistance training activities within a group setting.

### Weight Training

#### PE 1075 2 Credits

This course is for students interested in developing a resistance training program based on their own fitness level and skill as part of a healthy lifestyle. Emphasis is placed on the development of muscle strength and endurance, based on personal goals. Offered F, S, SS.

### Foundations of Physical Education

#### PE 1080 3 Credits

This course is a critical examination of the history, events, programs and philosophical positions that have led to the current status of physical education, fitness, and the sports entertainment industry in the United States. Students will be provided with up-to-date information about physical education and its diverse subfields as well as introduction to career roles in preparation for professional service in all areas of physical education, exercise science, sports management and sports facility management. Students will develop a professional philosophy of physical education.

### Internship: Sports Facility/Operations Management

#### PE 1780 1 - 6 Credits

This course provides students an opportunity to apply knowledge and skills learned in the

Sports Management program. Students will work in operational roles at facilities while applying a variety of communication, technical, and time management skills. Internship positions must be held in some facet of the sports facility management industry, and approved by the program coordinator. May be repeated with program coordinator's consent. *Prerequisite:* Consent of instructor.

### Introduction to Sports Management

#### PE 2080 3 Credits

This course introduces students to the field of sports management and the numerous career opportunities available over the wide spectrum of the sports management industry. Emphasis will be placed on examining the job responsibilities and competencies required of the various areas of sports management.

### Intercollegiate Golf

#### PE 2090 1 Credit

This course is designed for men or women who participate on the intercollegiate golf team. Skill instruction and techniques for mental preparation are covered. This course may be taken two times for credit.

*Prerequisite:* Must be a member of intercollegiate golf team and have consent of instructor or athletic director. *Restriction:* Student must be eligible based on the Minnesota College Athletic Conference (MCAC) and National Junior College Athletic Association (NJCAA) rules.

### Intercollegiate Men's Soccer

#### PE 2091 1 Credit

This course is for students who participate on the intercollegiate men's soccer team. This course offers advanced skill instruction as well as intercollegiate experience. This course may be taken two times for credit.

*Prerequisite:* Must be a member of intercollegiate men's soccer team and have consent of instructor or athletic director. *Restriction:* Student must be eligible based on the Minnesota College Athletic Conference (MCAC) and National Junior College Athletic Association (NJCAA) rules.

### Intercollegiate Women's Soccer

#### PE 2092 1 Credit

This course is for students who participate on the intercollegiate women's soccer team. This course offers advanced skill instruction as well

## 7 Course Descriptions

as intercollegiate experience. This course may be taken two times for credit.

**Prerequisite:** Must be a member of intercollegiate women's soccer team and have consent of instructor or athletic director.

**Restriction:** Student must be eligible based on the Minnesota College Athletic Conference (MCAC) and National Junior College Athletic Association (NJCAA) rules.

### **Internship: Sports Management** **PE 2780 3 - 6 Credits**

This course provides students with the opportunity to apply knowledge and skills learned in the Sports Management program. Students will work in a professional environment while applying a variety of human relations, communication, sales and/or marketing and operation/event management skills. Internship positions must be held within some facet of the sports management or recreation industries. May be repeated with program coordinator's consent.

**Prerequisite:** Consent of instructor.

## Physics

### **Physics Concepts**

#### **PHYS 1020 4 Credits** **MnTC: Goal 03**

This course serves as an introduction to the basic concepts of physics: motion, force, energy, momentum, and rotations. Additional topics in physics may be included at the discretion of the instructor including (for example) fluid dynamics or the modern study of matter. The course is a problem-solving course, but the focus is on the concepts of physics rather than on detailed quantitative analysis. This course is intended for students who have not had a recent course in physics at the high school or college level. The laboratory associated with this course emphasizes measurement, interpretation of data, and synthesis of results.

**Prerequisite:** Assessment score placement in MATH 0070 or above, or completion of MATH 0030 with a grade of "C" or higher.

### **General Physics I**

#### **PHYS 1041 5 Credits** **MnTC: Goal 03**

This is the first course in a sequence that

introduces the topics of mechanics using the mathematical techniques of algebra and trigonometry. Students will investigate kinematics, forces, momentum, circular motion, work/energy, and rotational dynamics. The course is problem-based, focusing on quantitative analysis of physics problems. It includes a computer-based laboratory component in which students will collect, analyze, and interpret data.

**Prerequisite:** Assessment score placement in MATH 1061 or above, or completion of MATH 0090 or MATH 1015 with a grade of "C" or higher, or concurrent enrollment in MATH 0090 or MATH 1015.

### **General Physics II**

#### **PHYS 1042 5 Credits** **MnTC: Goal 03**

This course is a continuation of PHYS 1041, introducing many of the remaining topics in classical physics. This course in general physics introduces the topics of thermodynamics, optics, waves, and electricity. It includes a computer-based laboratory component where students collect, analyze, and interpret data.

**Prerequisite:** Completion of PHYS 1041 with a grade of "C" or higher.

### **Descriptive Astronomy**

#### **PHYS 1070 3 Credits** **MnTC: Goal 03**

Descriptive Astronomy is an introductory course intended for students with an interest in the stars and planets. This course introduces the motion of the stars and planets, the properties of the solar system and its development, and the lives of stars. These ideas will be taught in such a way as to emphasize how astronomers know the properties of the universe and then use their observations to construct scientific models about how the universe works.

### **Descriptive Astronomy Laboratory**

#### **PHYS 1075 1 Credit** **MnTC: Goal 03**

This is a laboratory course in which students will gain an understanding of how to use the tools and methods of the astronomer. Students will make measurements and observations and will be asked to draw conclusions based on these observations in order to explain astronomical phenomena.

Calculations done in this laboratory course will require no more than basic arithmetic skills.

### **Introductory Physics I**

#### **PHYS 1081 5 Credits** **MnTC: Goal 03**

This course is the first of a comprehensive two-semester sequence in introductory physics. The topics of kinematics, vectors, rotational motion, gravity, energy, and oscillatory motion are introduced at the level of calculus. The course presents these topics as a foundation for further studies in science while at the same time developing problem-solving skills that will be useful for students in practically any endeavor they choose to undertake.

**Prerequisite:** MATH 1081 or concurrent enrollment. **Recommendation:** High school physics or PHYS 1020.

### **Introductory Physics II**

#### **PHYS 1082 5 Credits** **MnTC: Goal 03**

This course is the second course in a comprehensive two-semester sequence in introductory physics. The topics of wave motion, geometric optics, and electricity and magnetism are introduced at the level of calculus. The course presents these topics as a foundation for further studies in science while at the same time developing problem-solving skills that will be useful for students in practically any endeavor they choose to undertake.

**Prerequisite:** Successful completion of PHYS 1081. MATH 1082 or concurrent enrollment.

### **Modern Physics**

#### **PHYS 2081 4 Credits**

Modern physics is the study of physics since the turn of the twentieth century. The two great theories of twentieth century physics are Einstein's Theory of Relativity and the Quantum Theory. The emphasis of this course will be on giving students a thorough understanding of these two complex topics as well as helping students gain an understanding of how these two theories apply to atomic and molecular structure and to condensed matter physics. Other topics such as nuclear physics, elementary particles physics, or astrophysics may also be covered.

**Prerequisite:** PHYS 1082, MATH 1082.

## Political Science

### Introduction to Political Science

**POLS 1020 3 Credits**

**MnTC: Goals 05 & 09**

This course introduces the discipline of political science. It will survey the political science subfields of political behavior, comparative government, international relations and political theory. Key concepts such as power, the state, conflict, ideology, nationalism, and political violence are examined. Structure and change in democratic and non-democratic

### International Relations

**POLS 1023 3 Credits**

**MnTC: Goals 05 & 08**

This course introduces students to the central concepts that frame thinking about global trends and the major theories in the study of international relations. It identifies the actors in the global arena and discusses the processes by which those actors make decisions. It looks at issues of global welfare and trends reshaping global conditions. This course also reviews the globalization of trade, population demographics, the ecological environment, armed conflict and its management.

### American Government

**POLS 1031 3 Credits**

**MnTC: Goals 05 & 09**

The course examines the political process in the United States of America. It pays special attention to patterns of citizen participation, political parties and interest groups, and the cultural and constitutional basis of the American political system. It also reviews the major governmental institutions involved in the making of public policy in the United States. These institutions include the presidency, congress, and the federal courts.

### State and Local Government

**POLS 1033 3 Credits**

**MnTC: Goals 05 & 09**

This course introduces students to the dynamic world of state and local politics. It's primary focus is on state constitutions, political parties and interest groups, voting and elections, state legislatures, governors

and mayors, and state courts. This course also gives special attention to Minnesota state politics, history, and culture.

### Constitutional Law

**POLS 1035 3 Credits**

**MnTC: Goals 05 & 09**

This course examines the development of constitutional principles, judicial review, commerce powers, executive action, civil rights and liberties, and the pivotal role of the U.S. Supreme Court in maintaining the checks and balances of our Federal system of government. This course is intended for all students, and it is of special interest for students interested in government and political science.

### Internship: Political Science

**POLS 1780 1 - 3 Credits**

This course provides an opportunity for students to intern with a state legislator, government agency, political organization, or nonprofit agency. The course is designed to enhance learning by putting to use the knowledge students have already attained and also building on that knowledge and skill-set. The individual competencies will vary from internship to internship depending upon the agency site.

## Prosthetic Practitioner

### Introduction to Prosthetic Practitioner Program

**PRPR 2900 3 Credits**

This introductory course identifies the role and essential patient management skills of the prosthetist. It describes the basic structure and function of the musculoskeletal system. Study of biomechanical physics explains the forces that affect normal and abnormal human locomotion and correlates physics with the program's practical application to effective treatment of disabled patients.

### Standard Patellar Tendon Bearing (PTB) Prosthesis

**PRPR 2905 3 Credits**

The standard patellar tendon-bearing (PTB) is the most commonly made prosthetic device. This course focuses on the functional anatomy

and biomechanics of the lower limb, trans-tibial casting techniques - patient evaluation, measurement, molding, and bench alignment. It also covers normal human locomotion and the biomechanics of the trans-tibial limb as well as patient recordkeeping, fabrication, fitting, and dynamic alignment of standard PTB type prostheses.

*Prerequisite:* PRPR 2900 or concurrent enrollment.

### Trans-Tibial Prosthesis

**PRPR 2910 3 Credits**

This course offers training in evaluation, measurement and molding of trans-tibial prosthetic devices. It also covers recording patient information, prosthetic fabrication techniques and bench alignment procedures. In addition, students fit and dynamically align a sleeve suspension, as well as a joint and lacer trans-tibial prosthesis to patients.

*Prerequisite:* PRPR 2905 or concurrent enrollment.

### Variations in Trans-Tibial Prostheses

**PRPR 2915 4 Credits**

This hands-on course covers variations in trans-tibial socket designs for the LisFranc, Chopart, Symes, Supracondylar (SC) and Suprapatellar (SP) style sockets. This course covers principles of modular prosthetic systems and components. Instructors prescribe a fitting which students must evaluate, measure, and mold for a trans-tibial patient, then fit a check socket and dynamically align the prosthesis for function and comfort.

*Prerequisite:* PRPR 2910 or concurrent enrollment.

### Trans-Femoral Prostheses

**PRPR 2930 2 Credits**

This course focuses on evaluating, measuring, and molding trans-femoral prosthetic devices. It includes recording patient information, fabrication techniques, and bench alignment as well as fitting and dynamic alignment of the device. Students cover the characteristics of trans-femoral amputation surgery, functional anatomy, normal human locomotion and biomechanics prior to patient contact in the lab setting.

*Prerequisite:* PRPR 2915 or concurrent enrollment.

## 7 Course Descriptions

### **Trans-Femoral Suction Prostheses**

**PRPR 2935 3 Credits**

This course introduces the suction socket which is the most common trans-femoral suspension used in prosthetic design. Students will evaluate, measure, and mold a patient. Students will fabricate, and statically align and dynamically align trans-femoral prostheses in a clinic setting.

*Prerequisite:* PRPR 2930 or concurrent enrollment.

### **Knee and Hip Disarticulation Prostheses**

**PRPR 2940 1 Credit**

This course concentrates on knee disarticulation, hip disarticulation and hemi-pelvectomy prostheses. It introduces diagnostic imagery practices and psychology of disability theory. Students explore the business aspects of the orthotics and prosthetics field including business practices, ethical philosophy, financial considerations, and employability skills.

*Prerequisite:* PRPR 2935 or concurrent enrollment.

### **Trans-Femoral Hydraulic Knee Prostheses**

**PRPR 2945 3 Credits**

This course is focuses on fluid-controlled knee mechanisms for trans-femoral amputees. Students evaluate, measure and record patient information and create molds for trans-femoral amputees. After selecting a fluid-controlled knee device from measurements, the prosthetic devices are statically aligned and then dynamically aligned to amputees for function and comfort.

### **Long Trans-Radial Prosthesis**

**PRPR 2960 3 Credits**

This course involves evaluation, measuring, and recording patient information and making a mold for a long trans-radial prosthesis. Students will fabricate and fit the long trans-radial prosthesis. This course will also cover variations in upper limb and shoulder level amputations, review basic upper limb muscular/skeletal anatomy, as well as identify components and material science for upper-limb fabrication.

*Prerequisite:* PRPR 2945 or concurrent enrollment.

### **Short Trans-Radial Prostheses**

**PRPR 2965 3 Credits**

This hands-on course provides training for the fabrication and fitting of the short trans-radial prosthesis. During this course students concentrate on patient evaluation, practice mold casting techniques, check socket fittings, and complete the fabrication and fitting for both short trans-radial and self-suspending trans-radial prostheses.

*Prerequisite:* PRPR 2960 or concurrent enrollment.

### **Externally Powered Prostheses**

**PRPR 2970 2 Credits**

This course introduces students to the theories and practical aspects of casting techniques, myotesting (muscle testing), fitting procedures and training for patients using externally powered prosthetic devices.

*Prerequisite:* PRPR 2965 or concurrent enrollment.

### **Trans-Humeral Prosthesis**

**PRPR 2975 3 Credits**

This course focuses on the functions and applications of a trans-humeral prosthesis. Topics include casting techniques, fabrication and assembly of prosthetic components, fitting check sockets, and the finished trans-humeral prosthesis to a patient model.

*Prerequisite:* PRPR 2970 or concurrent enrollment.

### **Prosthetic Practitioner Practicum**

**PRPR 2990 7 Credits**

This practicum provides students with opportunities to apply the theories and skills learned in the program in an approved clinical setting with actual patient contact. Practicum students work under the direct supervision of a Certified Prosthetist preceptor in an approved professional facility. In addition, students are observed periodically on site by a Century College program instructor who also confers with facility supervisors/preceptors.

*Prerequisite:* Completion of all PRPR courses and consent of instructor.

### **Prosthetic Practitioner Advanced Practicum Internship**

**PRPR 2995 1 - 12 Credits**

During the 1-12 credits of the Prosthetic Practitioner Advanced Practicum Internship,

the post-graduate Prosthetic Practitioner student works in an approved prosthetic facility or department. Students apply theory and skills learned in the Prosthetic Practitioner programs to actual patient contact under the direction of a certified prosthetist supervisor at the practicum site. The course tracks the student's clinical experience and progress toward fulfillment of the prerequisite postgraduate clinical exposure required by the American Board for Certification in Orthotics and Prosthetics prior to national certification testing. Students may repeat this course up to a total of 12 credits.

*Prerequisite:* Graduation from the Prosthetic Practitioner Program.

## Prosthetic Technology

Note: Prior to registering for any PRTE course, students must attend a new student orientation session. Instructor signature required prior to registration.

### **Introduction to Prosthetics**

**PRTE 1020 3 Credits**

This course introduces the role of the prosthetic technician and the safety practices and habits required by the profession. Topics include safety practices, and prosthetic bench tools and equipment as well as the materials and components used to craft prosthetic fabrications.

### **Anatomy of Trans-Tibial Amputations**

**PRTE 1030 4 Credits**

This course covers the relationship between trans-tibial anatomy and prosthetic measurement charts in trans-tibial amputations. This course will introduce students to trans-tibial socket fabrication. Students will make plaster of Paris models, prepare tapered polyvinylalcohol (PVA) sleeves, lay up the patellar tendon-bearing (PTB) socket and laminate PTB sockets.

### **Trans-Tibial Socket Inserts, Alignment and Duplication**

**PRTE 1040 3 Credits**

This course concentrates on fabrication techniques for trans-tibial socket inserts and patellar tendon-bearing (PTB) waist belts with

## 7 Course Descriptions

suspension attachments. In the lab, students place PTB sockets into extension blocks, statically align and assemble them, and practice procedures for duplicating proper PTB alignments.

*Prerequisite:* PRTE 1030 or concurrent enrollment.

### **Finishing Procedures for Patellar Tendon-Bearing (PTB) Prostheses**

**PRTE 1050 3 Credits**

This course covers shaping, laminating, and finishing of Patellar tendon-bearing (PTB) prostheses.

*Prerequisite:* PRTE 1040 or concurrent enrollment.

### **Fabrication of Patellar Tendon-Bearing (PTB) Joint and Lacer**

**PRTE 1060 3 Credits**

This course covers laminating a patellar tendon-bearing (PTB) socket utilizing vacuum techniques, statically aligning PTB prostheses and mounting joints. Students will also fabricate fork straps and joint covers.

*Prerequisite:* PRTE 1050 or concurrent enrollment.

### **Anatomy of Trans-Femoral Amputations**

**PRTE 1070 3 Credits**

This course covers anatomy of trans-femoral amputations, and trans-femoral prosthetic measurement charts. This course focuses on duplicating procedures for making a Patellar tendon-bearing (PTB) prosthesis. Students shape and laminate the prosthesis, as well as finish and assemble the PTB prosthesis for delivery to a patient. This course covers anatomy of trans-femoral amputations, and trans-femoral prosthetic measurement charts.

*Prerequisite:* PRTE 1060 or concurrent enrollment.

### **Trans-Femoral Socket Fabrication**

**PRTE 1080 4 Credits**

This course concentrates on creating plaster of Paris models of trans-femoral residual limbs, as well as the lay-up and lamination of trans-femoral prosthetic sockets. Activities include placement of a trans-femoral socket in an extension block, static alignment of a trans-femoral socket on an adjustable leg, duplicate alignment of a trans-femoral prosthesis, and attachment of trans-femoral flexible leather belts and hip joint components.

*Prerequisite:* PRTE 1070 or concurrent enrollment.

### **Finishing Procedures for Trans-Femoral Prostheses**

**PRTE 2000 3 Credits**

This course prepares students for shaping and finish lamination procedures of trans-femoral prostheses and assembly of trans-femoral prostheses.

*Prerequisite:* PRTE 1080 or concurrent enrollment.

### **Thermoplastic Check Socket Fabrication**

**PRTE 2010 3 Credits**

This course concentrates on vacuum forming plastic trans-tibial, trans-femoral, long trans-radial, short trans-radial and trans-humeral check sockets.

*Prerequisite:* PRTE 2000 or concurrent enrollment.

### **Anatomy of Upper-Limb Amputation and Long Trans-Radial Fabrication**

**PRTE 2020 3 Credits**

This course introduces students to upper-limb amputation anatomy and upper-limb measurement charts. Students will identify upper-limb components used in the prosthetic industry and fabricate a long trans-radial prosthesis.

*Prerequisite:* PRTE 2010 or concurrent enrollment.

### **Fabrication of Short Trans-Radial and Trans-Humeral Prosthesis**

**PRTE 2030 4 Credits**

This course introduces materials and techniques used to fabricate short trans-radial and trans-humeral prosthetic devices. Students will fabricate short trans-radial and trans-humeral prosthetic devices in a lab setting.

*Prerequisite:* PRTE 2020 or concurrent enrollment.

### **Clinical Internship Practicum**

**PRTE 2780 4 Credits**

During this 160-hour prosthetic clinical, students are placed in a prosthetic facility or department. This placement provides the opportunity to apply theory and skills learned throughout the program, and be under the direction of a certified prosthetist or clinical supervisor.

*Prerequisite:* Completion of all PRTE curriculum and consent of instructor.

## Psychology

### **Introduction to the Social and Behavioral Sciences: ANTH, PSYC and SOC**

**PSYC 1000 3 Credits**

This course serves as a broad introduction to three of the social and behavioral sciences: Anthropology, Psychology, and Sociology. The course provides an overview of the history, theories, research methods, and research publications of each discipline. The course is designed to help students to acquire the knowledge and skills that will enable them to succeed in the introductory courses in these three disciplines.

*Prerequisite:* Assessment score placement in RDNG 0090, or completion of RDNG 0080 with a grade of "C" or higher or consent of the instructor. *Restriction:* May not be taken for credit if credit has been earned in ANTH 1000 or SOC 1000.

### **General Psychology**

**PSYC 1020 4 Credits**

**MnTC: Goal 05**

Psychology is the science of behavior and mental processes. Scientific psychologists do research on human and animal behavior, and on mental activities such as cognition and intelligence. This course is a survey of the fundamental principles, research findings, and theories in psychology. This course does not train students in the practice or application of psychology, but introduces the core ideas and findings in the scientific study of behavior and the mind. Psychology is a very broad discipline that includes many topics including brain anatomy and function, learning, development, perception, memory, emotions, motivation, personality, social psychology, sleep and dreaming, and psychological disorders and their treatments.

### **Psychology of Adjustment**

**PSYC 1030 3 Credits**

**MnTC: Goal 05**

This course is a survey of the psychological factors involved in human adjustment and healthy personal development, covering the main approaches of contemporary psychology:

## 7 Course Descriptions

psychoanalytic, behavioral, humanistic, cognitive, and biological. This course includes discussion of motivation, theories of personality, emotions, stress, mental health, relationships, and psychological disorders and therapies.

### **Developmental Psychology** **PSYC 1041 3 Credits**

#### **MnTC: Goal 05**

The focus of this course is on human development from conception to death. The course includes research methodology, theoretical perspectives, and the physical, cognitive, and psychosocial changes occurring in human development. Emphasis will be placed on the application of research and theory to current issues.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher. *Recommendation:* PSYC 1020. For non-native English speakers, completion of ESOL 1035 with a grade of "C" or higher, or English language proficiency equivalent to ESOL 1035.

### **Abnormal Psychology** **PSYC 2021 3 Credits**

#### **MnTC: Goals 05 & 07**

This course is an introduction to the diagnosis, classification, causes, and treatments of psychological disorders. This course covers the Diagnostic and Statistical Manual of Mental Disorders (DSM), the book universally used to diagnosis mental illnesses, as well as theories about disorders, descriptions and statistics of major mental illnesses, and medical and psychological therapies. Some of the disorders that will be studied in detail include schizophrenia, mood disorders, anxiety disorders, and developmental, cognitive and personality disorders.

*Prerequisite:* PSYC 1020.

### **Forensic Psychology** **PSYC 2031 3 Credits**

Forensic Psychology seeks to provide to students a broad-based understanding of the role of psychology within the legal field. Students will learn about aspects of human behavior related to the legal process including eyewitness memory and testimony, competence and insanity, risk assessment, and criminal behavior. The emphasis will be on scientific and empirical applications of

psychology to civil and criminal law.

*Prerequisite:* PSYC 1020, RDNG 0090 with a grade of "C" or higher, or assessment score placement into RDNG 1000.

*Recommendation:* ENGL 0090 with a grade of "C" or higher, or assessment score placement into ENGL 1021.

### **Child Development** **PSYC 2043 3 Credits**

#### **MnTC: Goals 05 & 09**

Child Development is a field, within Developmental Psychology, concerned with the facts and principles that influence the health, well-being and future of the child. The course includes an in-depth study of the physical, cognitive, and psychosocial changes that occur from birth to adolescence. The course includes research methods, and theories of child development, as well as, an exploration of genetic and environmental factors that influence the child's development.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* PSYC 1020.

### **Adolescent Development** **PSYC 2044 3 Credits**

#### **MnTC: Goals 05 & 09**

Adolescent psychology is a field within Developmental Psychology, concerned with the psychological principles that apply to the study of adolescent development. The course includes an in-depth study of the physical, cognitive, and psychosocial changes that occur during the adolescent years. This course will familiarize students with the fundamental psychological concepts, research findings, and theories in adolescent psychology. It also may include the study of scientific psychological principles, related to the development of emotions, identity, gender, sexuality, ethical and moral development, families, peers, schools, achievement, culture, and adolescent problems.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* PSYC 1020.

### **Adulthood, Aging and Death** **PSYC 2045 3 Credits**

#### **MnTC: Goals 05 & 09**

Adulthood, Aging, and Death present an

overview of the developmental tasks of adulthood, with particular reference to aging and death. It includes the study of the physical, cognitive, and psychosocial aspects of the aging process. Normal aspects of aging are contrasted with aging related to various diseases. Ethical, moral and other contemporary issues associated with adulthood, aging and death will be examined.

*Prerequisite:* Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of 'C' or higher.

*Recommendation:* PSYC 1020.

### **Special Topics in Psychology** **PSYC 2790 1 - 3 Credits**

A course in which one of a variety of contemporary topics of interest would be selected as the focus for study. The specific topic will be announced in advance, and published at the time of registration.

*Prerequisite:* PSYC 1020 or consent of instructor; assessment score placement in RDNG 1000 or above, or the completion of RDNG 0090 with a grade of "C" or higher; and assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

## Public Safety

---

### **Firefighter I** **FRTA 1091 5 Credits**

Firefighter I is an introduction to fire science. It is intended to provide the skills and knowledge necessary to take the Minnesota Firefighter I certification test and function in an entry level position on a fire department or service. The course will emphasize Self Contained Breathing Apparatus (SCBA) use and care, forcible entry, search and rescue in a structure, ladder use and care, fire hose and appliance use and care, fire streams, ventilation, fire prevention and public education, fire extinguishers, salvage and overhaul, fire control, safety, ropes and knots, and communications.

*Prerequisite:* Medical clearance by a physician verifying that the student is fit to perform the sometimes physically demanding tasks of firefighter training and is approved for respirator use. *Restriction:* This course is limited to individuals affiliated with fire

## 7 Course Descriptions

services that are able to procure fire gear to use in training. This includes complete turnout gear, helmet, and self contained breathing apparatus (SCBA) with a mask.

### **Firefighter II** **FRTA 1092 2 Credits**

Firefighter II is a continuation to Firefighter I, and along with EMS 1095 (Hazardous Materials Operations), is intended to provide the skills and knowledge necessary to take the Minnesota Firefighter II certification test and function in a more advanced capacity on a fire department or service. The course will emphasize Incident report writing, fire suppression-flammable liquids, fire suppression-flammable gases, fire ground command, evidence preservation, vehicle extrication, assisting the rescue team, pre-incident survey, equipment maintenance, fire hose testing, and fire hydrant testing.

*Prerequisite:* FRTA 1091 (Firefighter I). Medical clearance by a physician verifying that the student is fit to perform the sometimes physically demanding tasks of firefighter training and is approved for respirator use. *Restriction:* This course is limited to individuals affiliated with fire services that are able to procure fire gear to use in training. This includes complete turnout gear, helmet, and self contained breathing apparatus (SCBA) with a mask.

### **Hazardous Materials Operations** **FRTA 1095 3 Credits**

Hazardous Materials Operations is an introduction to hazardous materials intended to provide the skills and knowledge necessary to recognize, identify, and remain safe in potentially hazardous environments. The course will emphasize hazardous materials recognition, hazardous materials identification, effects of hazardous materials on people and the environment, material safety data sheets (MSDS) and safety precautions. This course must be completed to receive Minnesota Firefighter I certification.

### **Foundations of Public Safety** **PSAF 1020 3 Credits**

This survey course is an introduction to the multidisciplinary field of public safety as it applies to the disciplines of emergency medical services (EMS), the fire service, law enforcement, communications/dispatch, and

emergency management. Students will not only study an overview of each discipline/occupation, but interact with peers from their own profession as well as others from across the public safety spectrum.

*Recommendation:* Computer literacy and word processing skills.

### **Public Safety Technology** **PSAF 1031 3 Credits**

This course focuses on integrating new and emerging technology in managing the allocation and utilization of resources needed during large scale gatherings, special events, natural, human-made, and terrorist disasters.

*Prerequisite:* PSAF 1020 or instructor consent. *Recommendation:* Computer literacy and word processing skills.

### **Principles of Public Safety Leadership** **PSAF 1032 3 Credits**

This course will examine decision-making models, team development techniques, and leadership skills necessary to contribute to the success of a public safety organization. This course will also assess how organizational behavior, laws, and culture influence the delivery of public safety.

*Prerequisite:* PSAF 1031 or instructor consent. *Recommendation:* Computer literacy and word processing skills.

### **Community Service Principles** **PSAF 1035 3 Credits**

This course will explore the perceptions and expectations of governmental organizations, the media, and culturally diverse communities. The course provides a focus on customer service, public relations, crisis communications, recruitment and retention, and education as it relates to public safety.

*Recommendation:* Computer literacy and word processing skills.

### **Technological Disasters** **PSAF 1100 3 Credits**

This course is designed to study various unintentional technological disasters, such as structural failures, hazardous materials releases, fire outbreaks, and transportation accidents. Students will develop case studies of various technological disasters and utilize critical thinking and analysis methods to determine the anatomy of the given disaster. *Recommendation:* Entry level computer skills.

### **Independent Study** **PSAF 1790 1 - 4 Credits**

This course provides the opportunity for students to enhance their learning experiences or explore a specialty area beyond the scope of the basic Public Safety coursework through an independent study projects. Projects will be developed cooperatively between the students and the instructor with the approval of the dean in order to help the student pursue specific areas of interest relative to public safety. Projects may apply to the students discipline within public safety or may be interdisciplinary in scope.

*Prerequisite:* Consent of instructor and dean. Completion of PSAF 1020 or equivalent with a grade of "B" or above. *Recommendation:* Computer literacy, word processing skills, and basic PowerPoint skills.

### **Incident Command Strategies** **PSAF 2040 4 Credits**

This course is a comprehensive and in-depth examination of the incident command system used to manage small to large scale natural, human-made and terrorist incidents using the guidelines set forth by the National Incident Management System (NIMS) per Homeland Security Presidential Directive-5. Basic through advanced principles of the incident command system and NIMS will be discussed, examined, and applied in simulations utilizing various media all revolving around a multidisciplinary approach.

*Recommendation:* Computer literacy and word processing skills.

### **Project Management in Public Safety** **PSAF 2045 3 Credits**

This course is intended to prepare the student to manage projects of varying sizes and difficulty that they may encounter in the public safety discipline. This course will provide activities to simulate selecting or analyzing an organization for an issue, procedure, process, problem, or service that can be improved or developed. Then the student will be provided resources concerning how to design, develop, implement, evaluate, and make necessary improvements or modifications to the project. This course will also focus on presenting all the project stages and final project results in written, multi-media, and verbal formats.

*Recommendation:* Computer literacy and word processing skills.

## 7 Course Descriptions

### **Public Safety Capstone PSAF 2050 3 Credits**

The Public Safety Capstone course is intended to provide the public safety student with the opportunity to research, analyze, and present a multidisciplinary approach to current issues or events within the public safety arena. Using a team approach, the student will demonstrate their skills in writing, critical thinking, and knowledge of public safety.

**Prerequisite:** Completion of all coursework required for the program: PSAF 1020, PSAF 1031, PSAF 1032, PSAF 1035, PSAF 2040, and PSAF 2045. Knowledge and proficiency in Microsoft applications.

## Radiologic Technology

### **Fundamentals of Radiography RADT 1020 3 Credits**

An introductory course providing an overview of the field of radiography and its role in health care. Basic patient care skills, body mechanics, infection control techniques, aseptic procedures, emergency care, drug administration, HIPAA guidelines, patient communication and meeting the psychological needs of the patient are discussed. Students are introduced to the basic principles of radiation protection and safety, related radiography terminology, legal issues and basic exposure factors of radiology. Students will demonstrate theory and clinical applications in the laboratory setting.

**Prerequisite:** Concurrent enrollment in RADT 1031.

### **Anatomy and Positioning I RADT 1031 5 Credits**

The first of two semester courses that pertain to anatomy and radiographic positioning of the body. Initially, students are introduced to radiographic terminology, including anatomical body planes, surfaces, movements, and topographical landmarks. This course covers the anatomy and radiographic positioning of the chest, abdomen, and extremities. Emphasis is also placed on bone development, skeletal articulations, and joint morphology. Students will demonstrate theory and clinical applications in the laboratory setting.

**Prerequisite:** Concurrent enrollment in RADT 1020.

### **Anatomy and Positioning II RADT 1032 3 Credits**

Anatomy and Positioning II is the second of two semester courses that pertain to anatomy and radiographic positioning of the human body. The first portion of the course pertains to anatomy and positioning of the vertebral column and skull. The second portion of the course places emphasis on the use of contrast medium in radiography of the body systems. Routine contrast procedures of the digestive, biliary and urinary procedures and related anatomical structures will be included. The remainder of the course will emphasize specialized procedures using contrast medium.

**Prerequisite:** RADT 1020, RADT 1031 and concurrent enrollment in RADT 1040 and RADT 1781.

### **Radiographic Exposure Factors RADT 1040 3 Credits**

This course is an introduction to the science of determining diagnostic exposure factors. Film processing principles, intensification screens, grids, control of scattered radiation, contrast, density, detail, distortion and the effects of human factors will be reviewed. Students will demonstrate ways of minimizing radiation exposure. Image production using the advances of digital radiography and associated computer technology will be discussed. The course will also introduce students to computer network systems that store, transmit and retrieve digital radiographic images. Students will apply classroom theory in the laboratory and clinical setting.

**Prerequisite:** RADT 1020, RADT 1031 and concurrent enrollment in RADT 1032 and RADT 1781.

### **Bone Densitometry I RADT 1051 1 Credit**

This course is designed to introduce the student to the basic principles of bone densitometry. The course includes discussion of metabolic bone disorders, modality history, patient care, equipment operation and physics with an emphasis on radiation protection. This is the first of a two part course sequence to assist participants with preparation for the national certification exam in bone densitometry.

**Prerequisite:** Current standing as a radiologic student and/or a healthcare worker performing bone density exams. **Restriction:** Must

be a Radiologic technology student and/or employed in a healthcare facility and currently performing bone densitometry. Not intended to prepare student for employment.

### **Bone Densitometry II RADT 1052 1 Credit**

During this course the student will review advanced bone densitometry topics. Topics of discussion include bone composition physiology, patient education skills, state and national guidelines and position statements, radiation safety and scanning protocol. Two of the class sessions will be held at a local health care facility. Not intended to prepare student for employment.

**Prerequisite:** Must be a radiologic technology student, a registered radiographer and/or a healthcare facility employee currently performing bone densitometry. **Restriction:** RADT 1051 or permission of instructor.

### **Clinical Radiography I RADT 1781 6 Credits**

This course is designed to provide students with opportunities to apply basic theoretical principles of radiography and patient care to practical experience in the clinical setting. Students will assist and perform radiographic procedures under the direction of college and clinical staff at affiliated Radiology Departments.

**Prerequisite:** RADT 1020, RADT 1031 and concurrent enrollment in RADT 1032, RADT 1040.

### **Clinical Radiography II RADT 1782 6 Credits**

The course is designed to provide students with opportunities to apply basic theoretical principles of radiography and patient care to practical experience in the clinical setting. Students will assist and perform radiographic procedures under the direction of college and clinical staff at affiliated Radiology Departments.

**Prerequisite:** RADT 1781, RADT 1032, RADT 1040 and concurrent enrollment in RADT 2000.

### **Radiation Biology and Protection RADT 2000 1 Credit**

An introductory course of molecular and cellular Radiobiology including the early and late effects of radiation. Federal and state

## 7 Course Descriptions

radiation guidelines are reviewed and also all methods of minimizing radiation exposure.

*Prerequisite:* RADT 1032, RADT 1040, RADT 1781; concurrent enrollment in RADT 1782.

### **Imaging Pathology RADT 2010 1 Credit**

The pathologic conditions of several body systems are reviewed. Students will have an opportunity to discuss required exposure factors changes to compensate for certain disorders. Also the course will introduce the students to the other types of imaging modalities and emphasize the disorders best demonstrated by them.

*Prerequisite:* RADT 2020, RADT 2030, RADT 2783 and concurrent enrollment in RADT 2090, RADT 2100 and RADT 2784.

### **Introduction to Sectional Anatomy RADT 2020 2 Credits**

This is an introductory course designed to prepare students to identify anatomical structures on sectional images that are obtained in related imaging modalities. During the laboratory section of the course the student will have an opportunity to view computer-generated sectional images and identify specific anatomy without overlapping structures. Students of the course will be expected to complete a clinical rotation in computerized tomography.

*Prerequisite:* RADT 1782, RADT 2000 and concurrent enrollment in RADT 2030 and RADT 2783.

### **Radiation Physics and Quality Control RADT 2030 2 Credits**

During this course the basics of x-ray circuitry, production of x-radiation and basic operation of energized x-ray and fluoroscopic units are reviewed. Also the differences between digital and computerized imaging will be introduced. This course will place emphasis on quality control testing in the imaging department. Some basic quality control testing will be observed and analyzed by the students.

### **Radiography Seminar RADT 2060 2 Credits**

This course is designed allow students to apply all previously learned coursework to entry level radiography standards. This is the final academic course before graduation.

*Prerequisite:* RADT 2010, RADT 2090, RADT 2100, RADT 2784 and concurrent enrollment in RADT 2785.

### **Topics in Radiology RADT 2090 1 Credit**

Students will be expected to investigate and report on various legal, ethical and cultural diversity issues that impact the radiography field. Job preparation skills specific to the field of radiology are also discussed.

*Prerequisite:* RADT 2020, RADT 2030, and RADT 2783 and concurrent enrollment in RADT 2010, RADT 2100 and 2784.

### **Introduction to Mammography RADT 2095 1 Credit**

Introduction to Mammography is an elective course for 2nd Year RADT students interested in pursuing career opportunities in mammography. Students may choose to perform a clinical rotation in mammography during Clinical Radiography IV, which would fulfill the minimum MQSA federal requirements to perform mammography upon graduation.

*Prerequisite:* RADT 1782 and concurrent enrollment in the Century College RADT Program or a registered radiologic technologist.

### **Introduction to Computed Tomography RADT 2100 1 Credit**

Introduction to Computed Tomography (CT) is a required course which includes the fundamentals of computed tomography, equipment components, image creation and manipulation, CT protocols and their applications in radiology and specialized examinations performed in the CT department. Students will have the opportunity to apply the theoretical component in Clinical Radiography III, IV and V, under the direct supervision of a qualified radiologic technologist.

*Prerequisite:* RADT 2020, RADT 2030, RADT 2783 and concurrent enrollment in RADT 2010, RADT 2090 and RADT 2784.

### **Clinical Radiography III RADT 2783 8 Credits**

This course is designed to provide the student opportunities to master performance competencies and gain additional experience in all areas of diagnostic radiology. Particular emphasis is placed on fluoroscopic, surgical

and trauma radiography. Students will be assigned in the special imaging modalities of computed tomography and angiography. Rotations to two area Children's Hospitals provide additional experience in pediatric radiology. Students who elect to pursue the MQSA mammography certificate will rotate through the mammography department for a one-week orientation rotation.

*Prerequisite:* RADT 1782, RADT 2000 and concurrent enrollment in RADT 2020 and RADT 2030.

### **Clinical Radiography IV RADT 2784 8 Credits**

Students continue their clinical experiences and have an opportunity to rotate to another clinical facility. Students are performing radiographic procedures with limited supervision, emphasizing proficiency in trauma, bedside and specialized radiographic procedures. Students will select an optional rotation from among various special imaging modalities.

*Prerequisite:* RADT 2020, RADT 2030, RADT 2783 and concurrent enrollment in RADT 2010, RADT 2090 and RADT 2100.

### **Clinical Radiography V RADT 2785 6 Credits**

This final clinical course provides students with an opportunity to integrate and apply all previously learned clinical and academic theories. Students will perform all radiographic examinations with limited supervision. Students will be able to access and adapt to various clinical situations.

*Prerequisite:* RADT 2010, RADT 2090, RADT 2100, RADT 2784 and concurrent enrollment in RADT 2060.

### **Special Modalities in Clinical Radiography**

#### **RADT 2790 6 Credits**

Special Modalities in Clinical Radiography is an advanced course for qualified 2nd Year RADT students who have an established record of academic achievement in the Radiologic Technology (Rad Tech) Program. The 6-credit course is a clinical-based course and offers the student an innovative learning experience in Computed Tomography (CT), mammography or other specialized modalities. It is intended to be an intensive clinical

## 7 Course Descriptions

experience designed to broaden the student's professional perspectives and provide an opportunity for integration of previous courses in the program's curriculum. The course is designed to be integral to the goal and mission of the Rad Tech Program's core curriculum. Qualified students will go through a selection process conducted by a RADT Program affiliate.

**Prerequisite:** RADT 2100, RADT 2784; concurrent enrollment in RADT 2060; specific modalities placement may require related theory courses. **Restriction:** Students must meet the criteria for this course as outlined in the current RADT Student Handbook and program brochure, along with the following restrictions: complete all clinical competencies as required by the American Registry of Radiologic Technologist (ARRT) and accreditation guidelines, consent of program faculty, and space availability.

### **Cross Sectional Anatomy I RADT 2800 2 Credits**

This course is designed to introduce the student to the radiology related imaging modality of Computed Tomography (CT). Introduction of the basic CT unit and operational components will be reviewed. Emphasis will be placed on the cross sectional anatomy of the brain, skull, thorax, spine, abdomen and pelvis. Clinical indications relative to the appropriate CT exam will be discussed.

### **Cross Sectional Anatomy II RADT 2804 2 Credits**

This is an advanced cross sectional anatomy course designed to review images obtained in Computed Tomography. Topics of discussion will include musculo-skeletal imaging, post myelography, radiation therapy procedures, vascular structures, intervention procedures such as drainage, biopsies and aspiration.

### **Patient Assessment in Computed Tomography RADT 2808 2 Credits**

This course is designed to introduce the student to patient care and assessment of the CT patient. Items of discussion include methods of evaluating patients with various health conditions, collecting vital signs, drugs and routes of administration, infection control

and emergency situations.

**Recommendation:** CPR Certification but not required.

### **Computed Tomography Physics and Instrumentation I RADT 2812 2 Credits**

This course is designed to provide the student with an introductory presentation of the physical principles and instrumentation involved in computed tomography. The historical development of CT is reviewed. Physics topics include x-radiation, CT beam attenuation, linear attenuation coefficients, tissue characteristics and Hounsfield numbers application. The course will include a discussion of types of CT scanners, CT hardware, basic image formatting and software functions.

### **Computed Tomography Physics and Instrumentation II RADT 2816 2 Credits**

The second physics course will explore the processing of CT images from data acquisition. The technique for post processing, archiving and assessing patient factors related to imaging quality will be reviewed. Methods of improving image quality and reducing artifact production will be presented. The benefits of spiral, helical and multi-detectors are covered in the course.

### **Computed Tomography Radiation Safety and Quality Control RADT 2820 2 Credits**

The purpose of this course to review all possible methods of reducing patient exposure to the patient, personnel and the public. A discussion of the radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies and health care organizations are included. The second portion of the course will deal with establishing and implementing a quality management program in CT departments.

### **Computed Tomography Pathology RADT 2824 2 Credits**

This entire course is devoted to the study of common diseases/disorders that are best visualized by obtaining CT images. A discussion of supportive diagnostic exams is included. Case studies in CT will be used in

the discussion of pathological findings.

**Prerequisite:** RADT 2800, RADT 2804, or permission of the instructor.

### **Computed Tomography Imaging and Application RADT 2828 2 Credits**

During the course students will study the procedure protocols for computed tomography. The protocols include orientation and positioning, contrast media usage, scout imaging, selectable scan parameters, filming and archiving of the images. Students will have the opportunity to view numerous CT images and critique them for quality, anatomy and pathology.

## Reading

---

Note: Students registering for a reading course for the first time must take a reading assessment test as described in the **Assessment** section of this publication. Students must begin any reading coursework at their assessed skill level. Students who do not follow listed assessment and prerequisite requirements will be required to change registration to comply with Century's Assessment Policy.

### **Preparation for College Reading RDNG 0080 4 Credits**

This course offers preparation for reading college-level material. Topics include basic reading strategies, techniques, and practices to improve comprehension, increase vocabulary and develop thoughtful responses to reading. The close relationship of reading, writing and thinking will be emphasized.

**Prerequisite:** Assessment score placement in RDNG 0080.

### **Introduction to College Reading RDNG 0090 4 Credits**

This course focuses on techniques for reading and studying textbooks in various college courses. Topics include effective learning and critical reading strategies for social sciences, sciences, technology, and the humanities.

**Prerequisite:** Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a grade of "C" or higher.

### Reading American History RDNG 0093 4 Credits

This reading course focuses on the broad story of American History by studying the concept of freedom while developing textbook processing and college learning skills. Students will develop learning strategies as well as useful background knowledge for college-level American History as well as other social science and humanities courses. Reading American History 93 fulfills the Reading 90 requirement.

*Prerequisite:* RDNG 0080 with a grade of "C" or higher, or appropriate assessment score.

### Critical Reading and Thinking for College RDNG 1000 3 Credits

Critical Reading and Thinking for College is a college level course in reading which emphasizes critical reading and thinking skills using focused questioning. This course primarily presents and applies strategies for critical analysis and evaluation of college-level texts. Students will develop strategies to adjust reading rate based on need and purpose to enhance more effective textbook study and to increase college level vocabulary.

*Prerequisite:* Appropriate assessment score or completion of RDNG 0090 with a grade of "C" or higher.

## Renewable Energy Systems

### Solar Energy Basics RENW 2020 3 Credits

This course provides the student with an overview of the theory and practice foundational to the technologies of solar thermal and solar photovoltaic (PV) systems. Topics include current and potential methods of harnessing solar radiation as an energy source, solar thermal theory and application, and solar photovoltaic theory and application.

*Prerequisite:* Assessment score placement in RDNG 0090 or completion of RDNG 0080 with a "C" or better. Assessment score placement in MATH 1015 or equivalent with a "C" or better.

## Sociology

### Introduction to the Social and Behavioral Sciences: ANTH, PSYC and SOC SOC 1000 3 Credits

This course serves as a broad introduction to three of the social and behavioral sciences: Anthropology, Psychology, and Sociology. The course provides an overview of the history, theories, research methods, and research publications of each discipline. The course is designed to help students to acquire the knowledge and skills that will enable them to succeed in the introductory courses in these three disciplines.

*Prerequisite:* Assessment score placement in RDNG 0090, or completion of RDNG 0080 with a grade of "C" or higher or consent of the instructor. *Restriction:* May not be taken for credit if credit has been earned in ANTH 1000 or PSYC 1000.

### Introduction to Sociology SOC 1020 3 Credits MnTC: Goals 05 & 07

This course is a survey of sociology's major theoretical perspectives and research methods. Basic concepts include culture, socialization, groups, organizations, deviance, social institutions, change, and inequalities based on class, race, and gender. Students learn how sociological research is conducted using concepts, theories, and methods as well as the significance of a global perspective for understanding social behavior.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Sociology of Families in Crisis SOC 1033 3 Credits MnTC: Goals 05 & 07

How are individual family problems connected to broader social systems? This course explores the social forces that influence family crises. It covers a variety of issues, such as poverty, family violence, and contemporary social problems that affect families. Relevant social policy debates are also discussed.

*Prerequisite:* Assessment score placement in

RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Sociology of Social Problems SOC 1041 3 Credits MnTC: Goals 05 & 09

This course is a survey of the sociology of a selected set of social problems in the U.S. and globally, e.g. crime and violence, poverty, unemployment, war and terrorism, environmental degradation, and population growth. The social-structural and cultural sources of these problems are critically analyzed, and structural and cultural solutions following from such analyses are examined.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

### Introduction to the Criminal Justice System SOC 1080 3 Credits MnTC: Goals 05 & 09

This course provides an overview of the criminal justice system in US society, including the role of the police, courts, and corrections. Sociological perspectives are applied to an analysis of crime and victimization, ethics, and the concept of justice.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

*Recommendation:* Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher.

### Sociology of the Family SOC 2031 3 Credits MnTC: Goals 05 & 07

This course examines the family as a social institution, focusing on how family life both shapes and is shaped by larger social forces, including the economy and public policy. The diversity of family forms and experiences, and how these change over time, will be examined along the lines of gender, race, class, and sexual orientation. The course will also address the gendered nature of family roles and experience, i.e. the way that individuals' actions may conform to, or challenge, dominant cultural expectations of women and men in families.

*Prerequisite:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher.

## 7 Course Descriptions

**Recommendation:** Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of “C” or higher. Prior completion of SOC 1020 or WST 1061 with a grade of “C” or higher.

### **Sociology of Race and Ethnicity** **SOC 2051 3 Credits**

#### **MnTC: Goals 05 & 07**

This course introduces students to the complexity of diverse racial/ethnic groups in the United States. It focuses on the historical development of the concept of race, contemporary issues of racial formation, white privilege, individual prejudice and discrimination, institutional racism and discrimination, racial/ethnic identity and collective resistance.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade “C” or higher.

**Recommendation:** Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade “C” or higher.

### **Sociology of Disability** **SOC 2053 3 Credits**

#### **MnTC: Goals 05 & 07**

Disability activists reject society’s “pity for the handicapped,” demanding acceptance and the same opportunities non-disabled people take for granted to be out and about in the world. Starting with a brief history of disability in the United States, this course will examine how disability is socially constructed and forms an axis of inequality in society. Topics include disability culture and identity, disability policy, the intersection of disability and gender, portrayals of disability in the media, and disability rights movements in the US and abroad.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

**Recommendation:** Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of “C” or higher. Prior completion of SOC 1020 with a grade of “C” or higher.

### **Sociology of Gender and Work** **SOC 2061 3 Credits**

#### **MnTC: Goals 05 & 07**

How does gender influence your occupational choices and opportunities? This course

explores the changing relationship between gender and the institution of work. Topics include individual level issues of identity and relationships as well as structural issues of inequality and public policy.

**Prerequisite:** Assessment score placement in ENGL 1021.

### **Social Psychology** **SOC 2071 3 Credits**

#### **MnTC: Goals 05 & 07**

Why do people behave as they do? How do society, social groups, and other people impact individuals’ choices, beliefs, and identities? This sociology course will attempt to answer these questions through the examination of key social psychological theories and concepts, including socialization, the self, symbolic communication, self-presentation, group cohesion and conformity, deviant behavior, and collective behavior and social movements.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher.

**Recommendation:** Assessment score placement in ENGL 1021, or completion of ENGL 0090 with a grade of “C” or higher; SOC 1020 with a grade of “C” or higher.

### **Criminology and Criminal Behavior** **SOC 2087 3 Credits**

#### **MnTC: Goals 05 & 08**

This course is designed to develop an understanding of criminally deviant behavior and how it is studied within the discipline of sociology. Students will study crime theories, trends in criminal behavior, and methods of criminological investigation. Public policy implications and considerations from the local to national levels will be examined in the US and other countries. The global focus of this course will draw from cross-cultural, transnational, and international examples, such as the drug trade, human trafficking, or terrorism.

**Prerequisite:** Assessment score placement in RDNG 1000 or above or completion of RDNG 0090 with a grade of “C” or higher.

**Recommendation:** SOC 1020 or SOC 1080.

### **Data Analysis for the Social Sciences** **SOC 2991 4 Credits**

This course is one of two courses intended to prepare students to gather and analyze social

and behavioral science data. It will introduce students to the methods of data analysis social scientists use to understand social relationships and interactions, social structure, and culture, with a particular focus on opinion polls and surveys. Students will be introduced to the Statistical Package for the Social Sciences (SPSS) software.

**Prerequisite:** Completion of ENGL 1021 with a grade of “C” or higher; assessment score placement in MATH 1025 or above, or completion of MATH 0070 with a grade of “C” or higher; or consent of instructor.

### **Research Methods for the Social Sciences**

#### **SOC 2993 4 Credits**

This sociology course is one of two intended to prepare students to gather and analyze social and behavioral science data. It will introduce the methods social scientists use to gain knowledge about social relationships, settings, organizations, institutions, and the larger society. The course will cover the role of theory, forms of causal reasoning, modes of observation (surveys, experiments, field research, and unobtrusive research), units of analysis, operationalization, ethical questions in social research, and the analysis of narrative data.

**Prerequisite:** Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of “C” or higher. Completion of ENGL 1021 with a grade of “C” or higher. **Recommendation:** Prior completion of SOC 2991 with a grade of “C” or higher. Prior completion of SOC 1020 or another social or behavioral science course with a grade of “C” or higher.

## Solar Energy

---

### **Introduction to Solar Assessment** **SOLR 1020 3 Credits**

This course introduces students to basics of solar energy and solar site assessment for solar photovoltaic and thermal systems. Students will measure the solar window with a Solar Pathfinder and estimate the effects of climate, system design, and vegetation growth (and removal) on energy production. Using industry-standard hardware, mounting options and equipment, students will propose system

## 7 Course Descriptions

designs, model economic and environmental costs and benefits, and report their findings.

### **Solar Energy Construction Projects** **SOLR 1030 2 Credits**

This course introduces students to basic construction skills and mounting methods used in solar air, water, and electric systems. Topics include how to safely and carefully work with roofing, how to plan and assemble racking, how solar modules and panels are mounted, and how the remaining solar components are incorporated.

*Recommendation:* ECAD 1020.

### **Solar Thermal Installation Internship** **SOLR 1781 1-3 Credits**

This course is designed to provide students with the opportunity to apply knowledge and skills learned in the Solar Program outside the classroom. Students will install solar thermal systems with a company or as part of a Century College project. This internship is designed for 1 to 3 credits, with an out-of-class commitment of 40 hours per credit. Students will create a professional presentation describing their internship to Century students and will gain other job-seeking skills.

*Prerequisite:* SOLR 1020, SOLR 2030/2035.

### **Advanced Solar Thermal Concepts** **SOLR 2030 3 Credits**

This course introduces students to the knowledge and skills needed to construct solar hot water and space heating systems. Topics include preconstruction preparation, assessing roofing and roof structure, hardware and mounting methods, tools, routing of pipe and sensor wire, layout and connection of equipment, connection of the system to domestic hot water and heating systems, operation and maintenance. Efficiency, calculations of output and flow rate, and various load types will also be covered. The course is designed to prepare students to build a model solar hot water system in SOLR 2035.

*Prerequisite:* SOLR 1020 and SOLR 1030, concurrent enrollment in SOLR 2035 or consent of instructor.

### **Solar Thermal Lab** **SOLR 2035 2 Credits**

In this course, students will build, test, and commission a working solar thermal system.

Taken concurrently with SOLR 2030, students will practice safely working on roofs, mounting solar collectors, routing pipes, and connecting the collectors to heat exchangers and storage tanks. Students will also wire and mount control systems and monitor the performance of their solar system.

*Prerequisite:* SOLR 1020 and SOLR 1030 or consent of instructor. Concurrent enrollment in SOLR 2030.

## Spanish

### **Spanish for Healthcare Professionals I** **SPAN 1001 3 Credits**

This is a basic practical Spanish course for health professionals. No previous Spanish is required. This course will place emphasis on oral communication skills to help health professionals who work with Spanish-speaking patients obtain basic information before an interpreter is available.

### **Spanish for Healthcare Professionals II** **SPAN 1002 3 Credits**

This course is a continuation of SPAN 1001. Students will further develop their ability to understand and speak, and will work with a larger health-related vocabulary and language structures, which will allow them to give appropriate commands. Students will not be qualified interpreters upon completion of this course.

*Prerequisite:* SPAN 1001.

### **Spanish for Public Safety Professionals I** **SPAN 1005 3 Credits**

Basic practical Spanish and Latino culture for law enforcement and other public safety professionals. No previous Spanish required. This course will place emphasis on oral communication in Spanish and understanding of Latino culture to help peace officers and other public safety professionals who encounter Spanish speakers when no interpreter is available.

### **Spanish for Public Safety Professionals II** **SPAN 1006 3 Credits**

Advanced beginner Spanish and Latino culture for law enforcement and other public safety professionals. This course will place emphasis on oral communication in Spanish

and understanding of Latino culture to help peace officers and other professionals who encounter Spanish speakers when no interpreter is available. Continuation of Spanish Language and Latino Culture for Public Safety Professionals I.

*Prerequisite:* SPAN 1005.

### **Beginning Spanish I** **SPAN 1011 5 Credits** **MnTC: Goal 08**

This course is an introduction to the Spanish language as well as a survey of Spanish-speaking civilizations and cultures. It stresses basic grammar, correct self-expression, aural comprehension, and reading. Students are required to listen to the text audio program and practice their conversation skills in the language laboratory for two hours each week. Restriction: If students have completed three years of high school Spanish, consent of instructor is required.

### **Beginning Spanish II** **SPAN 1012 5 Credits** **MnTC: Goal 08**

This course is a continuation of SPAN 1011. It stresses continued development of speaking, listening comprehension, writing, and reading. Students will analyze and compare patterns of behavior and increase their ability to understand the perspectives of the people in the Spanish-speaking world. Students are required to listen to the text audio program and practice their conversation skills in the language laboratory for two hours each week.

*Prerequisite:* SPAN 1011 or equivalent.

*Restriction:* If student have completed four year of high school Spanish, consent of instructor is required.

### **Independent Study** **SPAN 1790 1 - 3 Credits**

An opportunity for an in-depth study of a particular topic.

*Prerequisite:* Consent of instructor and dean.

### **Intermediate Spanish I** **SPAN 2021 5 Credits** **MnTC: Goal 08**

This course will begin with a comprehensive review of concepts covered in first-year college Spanish. It entails further development of oral proficiency, reading comprehension and composition, cultural knowledge and critical

## 7 Course Descriptions

thinking. Students will study a variety of texts related to the arts, literature, and cultural and social issues. Two hours per week in the Language Laboratory (or one in the Language Lab and one in Service Learning) are required. **Prerequisite:** SPAN 1011 and SPAN 1012 or equivalent. **Recommendation:** Contact instructor or Spanish department if unsure of level.

### **Intermediate Spanish II** **SPAN 2022 5 Credits**

#### **MnTC: Goal 08**

This course is a continuation of Span 2021: Intermediate Spanish I, and involves further development of oral proficiency, reading comprehension and composition, cultural knowledge and critical thinking. Students will study a variety of texts related to the arts, literature, and cultural and social issues. Two hours per week in the Language Laboratory (or one in the Language Lab and one in Service Learning) are required.

**Prerequisite:** SPAN 2021 or equivalent.

**Recommendation:** Contact instructor of Spanish department if unsure of level.

### **Special Topics**

#### **SPAN 2790 1 - 3 Credits**

Topics of special interest which may vary.

**Prerequisite:** Consent of instructor and dean.

## Student Success

### **New Student Seminar**

#### **STSC 1000 2 Credits**

This course helps students understand the demands of college life and develop the skills needed to meet those demands. Students will explore strategies that contribute to success in college and to becoming a lifelong learner. These strategies include identifying learning styles, managing motivation, setting goals, managing time, and applying study skills. In addition, students will explore college policies, resources, and technologies.

**Prerequisite:** Assessment score placement in RDNG 80 or above.

### **Beyond Google: Research Skills and Information Literacy**

#### **STSC 1001 2 Credits**

Information literacy is the ability to find,

retrieve, analyze, and use information effectively. This course provides instruction in the use of online library catalogs, print and electronic reference sources, and the Internet, and as well as providing a review of basic computer skills. Terminology and evaluation techniques relating to information retrieval and use are also covered.

**Recommendation:** OFFT 0091 or equivalent keyboarding skills.

### **Habits of Mind**

#### **STSC 1003 2 Credits**

In this course, students will study the components of critical thinking and effective questioning used in college courses. Students will be guided in utilizing these components to analyze and problem solve. Students will be given opportunities to explore and develop attributes essential for academic success: developing curiosity, accepting and utilizing constructive criticism to enhance performance, and coping with frustrating and ambiguous learning tasks. In the process of developing these habits of mind, students will improve their oral and written skills, and learn to evaluate the relative credibility of source information.

**Prerequisite:** Assessment score placement in RDNG 0090 or above, or completion of RDNG 0080 with a grade of "C" or higher.

### **How to Learn Online**

#### **STSC 1020 2 Credits**

This course emphasizes the learning styles and approaches to learning most likely to lead to success in online learning situations. Students will learn how to use and practice with online learning technology. Students will have the opportunity to investigate their preferences for learning and how those preferences interact with the demands of online learning. Students will also explore the time management and thinking skills needed to be successful in online learning situations. Finally, students will apply what they have learned to online learning tasks.

### **The Effective Learner**

#### **STSC 1006 2 Credits**

This course promotes academic success for all students through the application of effective study strategies based on an understanding of underlying theoretical models. Course

topics include organization, time management, concentration and memory improvement, listening and note taking, textbook processing, content specific reading, vocabulary development, test-taking, test anxiety management, and learning styles.

**Prerequisite:** Assessment score placement into RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

**Recommendation:** Concurrent enrollment in other college coursework to facilitate the application of study strategies and skills.

### **Vocabulary Improvement**

#### **STSC 1010 1 Credit**

Learning new words leads to greater confidence when approaching new learning situations. The ability to analyze words is useful in school and in life. This course is designed to help students improve vocabulary both by learning college-level words and by developing strategies for learning words independently.

**Prerequisite:** Assessment score placement in RDNG 0090 or above or completion of RDNG 0080 with a grade of "C" or higher.

## Theatre

### **Participation in Theatre**

#### **THTR 1010 1 Credit**

Students will participate in college theatrical productions. Offered F, S.

**Prerequisite:** Permission of instructor (tryouts). Only those who participate in productions may register.

### **Introduction to Theatre**

#### **THTR 1020 3 Credits**

#### **MnTC: Goal 06**

This course introduces the student to the art and craft of theatre. An overview of many aspects of theatre including: design, acting, directing, backstage work, history and plays will be provided. A study of the process by which the play moves from printed page to stage is included. This course serves students who are interested in pursuing performing arts, and those who would just like to know more about this unique field. Students may explore practical aspects of theatre by working backstage or in the theatre shops.

## Beginning Acting

**THTR 1031 3 Credits**

### MnTC: Goal 06

This course teaches students the basics of acting. In addition to training and developing the actor's voice and body, students are taught methods to enter a creative state, create the world of a play, create characters and play scenes. Students use vocal and physical warm ups, read plays, apply acting vocabulary and concepts, write performance plans, work with physical and imaginative exercises, analyze play texts, and attend and evaluate the acting in a live theatre production. The course works with students at all levels to increase the student's abilities in the performing arts.

## Theatre Production and Design

**THTR 1041 4 Credits**

### MnTC: Goal 06

In this course, students explore how plays "come to life" on stage through scenery, costumes, lighting and sound. Students explore basic theory and practice of production, tools and building methods, design principles, traditions of theatre design, and creating designs which enhance the meaning of plays in performance. Problem-solving in designing and running shows helps students experience "real world" issues in technical theatre. Students have opportunities to gain skills and insight in many technical and backstage areas through hands on experience with Century Theatre productions.

## Creative Dramatics

**THTR 1051 3 Credits**

This course teaches techniques of creative play through unscripted (improvisational) exercises. Improvisational techniques are used to inspire the imagination and guide students to create both collaboratively and spontaneously. Students learn to use objects, visual art, music, and folktales in creative exercises. Students learn how to plan and lead improvisational teambuilding activities using small or large groups. This course serves students interested in teaching, acting, directing group activities, or counseling.

## Intermediate Acting

**THTR 2031 3 Credits**

This course expands and deepens the work of the student actor. Physical and vocal exercises continue to expand the student

actor's technique. Contemporary and classical plays are explored and used for performing. Singer/actors also have the option to work on a musical theatre piece. Students study at least one stage dialect while preparing scenes and monologues. Audition techniques are also taught as part of the course.

*Prerequisite:* THTR 1031 or consent of instructor. *Recommendation:* THTR 1020.

## Fundamentals of Directing

**THTR 2061 3 Credits**

This course introduces the beginning director to the basic tools of the director's craft. Students will learn the basics of interpretation, blocking, movement, composition, communication, and terminology of stage direction. The needs of students interested in theatre, acting, television, film, video production, or elementary and secondary education are served by this course.

## Translation and Interpreting

### Orientation to Interpreting

**TRIN 1000 1 Credit**

This course introduces students to basic concepts in legal, medical, and educational interpreting. Students will practice basic interpreting skills, review interpreter codes of ethics and standards of practice. Completing a basic self-assessment will help students evaluate their preparation for undertaking a course of study in interpreting. Students will role play various ethical situations and analyze a tape of their interpreting.

### Introduction to Translation and Related Skills

**TRIN 1021 3 Credits**

This course prepares students for further training in both translation and interpreting. It focuses on issues of accuracy and naturalness. Students will practice translating texts from one language to another and they will evaluate the quality of translations based on their ability to preserve meaning, while being natural and understandable to readers.

*Prerequisite:* TRIN 1000 or consent of instructor. Assessment score placement in RDNG 1000 or completion of RDNG 0090

with a grade of "C" or higher. Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

*Recommendations:* Students have a language proficiency level equivalent to the American College Teachers of Foreign Languages (ACTFL) Oral Proficiency Interview (OPI) advanced-mid or higher rating in both English and the second language.

### Standards of Practice and Skills of Interpreting

**TRIN 1031 3 Credits**

In this course students will compare and contrast interpreting codes of ethics in the legal, medical, and educational fields. Students are introduced to the professional standards of practice, and role play and practice techniques to help them implement the standards of practice. Students also begin practicing and developing cognitive capacities required for consecutive and simultaneous interpreting.

*Prerequisite:* TRIN 1021 or concurrent enrollment. Assessment score placement in RDNG 1000 or completion of RDNG 0090 with a grade of "C" or higher.

Assessment score placement in ENGL 1021 or completion of ENGL 0090 with a "C" or better. *Recommendations:* Students have a language proficiency level equivalent to the American College Teachers of Foreign Languages (ACTFL) Oral Proficiency Interview (OPI) advanced-mid or higher rating in both English and the second language.

### Beginning Skills of Interpreting

**TRIN 1041 4 Credits**

In this course, students will conduct error analysis of their interpreting and refine their understanding of units of meaning. Activities to develop cognitive capacities for both the consecutive and simultaneous modes will form the core of this course. Topics include memory enhancing activities, shadowing and dual-tasking, as well as memory aides such as note-taking, visualization, and chunking. Students will also continue to discuss ethically challenging situations and the role of the interpreter.

*Prerequisite:* TRIN 1021, TRIN 1031, and consent of instructor. Students must have a language proficiency level equivalent to the American College Teachers of Foreign Languages (ACTFL) Oral Proficiency Interview

## 7 Course Descriptions

(OPI) advanced-high or higher rating in both English and the second language.

### **Spanish Writing for Native Speakers TRIN 1071 2 Credits**

Native Spanish speakers will discuss and practice formal writing conventions of Spanish and practice reading and writing in formal Spanish registers.

*Prerequisite:* Students must have a language proficiency level equivalent to the American College Teachers of Foreign Languages (ACTFL) Oral Proficiency Interview (OPI) advanced-high or higher rating in both English and the second language or consent of instructor. *Recommendations:* Native Spanish speaker.

### **Reading and Writing in Hmong TRIN 1073 3 Credits**

This course covers the sound-letter correspondences in Hmong. Students will practice decoding and reading in Hmong. Students will also practice writing in Hmong and discuss differences between White Hmong and Green Hmong as it pertains to writing in Hmong.

*Prerequisite:* Students must have a language proficiency level equivalent to the American College Teachers of Foreign Languages (ACTFL) Oral Proficiency Interview (OPI) advanced-high or higher rating in both English and the second language or consent of instructor. *Recommendations:* Native Hmong speaker.

### **Somali Writing for Native Speakers TRIN 1075 3 Credits**

This course is for native speakers of Somali who did not receive their primary literacy education in Somali language schools. The course reviews formal writing conventions and linguistic structures of Somali which influence the formal Somali writing system.

*Recommendation:* Native Somali speaker.

### **Occupational Specialty Glossary Development**

#### **TRIN 2020 1 Credit**

This course introduces strategies for interpreting terms and concepts which do not exist in the target language. The course explores different methods of researching unfamiliar terminology and various options for dealing with this interpreting challenge.

Coursework includes research techniques and principles for interpreting unfamiliar terminology in an ethical and responsible manner. Students will research and build a glossary for a specialized interpreting encounter.

*Prerequisite:* TRIN 1031 and consent of instructor.

### **Intermediate Skills of Interpreting TRIN 2022 4 Credits**

In this course students will begin practicing simultaneous interpreting. The course refines skills in consecutive interpreting and definitions of accuracy. Ethical situations and the Standards of Practice for the field will be explored through role plays and discussions. Principles of sight translation will also be introduced.

*Prerequisite:* TRIN 1041 and consent of instructor.

### **Advanced Skills of Interpreting TRIN 2023 4 Credits**

This course is designed to help students prepare for certification skills tests and professional practice. Simultaneous interpreting will be practiced for up to 20 minutes at 140 words per minute. Error analyses will identify areas for growth in consecutive interpreting and sight translation. Students will analyze ethical practices through role plays and discussion.

*Prerequisite:* TRIN 2020, TRIN 2022, and consent of instructor.

### **Role of the Interpreter in Education TRIN 2035 1 Credit**

This course focuses on the role of the interpreter in education. It covers topics such as the role of the interpreter in diagnostic testing, interpreting for young children, and ethical conflicts and challenges to the role of the interpreter that are unique to educational settings. Students will also explore the role of the interpreter for paraprofessionals and cultural liaisons who are employed with dual-roles.

*Prerequisite:* TRIN 2023 or concurrent enrollment.

### **Role of the Interpreter in Medicine TRIN 2036 1 Credit**

This course focuses on the role of the interpreter in medical settings and covers

topics such as the role of the interpreter when working as a member of a medical team. Students will practice transparently role-shifting and explore the boundaries and challenges of people working in dual-role positions. This course will discuss and role-play situations which impact the role of the interpreter in medical settings.

*Prerequisite:* TRIN 2023 or concurrent enrollment.

### **Over-the-phone Interpretation TRIN 2065 1 Credit**

Interpreting over the phone without visual cues is often difficult. This course discusses issues in over-the-phone interpreting and reviews policies and best practices for over-the-phone interpreting.

*Prerequisite:* TRIN 2022 and consent of instructor.

### **Automated Language Translation Software Programs**

#### **TRIN 2069 3 Credits**

This course explores various automated translation software packages which are available. Students will explore one or more programs in depth using translations they have previously done.

*Prerequisite:* TRIN 1021 or consent of instructor, and five or more translations and source texts.

### **Internship in Translation and Interpreting TRIN 2780 1 - 3 Credits**

Students will have the opportunity to work in the industry to gain experience and advance their skills. This may be a paid or unpaid internship.

*Prerequisite:* TRIN 2023 or concurrent enrollment, and consent of instructor.

## Visual Communications Technology

### **Principles of Digital Communications I VCT 1012 3 Credits**

This first semester course provides the student with an introduction to the technical and conceptual principles of the visual communications industry and how those principles are applied in its various fields.

## 7 Course Descriptions

Creating projects by combining digital mediums such as graphics, sound, animation, video, photography, text and interactivity establishes a strong foundation for classes in the future. Students will develop and present these projects in a variety of digital formats using an assortment of industry standard applications. Exploration of the various career paths within the VCT Industry will also be covered.

### Design Basics

#### **VCT 1013 4 Credits**

All visual communicators (multimedia experts, videographers, photographers, graphic designers) need to know the fundamentals of design to be effective problem solvers for their clients. Students with good design and typographic skills are needed in industry to communicate efficiently and effectively. In this class, beginning students will learn the formal elements, principles of design, and build typography skills to create visual communication messages.

### Project Planning

#### **VCT 1015 3 Credits**

This course will explore the conceptual skills involved in project planning for media production. Students will focus on creative and technical aspects of project management including; project charters, team dynamics project plan, plan implementation, storyboarding, budgeting, and pre-production planning as well as how to close out a project. The course content will apply to all areas within Visual Communications Technologies.  
*Prerequisite:* VCT 1012.

### Concept Drawing and Storyboarding

#### **VCT 1017 3 Credits**

This course introduces students to the unique concepts and drawing techniques used by 2D & 3D animators, graphic designers, Web designers, and videographers. Hands-on projects emphasize drawing to develop ideas and to create storyboards, thumbnails, and roughs. Topics include communicating the client's message and the digital implementation of concept drawings in applications such as 3ds Max, Adobe Flash, Final Cut Pro, and Adobe InDesign.

### Digital Imaging

#### **VCT 1018 3 Credits**

In this course students will use a design

process to create portfolio quality imagery using Adobe Photoshop and Adobe Illustrator for the creation and manipulation of both raster and vector images. Topics will include: file formats, resolution, illustration and color systems.

*Prerequisite:* VCT 1012.

### Principles of Digital Communications II

#### **VCT 1019 3 Credits**

This second semester course continues the exploration of the career, technical, and conceptual principles of the visual communications industry that were established in the VCT 1012 course. Intermediate projects will be created using more intricate applications, while expanding upon the concepts and techniques explored in VCT 1012. Students will develop and present these projects in a variety of digital formats using an assortment of industry standard applications. Further exploration of the various career paths within the VCT Industry will also be covered as students begin to develop their professional identities.

*Prerequisite:* VCT 1012.

### Flash Interactive Media I

#### **VCT 1021 3 Credits**

In this hands-on, project-oriented course, students will explore the concepts and practical applications of the multiple digital mediums of animation, digital graphics, digital audio, digital video and interactivity, authored with Adobe Flash. This course covers the fundamentals of interactive media with Adobe Flash including image creation, animation with motion tweening, special effects, and basic interactivity with ActionScript.

*Prerequisite:* VCT 1013, VCT 1018 (or concurrent enrollment), or consent of instructor.

### Web Page Design with XHTML

#### **VCT 1023 3 Credits**

In this hands-on, project-oriented course, students will design and create multiple page Web sites with text, graphics, multimedia elements, and interactivity. This course covers the use of XHTML (Extensible Hypertext Markup Language), CSS (Cascading Style Sheets), the optimization of graphics, and the application of multimedia elements to produce efficient, interactive Web sites. Through the application of the principles and elements

of design, students will design Web sites to communicate a client's message.

*Prerequisite:* VCT 1013 (or concurrent enrollment) or consent of instructor.

### Web Page Design with DXHTML

#### **VCT 1027 3 Credits**

In this advanced hands-on, project-oriented course, students will design and create multiple-page Dynamic Web sites with text, graphics, multimedia elements, and advanced interactivity. This course covers the use of DXHTML (Dynamic Extensible Hypertext Markup Language), CSS (Cascading Style Sheets), the optimization of graphics, and the application of multimedia elements to produce highly interactive Web sites. JavaScript programming will also be covered as it applies to interactivity, animation and Dynamic layers with Cascading Style Sheets. Through the application of the principles and elements of design, students will design Web sites to communicate a client's message.

*Prerequisite:* VCT 1023 and VCT 1018 (or concurrent enrollment) or consent of instructor.

### Video I

#### **VCT 1030 3 Credits**

This foundational course will cover the operation and use of video cameras, microphones, monitors, and video recorders, along with techniques of lighting and sound recording through lectures, demonstration, and hands-on experiences. Students will plan and shoot short video productions.

*Note:* Some course assignments require students to move, lift, and carry video equipment.

### Digital Audio

#### **VCT 1031 3 Credits**

This course introduces students to the basic tools and techniques of sound pickup, amplification, recording, editing, distribution (including Podcasting), and output as they apply to production. Digital audio equipment and software as well as traditional audio equipment will be covered.

### Digital Editing I

#### **VCT 1035 3 Credits**

This course covers basic video editing techniques. Topics include digital non-linear editing, motion graphics, and color correction, as well as off-line/on-line editing, edit decision

## 7 Course Descriptions

lists, traditional editing equipment, and distribution (including Podcasting). This course is intended to prepare students for the Apple Authorized Final Cut Pro Certification exam.

*Prerequisite:* VCT 1030 or instructor consent.

### **Traditional Photography** **VCT 1040 2 Credits**

This course is a study of the development of photography and the milestones in the area of film usage. Students will operate a 35mm film camera, process film, mix photographic chemistry, operate an enlarger and make black and white prints. Traditional dodging and burning along with print finishing will be covered. A study of the major photographers and photo trends will be discussed. Students are expected to furnish their own 35mm film camera.

### **Digital Photography I** **VCT 1041 3 Credits**

This course gives students a firm foundation in digital photography and the techniques necessary to achieve high quality photographic images. Corrections will be done by computer using Adobe Photoshop software.

Note: Students are expected to furnish their own manual exposure 35mm digital camera, memory cards, printing paper, and other miscellaneous supplies.

### **Digital Photography II** **VCT 1042 3 Credits**

This course covers the correct methods when using electronic flash along with mixing ambient light with electronic flash. Adobe Photoshop and advanced printing techniques will be included. Emphasis will be on the development of a personal photographic style through class assignments and projects.

Note: Students are expected to furnish their own manual exposure 35mm digital camera, electronic flash unit, memory cards, printing paper, and other miscellaneous supplies.

*Prerequisite:* VCT 1041.

### **Forensic Photography** **VCT 1047 3 Credits**

This course introduces imaging techniques and skills used in the documentation and presentation of forensic evidence to students in the investigative science field as well as other students who have an interest in forensic imaging. Students will learn how to

photograph evidence at crime scenes and in a crime lab environment. Other topics include the digital enhancement of images, the preparation of courtroom presentations and an overview of advanced methods such as 3D crime scene re-creation, alternate light sources and chemical enhancements.

### **Typography** **VCT 1060 3 Credits**

This course in typography is a hands-on introduction to the world of letterforms. It begins with a historical look at early writing systems and moves to the contemporary computer-generated type and fonts we know today. Exercises and learning activities will help students learn the important concepts and skills of using and creating meaningful type which communicates a message efficiently and effectively.

*Prerequisite:* VCT 1012 or concurrent enrollment.

### **Electronic Publishing I** **VCT 1061 3 Credits**

This course introduces page layout and assembly using Adobe InDesign software. A formal creative design process will be used to create portfolio quality projects in a simulated real-world environment. Emphasis will be placed on the formal elements and principles of design and the relationship between form and content. Students will be required to draw, plan, execute, and present their design ideas.

*Prerequisite:* VCT 1012 or concurrent enrollment or consent of instructor.

### **Imaging and Printing Methods** **VCT 1063 3 Credits**

This course includes the history of printing, the development of desktop publishing, printing methods, and digital printing, along with a review of traditional and digital pre-press methods. Assignments will include graphic arts industry tours and subsequent field reports. Students will be introduced to printing equipment as well as bindery equipment. Four required field trips are scheduled throughout the semester. These may extend past the normal ending time of class due to travel time.

### **Flash Interactive Media II** **VCT 2021 3 Credits**

In this advanced hands-on, project-oriented course, students will explore the concepts and

practical applications of Flash interactivity with ActionScript. The multiple mediums of animation, digital graphics, digital audio, and digital video, authored with Adobe Flash, will also be creatively applied. The emphasis of this course is on the creation of highly interactive multimedia applications. The concepts of programming will be implemented using Flash's native scripting language ActionScript to create various forms of interactivity.

Through the application of the principles and elements of design, students will design highly interactive media applications, to communicate a client's message.

*Prerequisite:* VCT 1021 or consent of instructor.

### **3D Animation I** **VCT 2025 3 Credits**

In this hands-on, project-oriented course, students will design and create 3D animation projects using the industry-standard 3ds max application. The concepts of 3D design and animation will be covered including 3D object creation, modeling, lighting, texture creation and application, as well as 3D animation of objects and cameras.

*Prerequisite:* VCT 1018 or consent of instructor.

### **3D Animation II** **VCT 2026 3 Credits**

In this hands-on, project-oriented course, students will design and create advanced 3D animation projects emphasizing character modeling and animation. Using the industry-standard 3ds max application, projects will involve the use of advanced 3D modeling and character animation techniques, compound objects, subdivision surface modeling, the creation and application of textures, advanced camera and lighting techniques, and the application of advanced particle systems and space warps.

*Prerequisite:* VCT 2025.

### **Portfolio Development - Interactive Media** **VCT 2029 1 Credit**

In this hands-on, project-oriented course, students improve their digital interactive portfolio created in the Flash Interactive Media II class. This goal will be achieved by assembling/creating content from advanced courses. The portfolio will then be prepared

## 7 Course Descriptions

for delivery on both the Internet and CD/DVD-ROM. Presentation techniques, identifying portfolio-worthy content, and resume suggestions will be stressed.

**Prerequisite:** VCT 1027, VCT 2021, VCT 2026 (or concurrent enrollment) or consent of instructor.

### **Video II** **VCT 2030**            **3 Credits**

This advanced course covers the principles of multi-camera production primarily in a studio setting. This course will continue teaching students production techniques, lighting, camera operations, waveform/vectorscope monitors, audio, switching, and editing. Students will plan and produce a live production as their final group project.

**Note:** Some course assignments require students to move, lift, and carry video equipment.

**Prerequisite:** VCT 1030 or instructor consent.

### **Video Production I** **VCT 2031**            **3 Credits**

This course applies previously learned pre-production, production, and post-production techniques to real-world projects. Digital editing processes will be integrated with camera, lighting, and audio operation. Students are guided through the process of planning, shooting, and editing video productions.

**Note:** Some course assignments require students to move, lift, and carry video equipment.

**Prerequisite:** VCT 1035.

### **Video Production II** **VCT 2032**            **3 Credits**

This course applies previously learned pre-production, production, and post-production techniques to advanced video projects. Advanced digital editing processes will be integrated with camera, lighting, and audio operation. Students will plan, shoot, and edit several video productions.

**Note:** Some course assignments require students to move, lift, and carry video equipment.

**Prerequisite:** VCT 2031 or consent of instructor.

### **Digital Editing II** **VCT 2035**            **3 Credits**

This course covers advanced video editing

techniques, aesthetics, and storytelling using digital editing software and equipment. Topics include editing for various genres, advanced color correction, sound design, advanced motion graphics, DVD authoring, and distribution (including Podcasting).

**Prerequisite:** VCT 1035.

### **Portfolio Development - Video** **VCT 2037**            **1 Credit**

In this course, students will design their own video "demo reel", resume, and support material in consultation with the instructor. The work produced should be of such quality and interest that students can use this as the major part of their portfolio.

**Prerequisite:** VCT 2035 or consent of instructor.

### **Digital Studio Photography** **VCT 2040**            **3 Credits**

This course is an introduction to studio photography, including remote sync, computer digital capture, backgrounds, and lighting techniques. Discussion and projects include portraiture and still life photography using a 35mm digital SLR camera.

**Note:** Students are expected to furnish their own manual exposure 35mm digital camera, memory cards, printing paper, and other miscellaneous supplies.

**Prerequisite:** VCT 1041.

### **View Camera** **VCT 2042**            **3 Credits**

In this course students will operate a large-format studio view camera (4 x 5). Topics include the basic view camera movements, lenses, exposure calculations, sheet film loading, and sheet film processing. In addition, scanning the processed sheet film, creating a digital file, and manipulating that image in Adobe Photoshop will be covered. View cameras will be furnished.

### **Professional Photography** **Using Adobe Photoshop** **VCT 2044**            **3 Credits**

This course is designed to introduce students to the technology and use of digital cameras and their interaction with computers.

Students will download digital images from their camera to a computer and color correct and manipulate that image. In addition, students will practice techniques used by the

professional photographer with the use of Adobe Photoshop software.

### **Advanced Digital Studio** **and Adobe Photoshop** **VCT 2045**            **3 Credits**

This advanced digital photography course is intended to identify the principles of color temperature and its effect on color digital exposures. Using this knowledge along with filtration and balance, students will shoot color images, download images to a computer, and manipulate those images using Adobe Photoshop software. In addition, students will perform advanced studio techniques. VCT 1018, VCT 1042, VCT 2040.

### **Portfolio Development—Photography** **VCT 2046**            **1 Credit**

In this course students will prepare a portfolio highlighting their photography skills. Traditional and electronic portfolios will be emphasized.

**Prerequisite:** Consent of instructor.

### **Electronic Publishing II** **VCT 2061**            **3 Credits**

This course is a continuation of the concepts and skills learned in Electronic Publishing I. Students will hone their abilities to articulate their clients' needs through continued written statements, research, thumbnail drawings, and computer comps. Students continue to learn more advanced features of InDesign by developing sophisticated portfolio-level projects for a variety of clients.

**Prerequisite:** VCT 1061.

### **Electronic Publishing III** **VCT 2062**            **3 Credits**

This course is last in a sequence of design courses in the Graphic Design specialty area. Its primary purpose is to give students an opportunity to use the concepts and skills they have learned by developing and creating a real-life project from concept to print. This client-based project will be a focal point for their portfolios. Additionally, students will develop and create mockups for several package design concepts.

**Prerequisite:** VCT 2061.

### **Digital Color Management** **VCT 2063**            **3 Credits**

This course begins with an in-depth study of

## 7 Course Descriptions

color as a product of viewer, object, and light source. It moves into the practical application of color management and how software can help make your prints look like your monitor screen. Creating scanner, monitor, and printer profiles and testing those profiles is a major component of this course. Additional activities such as creating color proofs, examining output devices, creating color separations, dot gain, color viewing variables and color gamuts will be examined.

*Prerequisite:* VCT 1018.

### Print Production

#### VCT 2064 3 Credits

This advanced course in print production teaches students how to design for print. Many of the creative effects the computer can generate are simply impossible to accurately reproduce on a printing press. Limitations so you can design and produce projects that look great and print efficiently with the least amount of trouble will also be covered.

*Prerequisite:* VCT 2062 or concurrent enrollment.

### Color Correction Techniques

#### VCT 2065 3 Credits

This course begins with an overview of the scanning techniques necessary to get the best digital original possible. In addition, students will study digital image color correction and the step-by-step process for creating professional quality output. Students will work on projects using a variety of techniques including evaluation, tone targeting to a specific output device, color cast removal, retouching, sharpening, and proofing.

*Prerequisite:* VCT 1018. *Recommendation:* VCT 2063 or concurrent enrollment.

### Portfolio Development—Graphic Design

#### VCT 2066 1 Credit

Preparing a professional graphic design portfolio is an important step in landing that first job. In this class, students can learn important skills in presentation, editing, résumé writing, and developing their personal brand. Creating and presenting an actual portfolio is the goal of this course.

*Prerequisite:* VCT 2062 or concurrent enrollment.

### Portfolio Development - Marketing Communications VCT 2076 1 Credit

Preparing a portfolio in marketing communications offers students an opportunity to gather, assess, modify, and assemble work into a cohesive arrangement. Presentation techniques, editing, and resume suggestions will be included in this course. Developing a professional portfolio is the goal of this course.

*Prerequisite:* Consent of instructor.

### VCT Internship

#### VCT 2780 1 - 6 Credits

This course is designed to provide students with the opportunity to apply knowledge and skills learned in the Visual Communications Technologies program in a career field. Students will work in a professional environment while applying and learning a variety of communication, business, and technical skills.

*Prerequisite:* Consent of instructor.

### VCT Independent Study

#### VCT 2792 1 - 6 Credits

In this course, students will have the opportunity to research and design their own project. In consultation with their instructor beyond the regular VCT curriculum, students will create an outline of objectives, goals and timelines in a detailed plan, and will be held accountable for the project.

*Prerequisite:* Consent of instructor and dean.

### Illustrator for Industry

#### VCT 2951 3 Credits

This course covers the concepts and features of digital artwork within the framework of Adobe Illustrator. Students will advance their design skills using the drawing tools and filters to create original drawings. Macintosh computers will be used to complete hands-on coursework.

*Prerequisite:* VCT 1013, VCT 1018 or consent of instructor.

## Welding

---

### Introduction to Oxyacetylene Welding WLDG 1001 2 Credits

Students will learn to identify personal safety

rules, shop equipment procedures, and focus on developing welding skills with sheet metal in the flat position with the oxyacetylene process. Students will use oxyacetylene and plasma cutting equipment on plate and sheet metal.

### Advanced Oxyacetylene Welding I WLDG 1002 2 Credits

This course focuses on developing gas welding skills necessary for welding in the horizontal and vertical down positions. Students will perform beads, butt, lap, corner and tee welds on sheet metal using the oxyacetylene welding process.

*Prerequisite:* WLDG 1001.

### Advanced Oxyacetylene Welding II WLDG 1005 2 Credits

This course focuses on developing gas welding skills necessary for welding in the vertical up and overhead positions. Students will perform beads, butt, lap, corner and tee welds on sheet metal using the oxyacetylene welding process.

*Prerequisite:* WLDG 1001.

### Introduction to Gas Tungsten Arc Welding WLDG 1007 3 Credits

This course will focus on gas tungsten arc welding (GTAW) while developing skills with sheet metal, aluminum, and stainless steel in the flat position. Additional topics will include personal safety rules and shop equipment procedures. Students must be able to perform physical tasks to complete course requirements.

### Introduction to Metal Inert Gas Welding WLDG 1011 1 Credit

Students will learn to identify personal safety rules, shop equipment procedures, and will focus on developing welding skills on sheet and plate metal in the flat position with the metal inert gas process.

### Advanced Metal Inert Gas Welding I WLDG 1012 2 Credits

Requires student to identify personal safety rules, focuses on developing welding skills in the horizontal and vertical up position on sheet and plate metal using the metal inert gas process.

*Prerequisite:* WLDG 1011.

**Advanced Metal Inert Gas Welding II**  
**WLDG 1015      2 Credits**

Requires students to identify shop, machine, and personal safety rules, focuses on developing welding skills in the vertical down and overhead position with the metal inert gas welding process.

*Prerequisite:* WLDG 1011.

**Flux Cored Arc Welding**  
**WLDG 1019      3 Credits**

This course is designed for students to develop welding skills using flux cored arc welding. Topics include shop, machine, and personal safety rules. Course emphasis is on the flat, vertical, horizontal, and overhead positions with the flux cored arc welding process. Students must be able to perform physical tasks in order to complete course requirements.

*Prerequisite:* WLDG 1011.

**Introduction to ARC Welding**  
**WLDG 1021      1 Credit**

This course covers shielded metal arc safety and basic shielded metal arc procedures. Students will weld various joints in the flat position with 6013 and 6011 rod using the ARC welding process.

**Advanced ARC Welding I**  
**WLDG 1022      2 Credits**

This course focuses on developing welding skills in the horizontal and vertical down positions with 6011 and 6013 rod using the ARC welding process.

*Prerequisite:* WLDG 1021.

**Advanced ARC Welding II**  
**WLDG 1025      2 Credits**

This course focuses on developing welding skills in the vertical down and overhead positions with 6011 and 6013 rod using the ARC welding process.

*Prerequisite:* WLDG 1021.

## Women and Gender Studies

---

**Foundations of Women's Studies**  
**WGST 1061      3 Credits**

**MnTC: Goals 05 & 09**

Foundations of Women's Studies is an interdisciplinary course in which we examine the diversity of women's experiences throughout history and across cultures, races, ethnic groups and religions. The course introduces the theories and methodologies of the field of Women's Studies with a focus on factors such as gender, sexuality, sexual orientation, age, and life course. This course is required for the Women and Gender Studies Certificate.

*Recommendation:* Assessment score placement into ENGL 1021, or completion of ENGL 0090 with a grade of "C" or higher. Assessment score placement into RDNG 1000, or completion of RDNG 0090 with a grade of "C" or higher.

**Introduction to GLBT Studies**  
**WGST 1071      3 Credits**

**MnTC: Goals 05 & 07**

This course familiarizes students with the debates and history surrounding sexual orientation, identity, and experience, particularly recent court decisions on the GLBT (gay, lesbian, bisexual, and transgender) community. Students will learn the factors that frame social, cultural, and political discourses on GLBT topics and develop a deeper understanding of how the GLBT community is portrayed in the popular media. Students of all genders and sexual orientations are welcome.

*Recommendation:* Assessment score placement into RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

**Women in Global Perspective**  
**WGST 2061      3 Credits**

**MnTC: Goals 05 & 08**

The major focus of this course is contemporary women's activism in the world. The course takes a global perspective, looking for interconnections between different regions and cultures, and combining a comparative investigation of specific issues with a case study approach. Students will use current theories of Globalization and Development to analyze cross-cultural social, economic, and political aspects of women's lives and the multiple ways diverse groups of women take action to improve their condition.

*Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or completion of ENGL 0090 with a grade of "C" or higher.

**Special Topics in Women and Gender Studies**

**WGST 2790      1 - 3 Credits**

Topics of special interest which may vary.

*Recommendation:* Assessment score placement in RDNG 1000 or above, or completion of RDNG 0090 with a grade of "C" or higher; assessment score placement in ENGL 1021 or above, or completion of ENGL 0090 with a grade of "C" or higher.

# 8 Continuing Education & Customized Training

## Mission

Learning that Works; Personal, Professional and Workforce Development.

## Vision

To become nationally recognized for quality, innovative and responsive programming that transforms lives, develops the workforce and serves the community.

Century College's Continuing Education and Customized Training Division (CECT) is the largest in the MnSCU System, serving over 12,000 individuals annually. CECT serves the business sector and our diverse community through:

- Customized Services to Business and Industry
- Professional Continuing Education
- Career Training Opportunities
- Personal Enrichment Courses

Training can be delivered in a variety of formats:

- Our site
- Your site
- Intranet or Internet
- Portable media
- Interactive TV

## CECT at a Glance

Individuals Enrolled	12,000+
Number of Classes	2,160
Number of Instructors	362
Corporate Clients	117
Number of Staff	28
Annual Budget	\$3.5 Million
Delivery Options	Classroom, Worksite, Distance Learning/Online

### Professional Affiliations

- North Central Association
- Learning Resources Network (LERN)
- MN Branch, American Society for Quality (MnASQ)
- Minnesota Council for Quality
- Society for Human Resource Management (SHRM)
- National Council on Continuing Education and Customized Training
- American Payroll Association (APA)
- Federal Bureau of Prisons

## Customized Services to Business and Industry

### CUSTOMIZED/CONTRACT TRAINING SERVICES

Anytime, anywhere training, both credit and noncredit, to upgrade skills, improve productivity, and provide professional development. Current corporate clients include: 3M, The National Kitchen and Bath Association, HealthEast, Hypro Corporation, Metro Transit, MedGraphics and Medtronic. Clients have given Century a 99% satisfaction rating.

### eImagine eLearning

Design, Development and Production of eLearning. It makes good business sense to work with Century College. Century College provides experienced, professional customized eLearning services:

- Instructional design
- Script development
- Graphic design
- Design, development and production for

multiple delivery media (Internet, DVD, CD)

- eLearning project management
- Integration with your LMS or ours

### Media Production Services, a Service of eImagine eLearning

The experienced staff in Century's Media Production Services (MPS) will begin by listening to your needs, then develop a story line and customize your message in a format that's right for you—one that's high-impact, repeatable, flexible and affordable.

- Skills training
- Safety training
- Procedural and process training
- Employee orientation
- Special events
- Business and product information
- Corporate image promotion
- Documentation
- Educational programs
- and more.

Your message can be produced for multiple deliveries (internet, DVD and CD).

Bring your message to life—using motion, sound and imagination! Century's team of multimedia specialists will pull together all the elements:

- Full concept development
- Production coordination
- Music and sound effects
- Graphics and animation
- Digital audio and video recording
- Language translation
- Scriptwriting
- Shooting in-studio or on-location
- Narration services
- Digital editing and media compressions
- Captioning
- Duplication

Digital recording and editing capability allows for consistency and attention to detail, and MPS will deliver a broadcast-quality production that you can be proud to show your most sophisticated targeted audience.

### Training Grants

Century has partnered with more than 20 companies in the development and implementation of grant proposals funded

## 8 Continuing Education & Customized Training

by the Minnesota Job Skills Partnership. MJSP grants and loans are available to assist companies with training when it can be demonstrated that this will impact the strength of the business and the economic development of the community.

### Customer Service

Open enrollment and/or contract training provide opportunities to strengthen skills in serving customers. Specific modules can focus on telephone skills, call center activities, internal and external service providers, and handling difficult people and situations.

## Professional Continuing Education

Choose from a wide variety of noncredit classes, workshops, and seminars designed for adults needing to satisfy professional credentialing requirements or seeking career advancement, job mobility, or professional growth. These offerings change continually in response to current trends, professional requirements, and participant interest. Continuing Education courses are offered in the evening or as daytime seminars, both on and off campus. Fees vary according to instructional costs. Students enrolled in Continuing Education courses earn Continuing Education Units (CEU's) in recognition of their participation.

One CEU is defined as ten contact hours of participation in an organized Continuing Education experience under responsible sponsorship, capable direction, and qualified instruction. Nationally recognized, the CEU provides a standardized measure for accumulating, recording, and credentialing work completed through Continuing Education programs. Earned CEUs are recorded on a transcript. Certificates of attendance are awarded upon completion of the classes/workshops.

Professional Development is available for:

- Nurses and Allied Health Workers
- Nursing Assistants/Home Health Aides
- Law Enforcement Personnel

- Corrections Officers
- Private Detectives
- Building Contractors
- Public Sector Employees
- Child Protection Workers
- Psychologists/Counselors/School Counselors
- Chemical Dependency Specialists
- Social Workers/Human Service Workers
- Emergency Medical Personnel
- Dental Professionals
- Office Professionals
- Quality Professionals
- Payroll Professionals
- Human Resources Managers
- Kitchen and Bath Designers and Builders

Century College continues a tradition of providing continuing education for professionals who must satisfy licensure or credentialing requirements. Qualified experts teach courses designed to meet the continuing education "clock hour" requirements mandated by:

- American Heart Association
- Minnesota Board of Nursing
- Minnesota Board of Social Work
- Minnesota Department of Human Services
- Minnesota Department of Commerce
- Minnesota Corrections Association
- Board of Peace Officer Standards and Training (POST)

- Minnesota Board of Psychology
- Minnesota Supreme Court
- Minnesota Board of Real Estate
- Minnesota Department of Health
- American Associations for Medical Assistants
- Board of Marriage and Family Therapy
- National Kitchen and Bath Association

## Career Training Opportunities

### Career Exploration and Planning Workshops

These popular workshops are offered several times each year to provide individual assistance to adults seeking job enhancement or career change. The workshops include the completion and interpretation of the Myers-Briggs Type Indicator and the Strong Interest Inventory. Participants learn to conduct occupational interviews and obtain hard-to-get information about advancement. They also learn to identify their top motivators, their most satisfying job skills, and the action steps needed to attain their career goals.

### Certificate Programs

Certificate programs provide a way for current practitioners to earn advanced credentials.

- The Human Resources Management Certificate Program offers curriculum designed by the Society of Human Resources Management (SHRM) and provides HR professionals for career advancement. Courses also provide a review for the Human Resource Certification Institute's (HRCI) exam for PHR or Senior PHR certification.
- The Payroll Professional Learning Series offers curriculum designed by the American Payroll Association (APA). This course teaches the knowledge and skills essential for payroll professionals preparing for the national Certified Payroll Professional exam.
- American Society of Quality (ASQ) certification preparation is available for CQIA, CQA, CQM and CQM/OE.

## 8 Continuing Education & Customized Training

- Information Technology certification and training courses are offered in three primary areas: Networking, Programming/ Database Management, and Information Security. Dedicated training labs provide the latest in hardware (routers, switches, servers) and software (network management and database systems) in learning environments that are specifically designed for IT professionals.
- Century offers Cisco CCNA (Cisco Certified Network Administrator) certification training CompTIAA+Core Hardware and OS certification training, CompTIA Network+certification training, and the Novell CNA (Certified Network Administrator) certification training.

### Trades and Apprenticeships

Century works closely with various labor organizations to provide a variety of technical and industrial training that meets industry requirements. Certification courses are available to individuals and organizations in a range of topics from Electrical Certification to Boiler Operation licensure. Courses are delivered through multiple media including industry-related correspondence programs. Courses are designed to fulfill most apprenticeship requirements. Offerings include:

- Boiler Operation
- Bricklaying
- Building Contractor
- Carpentry/Cabinet Maker
- Electrical Maintenance
- Electronics
- Custodial Maintenance
- Electricity
- Home Inspection
- Machining
- Plant Maintenance
- Plumbing
- Culinary Arts
- Refrigeration/HVAC
- Sheet Metal Working
- Welding
- and others

### Health Careers

Century provides entry-level career training for nursing assistants, home health care

workers, trained medication aides, and health unit coordinators. Training is also offered for phlebotomy technicians, emergency department technicians, and medical coding and medical billing specialists.

### Commercial Driver's License (CDL)

Century College offers Commercial Truck Driver training in preparation for the Class A and Class B license exams. Upon successful completion, students have the opportunity to take the skills portion of the respective exam. Century also offers individual/small group instruction to continue to build driving skills which can benefit experienced drivers.

### Supervisory Management

This credit or noncredit program is practical, highly interactive, and workplace relevant. Courses address a full range of skills such as leadership, interpersonal communication, performance management, intercultural competence, managing change, budgeting, and more! Courses can be customized to meet the needs of your organization and can lead to a certificate, a diploma, or a degree.

## Personal and Professional Growth

New and exciting offerings make lifelong learning opportunities available to all ages.

### Adult Enrichment

Century's Adult Enrichment Program serves adults pursuing avocational interests and skills or seeking personal fulfillment through learning. Computers, languages, health and fitness, fine arts, and music are just a few of the popular class topics available year round. Instructors are experts in their fields and bring a lively enthusiasm for their subjects and a genuine interest in the needs and preferences of adult learners.

### Professional Development

Many short courses are offered each year to help adults build or improve skills that are needed on the job or for their own professional advancement. These include courses in supervision and management, business writing, making presentations, computer applications, desktop publishing, web design, and other IT courses.

## 8 Continuing Education & Customized Training

### **PrimeTime /+50 Program – Learning for Life**

PrimeTime/+50 Century is geared to provide high-quality programs, activities and volunteer opportunities to enable life-long learners to be intellectually, physically, and socially enriched. There are courses to help develop or expand hobbies, learn new skills, or examine your future direction. Examples include the arts, languages, photography, technology, and sailing.

### **Online Learning**

For many people, online learning is a good way to make time for learning, whether for professional development or personal enrichment. The number of people who choose to go online rather than attend a classroom increases each year, and convenience is far and away the deciding

factor. You can learn at your own pace, on your own schedule, from your own location.

Continuing Education & Customized Training provides these online learning opportunities for you:

- Century College entry-level healthcare careers
- Century College Workplace Safety courses
- Century College Homeland Defense, Cold Case Investigation and Intro to Forensic Photography
- Instructor-led 6-week courses offered in partnership with online learning pioneer Ed2Go
- Instructor-led career track courses offered in partnership with professional development and training partner Gatlin Education Services

- Customized e-Training for your organization, provided by eImagine eLearning

### **Motorcycle Safety**

Century College offers a variety of motorcycle safety classes starting in the month of April and continuing through September. The Motorcycle Safety Foundation “Basic Rider Course” teaches the basic skills needed to successfully ride a motorcycle. Also offered is the “Experienced Rider Course” which teaches advanced motorcycle riding skills.

Upon successful completion of the “Basic Rider Course” a student may qualify to receive their state motorcycle endorsement.

# Student Handbook

## Student Activities Program

---

### Student Club Center

The Student Club Center, West Campus, is where great beginnings take place. It is an area for student activities. One of its main functions is to assist various clubs and organizations with their planned events. In addition, many campus-wide events are sponsored by the Office of Student Life. Any students should feel free to drop in and present new ideas or suggestions that will enhance student activities on campus.

### Game Room

Free time between classes, or at the beginning or end of the day? Located on west campus, the Game Room is a great place to unwind and enjoy recreational game activities. Table tennis and televisions are available for students' enjoyment. Tournaments in various activities are also conducted each semester. The Game Room is also a great place to relax, enjoy a cup of coffee, watch television, meet old friends, and make new friends.

## Student Clubs and Organizations

---

### How to Get Involved

There are over 25 clubs and organizations for students to participate in at Century College. There are special interest clubs (i.e. Alpha Omega, Q & S club), cultural organizations (i.e. Asian Student Association or Arabic Club) and program specific groups (i.e. Dental Assisting Club or Math Club). For a complete list of clubs please consult our web site at <http://century.edu/currentstudents/studentlife/>

Are you looking to start a new club or get involved in one of the current clubs or organizations at Century? Please contact the Associate Director of Student Life and Leadership Development at 651.747.4015 or the Student Senate Office at 651.779.3317.

### STUDENT LIFE COMMITTEE

This committee consists of student, faculty and staff representatives that make decisions regarding the student life budget, expenditures, and the student life activity fee.

### STUDENT PHOTO ID'S

Students will need a Century Photo I.D. to use the Library, Fitness Center, and to check out game room and recreation equipment. The first card is free; a fee is assessed for lost or replacement cards. A government issued photo ID (e.g. driver's license) is required. This service is located at the Records Office on west campus.

### STUDENT PUBLICATIONS

The WoodDuck Weekly is a student publication that promotes student activities and events on campus as well as special announcements important to the Century community. For more information call 651.747.4015.

The All-Student Email is sent weekly to inform students of activities for the week, services that are available and information of importance. For further information call 651.748.2608.

The Century Times is a student run newspaper that is published twice a semester. It is distributed throughout campus with information relevant to the Century community. For more information call 651.779.3314.

### STUDENT SENATE

The Student Senate is the official representative student government of Century College. It operates under a constitution that has been approved by the student body and consists of volunteer senators and an elected vice-president and president.

The purpose of the senate is to work to improve the quality of education and of campus life for students at Century. One way the senate accomplishes this is by influencing the College's decision-making process through working closely as a liaison between the student body and the administration and faculty. In order to address all issues of

## Introduction

The Student Handbook has been developed to give students an overview of various activities, rules, regulations, and policies that have direct impact on them at Century. Further information concerning any of these areas may be obtained from the Dean of Student Life, located on west campus, or by calling 651.773.1780.

## Student Activities Program

The Student Activities Program is designed to provide opportunities for student growth through students' extracurricular activities. This program enriches higher education for students by providing both educational and social events. By becoming involved in activities such as academic-related events, cultural diversity programs, health and fitness programs, campus clubs, student t publications, fine arts, and the intramural/recreation program, students will share in the ownership and leadership of such programs and experience a positive connection to Century College. Although the Student Activities Program provides many avenues for student growth, the decision to participate is based on personal desire.

# Student Handbook

concern to students, the Student Senate must consider not only campus issues, but state legislation as well. Through its participation with the Minnesota State College Student Association, the Century Student Senate has a direct channel to issues and concerns on the state level.

The effectiveness of the senate depends on the quality of direct student involvement. Participation in the organization is an excellent opportunity to learn about the political process, become acquainted with the college system, and build leadership skills. (Rick Nelson, office 2527W, 779.3415)

## THE CONNECTION

Located on west campus, The Connection is a great place to get involved in the many happenings at Century College. The Connection provides discount ticket prices, food, bus passes, a local fax machine and much more. It can also connect you to the many student groups and their events on campus including the Planning Activities Council which sponsors events such as the Activities Fair, Wood Duck Days, Blizzard Blast and the Fright Walk. Contact The Connection at 651.779.3358, by email at [Connection@Century.edu](mailto:Connection@Century.edu) or on our efolio web site at <http://centuryconnection.project.mnscu.edu>

The Connection is also the home of the outdoor recreation equipment. There is seasonal equipment that is available for check

out including but not limited to in-line skates and protective equipment, snowshoes, fishing poles and equipment, cross-country skis, backpacks and tents. ke new friends.

## Intercollegiate Athletics

Century College is a member of the Minnesota College Conference (MCC) and the National Junior College Athletic Association (NJCAA). Century College offers intercollegiate men's and women's soccer and baseball and softball. For more information call 651.779.3325

## Intramural/ Recreation Programs

### Fitness Center

Located in Room 1605 on the West Campus, the Fitness Center provides a full complement of weight training and aerobic machines for use by current Century students and staff. Watch for on-going fitness workshops (room W1790, 747.4054).

### Intramural Sports

Open to all students interested in a variety of team and individual sports. Activities include soccer, badminton, volleyball, basketball,

softball, and golf to name just a few. The Intramural Sports Program provides a diverse spectrum of recreational activities for Century students and staff. For more information call 651.779.3358.

### Gymnasium

The gymnasium is available for a variety of activities (i.e. basketball, volleyball, and badminton).

### Outdoor Volleyball, Basketball Courts, and Golf Practice Green

The courts and golf green are available for all to use. They are located behind West Campus. Balls are available through The Connection.

### Wood Duck Walking Trail

Enjoy a beautiful walk through nature on this paved trail located behind West Campus.

### Locker Rooms

Locker room facilities, located near the gymnasium (men on first floor, women on third floor) are available for those participating in intramural, recreation, and fitness activities. Students must provide their own towel and lock. Locks must be removed daily.

## Fine Arts

### Art Gallery

The purpose of the art gallery is to provide students and community residents the opportunity to view and appreciate the work of professional and student artists in a gallery setting. For more information call the Public Relations Office 651.779.3933.

### Performing Arts

All students are welcome to participate in the Performing Arts program. Students have the choice of earning credit for participation or joining without credit.

- **Century College Choir** - A choral ensemble open to students without singing experience as an activity or for academic credit. One concert per semester. Jocelyn Kalajian, room 1092, West Campus, 651.779.3212.
- **Century Chamber Orchestra** - A chamber-

size orchestra open to students with previous orchestral experience as an activity or for academic credit. Study and performance of standard orchestral literature. Elliot Wilcox, room 2048, West Campus, 651.779.3214.

- **Theatre Productions** - Students may participate in college theatrical productions using their talents in acting, stagecraft, stage makeup and/or scenery design. Roberta Cullen, room 1107, West Campus, 651.779.3201.
- **Century Concert Band** - The study and performance of instrumental literature. No audition. Open to students as an activity or for academic credit. Charles Preis, room 2046, West Campus, 651.779.3213.
- **Century Jazz Ensemble** - The study and performance of high level jazz arrangements with an emphasis on improvisation. Audition required. Open to students as an activity or for academic credit or through Continuing Education. Larry Neumann, room 2043, West Campus, 651.747.4033.
- **Shakespeare and Company** - Provides students and community residents the opportunity to view and appreciate summer repertory theatre at Century's outdoor theatre complex. Participation is noncredit, by audition only. [shakespeareandcompany.org](http://shakespeareandcompany.org)

## Collegewide Events

### Student Activities Fair

Early each semester the Student Center sponsors a Club/Activity Fair. Each club and organization on campus is invited to set up a table displaying information about their activities. This provides an excellent opportunity for all students to find a group that may interest them.

### Blizzard Blast

Blizzard Blast is a winter event held on campus during the last week in January. Students, faculty, and staff have the opportunity to socially interact at the various events. A variety of indoor and outdoor activities are offered.

### Wood Duck Days

Wood Duck Days, a school-wide event, is held each spring on the West Campus. This day is filled with music, good food, prizes, and activities. Century's various clubs work together to sponsor the event.

## Orientation

Orientation provides new students with an opportunity to get acquainted with Century College. Representatives will give information about the college, its policies, financial assistance, various services, organizations, and activities. Students will receive information and advising to help them plan their class schedules. Orientation is required for all new students and lasts approximately 3 hours.

## College Policies

These policies and statements are not an irrevocable contract, and the College reserves the right to change any policy without notice.

### Compliance and Campus Security Report

Century College is committed to providing students with a quality educational experience. The faculty, administration and staff are partners with students in this effort. There are many services, resources, and information available to assist you.

The Compliance and Campus Security Report is made available to employees and registered students annually in compliance with several federal and state laws including the Drug-Free Schools and Community Act, the Equity in Athletics Disclosure Act and Drug-Free Workplace Act, and the Family Educational Rights and Privacy Act, and is available to prospective students and employees upon request. All students and employees are encouraged to familiarize themselves with these compliance reports. In addition, other important information on topics that contribute to a positive campus environment is presented.

The Compliance and Campus Security Report is available in the Counseling Center, room 2410 west campus, in brochure displays at the main entrances of the east and west campus buildings, by calling 651.779.3929 and at <http://century.edu/employees/publicsafety/default.aspx>. It will also be made available in alternate format upon request (contact the Access Center at 651.779.3354, voice, or 651.773.1715 TTY).

Century College encourages all students and college community members to be fully aware of safety issues on campus and to take action to prevent and to report illegal and inappropriate activities to Public Safety, 651.747.4000, or other College employees and/or by calling the White Bear Lake Police Department or Washington County Sheriffs Department.

Personal awareness and applying personal safety practices are the foundation of a safe community. All allegations will be investigated. If there is a threat to the campus community, Public Safety will issue timely warnings through flyers on entry doors, announcements on monitors, class announcements, e-mail and voice mail. When alleged perpetrators are identified as students, the case will be forwarded to the College student conduct officer for investigation and appropriate action.

Public safety officers are available to escort students to their vehicles from 7:30 a.m. to 10:00 p.m. Monday through Thursday; 7:30 a.m. to 4:00 p.m. on Friday, and 7:30 a.m. to 3:00 p.m. on Saturday.

### Drug and Alcohol-Free Campus Policy

The standards of conduct at Century College clearly prohibit the possession, use or distribution of drugs and alcohol by students and staff on the campus premises or in conjunction with any college-sponsored activity or event whether on- or off-campus. Please read the Compliance and Campus Security Report for specific information on the state and federal laws regarding drugs and alcohol on a college campus. The Compliance and Campus Security Report booklet is available in the Counseling Center, in brochure displays inside most entries of the college, and by calling 651.779.3929.

# Student Handbook

The College will take steps to educate its community regarding the health risks associated with alcohol and drug abuse. Appropriate referrals to counseling and health agencies will be made to individuals as needed.

The College will impose sanctions on students and employees who violate this policy. Disciplinary action may include, but is not limited to, the following:

- completion of an education program
- completion of community service hours
- referral to law enforcement agencies for prosecution of felony, gross misdemeanor or misdemeanor charges
- referral to the Counseling Center or other appropriate department
- suspension or separation from the College
- expulsion from the College

The Compliance and Campus Security Report lists health risks associated with abuse of alcohol and drugs; and if anyone needs assistance with a drug or alcohol problem, the booklet contains a list of services available.

## **Tobacco-Free Policy**

Century College buildings are tobacco-free. No tobacco products are to be used within 30 feet of any College building entrance. Noncompliance is punishable by fine and/or disciplinary action. Tobacco users should go to one of the clearly marked designated smoking areas.

## **HARASSMENT AND DISCRIMINATION**

For policy and process information, please access the Student Concern Process through the Century Direct Portal System or call the Dean of Student Life at 651.773.1780.

### **Harassment Officer:**

**Kristin Hageman**  
**651.773.1780**  
**West Campus**

Century College and the Minnesota State Colleges and Universities system is committed to a policy of nondiscrimination in employment

and education opportunity. No person shall be discriminated against in the terms and conditions of employment, personnel practices, or access to and participation in, programs, services, and activities with regard to race, sex, color, creed, religion, age, national origin, disability, marital status, status with regard to public assistance, or sexual orientation. In addition, discrimination in employment based on membership or activity in a local commission as defined by law is prohibited.

Harassment on the basis of race, sex, color, creed, religion, age, national origin, disability, marital status, status with regard to public assistance, or sexual orientation is prohibited. Harassment may occur in a variety of relationships, including faculty and student, supervisor and employee, student and student, staff and student, employee and employee, and other relationships with persons having business at, or visiting the educational or working environment.

This policy is directed at verbal or physical conduct that constitutes discrimination / harassment under state and federal law and is not directed at the content of speech. In cases in which verbal statements and other forms of expression are involved, Century College and the Minnesota State Colleges and Universities will give due consideration to an individual's constitutionally protected right to free speech and academic freedom. However, discrimination and harassment are not within the protections of academic freedom or free speech.

The system office, colleges, and universities shall maintain and encourage full freedom, within the law, of expression, inquiry, teaching and research. Academic freedom comes with a responsibility that all members of our education community benefit from it without intimidation, exploitation or coercion.

This policy shall apply to all individuals affiliated with Century College and the Minnesota State Colleges and Universities system, including but not limited to, its students, employees, applicants, volunteers, agents, and Board of Trustees, and is intended to protect the rights and privacy of both the complainant and respondent and other

involved individuals, as well as to prevent retaliation or reprisal. Individuals who violate this policy shall be subject to disciplinary or other corrective action.

A copy of this policy is available in the Counseling Center, in the Compliance and Campus Security Report and online at <http://www.mnscu.edu/board/policy/1b01.html>.

## **STUDENT CONDUCT/ACADEMIC HONESTY**

For policy and process information, please access the Student Concern Process through the Century Direct Portal System or call the Dean of Student Life at 651.773.1780.

### **Student Conduct**

Each student at Century College has the right to an education, and it is the responsibility of the College to provide an environment that promotes learning. Any action by a student that interferes with the education of any other student or interferes with the operations of the college in carrying out its responsibility to provide an education will be considered a violation of this code. Disciplinary action will be handled in an expeditious manner while providing due process. The provisions of this policy do not affect the rights of persons in authority to take any immediate and temporary actions necessary to retain the classroom, campus or program atmosphere, and to uphold established policies, regulations, and laws.

Violations, the informal and formal processes, the appeals process, and sanctions are described in the Student Conduct Policy available in the Counseling Center, West Campus. Also, for more information, see the Dean of Student Life, West Campus, 651.773.1780.

### **Academic Honesty**

The primary academic mission of Century College is the exploration and dissemination of knowledge. Academic honesty and integrity are integral to the academic process. Academic dishonesty is a serious offense which undermines the educational process and the learning experience for the entire College community.

It is expected that Century College students

will understand and adhere to the concept of academic integrity and to the standards of conduct prescribed by the College's Academic Honesty Policy. It is expected that each student will assume responsibility for his/her work and that materials submitted in fulfillment of course, program, and college academic requirements must represent the student's own efforts. Any act of academic dishonesty attempted by a student at Century College is unacceptable and will not be tolerated.

The Student Conduct and Academic Honesty Policy is available in the Counseling Center, West Campus, or from the Dean of Student Life, West Campus, 651.773.1780.

## STUDENT COMPLAINT/GRIEVANCE POLICY

For policy and process information, please access the Student Concern Process through the Century Direct Portal System or call the Dean of Student Life at 651.773.1780.

### Student Complaint Process

(Unfair Treatment by College Employee)

Students may file a complaint concerning alleged improper, unfair, arbitrary, or discriminatory treatment and discuss it with the appropriate employee or with the employee's supervisor. They may use an informal situation resolution form or follow the grievance process below.

### Student Grievance Process (Policy Violation)

To initiate a grievance (formal written claim), students may carry an official grievance through three steps, if necessary:

1. to the employee being grieved.
2. to the appropriate supervisor to whom that employee reports.
3. to the College president. This is the final step in the appeal process.

However, if the violation involves a MnSCU policy, students may carry the grievance to the MnSCU chancellor, and this decision is final and binding.

Copies of the grievance policy and forms are available in the Counseling Center, room 2410, West Campus. For more information contact the Dean of Student Life, 651.773.1780.

## Student Data Privacy

Century College, in compliance with the Federal Education Rights and Privacy Act (FERPA), affords students certain rights with respect to their **educational records**. Students can inspect and view their records within 45 days of the day the college registrar (Records Office) receives a written request for access. Students may ask the College to amend a record by writing to the registrar and clearly identifying what part of the record is inaccurate and why it is inaccurate. *Certain educational records will not be released to other persons without permission from the students with the exception of disclosure to school officials with legitimate educational interests. A school official is a person employed by the college in an administrative, supervisory, academic or research, support staff position (including law enforcement unit personnel); students serving on official College committees or assisting another school official in performing his or her tasks assisting qualified officials; a person or company with whom the college has contracted, such as an attorney, auditor, or collection agent; a person serving on the MnSCU Board of Trustees, or the Century Foundation. A school official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.*

The following information has been designated as "directory information" and, as such, is available to the general public: students' names, most recent previous school attended, dates of attendance, major field of study, degrees, certificates and awards received, birth dates, full- or part-time status, Dean's list, and photographs. To prevent release of this information outside of the College, the students should contact the registrar by the 5th class day of the term. See the complete Student Data Policy below.

### Student Data Practices Policy

In accumulating this information, the College provides the following assurances:

1. Student records are official records of Century College and will be used for educational purposes according to Minnesota and federal student data laws.

2. The purpose and intended use of the data will be explained upon request as well as consequences of refusing to supply private or confidential information.
3. The registrar, director of Admissions, counselors, and financial aid officers, under the direction of the vice president of Student Services, who is responsible authority, are responsible for the confidentiality and security of the information. Information maintained on students is listed in the following categories.

### Public Student Data-Directory Information

Public student data is accessible to any member of the public for any reason and includes the following items:

1. Name
2. Birth date
3. Dates of attendance
4. Degrees, certificates and awards received
5. Major field of study
6. Most recent previous school attended
7. Status - full-time/part-time
8. Dean's List
9. Photographs

### Private Student Information

Private student information is not accessible to the public. It is accessible to the subject of the data, to individuals or agencies authorized by law to gain access, and to any person or agency having the approval of the subject.

1. Address/e-mail address
2. Background information, including behavior, performance, traits
3. College and high school records
  - a) courses taken
  - b) credits attempted
  - c) credits earned
  - d) grades earned
  - e) high school rank.
4. Counseling records unless they contain information classified or confidential
5. Disciplinary record
6. Evaluations
7. Financial aid records
8. Medical information
9. Recommendations
10. Social security number
11. Telephone number
12. Test scores

# Student Handbook

## Confidential Information

This data is not accessible to the public or to the subject of the data. It is accessible only to individuals or agencies authorized by law to gain access.

1. Financial records and statements of a students' parents (however, these are accessible to the parents).
2. Investigation information collected for purposes of active or pending legal action, prior to such action.
3. Investigation information collected for purposes of anticipated suspension or expulsion of students for disciplinary reasons, prior to the formal action.
4. Psychological reports.

## Access to Private Student Data

Private student data will be disclosed only to the following:

1. The students who are the subject of the data.
2. Any persons or agencies if the students have given informed consent. Informed consent requires the signing of a statement that includes the following:
  - a) Date
  - b) Indication of the expiration date, usually not to exceed one year
  - c) Indication of whom shall release and receive the information
  - d) Information written in plain language
  - e) Specifications of the nature of the data
  - f) Specifications of the purposes for which information may be used
3. Accrediting organizations in order to carry out their accrediting functions.
4. Appropriate health authorities, but only to the extent necessary to administer immunization programs.
5. Appropriate person or persons on the basis of a valid court order, or lawfully issued subpoena—but only after calling the court's attention, through proper channels, to the statutory provisions, rules, or regulations which restrict the disclosure of such information.
6. Appropriate persons in connection with student's application for, or receipt of, financial aid.
7. Appropriate persons, if the knowledge of such information is necessary to protect the health or safety of the students or other persons.

8. School and system office officials who have a legitimate educational interest. School official is defined as any person employed by the college in an administrative, supervisory, academic or research, support staff position (including law enforcement unit personnel); students serving on official College committees or assisting another school official in performing his or her tasks assisting qualified officials; a person or company with whom the college has contracted, such as an attorney, auditor, or collection agent; a person serving on the MnSCU Board of Trustees, or the Century Foundation. A school official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
9. Federal or state authorities in connection with the audit and evaluation of federally supported educational programs.
10. Officials or to other schools, upon request of the students. See notice below.
11. Organizations conducting studies for or on behalf of Century College for the purpose of the following:
  - a) Administering student aid programs
  - b) Developing, validating, or administering predictive tests
  - c) Improving instruction.(These studies must be conducted in such a manner as will not permit the personal identification of students by persons other than representatives of such organizations, with the information to be destroyed when no longer needed for its purpose.)
12. State and local officials, as may be required by state statute existing prior to November 19, 1974.

**Notice:** If you seek or intend to enroll in another educational institution, your education records will be provided as requested by that institution. If applicable, while concurrently enrolled in or receiving services from more than one educational institution, your education records will be available to officials of those institutions as appropriate. Disclosures of your records under other circumstances may require your prior written consent.

You have the right to request a copy of records that have been disclosed. You also

have the right to request a hearing to correct any inaccurate, incomplete, or misleading information in those disclosed records. For further information about your rights, please contact the Registrar at the college or university that supplied the records.

## Students Rights Regarding Personal Information

Students asked to supply private or confidential data concerning themselves shall be informed of the following rights:

1. Any known consequences arising from supplying or refusing to supply private or confidential data.
2. The identity of other persons or entities authorized by state or federal law to receive the data.
3. The purpose and intended use of the data.
4. To be informed as to what is classified as directory information and, on request, have it treated as private data.
5. To receive copies of private or public data (on self), the agency may charge a fee, which covers the actual costs involved for providing copies.
6. To review all private or public data (on self) without any charge.
7. Whether one may refuse or is legally required to supply the requested data.
8. Whether the College maintains any data on him or her and the classification of that data—this includes confidential data. (Students must be told upon request of this information.)
9. Students may, in writing, contest the accuracy or completeness of public or private data; the College shall within thirty days either correct the data found to be in error or notify the students that the College believes the data to be correct. If data is found to be incorrect, the College shall attempt to notify the past recipients. The students may appeal an adverse determination of the College through the provisions of the administrative procedures act, relating to contested cases.
10. The permission or consent required of, and rights accorded to parents by statute or law, shall only be required for and accorded to the students.
11. Students will be notified annually of their rights under FERPA; the Notification of Rights will be published in the course schedule.

## College Terminology

---

**Assessment** - an assessment instrument given to new students. The results are used to assist counselors in determining academic ability in reading, writing, and mathematics. Associate Degree - a two-year degree offered by colleges. Century College degrees: the Associate in Arts (AA), the Associate in Science (AS), and the Associate in Applied Science (AAS).

**Career/Occupational Programs** - programs designed to lead directly to employment or career advancement.

**Certificate** - an educational program and award focusing on career or occupational skills. Century College certificates are 16 or 30 credits in length.

**Class Section** - a group of students meeting to study a particular course at a definite time. Sections are identified by specific section numbers.

**Course** - a particular portion of a subject selected for study. A course is identified by a course number; for example, Psychology 1020.

**Course Title** - a phrase descriptive of course content; for example, the course Psychology 1020 has a course title of General Psychology.

**Credit Hour** - the amount of credit usually earned by attending a class for fifty minutes a week for 15 weeks.

**Curriculum** - a group of courses planned to lead to some specific competence in a field of study and to a certificate, diploma or associate degree; for example, the accounting curriculum.

**Degree** - a title conferred by a college or university upon completion of a particular program of academic work. Typical degrees are the Associate in Arts (AA), the Bachelor of Arts (BA), and the Master of Arts (MA).

**Diploma** - an educational program and award focusing on career or occupation skills longer in length than a certificate. Century College

diplomas are 36 - 48 credits or more in length.

**Discipline** - the subject or department prefix (example: Math, Psyc).

**Drop** - discontinuing a class within the drop/add period. A drop is not recorded on students' transcripts.

**Drop/Add Period** - a period at the beginning of each term when students may drop or add classes.

**Elective** - a non-designated course within a program. An elective permits students to select some courses of their choice within their program.

**Grade Point Average** - a weighted numerical average which indicates how well students have done in college classes.

**Grant** - an outright award of funds, usually based on need, which does not have to be repaid.

**Loan** - a loan may be either federal, state, short-term or emergency awarding of money to students in need of financial assistance; it must be repaid.

**Minnesota General Education Transfer Curriculum (MnTC)** - a collaborative effort among all two and four year public colleges and universities in Minnesota to help students transfer their coursework in general education. 40 credits are required in ten goal areas. These courses are also used in the general education portion of the AA, AFA, AS, AAS, diploma and certificate programs.

**Prerequisite** - a prerequisite is a body of knowledge or level of competence students should have achieved to ensure readiness for a course. In special circumstances, a prerequisite may be waived by approval of the appropriate department. Students are not permitted to register for courses for which prerequisites have not been met. A prerequisite is met by earning credit in a course. Some courses may have specific

grade requirements. See course description for grade requirements.

**Quarter** - term or period of time in an academic year. There are three quarters and two summer sessions in most quarter system schools. One quarter typically is 10 weeks long.

**Registration** - the process of selecting courses, completing college forms, and paying fees, all of which must be completed prior to the beginning of classes each term.

**Scholarships** - monetary awards given to students in recognition of outstanding academic achievement. Scholarships are sometimes based on financial need as well as academic performance.

**Semester** - term or period of time in an academic year. There are two semesters and one or two summer sessions in most semester system schools. One semester typically is 15 weeks long.

**Transcript** - a record of a students' academic standing and college grades.

**Transfer Programs** - programs with courses leading to an Associate in Arts or Associate in Science degree which are generally accepted in transfer to bachelor degree granting colleges and universities.

**Tuition** - an amount of money charged to students for each course.

**Withdrawal** - discontinuing a course after the drop/add period but before the withdrawal deadline. A withdrawal is recorded on the transcript as a W. Withdrawals do not influence GPA, but do negatively impact academic progress.

**Work Study** - a program created in 1964. The federal government and the college provide funds for part-time employment on campus. Part- or full-time students in need of financial assistance may apply in the Financial Aid office.

# Transfer Guide

The information and guidelines below (responsibilities, definitions, resources, etc.) are intended to provide the student with the ability to manage their own transfer process.

## Responsibilities

**Students** are responsible for collecting the necessary information that enables satisfactory transfer. This responsibility includes providing necessary supporting course information for review for transfer, such as a syllabus, course description, or reading list and becoming familiar with the requirements of the student's intended degree. The Minnesota Transfer Curriculum (MnTC), credits and credit hours. Definitions and resources contained in this section of the catalog will help to inform a student in the process of transfer.

**Schools** are responsible for providing the necessary information and resources to allow a student to plan transfer. This includes a clear outline of their MnTC requirements and information on the intended use of various degrees, certificates and diplomas. The school will also make available to a student a designated transfer specialist with expert knowledge in the process of transfer.

## Definitions

**Transfer specialists** are designated staff persons at both the sending institution and the receiving institution. To best understand the transfer process, students planning to transfer should contact the transfer specialist at their current school and at the school to which they plan to transfer. Transfer specialists for Minnesota schools may be found at [www.mntransfer.org](http://www.mntransfer.org) under "Transfer Resources."

**MnSCU** is the acronym for the Minnesota State Colleges and Universities. MnSCU includes Minnesota's state supported universities, community colleges, technical colleges and the consolidated community and technical colleges.

**U of M** is the University of Minnesota. Their five campuses are separate from MnSCU and are in Minneapolis, St. Paul, Crookston, Duluth and Morris.

**Private** colleges and universities are the other category of schools within Minnesota. Private colleges are not state funded.

**MnTC (Minnesota Transfer Curriculum)** is a set of common general education requirements at all schools within the two systems. Students from MnSCU schools may assume individual MnTC courses taken at the sending school will be used in the same category at the receiving school.

**Transfer agreements** are written documents that outline transfer arrangements between schools. Agreements may be within or between systems or between individual schools. An example of this sort of agreement is the Minnesota Transfer Curriculum (MnTC).

**Technical credits** are earned through courses taken in technical programs that are not part of the MnTC. Unless there is a transfer agreement or a course equivalence table outlining the transfer of technical credits between schools, MnSCU universities and community colleges normally limit technical credit transfer to sixteen credits. The sixteen credits will transfer as free electives, but may be reviewed by a student's major program to

determine if they fit into degree requirements. Transfer of technical credits between combination community technical colleges and stand alone technical colleges will normally not limit the transfer of technical credits between like programs.

**Official transcripts** are transcripts sent by the registrar of previously attended schools directly to the Admissions Office of the school to which a student plans to transfer. Most schools require official transcripts be received from all previously attended schools prior to a decision being made on the application.

**Sending institution** is the school that is sending transcripts to another school – transfer out.

**Receiving institution** is the school that is receiving transcripts from another school(s) – transfer in.

**Original document** refers to the transcript prepared by each institution a student has attended. Most colleges and universities will request original documents from EACH school previously attended and use those documents to determine if courses transfer.

### Accreditation

"Accreditation is a system for recognizing education institutions and professional programs affiliated with those institutions for a level of performance, integrity, and quality that entitles them to the confidence of the education community and the public they serve."

Accreditation is the process by which students are assured of the school's and/or program's quality.

Regional Accreditation is the institutional review held by schools in MnSCU, U of M system and by most private colleges and universities in Minnesota. This level of accreditation allows for the relative ease of transfer of general education and other equivalent and comparable coursework. Accreditation can be a confusing issue and students should check with their transfer specialist if they have questions on accreditation. Also, at [www.MnTransfer.org](http://www.MnTransfer.org)

there are “Tips for Transfer” and “Frequently Asked Questions” sections that may further answer this question.

## Additional Sources of Credit

---

The following are additional ways that a student may have accumulated college or university level credits. The transfer specialist, at the school from which a student plans to earn their final degree, would be able to answer questions on how credits from these sources will transfer. many schools would have this information on the transfer portion of their website.

**Experiential education** is an attempt to translate an individuals life and work experiences into college level credit. All schools do not recognize experiential education credits or limit the number that may be used in a degree.

**CLEP (College Level Examination Program)** is a nationally standardized exam generally taken before entering a college or university. Credit may be used in general education, subject matter areas and as elective credit.

**AP (Advanced Placement)** is a nationally standardized program of advanced college level courses offered during a student’s high school experience. Credit may be used in general education, subject matter areas and as elective credit.

**IB (International Baccalaureate)** is an internationally recognized program through which high school students complete a comprehensive curriculum of rigorous study and demonstrate performance on IB examinations. Credit may be used in general education, subject matter areas and as elective credit.

**Military credits.** College or university credit may be earned from education experiences completed while in the military.

## Others

---

**International coursework** is coursework completed at a college or university outside of the United States. Coursework could be completed by international students or by students who are legal residents of the U.S. International coursework may transfer to regionally accredited institutions if it was

completed at a recognized or government sponsored school. Any student who has completed or plans to take coursework from a school outside of the U.S. should contact the transfer specialist at the school where they plan to earn their final degree, to determine the school’s policy on the transfer of international coursework.

**Age of credit.** Some schools and/or some majors/programs will place a time limitation on previously earned credits they will allow in transfer. This limit could apply to general education courses and to courses in a major.

**State-to-state** transfer processes would be similar to transfer within Minnesota. However, students should check with the transfer specialist at their current school to determine if there are any transfer agreements with schools in other states.

## Resources

---

**Degree Audit Reporting System (DARS)** indicates course completed at Century College along with transfer courses and which courses fulfill specific degree or program requirements.

**MnTransfer.org** is a website with a tremendous amount of information on transfer within Minnesota and links to other states’ transfer sites. This website provides direct links to most other regionally accredited Minnesota schools and also provides resources about transfer planning.

**Transfer specialists** for Minnesota schools and selected Wisconsin schools may be found at MnTransfer.org under “Transfer Resources.”

**uSelect** is a nationwide web-based course transfer system that offers information about course descriptions and equivalencies and academic program planning and requirements available at [www.uselectmn.org](http://www.uselectmn.org).

# CENTURY COLLEGE

This fall, over 10,000 students decided to “invest wisely” at Century College.

Our current enrollment makes Century College larger than Bemidji and Winona State Universities, Hamline University, Bethel University and the University of St. Thomas (undergraduate).

Enroll at Century, where you can complete your basic college requirements and earn your two-year degree at half the cost, or more - and then transfer! Century College offers:

- **Over 40 programs and 60 areas of study**
- **Two-year Associate degree in Arts or Science**
- **Transfer programs to four-year institutions**
- **Small class sizes**
- **An award-winning faculty (not TAs)**
- **Personal attention and a warm and inviting campus**
